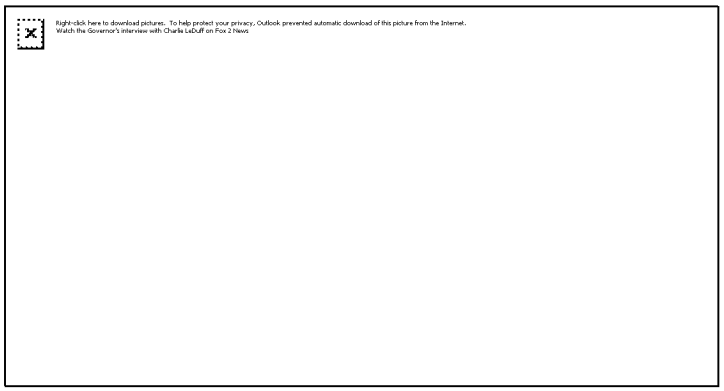
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

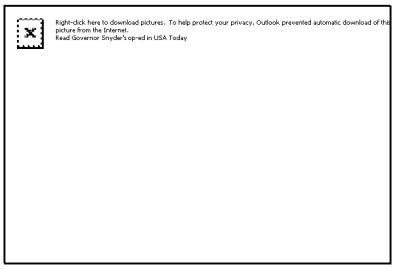


"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

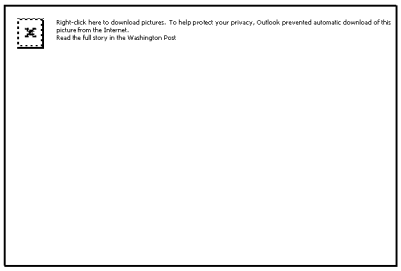
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

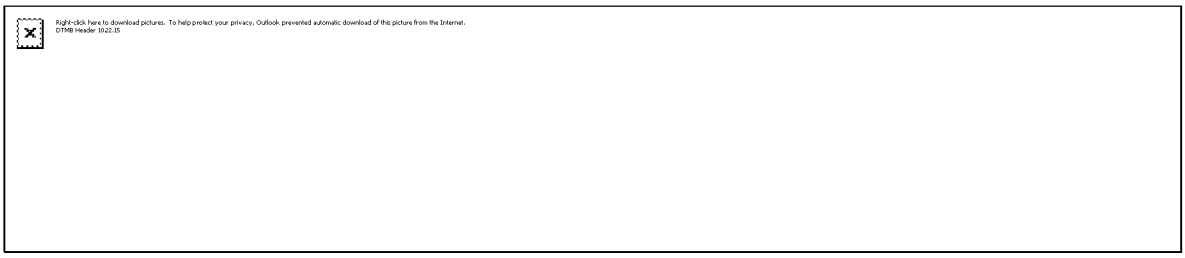
Subject: Flint Volunteer Efforts

Dear State Employees,

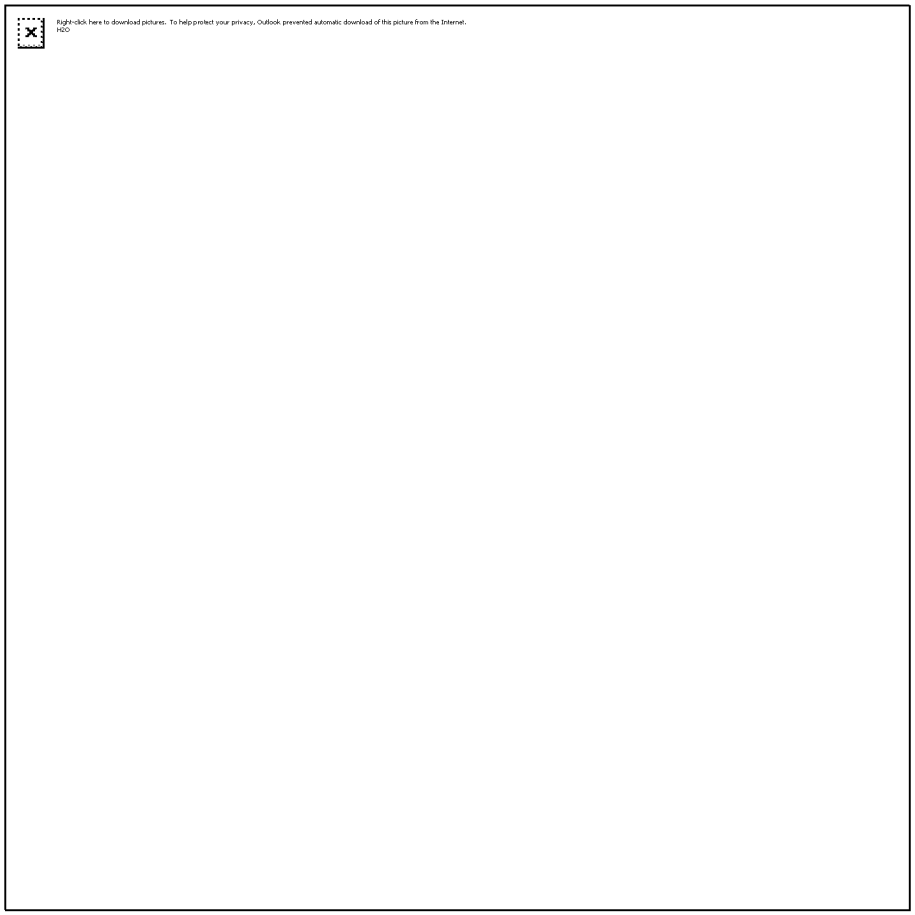
Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.



For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

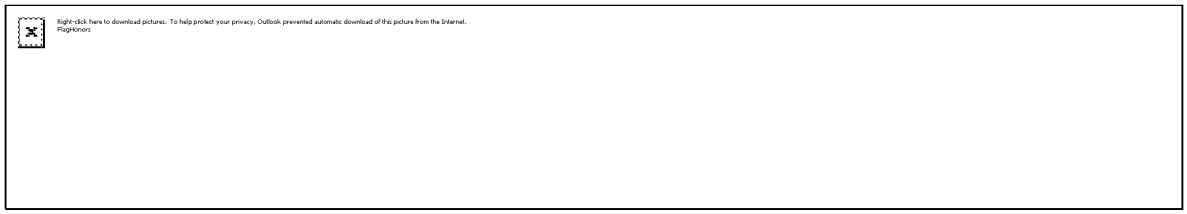
Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,



David

Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

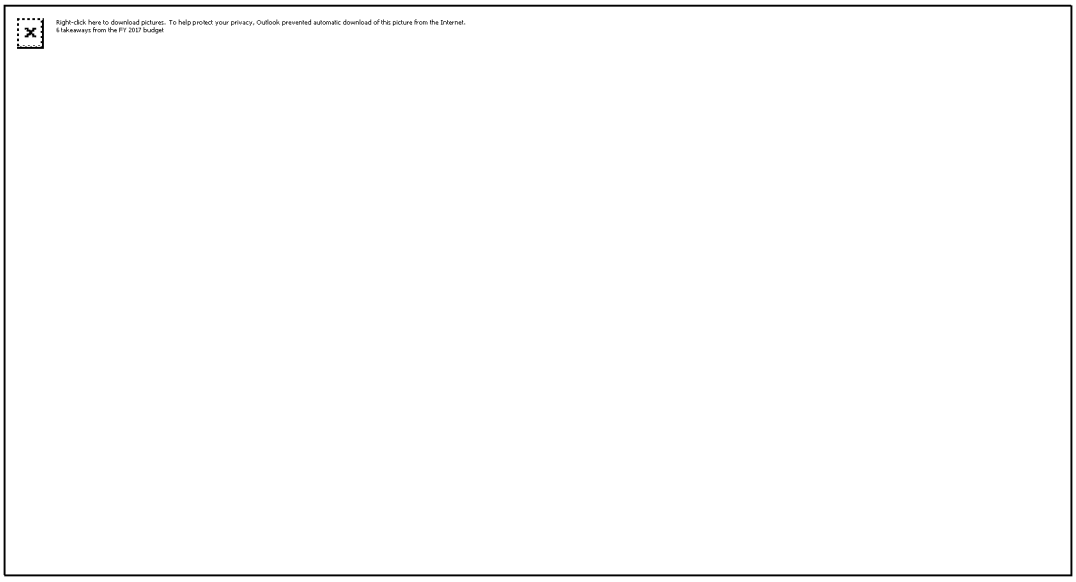
- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.



David

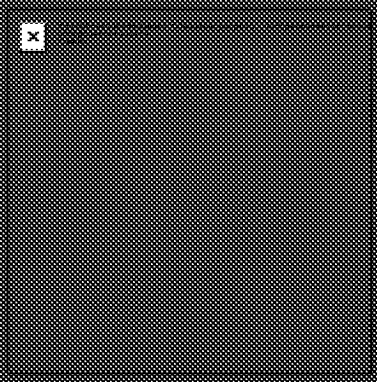
Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.



This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:

The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

> Director Wyant and I agreed this morning to establish a team to look at the recommendations below in preparation for a joint press conference later this week. I did modify one and remove one from his original email. He was suggesting an outside public health advisor. I think it's appropriate that this be our CME so I changed that piece. I volunteered Geralyn, Elizabeth, and Dr. Wells to serve on the team.
>
> The areas where we need more attention are as follows:
>
> 1) I need an analysis of the Virginia Tech/Hurley data and their conclusions. I would like to make a strong statement with a demonstration of proof that the lead blood levels seen are not out of the ordinary and are attributable to seasonal fluctuations. Geralyn is working on this for me but she needs someone in public health who can work directly with her on immediate concerns/questions. Sue – Please get her a name immediately.
> 2) I need an understanding of what WIC will pay for and when. We are hearing that the USDA is indicating that premade formula can be provided. Internal WIC staff don't seem to be saying the same things. And there may also be a supply issue. Elizabeth is following up for me on this.
> 3) Elizabeth will also follow up with Terry Beuer to see what FNS will pay for on the food assistance side, or if there are other programs that may cover water or premade formula.

4) I think we did a good job getting the local public health department involved and I ask that we work in concert with him. The recommendation is that they be included in the press event this week.

We need immediate action on these. I have a follow up phone call early this afternoon. I also ask that any requests coming from the team be treated with great urgency. The expectation is that we will get on top of this and provide leadership on the issue.

Subject: Proposed Press Conference on Flint Drinking Water

Per the ongoing issues in Flint concerning their drinking water, I would offer the following recommendations. Let's discuss.

Recommendation

Press Conference in Flint – Wednesday, Thursday or Friday.

Participants

Mayor of Flint
Dan Wyant – Michigan Department of Environmental Quality
Nick Lyon – Department of Community Health
Susan Hedman – Region 5 Administrator or EPA
Harvey Hollins – Governor's office
Local Public Health Department

Announcement

Federal – State – Local action plan to address Flint Drinking Water

1. Governor Snyder names Dr. Eden Wells (DHHS Chief Medical Executive) as Flint drinking water Public Health Advisor.

2. All Flint schools water will immediately be tested to ensure that drinking water is safe.

3. Advisories will be disseminated recommending citizens flush your cold water pipes, use only water from the cold water tap for drinking, cooking and especially for making baby formula.

4. Implementation of fully optimized corrosion controls in the Flint drinking water system.

5. Expanded water testing of at risk properties.

6. Offer water testing at no cost to Flint residents to assure water is safe.

7. Convene a safe drinking water " Technical Review Advisory" to ensure best technology, practices and science is being utilized, including EPA's expertise and assistance from their Office of Research and Development.

8. Offer bottled water and premixed formula if test results indicate high levels of lead.

Dan Wyant, Director
Department of Environmental Quality

On Sep 28, 2015, at 7:52 AM, Lyon, Nick (DCH) <LyonN2@michigan.gov> wrote:

Director Wyant and I agreed this morning to establish a team to look at the recommendations below in preparation for a joint press conference later this week. I did modify one and remove one from his original email. He was suggesting an outside public health advisor. I think it's appropriate that this be our CME so I changed that piece. I volunteered Geralyn, Elizabeth, and Dr. Wells to serve on the team.

The areas where we need more attention are as follows:

1) I need an analysis of the Virginia Tech/Hurley data and their conclusions. I would like to make a strong statement with a demonstration of proof that the lead blood levels seen are not out of the ordinary and are attributable to seasonal fluctuations. Geralyn is working on this for me but she needs someone in public health who can work directly with her on immediate concerns/questions. Sue – Please get her a name immediately.
2) I need an understanding of what WIC will pay for and when. We are hearing that the USDA is indicating that premade formula can be provided. Internal WIC staff don't seem to be saying the same things. And there may also be a supply issue. Elizabeth is following up for me on this.
3) Elizabeth will also follow up with Terry Beuer to see what FNS will pay for on the food assistance side, or if there are other programs that may cover water or premade formula.
4) I think we did a good job getting the local public health department involved and I ask that we work in concert with him. The recommendation is that they be included in the press event this week.

We need immediate action on these. I have a follow up phone call early this afternoon. I also ask that any requests coming from the team be treated with great urgency. The expectation is that we will get on top of this and provide leadership on the issue.

Nick

Subject: Proposed Press Conference on Flint Drinking Water

Per the ongoing issues in Flint concerning their drinking water, I would offer the following recommendations. Let's discuss.

Recommendation

Press Conference in Flint – Wednesday, Thursday or Friday.

Participants

Mayor of Flint
Dan Wyant – Michigan Department of Environmental Quality
Nick Lyon – Department of Community Health
Susan Hedman – Region 5 Administrator or EPA

Harvey Hollins – Governor's office
Local Public Health Department

Announcement

Federal – State – Local action plan to address Flint Drinking Water

1. Governor Snyder names Dr. Eden Wells (DHHS Chief Medical Executive) as Flint drinking water Public Health Advisor.

2. All Flint schools water will immediately be tested to ensure that drinking water is safe.

3. Advisories will be disseminated recommending citizens flush your cold water pipes, use only water from the cold water tap for drinking, cooking and especially for making baby formula.

4. Implementation of fully optimized corrosion controls in the Flint drinking water system.

5. Expanded water testing of at risk properties.

6. Offer water testing at no cost to Flint residents to assure water is safe.

7. Convene a safe drinking water " Technical Review Advisory" to ensure best technology, practices and science is being utilized, including EPA's expertise and assistance from their Office of Research and Development.

8. Offer bottled water and premixed formula if test results indicate high levels of lead.

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Mark,

Please make the following changes to the voucher:

Remove Meijer completely.

Add two more store addresses for Walmart:
6170 S. Saginaw Rd, Grand Blanc, MI 48439
11493 N. Linden Rd., Clio, MI 48420

There are two date fields. There is no need to have two. Remove the one under the client name line.

Add a statement: "Please present this voucher to the clerk upon checkout at the register."

Still waiting to hear if we are going to add additional products to the list.

Sounds like we are good with initiative number 2 - filters will get delivered so we are good to go.

So far as the vouchers go - we need to remove reference to Meijer and only have the vouchers be good for Wal Mart. Chris - Can you do this so we can get vouchers printed and finalized Monday morning through DTMB?

Please let everyone know if there are any other details or issues we're missing. Sorry for all the emails but it was the only way we could think of to get everyone on the same page. Thanks for everyone's help.

On Oct 3, 2015, at 7:57 PM, Cook, Rebecca (DTMB) <CookR6@michigan.gov> wrote:

Per Farah's phone conversation earlier today with Jeff Brownlee, the water pitcher option is not being pursued.

DHHS remains the lead on creating the voucher.

Home Depot will deliver 5000 filters around 8 am on Monday morning. Per DHHS' purchase order, they are the type that attach to the faucet. The PO is for a total of 20,000 of this type of filter. The under sink mount model was not ordered.

I spoke with Home Depot this afternoon and they will confirm price and lead time on the under sink mount model, in case DHHS would also like to issue a purchase order for this. I will pass along info to the group as it is received.

Please feel free to call with any questions.

All - Please read the following as some of these items and changes may reflect your work depending on what department you're in.

Here's the latest:

Re Item #1 - Vouchers to DHHS clients - We need the vouchers to please have noted on the voucher 3 options available to the client for Wal Mart to get to the local offices -
1. An over the counter on the faucet filter
2. A pitcher with a filter in it
3. An under the counter / sink filter.

Whomever is developing the voucher - would you please update it for these three items? So far as specs go, DHHS purchasing has been checking the website for which specs to use. When updating the voucher I assume it needs to have those specs?

Re Item #2 - Filters from the DTMB Vendor to the Community Action Agency in Genesee County - Same as above, we'll need to have three options available so there's consistency among the options.

We're asking DHHS and DTMB to please use this latest info - ask whatever questions we need answered - to make this happen. If it's too late to do all three filter options, we can amend purchase orders if necessary.

If anyone believes I've missed anything or stated anything incorrectly please feel free to chime in here.

On Oct 2, 2015, at 4:32 PM, Rigg, Steve (DTMB) <RiggS@michigan.gov> wrote:

Under the counter filters from Grainger are going to be priced around $150 each, their supplier stock is low at 860 units (3M Company out of Minnesota), and could be difficult for some to install.

The Home Depot faucet filters are much easier to install and priced at $17. 47 each with a 2-pack of replacement filters available for $24.87.

Home Depot will have 20,000 filters shipped to one of their local Flint stores on Saturday and can be delivered on Sunday to the GCCARD if someone is available, otherwise will be delivered on Monday. Dave from Home Depot has already been in contact with Matt Purcell from GCCARD.

After further discussion with others, we believe we can start with 5,000 filters and go from there.

If we have to purchase more we'll do that.

Feel free to tell them 5,000. Thanks Kris.

On Oct 2, 2015, at 12:26 PM, Rigg, Steve (DTMB) <RiggS@michigan.gov> wrote:

All,

Now that option #2 is a go, here are the questions we need to have answered:

1. Will you be offering the under the counter filters that were offered from Grainger or just the Brita filters from Home Depot?

Latest: We will not be offering under the counter filters

a. No pricing yet from Grainger on the under the counter filters until they know quantity. However, Brent did say that manufacture's inventory is low.
b. Home Depot pricing was $17.47 each on the Brita faucet filter and $24.87 for a 2-pack replacement cartridge.
c. Specs for Brita faucet filter is attached.
d. Specs for the Pentair under the counter filters are attached.

2. What is the quantity of filters needed? If offering both faucet and under the counter, will need quantities of each

Since this is potentially a bigger non DHHS population, we don't have immediate access to census info. Wouldn't City of Flint have this?

Amy- Is there a DEQ contact over there to get Steve an estimate?

Steve- Can we start with a number like 20,000 and go from there? We need to start with a number until we get a better estimate and go from there.

3. Will you be offering cartridge replacements? If yes, how many?

I don't think anyone knows. We want to just start w the filters and worry about replacements a little later.

3. Who is going to be the main contact person that Home Depot and/or Grainger will be working with that will cut the PO and place the order?
   a. The main contact person for Home Depot is David Khanuja – cell number 248-826-8907
   b. The main contact person for Grainger is Brent Zinn – cell number 313-701-5454

Chris Sanches

4. What is the physical location that items will be delivered to?

It's the CAA in Genesee county. Elizabeth - Per your convos with the CAA does it go straight to their office? Also is there a contact person that can be reached?

If it goes to their office, their address is 601 North Saginaw Street, Suite 1B, Flint, 48502

Finally just to reinforce, we are still waiting on an answer / confirmation of the voucher option.

Thanks

It is my opinion that the best thing to do right now is identify the main contact person so that he/she can contact David from Home Depot and/or Brent from Grainger to get moving on orders.

Side Note: David from Home Depot is telling me that the United Way purchased 4,000 filters from Home Depot to be donated. I don't know any more detail than that.

Let me know what else you need from DTMB. Thanks.

Update

DTMB and DHHS Purchasing

1. It is now a **GO** on item #2 below - To get filters to the Genesee County Community Action Organization for distribution.

2. Question: What questions do we all need to answer to get filters to the Genesee County Community Action Agency and develop our plan AND what is the timeline for when we believe this can happen?

I am adding everyone from DHHS, DTMB, and DEQ who I understand is helping out with the Flint Water issue to this email so we can all be on the same page. Please forward this email to anyone you believe needs to be in the loop so we can get all-hands-on-deck.

Here is the latest:

1. We will move forward with the vouchers to be distributed at local county offices for DHHS clients only. DHHS Purchasing is going to reach out to DTMB to help us make copies of water marked, colored and other authentic detailed documents to get out to local offices as soon as possible. We will figure out costs and DTMB charges to DHHS later.
    a. Latest change : From a budget/accounting perspective, we will not receive $1 million from DEQ for this purpose. The $1 million from DEQ will be for item #2. Instead, for this purpose, funding will come from a work project that our budget office will advance to SBO. Our budget office is working on that now.

2. There is now a new thing we will do to address the broader population - NON-DHHS or DHHS clients - per the DHHS and DEQ front offices. DHHS will work with DTMB to get water filters to the Community Action Agency in Genesee county to distribute. This will be paid for with the $1 million DHHS will receive from DEQ.

This is the plan for now. Elizabeth – Please confirm have this right.

Everyone is encouraged to ask questions. Sorry for including so many people but the left hand needs to know what the right hand is doing here.

Thanks

Subject: Lead info packets

No problem Toni.

I just checked with Ms. Ridley and the Print Director at DTMB. Printing's done and they are getting ready to stuff the 12,000 envelopes. When done they'll contact me (probably tomorrow), and I'll bring them down to the GCHD in the PM or if later I can drop at your house on the weekend.

Mark

Hi Mark,

Just checking in with you about the packets. I want to (and I'm sure you as well) get them to Flint Schools ASAP. You said you lived in Clarkston and I live in Ortonville, so if that helps we can meet and put them in my car. Just let me know.

Thanks,
Toni

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

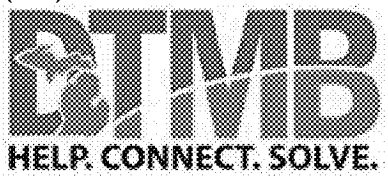
Hi Mark –



Would it be possible to change the word “Centers” on the first page to “Sites”?

They would like an additional 35,000 copies 500 per bundle on the same paper weight used for the original order. Please send a copy of the change when ready.

Attached are both the English and Spanish versions. I have not been asked for reprints of the Spanish, but included it just in case.

Thanks Mark!

FLINT WATER RESPONSE TEAM

NUTRITION

Did you know that some foods will keep lead from being stored in a child's body? These are foods with a lot of calcium, vitamin C and iron.

FREE WATER TESTING

Flint residents who are concerned about their water can obtain free water testing kits at the water resource sites.

USE WATER FILTERS & CARTRIDGES

Water filters can reduce lead and other contaminants by 99 percent when installed and maintained correctly. Free water filters are available at the water resource sites.

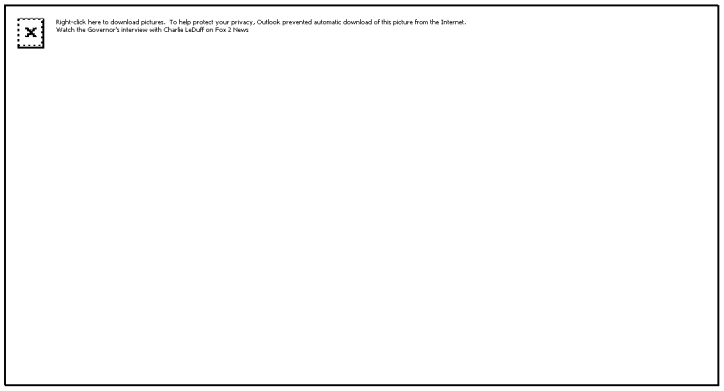
How we are fixing the Flint water crsis

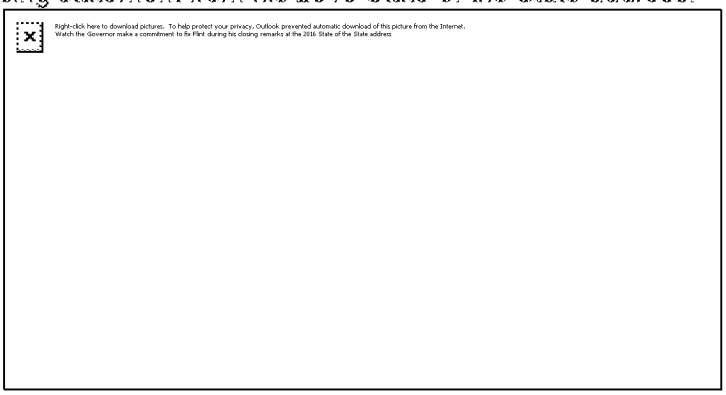
Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe



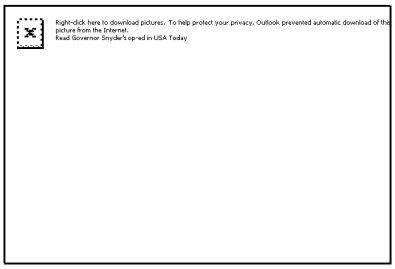
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit



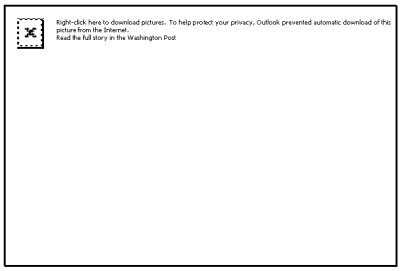
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

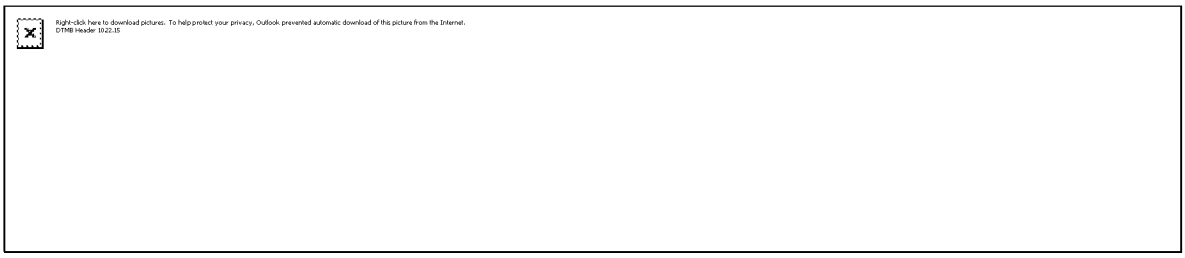
Subject: Flint Volunteer Efforts

Dear State Employees,

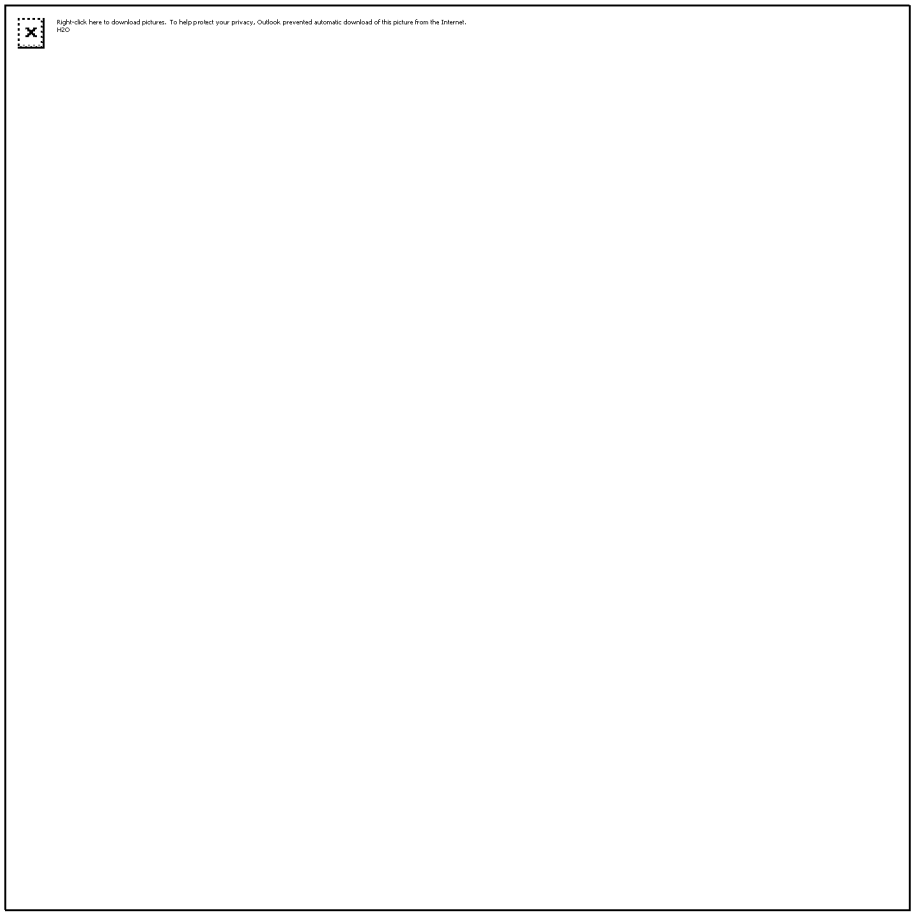
Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.



For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

LEAD IN FLINT WATER

INFORMACION GENERAL

- La cantidad de plomo que se encuentra en el agua potable en los hogares de Flint podría afectar la salud de los niños.
  - Incluso pequeñas cantidades de plomo pueden dañar la salud de los niños, ya que todavía están creciendo.
  - Los adultos tienen menos probabilidades de ser perjudicados por los niveles encontrados en el agua.
- Filtra el agua potable utilizando un filtro aprovado por el National Sanitation Foundation (NSP).
  - Usted puede recibir un filtro aprobado por NSF gratis, si utiliza agua de la Ciudad de Flint.
  - Llame al 2-1-1 para averiguar donde usted puede recoger un filtro de agua gratis.
- Algunos filtros pueden eliminar hasta el 99% del plomo en el agua cuando se utiliza correctamente. Para asegurarse de que su filtro esta elimninando la mayor cantidad de plomo posible, siga cuidadosamente las instrucciones.
  - Correr agua fría a través del filtro solamente.
  - Cambie el cartucho del filtro tan a menudo como digan las instrucciones.
- Incluso después de los cambios en el sistema de agua, puede tomar un tiempo antes de que los niveles de plomo en el agua caigan.
- El plomo es difícil de evitar por completo. Se puede encontrar en las tuberías de agua y grifos de agua de bronce, pintura vieja, en la tierra, en algunos lugares de trabajo, y en el metal usado en algunos pasatiempos.

Hay una serie de pasos que puede tomar para que usted y su familia estén saludables. Utilice los siguientes consejos para aprender más sobre cómo mantenerse saludable:

PLOMO EN EL AGUA

Aunque el agua a veces puede ser un color diferente, no es causada por el plomo. Es importante recordar:

- Usted no puede ver, oler o saborear plomo en el agua.
- El plomo no va a cambiar el color de su agua.
- La única manera de saber lo que los niveles de plomo en su hogar son, es por examinar el agua.

PLOMO EN SANGRE

- Si sus hijos viven en Flint o van a la escuela o una guardería en la ciudad de Flint, su nivel de plomo en la sangre debe ser examinado.
- Debe comunicarse con su medico acerca de las una examinación.
- El examen esta disponible de forma gratuita en el Departamento de Salud del Condado de Genesee. Llame al 2-1-1 si necesita ayuda para llegar allí.
- Si está embarazada o amamantando, y ha dado negativo en los niveles altos de plomo en la sangre, es seguro amamantar.
- Si está embarazada o amamantando y ha dado positivo en los niveles altos de plomo en la sangre, hable con su medico acerca de la seguridad de la lactancia materna.

CONSEJOS PARA MANTENER SU CASA SEGURA DEL PLOMO

FILTROS DE AGUA

- Examinen su agua. Es gratis. Llame al 2-1-1.
- Utilice un filtro de agua. Llama al 2-1-1 para un filtro gratis
- Si usted no tiene un filtro de agua, utilice agua embotellada para beber y para mezclar fórmula.
- Use agua fría y filtrada para cocinar.
- Lave frutas y verduras con agua filtrada.
- Si tiene que usar agua sin filtrar, deje correr el agua durante cinco minutos antes de usarla. Para ahorrar tiempo y agua en el futuro, es una buena idea llenar tantos contenedores como se puede una vez que haya dirigido el agua durante cinco minutos.
- Escurra y lave sus tanques del calentón de agua con regularidad para eliminar cualquier plomo que se haya acumulado. Siga las instrucciones del fabricante para el mantenimiento o póngase en contacto con un profesional autorizado para obtener ayuda.

LIMPIEZA

- Lave platos, botellas y juguetes con agua sin filtrar jabonosa y secarlos antes de su uso.
- Es seguro usar el agua del grifo sin filtrar para limpiar pisos y limpiar mostradores.
- Es seguro lavar la ropa en la lavadora y secadora.
- Utilice un tapete en la puerta. Quítate los zapatos cuando estés adentro
- Aspirando alfombras puede levantar el polvo del plomo a la superficie. Utilice un barrendero no motorizado para limpiar alfombras.
- Limpie ventanas y zonas de juego a menudo con toallas y agua jabonosa.

FLINT WATER RESPONSE TEAM www.michigan.gov/flintwater

CONSEJOS PARA MANTENER SU HOGAR A SALVO DE PLOMO

EN EL BAÑO

- Utilizar agua filtrada para cepillar los dientes de sus hijos.
- Los adultos pueden utilizar el agua del grifo sin filtrar.
- Se puede utilizar agua del grifo sin filtrar para bañarse, pero no deje que los niños beban el agua cuando juegan en la bañera.
- Los estudios realizados por los Centros de el Control y la Prevención de Enfermedades muestran que los padres pueden seguir bañando a sus hijos en la bañera, pero la hora del baño se debe utilizar para el baño solamente, en lugar de permitir que los niños jueguen en el agua durante mucho tiempo.
- El plomo no causa erupciones u otros problemas de la piel. Sin embargo, si los niveles de cloro u otros productos de limpieza son altos e el agua, puede causar picazón en la piel o piel seca (similar a lo que puede suceder cuando usted nada en una piscina).

CUIDADO DE MASCOTAS

- Utilice agua filtrada del grifo para que su mascota beba en su tazón.
- Usted puede utilizar el agua del grifo sin filtrar para bañar a sus mascotas.
- Si usted nota que su mascota actúa de manera diferente de lo normal, consulte a su veterinario.

DIETA SALUDABLE

- Coma alimentos ricos en hierro, calcio y vitamina C.
- Lávese las manos con jabón y agua tibia antes de comer.
- Si necesita alimentos frescos y saludables, llame a la oficina de WIC al 810-237-4537, o para la asistencia alimentaria 'SNAP' aplique en www.michigan.gov/mibridges o visite su oficina local del Departamento de Michigan de Salud y Servicios Humanos.

BUENAS FUENTES DE HIERRO INCLUYE:

- Carne roja, pescado y pollo
- Cereales con hierro añadido
- Frutas secas (pasas, ciruelas pasas)

BUENA FUENTE DE CALCIO INCLUYE:

- leche
- Yogur
- Queso
- Vegetables de hojas verdes (espinacas, col rizada, berza)

BUENAS FUENTES DE VITAMINA C INCLUYE:

- Naranjas, jugo de naranja
- Toronja, jugo de toronja
- Tomates, jugo de tomate
- Pimientos verdes

INFORMACION DEL PLOMO

El equipo de respuesta ee Flint esta enfocado en la crisis de plomo en la agua. Ademas del agua, cientificos, durante mucho tiempo, han estado preocupados por todas las fuentes de plomo, incluyendo la pintura con plomo, polvo, tierra, etc.

PINTURA CON PLOMO

- Las casas construidas antes de 1978 probablemente tienen pintura con plomo, tanto dentro como fuera.
- Pintura vieja es la forma más común que los niños son expuestos al plomo.

TIERRA

- Si usted vive en la ciudad, puede haber plomo en la tierra afuera de su casa.
- Antes de 1996, el gas y los gases de escape de los automóviles contenian plomo. Más plomo se puede encontrar en la tierra en áreas de trafico intenso.

POLVO

- El polvo en su casa puede tener pequeñas cantidades de plomo de la pintura y suciedad.

AFFICIONES Y EMPLEOS

- Soldadura, plomadas de pesca, balas, y el material que enmarcan vidrieras son algunos elementos que pueden contener plomo. Usted podría tambien llevar polvo con plomo a casa de su sitio de trabajo.

TIENE PREGUNTAS?

- Para obtener más información sobre cómo proteger a si mismo y a su familia de plomo, visite www.michigan.gov/flintwater.
- Para saber donde se puede obtener un filtro de agua gratuito, llame al 2-1-1.
- Para una examinación de su agua gratis, llame al 2-1-1.
- Para más información sobre el plomo en su casa y lo que puede hacer, llame al Departamento de Salud y Servicios Humanos de Michigan al 1-800-648-6942.
- Para obtener información sobre cómo puede ayudar, visite www.helpforflint.com
- O, póngase en contacto con SanJuana Olivares al 810-624-0699

LEAD IN FLINT WATER

GENERAL INFORMATION

- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - o Even small amounts of lead can harm kids' health because they are still growing.
  - o Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
  - o You can receive a free a NSF-approved filter if you use City of Flint water.
  - o Call 2-1-1 to find out where you can pick up a free water filter.
- Some filters can remove up to 99 percent of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - o Run only cold water through the filter.
  - o Change the filter cartridge as often as the instructions say.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop.
- Lead is hard to avoid completely. It can be found in water pipes and brass water faucets, old paint, in dirt, at some job sites, and in metal used for some hobbies.

There are a number of steps you can take to keep yourself and your family healthy. Use the tips below to learn more about how to stay healthy:

LEAD IN WATER

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- You can't see, smell, or taste lead in water.
- Lead won't change the color of your water.
- The only way to know what your home's lead levels are is by having your water tested.

LEAD IN BLOOD

- If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
- You should contact your doctor about testing.
- Testing is available for free at the Genesee County Health Department. Call 2-1-1 if you need help getting there.
- If you are pregnant or nursing, and you have tested negative for high blood-lead levels, it is safe to breastfeed.
- If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

WATER FILTERS

- Get your water tested. It's free. Call 2-1-1.
- Use a water filter. Call 2-1-1 for a free filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use cold, filtered water for cooking.
- Wash fruits and vegetables with filtered water.
- If you must use unfiltered water, run the water for at least five minutes before you use it. To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.
- Drain and flush your water heater tanks regularly to remove any lead that has accumulated. Follow manufacturers instructions for maintenance or contact a licensed professional for assistance.

CLEANING

- Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- It is safe to wash clothes in your washer and dryer.
- Use door mats. Take your shoes off when indoors.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean windowsills and play areas often with paper towels and soapy water.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

IN THE BATHROOM

- Use filtered tap water to brush your kids' teeth.
- Adults can use unfiltered tap water to brush their teeth.
- You can use unfiltered tap water to shower or bathe, but don't let kids drink the water when they play in the tub.
- Studies done by the Centers for Disease Control and Prevention show that parents can continue bathing their children in the tub but bath time should be used for bathing only, rather than allowing children to play in the water for a long time.
- Lead will not cause rashes or other skin problems. However, if levels of chlorine or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

CARING FOR PETS

- Use filtered tap water for your family pets' water bowls.
- You can use unfiltered tap water to bathe your pets.
- If you notice your pet acting differently than normal, contact your vet.

HEALTHY DIET

- Eat foods high in iron, calcium and vitamin C.
- Wash hands with soap and warm water before eating.
- If you need fresh and healthy food, call the WIC office at 810-237-4537, or for SNAP food assistance apply at www.michigan.gov/mibridges or visit your local Michigan Department of Health and Human Services office.

GOOD SOURCES OF IRON INCLUDE:

- Lean red meats, fish, and chicken
- Cereals with added iron
- Dried fruits (raisins, prunes)

GOOD SOURCES OF CALCIUM INCLUDE:

- Milk
- Yogurt
- Cheese
- Green leafy vegetables (spinach, kale, collard greens)

GOOD SOURCES OF VITAMIN C INCLUDE:

- Oranges, orange juice
- Grapefruit, grapefruit juice
- Tomatoes, tomato juice
- Green peppers

LEAD INFO

The Flint water response team is focused on the lead in water crisis. In additon to water, scientists have long been concerned about all sources of lead including lead paint, dust, soil, etc.

LEAD PAINT

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

DIRT

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

DUST

- The dust in your home can have tiny amounts of lead from paint and dirt.

HOBBIES AND JOBS

- Solder, fishing sinkers, bullets, and stained glass framing materials are some items that may contain lead. You could also track home lead dust from your job site.

HAVE QUESTIONS?

- For more information about protecting yourself and your family from lead, visit www.michigan.gov/flintwater.
- To find out where you can get a free water filter, call 2-1-1.
- For a free water test, call 2-1-1.
- For more information about lead in your home and what you can do, call the Michigan Department of Health and Human Services at 1-800-648-6942.
- For information on how to help, visit www.helpforflint.com.

Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
Filtre el agua potable utilizando un filtro aprobado por la National Sanitation Foundation (NSF).

Call 2-1-1 to find out where you can pick up a free water filter.
Llame al 2-1-1 para averiguar adónde puede retirar un filtro de agua gratuito.

Some filters can remove up to 99 percent of the lead in water when used properly.
Algunos filtros pueden eliminar hasta el 99% del plomo en el agua cuando se utilizan correctamente.

To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
Para asegurarse de que su filtro está eliminando la mayor cantidad de plomo posible, siga cuidadosamente las instrucciones enviadas con éste.

Run only cold water through the filter.
Deje correr agua fría a través del filtro solamente.

Change the filter cartridge as often as the instructions say.
Cambie el cartucho del filtro tan a menudo como lo indiquen las instrucciones.

Even after changes to the water system, it may take a while before lead levels in your home's water drop.
Incluso después de los cambios en el sistema de agua, puede tomar un tiempo antes de que los niveles de plomo en el agua se reduzcan.

Although your water may be a different color sometimes, it is not caused by lead.
Aunque el agua a veces puede ser de un color diferente, esto no es causado por el plomo.

Lead won't change the color of your water.
El plomo no cambiará el color del agua.

The only way to know what your home's lead levels are is by having your water tested.
La única manera de saber cuáles son los niveles de plomo en su hogar es haciendo examinar el agua.

LEAD IN BLOOD
PLOMO EN LA SANGRE

If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
Si sus hijos viven en Flint o van a la escuela o a una guardería en la ciudad de Flint, sus niveles de plomo en la sangra deben ser examinados.

You should contact your doctor about testing.
Debe comunicarse con su médico para realizarse un examen.

Testing is available for free at the Genesee County Health Department.
El examen está disponible de forma gratuita en el Departamento de Salud del Condado de Genesee.

If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.
Si está embarazada o amamantando y ha dado positive en los niveles altos de plomo en la sangre, hable con su médico acerca de la seguridad de la lactancia materna.

Get your water tested.
Haga examinar el agua de su casa.

Call 2-1-1 for a free filter.
Llame al 2-1-1 para solicitar un filtro gratuito.

To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.
Para ahorrar tiempo y agua en el futuro, es una buena idea llenar tantos envases como sea posible, una vez que haya dejado correr el agua durante cinco minutos.

Drain and flush your water heather tanks regularly to remove any lead that has accumulated.
Drene y purgue los tanques de su calentador de agua regularmente, para eliminar cualquier plomo que haya quedado acumulado.

Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
Lave platos, botellas y juguetes con agua no filtrada y jabón y deje que se sequen antes de su uso.

It is safe to use unfiltered tap water to mop floors and wipe down countertops.
Es seguro usar el agua del grifo sin filtrar para limpiar pisos y mesadas.

Take your shoes off when indoors.
Quítese los zapatos cuando esté dentro.

Vacuuming carpets may pull more lead dust to the surface.
Aspirar alfombras puede levantar más polvo de plomo sobre la superficie.

Use a non-motorized sweeper to clean carpets.
Utilice una barredora no motorizada para limpiar alfombras.

Clean windowsills and play areas often with paper towels and soapy water.
Limpie alféizares y áreas de juego a menudo con toallas de papel y agua con jabón.

Atención: Establecimientos de comidas que utilizan el suministro de agua de la Ciudad de Flint

Estimado Operador del Establecimiento de Comidas:

El 5 de octubre de 2015 le fue enviado un documento recomendando acciones a seguir para evitar el riesgo de servir a sus clientes agua contaminada con plomo. Efectivizado inmediatamente, las recomendaciones se convirtieron en un requisito legal, y esta medida ejecutiva de licencias para establecimientos de comidas podrá ser aplicada si se encuentra que no se cumplió, hasta que la declaración de emergencia de salud pública sea anulada.

Lea la ficha de requisitos actualizada que se encuentra adjunta. Es posible que su establecimiento deba tomar medidas inmediatas para cumplir con este requisito.

Su establecimiento cuenta con tres opciones:

1. Demostrar que su establecimiento no está usando el suministro de agua de la Ciudad de Flint para beber, procesar o cocinar.
2. Demostrar que su agua fue examinada y es de uso seguro. Puede solicitar un examen gratuito a un oficial de regulación. Para programar una recolección y análisis gratuito del nivel de plomo en el agua de su establecimiento, comuníquese al 1-800-292-3939, de lunes a viernes, e informe que posee un "establecimiento de comidas en Flint que solicita un examen del agua". Prepárese para brindar un tiempo para las muestras luego de que todo el sistema de agua no haya sido usado durante por lo menos 6 horas. Las citas para las muestras están disponibles entre las 5 AM y las 4 PM. Las oficinas estatales estarán cerradas el 18 de enero de 2016.
3. Instale filtros de agua según sea necesario, y deje correr agua diariamente en aquellos grifos sin filtros y equipos de plomería pesada. (El uso discontinuo, dejar correr el agua, etc. aún será necesario hasta que se obtenga una prueba segura del agua).

Los inspectores del Michigan Department of Agriculture and Rural Development le están brindando asistencia al Genesee County Health Department para la conducción de muestras e inspecciones, de modo que es posible que usted deba trabajar con otra persona en lugar de su inspector de seguridad alimentaria habitual. Los inspectores también realizarán visitas a establecimientos en las próximas semanas, para brindar asistencia y verificar el cumplimiento de las medidas.

Para acceder a información adicional, comuníquese al 1-800-292-3939, o para acceder a la información más reciente sobre las respuestas en relación al agua de Flint, visite www.michigan.gov/flintwater. Esperamos poder ayudarle de cualquier forma posible.

Atentamente,

Kevin Besey, Director
Food and Dairy Division
(División de Alimentos y Lácteos)
Michigan Department of Agriculture and Rural Development

27 de octubre de 2015

Estimado Padre,

Como ayuda para asegurar que los niños de Flint estén protegidos de la exposición al plomo, El Genesee County Health Department y el Michigan Department of Health and Human Services le brindan respuestas a las siguientes preguntas:

- ¿De dónde viene el plomo?
- ¿Qué puedo hacer para proteger a mi familia?
- ¿Debo hacer que mi hijo sea examinado?
- ¿Adónde puedo encontrar más información sobre el plomo?

¿De dónde viene el plomo?

Fueron encontrados niveles elevados de plomo en el agua potable de tuberías de plomo en la Ciudad de Flint. Los niños también pueden estar expuestos al plomo de pintura vieja, tierra, cerámica, cosméticos y juguetes y algunos remedios caseros. Los trabajos y pasatiempos de los adultos tales como reparación del auto, vitrales, fabricación de joyas y manejo de municiones también pueden poner a los niños en riesgo, si tocan prendas o juegan en áreas donde hay plomo. El plomo presenta un riesgo grave para la salud, especialmente en los niños pequeños quienes se envenenan al comer, beber o respirar plomo.

¿Se le debe hacer a mi hijo un examen de plomo en la sangre? Los niños que viven en la Ciudad de Flint, que viven en un hogar donde se usa agua de la Ciudad de Flint, o que asisten a la escuela, reciben cuidado de niños o con frecuencia pasan tiempo con un cuidador en la Ciudad de Flint deberán acceder a un examen de envenenamiento con plomo.
Esto se deberá realizar lo antes posible.

¿Adónde debo ir para que se le haga un examen de plomo en la sangre a mi hijo?

El mejor lugar para realizar el examen de plomo en la sangre a su hijo es el consultorio de su médico. Los exámenes son cubiertos por la mayoría de los planes de salud. Su médico hará con usted el seguimiento de los exámenes médicos y le brindará información sobre qué hacer a continuación. Su hijo también puede acceder a un examen de plomo gratuito en el Genesee County Health Department. Si necesita transporte, comuníquese al 2-1-1 para solicitar ayuda.

Entendiendo el resultado del examen de plomo de su hijo.

Un nivel de plomo debajo de 5 significa que hay poco plomo en la sangre de su hijo. Use los siguientes consejos para ayudar a que su hijo se mantenga seguro. Su medico podrá sugerir un nuevo examen para su hijo dentro de los siguientes 12 meses, para asegurar que el nivel no haya subido.

Un nivel de plomo de 5 a 44 significa que su hijo tuvo cierta exposición al plomo. Trabaje con su medico y con el departamento de salud local para acceder a mayor orientación sobre cómo limitar su exposición al plomo. Su médico podrá volver a examinar a su hijo entre 1 y 3 meses después, para asegurar que el nivel no haya subido.

Los niños con niveles de plomo muy altos **(más de 44)** podrán requerir un tratamiento en el hospital.

¿Qué puedo hacer para mantener segura a mi familia?

Se deberán seguir estos pasos de inmediato para protegerse usted y a su hijo.

Cómo proteger a su familia del plomo en el agua:

- Solicite un examen de plomo en su agua. Es gratuito. Para más información, comuníquese al (810) 787-6537.
- Use un filtro de agua en su hogar. Llame al 2-1-1 para acceder a información sobre filtros de agua gratuitos Certificados por NSF.
- Sólo deje correr agua fría a través del filtro.
- Si no cuenta con un filtro de agua, consuma agua de botella o fórmula mezclada.
- Use agua filtrada o agua en botella para beber (incluyendo la preparación de café, mezclas de bebidas, jugo y formula de bebé), y la cocina (incluso aunque hierva el agua, el plomo permanecerá en el agua y la comida).
- Usted puede usar agua del grifo no filtrada para lavarse las manos y lavar los platos.
- Si deberá usar agua no filtrada para beber o cocinar, deje correr agua por el grifo durante cinco minutos antes de usar la misma.

Limpieza segura:

Una limpieza segura es importante. Mantener su casa limpia y segura de riesgos de plomo le ayudará a proteger a su familia.

- Es posible que las edificaciones construidas antes de 1978 posean pintura con plomo. Use toallas de papel húmedas para limpiar pedazos de pintura y polvo en estas edificaciones antiguas. Asegúrese de limpiar alrededor de las ventanas, áreas de juegos y pisos.
- Lávese las manos y lave los juguetes de forma frecuente con agua y jabón.
- Puede usar agua del grifo no filtrada para limpiar mesadas, fregar pisos y lavar ropa.

Buena nutrición:

Algunas comidas le ayudarán a evitar que el plomo se acumule en el cuerpo de un niño. Éstas son comidas con gran cantidad de calcio, hierro y vitamina C. Estas comidas incluyen:

Comidas Ricas en Calcio	**Comidas Ricas en Hierro**	**Comidas con Vitamina C**
➢ Leche	➢ Habas	➢ Naranjas
➢ Queso	➢ Carnes magras como pescado y pollo	➢ Jugo de naranja
➢ Yogurt	➢ Cereales integrales	➢ Pomelos
➢ Tofu	➢ Mantequilla de maní	➢ Tomates
➢ Espinaca		➢ Pimienta verde

Siempre lave la fruta con agua filtrada. Si está preocupado por la dieta de su hijo, hable con su médico, quien le podrá recomendar un multivitamínico diario.

WIC y SNAP brindan asistencia a los padres y niños que necesitan comidas frescas y saludables. Para más información, comuníquese a la **oficina del WIC del Condado de Genesee al (810) 237-4537**. SNAP también ofrece un programa de Double Bucks para adquirir incluso comidas más saludables sin costo adicional.

¿Adónde puedo encontrar más información sobre el plomo?

- Genesee County Health Department Lead Program
  (810) 257-3833
  www.gchd.us

- Michigan Department of Health and Human Services
  Childhood Lead Poisoning Prevention Program
  (Programa de Prevención del Envenenamiento Infantil con Plomo)

  www.michigan.gov/lead

- United States Environmental Protection Agency
  www.epa.gov/lead

- U.S. Centers for Disease Control and Prevention (CDC) Sitio web
  www.cdc.gov/nceh/lead

Estas recomendaciones tendrán efecto hasta que el Genesee County Health Department levante las restricciones sobre el uso del agua.

Atentamente,

Eden V. Wells, MD, MPH, FACPM
Director Médico Ejecutivo
Michigan Department of Health and Human Services

Gary K. Johnson, MD, MPH
Director Médico
Genesee County Health Department

30 de octubre de 2015

Estimado Proveedor:

Como posiblemente ya sepa por los informes de noticias recientes, altos niveles de plomo fueron encontrados en tuberías de plomo dentro del sistema de agua de la Ciudad de Flint.

Para ayudar a proteger a los niños de Flint del nivel de plomo actual en la exposición al agua, el Genesee County Health Department y el Michigan Department of Health and Human Services se están comunicando con usted para brindarle orientación y apoyo a sus familias.

Los niños pueden estar expuestos al plomo del agua potable que circula a través de las tuberías de plomo, plomo de pintura vieja, tierra, cerámica, cosméticos y juguetes y algunos remedios caseros. Los trabajos y pasatiempos de los adultos tales como reparación del auto, vitrales, fabricación de joyas y manejo de municiones también pueden poner a los niños en riesgo, si tocan prendas o juegan en áreas donde hay plomo.

Como proveedor principal de cuidado, usted cumple un rol crítico de ayuda para asegurar que sus hijos y familias expuestas al plomo reciban el cuidado y las garantías necesarias para manejar los posibles impactos sobre la salud por envenenamiento con plomo.

Identificación. Los niños que sufren envenenamiento con plomo con frecuencia no presentan síntomas externos. Sin embargo, síntomas clínicos tempranos pueden incluir anemia, anorexia, dolor abdominal y constipación. El plomo es una neurotoxina y la exposición a éste puede provocar conductas violentas y agresivas, llevar a desórdenes en el aprendizaje, causar Trastorno con Déficit de Atención por Hiperactividad (ADHD, según sus siglas en inglés) y se sabe que reduce el coeficiente intelectual entre 5 y 8 puntos con niveles tan bajos con 10 ug/dL. El plomo es metabolizado a través del sistema gastrointestinal de forma similar al hierro y el calcio, con un promedio de absorción que depende del tipo y peso del niño. La vida media del plomo en la sangre es corta (aproximadamente 1 mes), pero la vida media en el hueso se puede extender por décadas.

Debido a múltiples factores de riesgo que enfrentan muchos residentes de la Ciudad de Flint (incluyendo problemas en casas antiguas y la calidad del agua), recomendamos que todos los niños menores de 6 años que viven en la Ciudad de Flint, o en hogares que usen agua de Flint, que asisten a la escuela o reciben cuidado de niños de Flint, o que pasen tiempo con un cuidador en la Ciudad de Flint, accedan a un examen de plomo en la sangre. El examen de plomo en la sangre debe ser realizado a través del médico de cabecera, para asegurar un seguimiento adecuado al corto o largo plazo. ***Se deberá alentar a las familias para que sus hijos sean examinados de inmediato, ya sea en los consultorios médicos o en el Genesee County Health Department.***

Manejo de los Niveles de Plomo en la Sangre. Se brinda la siguiente guía para el manejo de los niveles de plomo en la sangre de los niños:

- **BLL < 5 ug/dL**
  - Un nivel de plomo inferior a 5 mcg/dL no es típicamente una causa de preocupación.
  - Brinde educación y orientación anticipatoria para asegurar que los niveles de plomo no se eleven.
  - Considere un nuevo examen en 12 meses en base a los factores de riesgo y preocupaciones.

- **BLL >5 ug/dL**
  - **Los niños con resultados capilares de 5 ug/dL y superiores deberán acceder a una extracción de sangre venosa confirmatoria.**
  - Las familias deberán recibir una guía anticipatoria, consejos sobre nutrición, instrucciones sobre técnicas de limpieza segura y seguimiento de cuidado adecuado por parte de su proveedor principal.
  - Los servicios en el hogar que incluyen manejos de casos e investigaciones medioambientales están disponibles para todos los niños con niveles de plomo superiores a 5 ug/dL. Derive a los pacientes al Genesee County Health Department para el acceso a este servicio.
  - Los niños con resultados confirmados de exámenes venosos superiores a 5ug/dL dentro de los últimos 18 meses deberán volver a ser examinados en base a la política de Medicaid y las pautas de AAP. (Consulte la "Guía Rápida del Proveedor" adjunta). Si un niño no fue examinado nuevamente dentro de estos límites de tiempo, se recomienda un nuevo examen tan pronto como sea posible.
- **BLL > 44 ug/dL.**
  - **Los niños con resultados capilares de 5 ug/dL y superiores deberán acceder a una extracción de sangre venosa confirmatoria.**
  - Los niveles de plomo superiores a 44 ug/dL podrán requerir hospitalización. Para mayor orientación, consulte a un experto del Children's Hospital of Michigan en Detroit.
  - Las familias deberán recibir una guía anticipatoria, consejos sobre nutrición, instrucciones sobre técnicas de limpieza segura y seguimiento de cuidado adecuado por parte de su proveedor principal.
  - Los servicios en el hogar que incluyen manejos de casos e investigaciones medioambientales están disponibles para todos los niños con niveles de plomo superiores a 5 ug/dL. Derive a los pacientes al Genesee County Health Department para el acceso a este servicio.
  - Los niños con resultados confirmados de exámenes venosos superiores a 5ug/dL dentro de los últimos 18 meses deberán volver a ser examinados en base a la política de Medicaid y las pautas de AAP. (Consulte la "Guía Rápida del Proveedor" adjunta). Si un niño no fue examinado nuevamente dentro de estos límites de tiempo, se recomienda un nuevo examen tan pronto como sea posible.

Recordatorio: Todos los niños de 1 y 2 años con cobertura de Medicaid deberán ser examinados.

Cuidado de seguimiento. Como proveedores, hay pasos que ustedes pueden seguir para ayudar a sus familias:

1. Continúe informando y educando a las familias en relación a los riesgos del plomo y los pasos preventivos que pueden seguir para minimizar los riesgos.
2. Aliente a las familias a usar agua filtrada para beber, mezclar fórmula y lavar los platos. Las familias pueden comunicarse al 2-1-1 para acceder a información sobre filtros de agua Certificados por NSF gratuitos.
3. Una nutrición saludable es crítica para los niños expuestos al plomo. Asegúrese de que sus pacientes estén consumiendo dietas balanceadas altas en hierro, calcio y vitamina C. Ante cualquier preocupación sobre la nutrición, considere la recomendación de un multivitamínico con hierro. WIC y SNAP brindan asistencia a los padres y niños que necesitan comidas frescas y saludables. Para más información, comuníquese a la oficina del WIC del Condado de Genesee al (810) 237-4537. Además, SNAP ofrece un programa de Double Bucks que pueden brindar comidas saludables a un menor precio.
4. La alimentación de pecho representa una alta protección y es recomendada. Sin embargo, si el nivel de plomo en la sangre de la madre supera los 40 ug/dL o su nivel es superior a 20 ug/dL y el bebé tiene un nivel superior a 5 ug/dL, no se recomienda la alimentación de pecho.
5. Debido a que el plomo es una neurotoxina, los niños con envenenamiento de plomo necesitan un seguimiento longitudinal y podrán requerir servicios de intervención para el desarrollo y salud mental. Continúe monitoreando el desarrollo de sus pacientes en cada visita.

6. Considere servicios de cuidado y apoyo adicionales que beneficiarán a sus pacientes, tales como programas de visita al hogar para la niñez temprana, Early Head Start y Head Start. Llame al 2-1-1 para más información.

Recursos locales. Varios recursos locales están disponibles para usted y sus pacientes:

- Examen de sangre. Se alienta a los pacientes a comunicarse con su proveedor principal para un examen. El Genesee County Health Department también administra exámenes de plomo. Los pacientes que necesiten transporte se deberán comunicar al 2-1-1 para solicitar ayuda.
- Examen del agua. El examen del agua es gratuito a través de la Planta de Evaluación del Agua de la Ciudad de Flint. Para más información, los pacientes se pueden comunicar al (810) -787-6537.
- WIC y SNAP brindan asistencia a los padres y niños que necesitan comidas frescas y saludables. Para más información, comuníquese a la oficina del WIC del Condado de Genesee al (810) 237-4537.
- Desarrollo infantil. Ante cualquier duda sobre el crecimiento, desarrollo o aprendizaje del niño, comuníquese al 2-1-1 para consultar sobre el Home Visiting Program (Programa de Visitas al Hogar) en su área.

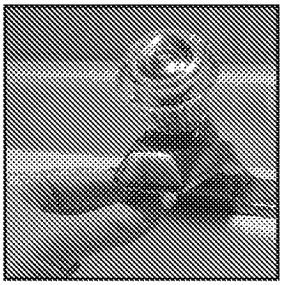
Keeping Your Home Lead-Safe
Clean Your Aerators

MDHHS Michigan Department of Health & Human Services

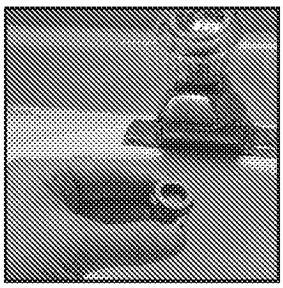
What can you do to keep your home lead-safe?



- Homes built before 1987 are more likely to have lead service lines and pipes. Some faucets and certain kinds of solder could also have lead in them, even those installed recently.
- The lead found in tap water in homes around Michigan is likely from these older pipes, solder, and faucets. You can have your water tested to see if it has lead in it.
- Replacing old pipes, service lines, and faucets is the best way to limit the lead in your tap water. New pipes, solder, and faucets should meet EPA lead-free standards.
- If you can't replace your pipes and faucets, please use an NSF-approved filter for all water that you drink or cook with. You can get a filter that attaches to your sink faucet or you can use a pitcher with a filter inside it. If you live in Flint, call 211 to find out where you can get a free faucet filter, replacement filter cartridges, or a water filter pitcher.

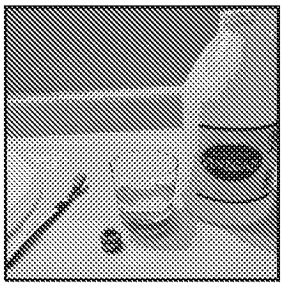
For bathrooms or other places where you don't have a filter:

When pipes are old, they break apart more easily. Sometimes pipes break completely; sometimes they just get new cracks. This can cause bits of lead pipe to end up in our home's water. There are screens - called aerators - on our faucets that sometimes stop the larger pieces from coming out. Aerators do help us save water - so it's good to have them - but cleaning them once in awhile is a way to limit the lead that could end up in your water.



Follow the steps below to learn how to clean your aerators:

1.

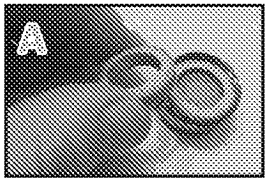


- The little round thing on the bottom of your faucet is the aerator (pronounced: *air-raytor*).
- Unscrew the aerator from the bottom of the faucet.
- You should be able to unscrew it with your fingers, but you might need a wrench if it's really stuck.

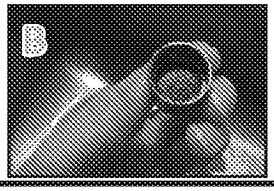
2.

- Your aerator might not look exactly the same as this, but it's OK.
- Now that you have it off, let's get started!

3.

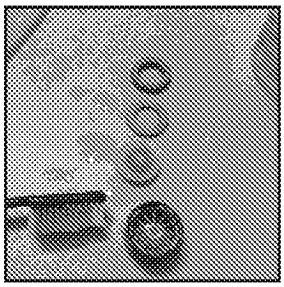


- While you really only need to use water to rinse off your aerator parts, if you have these things around, they might make it easier:
  - An old toothbrush
  - A glass of vinegar



4.

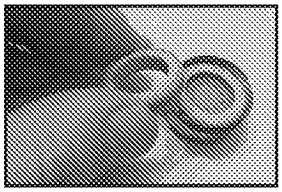
- Soaking the aerator in vinegar will help loosen up some of the grime. You can leave it in as long as you want, but even just 5 minutes will help.
- The toothbrush makes it easy to scrub out the inside. Just don't use that toothbrush for brushing your teeth again!



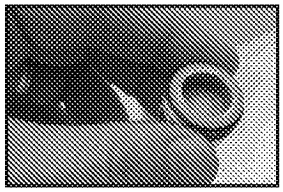
5.

- If your aerator looks like Photo A, it has a flow control piece in it. You'll have to take it apart:
  - Pull out the pieces carefully.
  - Note the order that the pieces come out. Take a picture or write down some notes. You'll have to put them back in at the end in the same way!
- If it looks like Photo B, then you're good to go to Step 6.

6.

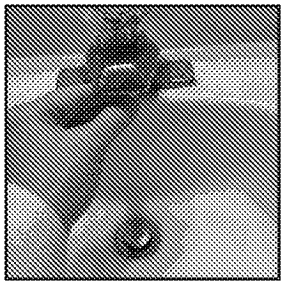


- You might not have all of these pieces. They might not be this color. Every aerator is a little different. Just clean what you have.
- Scrub all of the pieces. Make sure you really get down inside the metal piece, removing any bits of grime or metal flakes you can see.



7.

- Rinse everything very well.
- Run the water through the aerator screen - holding it right side up and upside down.



8.

- Once it's clean,
  - If your aerator looks like Photo A up above, put it back together.
  - If it looks like Photo B, you're all set.

9.

- Put your aerator back on your faucet.
- Repeat these steps every couple of weeks. This will make sure pieces of lead and other metal from any pipes aren't getting stuck in your faucet and possibly putting lead into your water.

Keeping Your Home Lead-Safe

Clean Your Aerators

What can you do to keep your home lead-safe?

Homes built before 1987 are more likely to have lead service lines and pipes. Some faucets and certain kinds of solder could also have lead in them, even those installed recently.

The lead found in tap water in homes around Michigan is likely from these older pipes, solder, and faucets. You can have your water tested to see if it has lead in it.

Replacing old pipes, service lines, and faucets is the best way to limit the lead in your tap water. New pipes, solder, and faucets should meet EPA lead-free standards.

If you can't replace your pipes and faucets, please use an NSF-approved filter for all water that you drink or cook with. You can get a filter that attaches to your sink faucet or you can use a pitcher with a filter inside it. If you live in Flint, call 211 to find out where you can get a free faucet filter, replacement filter cartridges, or a water filter pitcher.

For bathrooms or other places where you don't have a filter:

When pipes are old, they break apart more easily. Sometimes pipes break completely; sometimes they just get new cracks. This can cause bits of lead pipe to end up in our home's water. There are screens - called aerators - on our faucets that sometimes stop the larger pieces from coming out. Aerators do help us save water - so it's good to have them - but cleaning them once in awhile is a way to limit the lead that could end up in your water.

Follow the steps below to learn how to clean your aerators:

The little round thing on the bottom of your faucet is the aerator (pronounced: air-raytor).

Unscrew the aerator from the bottom of the faucet.

You should be able to unscrew it with your fingers, but you might need a wrench if it's really stuck.

Your aerator might not look exactly the same as this, but it's OK.

Now that you have it off, let's get started!

While you really only need to use water to rinse off your aerator parts,

if you have these things around, they might make it easier:

An old toothbrush

A glass of vinegar

Soaking the aerator in vinegar will help loosen up some of the grime.

You can leave it in as long as you want, but even just 5 minutes will help.

The toothbrush makes it easy to scrub out the inside. Just don't use that toothbrush for brushing your teeth again!

If your aerator looks like Photo A, it has a flow control piece in it. You'll have to take it apart:

Pull out the pieces carefully.

Note the order that the pieces come out. Take a picture or write down some notes. You'll have to put them back in at the end in the same way!

If it looks like Photo B, then you're good to go to Step 6.

You might not have all of these pieces. They might not be this color. Every aerator is a little different. Just clean what you have.

Scrub all of the pieces. Make sure you really get down inside the metal piece, removing any bits of grime or metal flakes you can see.

Rinse everything very well.

Run the water through the aerator screen - holding it right side up and upside down.

Once it's clean,

If your aerator looks like Photo A up above, put it back together.

If it looks like Photo B, you're all set.

Put your aerator back on your faucet.

Repeat these steps every couple of weeks. This will make sure pieces of lead and other metal from any pipes aren't getting stuck in your faucet and possibly putting lead into your water.

Questions? For more information call MDHHS at 1-800-648-6942.

To request a free or low-cost water test, please call the Flint Water Plant at: 1-810-787-6537.

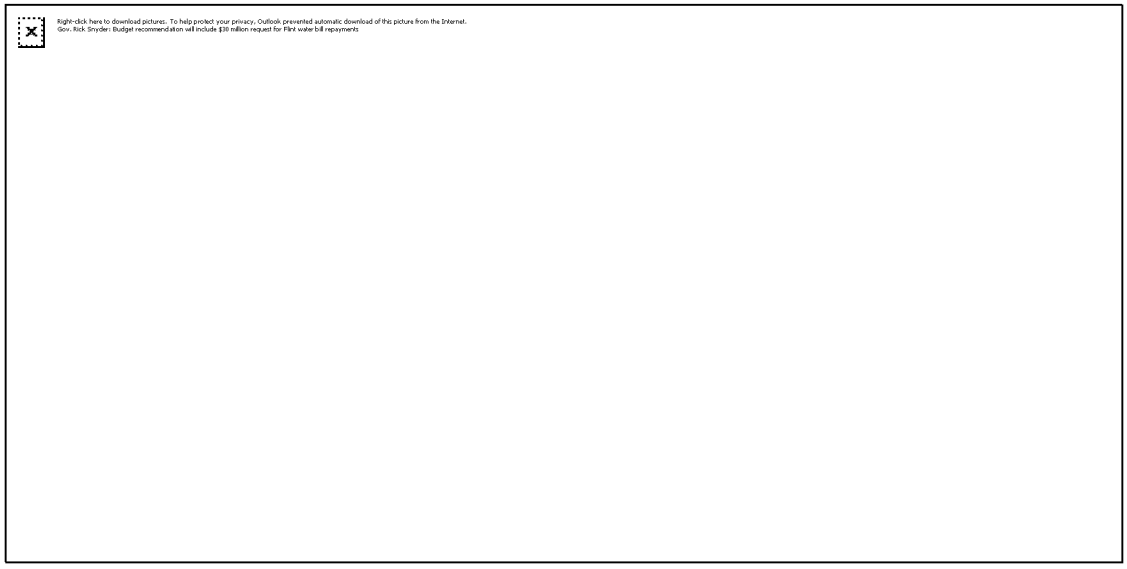
Subject: Palm Cards

Hi Mark –



DTMB just received another request to have 25,000 Palm Cards printed in English-same paper/size/color as requested previously. Delivered to the Bell Warehouse at 4315 N. Clio Road, Flint 48504, attention Bonnie S.

Do you have the updated version of the palm card with the change from water resource centers to water resource sites? If not I'll get it from Trevor.

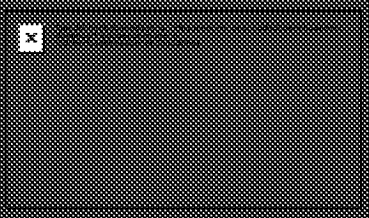
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking,

and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

Importance: High

If this is our only option for today, only print 200.

For another printing, are you able to get "sticky note" type paper that is commonly used for advertisement type door stickers; were the sticky portion is only at the top and is available in various sizes? It would normally come in booked form (same as post it notes) and should be available in sizes up to 6" x 8"

Here is an example of what we are looking for:

http://www.noteads.com/pricingpdf/Spot%20Color_Super%20Sticky%20Adh_ADVERTISER.pdf

I'm back at my desk, please give me a call. Thank you.

Tara, please review the attached sample.
In order to get a removable adhesive, we had to go with Name Badge stock.
This makes the label a little smaller than you requested, but it is all we have with that adhesive.

Let me know if you approve of the size and type. Check the spelling to be sure.

We have one box of this stock here, enough to do about 380 to 390 decals.
Will that be close enough for today?

I really need to know how many you will be ordering next, I need to get paper moving on a truck this afternoon.
Can you let me know by 2:30?

Subject: Temporary Reassignment

Forwarded on behalf of Patsy Villegas:

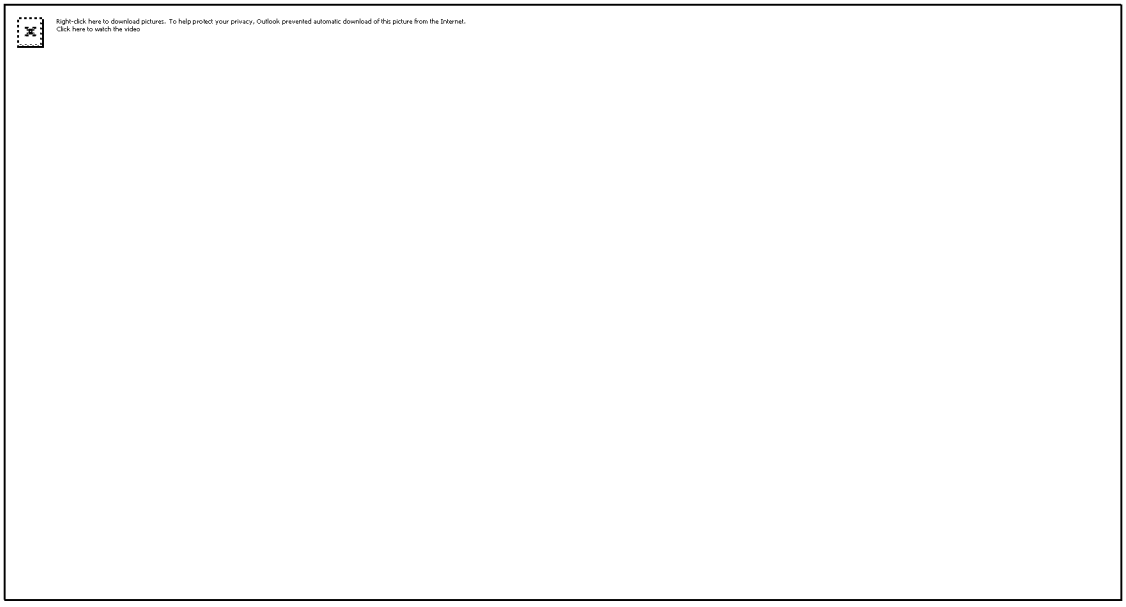
Good Afternoon:

Shawn Woods, Disease Intervention Specialist (DIS), East District STD Team, is being temporarily reassigned to help with the Flint Water Response via the Genesee County Health Department (GCHD). Beginning Tuesday, February 16, 2016, Shawn will devote 100% of his work time to this effort. Shawn brings a wealth of community knowledge to utilize and share with this effort that includes his 15 years of working with the GCHD in HIV and STD, including his intimate knowledge of the local resources of the area. When Shawn's assignment is completed staff will be notified of it by email.

During Shawn's reassignment, Daniel Lowery, DIS, will provide STD and HIV coverage for Shawn's assigned counties: Genesee, Saginaw, Lapeer, Tuscola, Huron, and Sanilac. Dan also provides STD and HIV coverage for the following five counties: Ingham, Eaton, Barry, Shiawassee, and Livingston. On occasion Dan may request assistance from the pool of DIS workers from the East or West District with case investigations.

STD and HIV reactors or referrals normally sent to Shawn for case investigation for the six county area can now be assigned to Dan for follow-up.

Thank you Shawn and Dan for your commitment to these new assignments. During this time we will work together to meet the needs of patients, local health departments, providers, and helping the community of Flint with this emergency response. Thank you in advance for your help and support in the coming days.



Patsy

STATE OF MICHIGAN
DEPARTMENT OF AGRICULTURE
AND RURAL DEVELOPMENT

RICK SNYDER
GOVERNOR

JAMIE CLOVER ADAMS
DIRECTOR

January 14, 2016

Attention: Food Establishments using City of Flint water supply

Dear Food Establishment Operator:

On October 5, 2015, you were sent a document recommending actions to take to avoid the risk of serving lead contaminated water to your customers. Effective immediately, the recommendations have been changed to a legal requirement, and food establishment license enforcement action may be taken if non-compliance is found until the public health emergency declaration has been lifted.

Please see the updated attached requirements sheet. Immediate action may be needed by your establishment to come into compliance.

Your establishment has three options:

1. Demonstrate your establishment is not using the City of Flint water supply for drinking, processing or cooking.
2. Demonstrate your water has been tested and is safe to use. You may request free testing by a regulatory official. To schedule a free collection and analysis of your food establishment's water for lead, call 1-800-292-3939, M-F, and state you're a "Flint food establishment requesting a water test". Be prepared to provide a sampling time when your entire water system won't have been used for at least 6 hours. Sampling appointments between 5 a.m. and 4 p.m. are available. State offices are closed on January 18, 2016
3. Install water filters as needed, and do daily flushing of unfiltered faucets and hard plumbed equipment. (Discontinuing use, flushing, etc. will still be needed until a safe water test is obtained).

Michigan Department of Agriculture and Rural Development inspectors are assisting the Genesee County Health Department in conducting sampling and inspections, so you may work with a different person other than your regular food safety inspector. Inspectors will also be making visits to establishments in the coming weeks to provide assistance and verify compliance.

For additional information, call 1-800-292-3939 or for the latest information on the Flint water response visit www.michigan.gov/flintwater. We look forward to assisting you in any way possible.

Sincerely,

Kevin Besey, Director
Food and Dairy Division
Michigan Department of Agriculture and Rural Development

October 27, 2015

Dear Parent,

To help make sure the children of Flint are safe from lead exposure, the Genesee County Health Department and the Michigan Department of Health and Human Services are providing answers to the following questions:

- Where does lead come from?
- What can I do to protect my family?
- Should I get my child tested for lead?
- Where can I find more information about lead?

Where does lead come from?

Elevated levels of lead have been found in the drinking water from lead pipes in the City of Flint. Kids can also be exposed to lead from old lead paint, soil, pottery, cosmetics and toys and some home remedies. Adult jobs and hobbies, like auto repair, stained glass, jewelry making and ammunitions handling can also put children at risk if they touch clothing or play in areas where lead is found. Lead is a serious health hazard, especially for small children who become lead poisoned when they eat, drink or breathe lead.

Should my child get a blood lead test? Children who live in the City of Flint, live in a home using City of Flint water, or who attend school, childcare or often spend time with a caregiver in the City of Flint should be tested for lead poisoning.
This should be done as soon as possible.

Where should I go to get a blood lead test for my child?

The best place to get your child's blood lead test is your doctor's office. Tests are covered by most health plans. Your doctor will follow up with you on lab tests and provide you with information on what to do next. Your child can also get a free lead test at the Genesee County Health Department. If you need transportation, contact 2-1-1 for help.

Understanding your child's lead test result.

A lead level below 5 means there is a little lead in your child's blood. Use the tips below to help keep your child safe. Your doctor may suggest retesting your child within the next 12 months to make sure the level does not go up.

A lead level of 5-44 means that your child has had some exposure to lead. Work with your doctor and local health department for further guidance on how to limit your lead exposure. Your doctor may retest your child in 1-3 months to make sure the level does not go up.

Children with very high levels of lead **(over 44)** may require treatment at the hospital.

What Can I Do to Keep My Family Safe?

The following steps should be taken right away to help protect you and your child.

Protecting your family from lead in the water:

- Get your water tested for lead. It's free. Call (810) 787-6537 to learn more.
- Use a water filter in your home. Call 2-1-1 for information on free NSF Certified water filters.
- Run only cold water through the filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use filtered or bottled water for drinking (including making coffee, drink mixes, juice, baby formula), and cooking (even if you boil the water, the lead will stay in the water and food).
- You can use unfiltered tap water for washing your hands and washing dishes.
- If you have to use unfiltered water for drinking or cooking, run the tap for five minutes before using the water.

Safe cleaning:

Safe cleaning is important. Keeping your home clean and safe from lead hazards will help to protect your family.

- Buildings built before 1978 could have lead paint in them.Use wet paper towels to clean up paint chips and dust in these older buildings. Be sure to clean around windows, play areas, and floors.
- Wash hands and toys often with soap and water.
- You can use unfiltered tap water to wipe down countertops, mop floors, and wash clothes.

Good nutrition:

Some foods will help keep lead from being stored in a child's body. These are foods with a lot of calcium, iron and vitamin C. These foods include:

Calcium Rich Foods	**Iron Rich Foods**	**Foods with Vitamin C**
➢ Milk	➢ Beans	➢ Oranges
➢ Cheese	➢ Lean meats like fish and chicken	➢ Orange juice
➢ Yogurt	➢ Whole grain cereals	➢ Grapefruits
➢ Tofu	➢ Peanut butter	➢ Tomatoes
➢ Spinach		➢ Green peppers

Always wash your fruits with filtered water. If you are concerned about your child's diet, talk with your doctor who may also recommend a daily multivitamin.

WIC and SNAP provide assistance to parents and children who need fresh and healthy foods. Contact the **Genesee County WIC office at (810) 237-4537** to learn more. SNAP also offers a Double Bucks program to purchase even more healthy food for no additional costs.

Where can I get more information on lead?

- Genesee County Health Department Lead Program
  (810) 257-3833
  www.gchd.us
- Michigan Department of Health and Human Services
  Childhood Lead Poisoning Prevention Program
  (888) 322-4453
  www.michigan.gov/lead
- United States Environmental Protection Agency
  www.epa.gov/lead
- U.S. Centers for Disease Control and Prevention (CDC) Web site
  www.cdc.gov/nceh/lead

These recommendations will stay in effect until the Genesee County Health Department lifts the restrictions on water usage.

Sincerely,

Eden V. Wells, MD, MPH, FACPM
Chief Medical Executive
Michigan Department of Health and Human Services

Gary K. Johnson, MD, MPH
Medical Director
Genesee County Health Department

October 30, 2015

Dear Provider:

As you may be aware from recent news reports, elevated levels of lead have been found in lead pipes within the City of Flint's water system.

To help protect the children of Flint from the current lead in water exposure, the Genesee County Health Department and Michigan Department of Health and Human Services are contacting you to assist you in providing guidance to support your families.

Children can be exposed to lead from drinking water in that runs through lead pipes, old lead paint, soil, pottery, cosmetics and toys and some home remedies. Adult jobs and hobbies, like auto repair, stained glass and jewelry making, and ammunitions handling can also put children at risk if they touch clothing or play in areas where lead is found.

As a primary care provider, you play a critical role in helping to ensure that children and families exposed to lead receive the care and reassurances they need to manage the potential health impacts of lead poisoning.

Identification. Children suffering from lead poisoning often fail to present outward symptoms. However, early clinical symptoms can include anemia, anorexia, abdominal pain and constipation. Lead is a neuro-toxin, and exposure can result in violent and aggressive behaviors, lead to learning disorders, may cause Attention Deficit Hyperactivity Disorder (ADHD) and has been known to reduce IQ by as many as 5-8 points with levels as low as 10 ug/dL. Lead is metabolized through the gastrointestinal system similar to iron and calcium, with uptake rates depending on the size and weight of the child. The blood half-life of lead is short (approximately 1 month) but the bone half-life can extend into decades.

Due to multiple risk factors facing many residents in the City of Flint (including aging housing conditions and water quality), we recommend that all children under age 6 living in the City of Flint or living in homes that use Flint water, attending school or childcare in Flint, or who spend time with a caregiver in the City of Flint, receive a blood lead test. Blood lead testing should be done through a child's primary care doctor to ensure adequate short-term and long-term follow-up. ***Families should be encouraged to have their children tested immediately either at their doctor's office or the Genesee County Health Department***.

Management of Blood Lead Levels. The following guidance is provided for management of childhood blood lead levels:

- **BLL < 5 ug/dL**
  - A lead level of less than 5 mcg/dL is not typically cause for concern.
  - Provide education and anticipatory guidance to ensure that lead levels do not rise.

  - Consider retesting in 12 months based on risk factors or concerns.
- **BLL >5 ug/dL**
  - **Children with capillary results of 5 ug/dL and higher must have a confirmatory venous blood draw.**
  - Families should receive anticipatory guidance, nutrition counseling, instruction on safe cleaning techniques and appropriate follow-up care from their primary care provider.
  - In-home services including case management and environmental investigations are available for all children with lead levels greater than 5 ug/dL. Refer patients to the Genesee County Health Department for this service.
  - Children with confirmed venous testing results greater than 5ug/dL within the past 18 months must be retested based on Medicaid policy and AAP guidelines. (See attached "Provider Quick Reference). If a child has not been retested within these timeframes, retesting is recommended as soon as possible.
- **BLL > 44 ug/dL.**
  - **Children with capillary results of 5 ug/dL and higher must have a confirmatory venous blood draw.**
  - Lead levels over 44 ug/dL may require hospitalization. Consult with an expert at the Children's Hospital of Michigan in Detroit for additional guidance.
  - Families should receive anticipatory guidance, nutrition counseling, instruction on safe cleaning techniques and appropriate follow-up care from their primary care provider.
  - In-home services including case management and environmental investigations are available for all children with lead levels greater than 5 ug/dL. Refer patients to the Genesee County Health Department for this service.
  - Children with confirmed venous testing results greater than 5ug/dL within the past 18 months must be retested based on Medicaid policy and AAP guidelines. (See attached "Provider Quick Reference). If a child has not been retested within these timeframes, retesting is recommended as soon as possible.

Reminder: All children covered by Medicaid must be tested at age 1 and 2.

Follow-up Care. As providers, there are steps you can take to help support your families:

1. Continue to inform and educate families regarding lead risks and preventative steps that they can take to minimize their risks.
2. Encourage your families to use filtered water for drinking, mixing formula and washing dishes. Families can contact 2-1-1 for information on free NSF Certified water filters.
3. Healthy nutrition is critical for lead-exposed children. Make sure your patients are consuming balanced diets high in iron, calcium and Vitamin C. If you have concerns about their nutrition, consider recommending a multivitamin with iron. WIC and SNAP provide assistance to parents and children who need fresh and healthy foods. Contact the Genesee County WIC office at (810) 237-4537 to learn more. In addition, SNAP offers a Double Bucks program that can provide healthy foods for less.

4. Breastfeeding is highly protective and encouraged. However, if the mother's blood lead level rises above 40ug/dL or her level is greater than 20 ug/dL and the baby has a level above 5 ug/dL breastfeeding is not recommended.
5. Because lead is a neuro-toxin, children with lead poisoning need longitudinal follow-up and may require developmental and behavioral health intervention services. Continue monitoring your patients' development at every visit.
6. Consider additional wrap-around and support services that will benefit your patients such as early childhood home visiting programs, early head start and head start. Call 2-1-1 for more information.

Local Resources. Several local resources are available to you and your patients:

- Blood Testing. Patients are encouraged to contact their primary care provider for testing. The Genesee County Health Department also administers lead tests. Patients in need of transportation should contact 2-1-1 for assistance.
- Water Testing. Water testing is free through the City of Flint Water Testing Plant. Patients can call 810-787-6537 to learn more.
- WIC and SNAP provide assistance to parents and children who need fresh and healthy foods. Contact the Genesee County WIC office at (810) 237-4537 to learn more.
- Child Development. If you have concerns about a child's growth, development or learning contact 2-1-1 for a Home Visiting Program in your area.

Adding Phosphate to Flint Water

Why is there lead in some homes' water?

- Lead pipes, solder, and faucets used to be common. We now know that lead can harm our health.
- Homes built before 1987 are more likely to have lead service lines and pipes. Some faucets and certain kinds of solder could also have lead in them, even those installed recently.
- The lead found in tap water in homes around Michigan is likely from these older pipes, solder, and faucets.
- Replacing old pipes, service lines, and faucets is the only sure way to limit the lead in your tap water.
- New pipes, solder, and faucets should meet EPA lead-free standards.

Why are we putting phosphate in the water?

- Over the years, minerals in our water have built up inside our water pipes.
- This mineral build-up is called scale.
- This scale helps to keep a lot of lead from the pipes out of our water.
- If something happens to the scale and the water can touch the pipes, lead can get into the water.
- Adding phosphate to the water helps build and maintain scale by collecting on the sides of the pipes and sticking to the metal.

Lead About Phosphate

- Phosphorus is a natural mineral that your body needs. It works with calcium to keep your bones strong and healthy.
- Phosphate is a type of salt that has phosphorus in it.
- Although there already is phosphate in the Detroit drinking water, extra phosphate is being added to the water in the City of Flint to help put more scale in the pipes.
- The City of Flint, MDEQ, and the EPA worked together to find how much more phosphate is needed in the water going to Flint homes.
- Most people likely already eat and drink more phosphate in everyday food than the very small amount that will be found in the tap water.
- Continue to use water filters that remove lead until the Genesee County Health Department's Public Health Emergency Declaration is removed.

What is Phosphoric Acid?

Although there is already some phosphate in the water we get from Detroit, Flint plans to add more to help build up and maintain the scale faster. To get the phosphate needed for this to work, the City of Flint Water Plant will be adding something called phosphoric acid to the city's water. Phosphoric acid is a common food ingredient in things like cola or juice.

The phosphoric acid will quickly dissolve in the water and break down into two parts - hydrogen and phosphate. Hydrogen will become a part of the water and the leftover phosphate will settle out and stick to the walls of the pipes - building up scale like in the picture above.

If you have questions about the phosphate being added to City of Flint water, please call the City of Flint Water Plant at 810-787-6537.

If you have questions about phosphate and your health, please call MDHHS at 1-800-648-6942.

Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
Filtre el agua potable utilizando un filtro aprobado por la National Sanitation Foundation (NSF).

Call 2-1-1 to find out where you can pick up a free water filter.
Llame al 2-1-1 para averiguar adónde puede retirar un filtro de agua gratuito.

Some filters can remove up to 99 percent of the lead in water when used properly.
Algunos filtros pueden eliminar hasta el 99% del plomo en el agua cuando se utilizan correctamente.

To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
Para asegurarse de que su filtro está eliminando la mayor cantidad de plomo posible, siga cuidadosamente las instrucciones enviadas con éste.

Run only cold water through the filter.
Deje correr agua fría a través del filtro solamente.

Change the filter cartridge as often as the instructions say.
Cambie el cartucho del filtro tan a menudo como lo indiquen las instrucciones.

Even after changes to the water system, it may take a while before lead levels in your home's water drop.
Incluso después de los cambios en el sistema de agua, puede tomar un tiempo antes de que los niveles de plomo en el agua se reduzcan.

Although your water may be a different color sometimes, it is not caused by lead.
Aunque el agua a veces puede ser de un color diferente, esto no es causado por el plomo.

Lead won't change the color of your water.
El plomo no cambiará el color del agua.

The only way to know what your home's lead levels are is by having your water tested.
La única manera de saber cuáles son los niveles de plomo en su hogar es haciendo examinar el agua.

LEAD IN BLOOD
PLOMO EN LA SANGRE

If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
Si sus hijos viven en Flint o van a la escuela o a una guardería en la ciudad de Flint, sus niveles de plomo en la sangra deben ser examinados.

You should contact your doctor about testing.
Debe comunicarse con su médico para realizarse un examen.

Testing is available for free at the Genesee County Health Department.
El examen está disponible de forma gratuita en el Departamento de Salud del Condado de Genesee.

If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.
Si está embarazada o amamantando y ha dado positive en los niveles altos de plomo en la sangre, hable con su médico acerca de la seguridad de la lactancia materna.

Get your water tested.
Haga examinar el agua de su casa.

Call 2-1-1 for a free filter.
Llame al 2-1-1 para solicitar un filtro gratuito.

To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.
Para ahorrar tiempo y agua en el futuro, es una buena idea llenar tantos envases como sea posible, una vez que haya dejado correr el agua durante cinco minutos.

Drain and flush your water heather tanks regularly to remove any lead that has accumulated.
Drene y purgue los tanques de su calentador de agua regularmente, para eliminar cualquier plomo que haya quedado acumulado.

Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
Lave platos, botellas y juguetes con agua no filtrada y jabón y deje que se sequen antes de su uso.

It is safe to use unfiltered tap water to mop floors and wipe down countertops.
Es seguro usar el agua del grifo sin filtrar para limpiar pisos y mesadas.

Take your shoes off when indoors.
Quítese los zapatos cuando esté dentro.

Vacuuming carpets may pull more lead dust to the surface.
Aspirar alfombras puede levantar más polvo de plomo sobre la superficie.

Use a non-motorized sweeper to clean carpets.
Utilice una barredora no motorizada para limpiar alfombras.

Clean windowsills and play areas often with paper towels and soapy water.
Limpie alféizares y áreas de juego a menudo con toallas de papel y agua con jabón.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD
CONSEJOS PARA MANTENER SU HOGAR PROTEGIDO DEL PLOMO

Adults can use unfiltered tap water to brush their teeth.

Mark,

Change in course of action. The plan now is to have the client pick up the water filter at the local DHHS office, no need for a voucher to be printed as of now. I will keep you updated as I hear more.

Thanks,

Chris

Mark,

Please make the following changes to the voucher:

Remove Meijer completely.

Add two more store addresses for Walmart:
6170 S. Saginaw Rd, Grand Blanc, MI 48439
11493 N. Linden Rd., Clio, MI 48420

There are two date fields. There is no need to have two. Remove the one under the client name line.

Add a statement: "Please present this voucher to the clerk upon checkout at the register."

Still waiting to hear if we are going to add additional products to the list.

Sounds like we are good with initiative number 2 - filters will get delivered so we are good to go.

So far as the vouchers go - we need to remove reference to Meijer and only have the vouchers be good for Wal Mart. Chris - Can you do this so we can get vouchers printed and finalized Monday morning through DTMB?

Please let everyone know if there are any other details or issues we're missing. Sorry for all the emails but it was the only way we could think of to get everyone on the same page. Thanks for everyone's help.

On Oct 3, 2015, at 7:57 PM, Cook, Rebecca (DTMB) <CookR6@michigan.gov> wrote:

Per Farah's phone conversation earlier today with Jeff Brownlee, the water pitcher option is not being pursued.

DHHS remains the lead on creating the voucher.

Home Depot will deliver 5000 filters around 8 am on Monday morning. Per DHHS' purchase order, they are the type that attach to the faucet. The PO is for a total of 20,000 of this type of filter. The under sink mount model was not ordered.

I spoke with Home Depot this afternoon and they will confirm price and lead time on the under sink mount model, in case DHHS would also like to issue a purchase order for this. I will pass along info to the group as it is received.

Please feel free to call with any questions.

All - Please read the following as some of these items and changes may reflect your work depending on what department you're in.

Here's the latest:

Re Item #1 - Vouchers to DHHS clients - We need the vouchers to please have noted on the voucher 3 options available to the client for Wal Mart to get to the local offices -
1. An over the counter on the faucet filter
2. A pitcher with a filter in it
3. An under the counter / sink filter.

Whomever is developing the voucher - would you please update it for these three items? So far as specs go, DHHS purchasing has been checking the website for which specs to use. When updating the voucher I assume it needs to have those specs?

Re Item #2 - Filters from the DTMB Vendor to the Community Action Agency in Genesee County - Same as above, we'll need to have three options available so there's consistency among the options.

We're asking DHHS and DTMB to please use this latest info - ask whatever questions we need answered - to make this happen. If it's too late to do all three filter options, we can amend purchase orders if necessary.

If anyone believes I've missed anything or stated anything incorrectly please feel free to chime in here.

On Oct 2, 2015, at 4:32 PM, Rigg, Steve (DTMB) <RiggS@michigan.gov> wrote:

Under the counter filters from Grainger are going to be priced around $150 each, their supplier stock is low at 860 units (3M Company out of Minnesota), and could be difficult for some to install.

The Home Depot faucet filters are much easier to install and priced at $17. 47 each with a 2-pack of replacement filters available for $24.87.

Home Depot will have 20,000 filters shipped to one of their local Flint stores on Saturday and can be delivered on Sunday to the GCCARD if someone is available, otherwise will be delivered on Monday. Dave from Home Depot has already been in contact with Matt Purcell from GCCARD.

Subject: RE: Flint Water Update

I want the local area agency on aging to also have access to the filters to be distributed to the elderly through meals on wheels volunteers. I've copied Kari Sederburg to this message. Should she go through the CAA to ensure this access for the area agency on aging?

DHHS just signed the purchase order for the 5,000 filters. We are moving on this now.

DTMB- when can we say that Home Depot or Grainger will be delivering the filters?

Sent from my iPhone

On Oct 2, 2015, at 2:09 PM, Hanley, Farah (DHHS) <hanleyf@michigan.gov> wrote:

We appreciate everyone staying so patient as we make this happen and recognize that this is an evolving issue.

To that point we will now be issuing over and under counter filters (assuming most people will pursue the over counter faucet filters). Let's pursue 2/3 of the 5,000 for over counter and 1/3 of the 5,000 for under counter filter.

After further discussion with others, we believe we can start with 5,000 filters and go from there.

If we have to purchase more we'll do that.

Feel free to tell them 5,000. Thanks Kris.

On Oct 2, 2015, at 12:26 PM, Rigg, Steve (DTMB) <RiggS@michigan.gov> wrote:

All,

Now that option #2 is a go, here are the questions we need to have answered:

1. Will you be offering the under the counter filters that were offered from Grainger or just the Brita filters from Home Depot?

Latest: We will not be offering under the counter filters

   a. No pricing yet from Grainger on the under the counter filters until they know quantity. However, Brent did say that manufacture's inventory is low.
   b. Home Depot pricing was $17.47 each on the Brita faucet filter and $24.87 for a 2-pack replacement cartridge.
   c. Specs for Brita faucet filter is attached.
   d. Specs for the Pentair under the counter filters are attached.
2. What is the quantity of filters needed? If offering both faucet and under the counter, will need quantities of each

Since this is potentially a bigger non DHHS population, we don't have immediate access to census info. Wouldn't City of Flint have this?

Amy- Is there a DEQ contact over there to get Steve an estimate?

Steve- Can we start with a number like 20,000 and go from there? We need to start with a number until we get a better estimate and go from there.

3. Will you be offering cartridge replacements? If yes, how many?

I don't think anyone knows. We want to just start w the filters and worry about replacements a little later.

3. Who is going to be the main contact person that Home Depot and/or Grainger will be working with that will cut the PO and place the order?
    a. The main contact person for Home Depot is David Khanuja -- cell number 248-826-8907
    b. The main contact person for Grainger is Brent Zinn -- cell number 313-701-5454

Chris Sanches

4. What is the physical location that items will be delivered to?

It's the CAA in Genesee county. Elizabeth - Per your convos with the CAA does it go straight to their office? Also is there a contact person that can be reached?

If it goes to their office, their address is 601 North Saginaw Street, Suite 1B, Flint, 48502

Finally just to reinforce, we are still waiting on an answer / confirmation of the voucher option.

Thanks

It is my opinion that the best thing to do right now is identify the main contact person so that he/she can contact David from Home Depot and/or Brent from Grainger to get moving on orders.

Side Note: David from Home Depot is telling me that the United Way purchased 4,000 filters from Home Depot to be donated. I don't know any more detail than that.

Let me know what else you need from DTMB. Thanks.

I am adding everyone from DHHS, DTMB, and DEQ who I understand is helping out with the Flint Water issue to this email so we can all be on the same page. Please forward this email to anyone you believe needs to be in the loop so we can get all-hands-on-deck.

Here is the latest:

1. We will move forward with the vouchers to be distributed at local county offices for DHHS clients only. DHHS Purchasing is going to reach out to DTMB to help us make copies of water marked, colored and other authentic detailed documents to get out to local offices as soon as possible. We will figure out costs and DTMB charges to DHHS later.
    a. Latest change : From a budget/accounting perspective, we will not receive $1 million from DEQ for this purpose. The $1 million from DEQ will be for item #2. Instead, for this purpose, funding will come from a work project that our budget office will advance to SBO. Our budget office is working on that now.

2. There is now a new thing we will do to address the broader population - NON-DHHS or DHHS clients - per the DHHS and DEQ front offices. DHHS will work with DTMB to get water filters to the Community Action Agency in Genesee county to distribute. This will be paid for with the $1 million DHHS will receive from DEQ.

This is the plan for now. Elizabeth -- Please confirm have this right.

Everyone is encouraged to ask questions. Sorry for including so many people but the left hand needs to know what the right hand is doing here.

Thanks

October 27, 2015

Dear Parent,

To help make sure the children of Flint are safe from lead exposure, the Genesee County Health Department and the Michigan Department of Health and Human Services are providing answers to the following questions:

- Where does lead come from?
- What can I do to protect my family?
- Should I get my child tested for lead?
- Where can I find more information about lead?

Where does lead come from?

Elevated levels of lead have been found in the drinking water from lead pipes in the City of Flint. Kids can also be exposed to lead from old lead paint, soil, pottery, cosmetics and toys and some home remedies. Adult jobs and hobbies, like auto repair, stained glass, jewelry making and ammunitions handling can also put children at risk if they touch clothing or play in areas where lead is found. Lead is a serious health hazard, especially for small children who become lead poisoned when they eat, drink or breathe lead.

Should my child get a blood lead test? Children who live in the City of Flint, live in a home using City of Flint water, or who attend school, childcare or often spend time with a caregiver in the City of Flint should be tested for lead poisoning.
This should be done as soon as possible.

Where should I go to get a blood lead test for my child?

The best place to get your child's blood lead test is your doctor's office. Tests are covered by most health plans. Your doctor will follow up with you on lab tests and provide you with information on what to do next. Your child can also get a free lead test at the Genesee County Health Department. If you need transportation, contact 2-1-1 for help.

Understanding your child's lead test result.

A lead level below 5 means there is a little lead in your child's blood. Use the tips below to help keep your child safe. Your doctor may suggest retesting your child within the next 12 months to make sure the level does not go up.

A lead level of 5-44 means that your child has had some exposure to lead. Work with your doctor and local health department for further guidance on how to limit your lead exposure. Your doctor may retest your child in 1-3 months to make sure the level does not go up.

Children with very high levels of lead **(over 44)** may require treatment at the hospital.

What Can I Do to Keep My Family Safe?

The following steps should be taken right away to help protect you and your child.

Protecting your family from lead in the water:

- Get your water tested for lead. It's free. Call (810) 787-6537 to learn more.
- Use a water filter in your home. Call 2-1-1 for information on free NSF Certified water filters.
- Run only cold water through the filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use filtered or bottled water for drinking (including making coffee, drink mixes, juice, baby formula), and cooking (even if you boil the water, the lead will stay in the water and food).
- You can use unfiltered tap water for washing your hands and washing dishes.
- If you have to use unfiltered water for drinking or cooking, run the tap for five minutes before using the water.

Safe cleaning:

Safe cleaning is important. Keeping your home clean and safe from lead hazards will help to protect your family.

- Buildings built before 1978 could have lead paint in them.Use wet paper towels to clean up paint chips and dust in these older buildings. Be sure to clean around windows, play areas, and floors.
- Wash hands and toys often with soap and water.
- You can use unfiltered tap water to wipe down countertops, mop floors, and wash clothes.

Good nutrition:

Some foods will help keep lead from being stored in a child's body. These are foods with a lot of calcium, iron and vitamin C. These foods include:

Calcium Rich Foods	**Iron Rich Foods**	**Foods with Vitamin C**
➢ Milk	➢ Beans	➢ Oranges
➢ Cheese	➢ Lean meats like fish and chicken	➢ Orange juice
➢ Yogurt	➢ Whole grain cereals	➢ Grapefruits
➢ Tofu	➢ Peanut butter	➢ Tomatoes
➢ Spinach		➢ Green peppers

Always wash your fruits with filtered water. If you are concerned about your child's diet, talk with your doctor who may also recommend a daily multivitamin.

WIC and SNAP provide assistance to parents and children who need fresh and healthy foods. Contact the **Genesee County WIC office at (810) 237-4537** to learn more. SNAP also offers a Double Bucks program to purchase even more healthy food for no additional costs.

Where can I get more information on lead?

- Genesee County Health Department Lead Program
  (810) 257-3833
  www.gchd.us
- Michigan Department of Health and Human Services
  Childhood Lead Poisoning Prevention Program
  (888) 322-4453
  www.michigan.gov/lead
- United States Environmental Protection Agency
  www.epa.gov/lead
- U.S. Centers for Disease Control and Prevention (CDC) Web site
  www.cdc.gov/nceh/lead

These recommendations will stay in effect until the Genesee County Health Department lifts the restrictions on water usage.

Sincerely,

Eden V. Wells, MD, MPH, FACPM
Chief Medical Executive
Michigan Department of Health and Human Services

Gary K. Johnson, MD, MPH

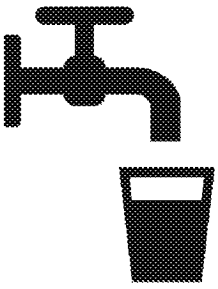
Frequently Asked Questions About Lead in Flint Water

MDHHS Michigan Department of Health & Human Services

- Lead is hard to avoid completely. It can be found in old paint, water pipes and brass water faucets, in dirt, at some job sites, and in metal used for some hobbies.
- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - Even small amounts of lead can harm kids' health because they are little and still growing.
  - Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a NSF-approved filter.
  - Find a NSF-approved filter at http://www.gchd.us/docs/lead_filter_information.pdf.
  - If you use City of Flint water, you can call 211 to find out where you can pick up a free water filter.
- Some filters can remove up to 99% of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - Change the filter cartridge as often as you should.
  - Run only cold water through the filter.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop. Use the tips below to know when it's best to use filtered water:



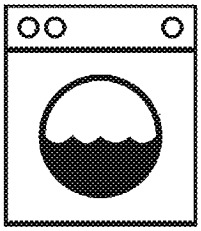
Lead in Water

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- **You can't see, smell, or taste lead in water.**
- **Lead won't change the color of your water.**
- **The only way to know what your home's lead levels are is by having your water tested in a lab.**

Please call the Flint Water Department at 810-787-6537 to request a free or low-cost water test.

In The Kitchen



Use filtered tap water for:

- Drinking (including making coffee, drink mixes, juice, baby formula)
- Cooking (even if you boil the water, the lead will stay in the water and food)
- Washing fruits and vegetables

You can use unfiltered tap water for:

- Washing your hands
- Washing dishes
- Wiping down countertops

Cleaning

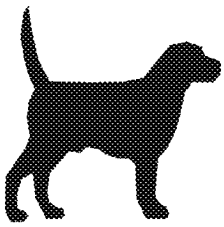
You can use unfiltered tap water for:

- Mopping floors
- Washing clothes

Your washing machine and dryer won't put lead from the water into the air of your home.

In the Bathroom

Use <u>filtered</u> tap water for:



- Brushing kids' teeth

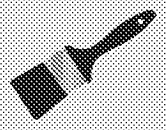
You can use <u>unfiltered</u> tap water for:

- Showers
- Baths (don't let kids drink the water as they play in the tub)
- Brushing your teeth (if you are an adult)

Lead will not cause rashes or other skin problems. However, if chlorine levels or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

Caring for Pets

Use <u>filtered</u> tap water for:



- Pets' water bowls

You can use <u>unfiltered</u> tap water for:

- Baths

If you notice your pet acting differently than normal, please contact your vet.

Other Sources of Lead in Your Home

Lead Paint

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

Dirt

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

Dust

- The dust in your home can contain tiny amounts of both the paint and the dirt that contain lead.

Hobbies & Jobs

- Solder, fishing sinkers, bullets, and stained glass framing materials are some of the items in your home that may contain lead. You could also track home lead dust from your job site.

Have Questions?

For more information about protecting yourself and your family from lead, please visit:

<u>www.michigan.gov/lead</u>

Or you can call the Michigan Department of Health and Human Services at:

1-800-648-6942

The staff at this number will help direct you to the best department that can answer your questions about lead in your home.

To request a free or low-cost water test, please call the Flint Water Department at:

1-810-787-6537

To find out if you can get a free water filter, please call 211.

Subject: Status of the Flint Water Items

I spoke with Jeanette and here is the deal.

There will NOT be another piece from the Gov. Office. Good news.

The Spanish and English Palm Cards we have printed today are not to be use.
We are to set them aside, do not destroy.

Trevor Hawks from MSP is redoing the files for the updated versions.
Should have files today, hopefully in the next half hour.
We are to Re-run 15M Spanish and 75M English.

Talked with Tom, we thought we could do the 15M Spanish first, then go into the English. I told Jeanette that we would have all the Spanish and a good portion of the English for tomorrow's 6 am truck. Balance of the English should be done tomorrow afternoon.

I will stay here until the file comes in.

(24/7/365)

We're committed to a coordinated approach with resources from state agencies to address all aspects of this situation.

If you don't find what you need here or by calling 211, please call my office at 517-335-7858. I will continue working to make this right.

– Rick Snyder, Governor

FLINT WATER RESPONSE TEAM

NUTRITION

Did you know that some foods will keep lead from being stored in a child's body? These are foods with a lot of calcium, vitamin C and iron.

FREE WATER TESTING

Flint residents who are concerned about their water can obtain free water testing kits at the water resource sites.

USE WATER FILTERS & CARTRIDGES

Water filters can reduce lead and other contaminants by 99 percent when installed and maintained correctly. Free water filters are available at the water resource sites.

Return sample and form to either Flint City Hall or the Flint Water Plant.

Samples must be received in the laboratory within 14 days of collection.

DRINKING WATER LEAD AND COPPER SAMPLING INSTRUCTIONS

Thank you for helping to monitor for lead and copper in your drinking water.

It is important that you follow these instructions so we obtain an accurate measurement of the lead and copper in your drinking water.

Do not open the bottle until instructed in step 3. Do not touch the inside of cap or bottle.

1. **The water in the house must not have been used for a minimum of six (6) hours prior to sampling.** The best times to sample are early morning or after returning from work. **Do not flush the sample tap before sample collection.**

2. **Select a cold water faucet** in the **KITCHEN** or **BATHROOM** that is commonly used for drinking and has been used within the last 24 hours. **No other faucets are acceptable for collection.** If the faucet is connected to a faucet mount filter, water softener, iron filter or reverse osmosis system, etc. the treatment device must be removed or bypassed.

When was the faucet last used before sampling? Date _____ TIME _____ AM/PM

Is there a faucet-mount filter? ☐ YES ☐ NO If YES, was it bypassed? ☐ YES ☐ NO

Is this faucet connected to a home treatment device such as a water softener, a reverse osmosis unit, an iron removal device OR is any kind of additive used in the home? ☐ YES ☐ NO

If YES, please describe: _____

If YES, was it bypassed? ☐ YES ☐ NO

3. Open sample bottle and place below the faucet and gently open the **COLD** water tap. If you have a single handle faucet, turn it fully to the **COLD** side. Fill the sample bottle to within an inch of the top with the "first draw" of **COLD** water.

4. Tightly cap the sample bottle

If any plumbing repairs or replacement has been done in the home since the previous sampling event, please note this information here:

If YES, please describe: _____

5. Fill out the collection information on the front, answer the questions below and sign the form.

6. Attach this form to the bottle and return it to either **Flint City Hall or the Flint Water Plant**.

7. Thank you again for your help. We will send you your individual results within 30 days of receiving them from the laboratory. A summary of information on this year's lead and copper monitoring will be printed in the annual water quality report that will be made available by July 1 of this year. Contact your water supply if you have questions.

If you have any questions contact:

City of Flint Water Plant 4500 N. Dort Hwy. Phone: 810-787-6537 ext. 3501

I have read the Drinking Water Lead and Copper Sampling Instructions and have taken a tap sample in accordance with these directions.

Sent: Tuesday, January 19, 2016 4:24 PM
To: Hampton, Kristen (DTMB) (HamptonK@michigan.gov)
Subject: Flint Water Cards

Time line as requested.

1/8/16 – 4pm
Received the request to print "Palm Cards" for DTMB OIP from Jeanette Doll.
Cards were to be 4/C two sides, die cut as door hangers, requested 10,000 cards by Monday at 11:00 am.
I contacted CME in regards to the die cutting, they could die cut the forms on Monday AM if needed.

1/9/16 – Saturday 3 pm
Received call from Jeanette Doll, cards would not be die cut, printing only, and there would be a Spanish version as well.

1/10/16 – Sunday 5:30pm
Received files from Jeanette for the English and Spanish cards

1/11/16 _ Monday 7:15 am
Comp began working on prepping the files. Printing began immediately.
10:45 am- Cards delivered to DTMB EOC.
11:30 am- Two more forms requested by DTMB for Water Testing forms. 20M of each, due 1/12/16, 6 AM
1 pm

11/12/16 – Tuesday 6 am
Truck leaves for flint with Forms and Cards for delivery
15,000 of the Spanish Card
30,000 of the English Card
20,000 of the Water Sampling form
Staff worked until midnight to get this done.

1/14/16 – Thursday 4 pm
25,000 more Water testing forms ordered.
Shipped on 1/15/16

1/18/16 _ Monday
Another new file sent to us.
Order for 35,000 more cards

1/19/16 – Tuesday
Printing of the cards starts.

So far, that is what we have. I did not include the fact that we had to toss the 2600 sheets or 15,600 cards.

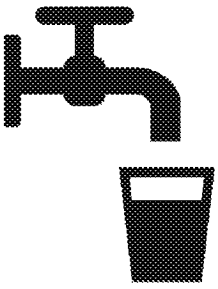
Genesee County Health Department

Frequently Asked Questions About Lead in Flint Water

MDHHS Michigan Department of Health & Human Services

- Lead is hard to avoid completely. It can be found in old paint, water pipes and brass water faucets, in dirt, at some job sites, and in metal used for some hobbies.
- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - Even small amounts of lead can harm kids' health because they are little and still growing.
  - Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a NSF-approved filter.
  - Find a NSF-approved filter at http://www.gchd.us/docs/lead_filter_information.pdf.
  - If you use City of Flint water, you can call 211 to find out where you can pick up a free water filter.
- Some filters can remove up to 99% of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - Change the filter cartridge as often as you should.
  - Run only cold water through the filter.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop. Use the tips below to know when it's best to use filtered water:



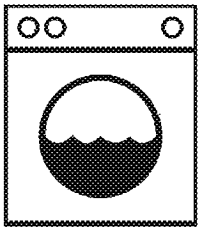
Lead in Water

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- **You can't see, smell, or taste lead in water.**
- **Lead won't change the color of your water.**
- **The only way to know what your home's lead levels are is by having your water tested in a lab.**

Please call the Flint Water Department at 810-787-6537 to request a free or low-cost water test.

In The Kitchen



Use filtered tap water for:

- Drinking (including making coffee, drink mixes, juice, baby formula)
- Cooking (even if you boil the water, the lead will stay in the water and food)
- Washing fruits and vegetables

You can use unfiltered tap water for:

- Washing your hands
- Washing dishes
- Wiping down countertops

Cleaning

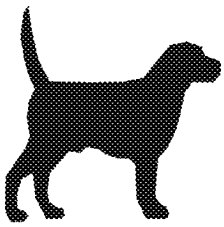
You can use unfiltered tap water for:

- Mopping floors
- Washing clothes

Your washing machine and dryer won't put lead from the water into the air of your home.

In the Bathroom

Use <u>filtered</u> tap water for:



- Brushing kids' teeth

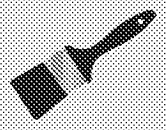
You can use <u>unfiltered</u> tap water for:

- Showers
- Baths (don't let kids drink the water as they play in the tub)
- Brushing your teeth (if you are an adult)

Lead will not cause rashes or other skin problems. However, if chlorine levels or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

Caring for Pets

Use <u>filtered</u> tap water for:



- Pets' water bowls

You can use <u>unfiltered</u> tap water for:

- Baths

If you notice your pet acting differently than normal, please contact your vet.

Other Sources of Lead in Your Home

Lead Paint

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

Dirt

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

Dust

- The dust in your home can contain tiny amounts of both the paint and the dirt that contain lead.

Hobbies & Jobs

- Solder, fishing sinkers, bullets, and stained glass framing materials are some of the items in your home that may contain lead. You could also track home lead dust from your job site.

Have Questions?

For more information about protecting yourself and your family from lead, please visit:

<u>www.michigan.gov/lead</u>

Or you can call the Michigan Department of Health and Human Services at:

1-800-648-6942

The staff at this number will help direct you to the best department that can answer your questions about lead in your home.

To request a free or low-cost water test, please call the Flint Water Department at:

1-810-787-6537

To find out if you can get a free water filter, please call 211.

AND RURAL DEVELOPMENT

RICK SNYDER
GOVERNOR

JAMIE CLOVER ADAMS
DIRECTOR

January 14, 2016

Attention: Food Establishments using City of Flint water supply

Dear Food Establishment Operator:

On October 5, 2015, you were sent a document recommending actions to take to avoid the risk of serving lead contaminated water to your customers. Effective immediately, the recommendations have been changed to a legal requirement, and food establishment license enforcement action may be taken if non-compliance is found until the public health emergency declaration has been lifted.

Please see the updated attached requirements sheet. Immediate action may be needed by your establishment to come into compliance.

Your establishment has three options:

1. Demonstrate your establishment is not using the City of Flint water supply for drinking, processing or cooking.
2. Demonstrate your water has been tested and is safe to use. You may request free testing by a regulatory official. To schedule a free collection and analysis of your food establishment's water for lead, call 1-800-292-3939, M-F, and state you're a "Flint food establishment requesting a water test". Be prepared to provide a sampling time when your entire water system won't have been used for at least 6 hours. Sampling appointments between 5 a.m. and 4 p.m. are available. State offices are closed on January 18, 2016
3. Install water filters as needed, and do daily flushing of unfiltered faucets and hard plumbed equipment. (Discontinuing use, flushing, etc. will still be needed until a safe water test is obtained).

Michigan Department of Agriculture and Rural Development inspectors are assisting the Genesee County Health Department in conducting sampling and inspections, so you may work with a different person other than your regular food safety inspector. Inspectors will also be making visits to establishments in the coming weeks to provide assistance and verify compliance.

For additional information, call 1-800-292-3939 or for the latest information on the Flint water response visit www.michigan.gov/flintwater. We look forward to assisting you in any way possible.

Sincerely,

Kevin Besey, Director
Food and Dairy Division
Michigan Department of Agriculture and Rural Development

October 27, 2015

Dear Parent,

To help make sure the children of Flint are safe from lead exposure, the Genesee County Health Department and the Michigan Department of Health and Human Services are providing answers to the following questions:

- Where does lead come from?
- What can I do to protect my family?
- Should I get my child tested for lead?
- Where can I find more information about lead?

Where does lead come from?

Elevated levels of lead have been found in the drinking water from lead pipes in the City of Flint. Kids can also be exposed to lead from old lead paint, soil, pottery, cosmetics and toys and some home remedies. Adult jobs and hobbies, like auto repair, stained glass, jewelry making and ammunitions handling can also put children at risk if they touch clothing or play in areas where lead is found. Lead is a serious health hazard, especially for small children who become lead poisoned when they eat, drink or breathe lead.

Should my child get a blood lead test? Children who live in the City of Flint, live in a home using City of Flint water, or who attend school, childcare or often spend time with a caregiver in the City of Flint should be tested for lead poisoning.
This should be done as soon as possible.

Where should I go to get a blood lead test for my child?

The best place to get your child's blood lead test is your doctor's office. Tests are covered by most health plans. Your doctor will follow up with you on lab tests and provide you with information on what to do next. Your child can also get a free lead test at the Genesee County Health Department. If you need transportation, contact 2-1-1 for help.

Understanding your child's lead test result.

A lead level below 5 means there is a little lead in your child's blood. Use the tips below to help keep your child safe. Your doctor may suggest retesting your child within the next 12 months to make sure the level does not go up.

A lead level of 5-44 means that your child has had some exposure to lead. Work with your doctor and local health department for further guidance on how to limit your lead exposure. Your doctor may retest your child in 1-3 months to make sure the level does not go up.

Children with very high levels of lead **(over 44)** may require treatment at the hospital.

What Can I Do to Keep My Family Safe?

The following steps should be taken right away to help protect you and your child.

Protecting your family from lead in the water:

- Get your water tested for lead. It's free. Call (810) 787-6537 to learn more.
- Use a water filter in your home. Call 2-1-1 for information on free NSF Certified water filters.
- Run only cold water through the filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use filtered or bottled water for drinking (including making coffee, drink mixes, juice, baby formula), and cooking (even if you boil the water, the lead will stay in the water and food).
- You can use unfiltered tap water for washing your hands and washing dishes.
- If you have to use unfiltered water for drinking or cooking, run the tap for five minutes before using the water.

Safe cleaning:

Safe cleaning is important. Keeping your home clean and safe from lead hazards will help to protect your family.

- Buildings built before 1978 could have lead paint in them.Use wet paper towels to clean up paint chips and dust in these older buildings. Be sure to clean around windows, play areas, and floors.
- Wash hands and toys often with soap and water.
- You can use unfiltered tap water to wipe down countertops, mop floors, and wash clothes.

Good nutrition:

Some foods will help keep lead from being stored in a child's body. These are foods with a lot of calcium, iron and vitamin C. These foods include:

Calcium Rich Foods	**Iron Rich Foods**	**Foods with Vitamin C**
➢ Milk	➢ Beans	➢ Oranges
➢ Cheese	➢ Lean meats like fish and chicken	➢ Orange juice
➢ Yogurt	➢ Whole grain cereals	➢ Grapefruits
➢ Tofu	➢ Peanut butter	➢ Tomatoes
➢ Spinach		➢ Green peppers

Always wash your fruits with filtered water. If you are concerned about your child's diet, talk with your doctor who may also recommend a daily multivitamin.

WIC and SNAP provide assistance to parents and children who need fresh and healthy foods. Contact the **Genesee County WIC office at (810) 237-4537** to learn more. SNAP also offers a Double Bucks program to purchase even more healthy food for no additional costs.

Where can I get more information on lead?

- Genesee County Health Department Lead Program
  (810) 257-3833
  www.gchd.us
- Michigan Department of Health and Human Services
  Childhood Lead Poisoning Prevention Program
  (888) 322-4453
  www.michigan.gov/lead
- United States Environmental Protection Agency
  www.epa.gov/lead
- U.S. Centers for Disease Control and Prevention (CDC) Web site
  www.cdc.gov/nceh/lead

These recommendations will stay in effect until the Genesee County Health Department lifts the restrictions on water usage.

Sincerely,

Eden V. Wells, MD, MPH, FACPM
Chief Medical Executive
Michigan Department of Health and Human Services

Gary K. Johnson, MD, MPH
Medical Director
Genesee County Health Department

October 30, 2015

Dear Provider:

As you may be aware from recent news reports, elevated levels of lead have been found in lead pipes within the City of Flint's water system.

To help protect the children of Flint from the current lead in water exposure, the Genesee County Health Department and Michigan Department of Health and Human Services are contacting you to assist you in providing guidance to support your families.

Children can be exposed to lead from drinking water in that runs through lead pipes, old lead paint, soil, pottery, cosmetics and toys and some home remedies. Adult jobs and hobbies, like auto repair, stained glass and jewelry making, and ammunitions handling can also put children at risk if they touch clothing or play in areas where lead is found.

As a primary care provider, you play a critical role in helping to ensure that children and families exposed to lead receive the care and reassurances they need to manage the potential health impacts of lead poisoning.

Identification. Children suffering from lead poisoning often fail to present outward symptoms. However, early clinical symptoms can include anemia, anorexia, abdominal pain and constipation. Lead is a neuro-toxin, and exposure can result in violent and aggressive behaviors, lead to learning disorders, may cause Attention Deficit Hyperactivity Disorder (ADHD) and has been known to reduce IQ by as many as 5-8 points with levels as low as 10 ug/dL. Lead is metabolized through the gastrointestinal system similar to iron and calcium, with uptake rates depending on the size and weight of the child. The blood half-life of lead is short (approximately 1 month) but the bone half-life can extend into decades.

Due to multiple risk factors facing many residents in the City of Flint (including aging housing conditions and water quality), we recommend that all children under age 6 living in the City of Flint or living in homes that use Flint water, attending school or childcare in Flint, or who spend time with a caregiver in the City of Flint, receive a blood lead test. Blood lead testing should be done through a child's primary care doctor to ensure adequate short-term and long-term follow-up. ***Families should be encouraged to have their children tested immediately either at their doctor's office or the Genesee County Health Department***.

Management of Blood Lead Levels. The following guidance is provided for management of childhood blood lead levels:

- **BLL < 5 ug/dL**
  - A lead level of less than 5 mcg/dL is not typically cause for concern.
  - Provide education and anticipatory guidance to ensure that lead levels do not rise.

  - Consider retesting in 12 months based on risk factors or concerns.
- **BLL >5 ug/dL**
  - **Children with capillary results of 5 ug/dL and higher must have a confirmatory venous blood draw.**
  - Families should receive anticipatory guidance, nutrition counseling, instruction on safe cleaning techniques and appropriate follow-up care from their primary care provider.
  - In-home services including case management and environmental investigations are available for all children with lead levels greater than 5 ug/dL. Refer patients to the Genesee County Health Department for this service.
  - Children with confirmed venous testing results greater than 5ug/dL within the past 18 months must be retested based on Medicaid policy and AAP guidelines. (See attached "Provider Quick Reference). If a child has not been retested within these timeframes, retesting is recommended as soon as possible.
- **BLL > 44 ug/dL.**
  - **Children with capillary results of 5 ug/dL and higher must have a confirmatory venous blood draw.**
  - Lead levels over 44 ug/dL may require hospitalization. Consult with an expert at the Children's Hospital of Michigan in Detroit for additional guidance.
  - Families should receive anticipatory guidance, nutrition counseling, instruction on safe cleaning techniques and appropriate follow-up care from their primary care provider.
  - In-home services including case management and environmental investigations are available for all children with lead levels greater than 5 ug/dL. Refer patients to the Genesee County Health Department for this service.
  - Children with confirmed venous testing results greater than 5ug/dL within the past 18 months must be retested based on Medicaid policy and AAP guidelines. (See attached "Provider Quick Reference). If a child has not been retested within these timeframes, retesting is recommended as soon as possible.

Reminder: All children covered by Medicaid must be tested at age 1 and 2.

Follow-up Care. As providers, there are steps you can take to help support your families:

1. Continue to inform and educate families regarding lead risks and preventative steps that they can take to minimize their risks.
2. Encourage your families to use filtered water for drinking, mixing formula and washing dishes. Families can contact 2-1-1 for information on free NSF Certified water filters.
3. Healthy nutrition is critical for lead-exposed children. Make sure your patients are consuming balanced diets high in iron, calcium and Vitamin C. If you have concerns about their nutrition, consider recommending a multivitamin with iron. WIC and SNAP provide assistance to parents and children who need fresh and healthy foods. Contact the Genesee County WIC office at (810) 237-4537 to learn more. In addition, SNAP offers a Double Bucks program that can provide healthy foods for less.

4. Breastfeeding is highly protective and encouraged. However, if the mother's blood lead level rises above 40ug/dL or her level is greater than 20 ug/dL and the baby has a level above 5 ug/dL breastfeeding is not recommended.
5. Because lead is a neuro-toxin, children with lead poisoning need longitudinal follow-up and may require developmental and behavioral health intervention services. Continue monitoring your patients' development at every visit.
6. Consider additional wrap-around and support services that will benefit your patients such as early childhood home visiting programs, early head start and head start. Call 2-1-1 for more information.

Local Resources. Several local resources are available to you and your patients:

- Blood Testing. Patients are encouraged to contact their primary care provider for testing. The Genesee County Health Department also administers lead tests. Patients in need of transportation should contact 2-1-1 for assistance.
- Water Testing. Water testing is free through the City of Flint Water Testing Plant. Patients can call 810-787-6537 to learn more.
- WIC and SNAP provide assistance to parents and children who need fresh and healthy foods. Contact the Genesee County WIC office at (810) 237-4537 to learn more.
- Child Development. If you have concerns about a child's growth, development or learning contact 2-1-1 for a Home Visiting Program in your area.

Websites and contact information.

Adding Phosphate to Flint Water

Why is there lead in some homes' water?

- Lead pipes, solder, and faucets used to be common. We now know that lead can harm our health.
- Homes built before 1987 are more likely to have lead service lines and pipes. Some faucets and certain kinds of solder could also have lead in them, even those installed recently.
- The lead found in tap water in homes around Michigan is likely from these older pipes, solder, and faucets.
- Replacing old pipes, service lines, and faucets is the only sure way to limit the lead in your tap water.
- New pipes, solder, and faucets should meet EPA lead-free standards.

Why are we putting phosphate in the water?

- Over the years, minerals in our water have built up inside our water pipes.
- This mineral build-up is called scale.
- This scale helps to keep a lot of lead from the pipes out of our water.
- If something happens to the scale and the water can touch the pipes, lead can get into the water.
- Adding phosphate to the water helps build and maintain scale by collecting on the sides of the pipes and sticking to the metal.

Lead About Phosphate

- Phosphorus is a natural mineral that your body needs. It works with calcium to keep your bones strong and healthy.
- Phosphate is a type of salt that has phosphorus in it.
- Although there already is phosphate in the Detroit drinking water, extra phosphate is being added to the water in the City of Flint to help put more scale in the pipes.
- The City of Flint, MDEQ, and the EPA worked together to find how much more phosphate is needed in the water going to Flint homes.
- Most people likely already eat and drink more phosphate in everyday food than the very small amount that will be found in the tap water.
- Continue to use water filters that remove lead until the Genesee County Health Department's Public Health Emergency Declaration is removed.

What is Phosphoric Acid?

Although there is already some phosphate in the water we get from Detroit, Flint plans to add more to help build up and maintain the scale faster. To get the phosphate needed for this to work, the City of Flint Water Plant will be adding something called phosphoric acid to the city's water. Phosphoric acid is a common food ingredient in things like cola or juice.

The phosphoric acid will quickly dissolve in the water and break down into two parts - hydrogen and phosphate. Hydrogen will become a part of the water and the leftover phosphate will settle out and stick to the walls of the pipes - building up scale like in the picture above.

If you have questions about the phosphate being added to City of Flint water, please call the City of Flint Water Plant at 810-787-6537.

If you have questions about phosphate and your health, please call MDHHS at 1-800-648-6942.

CÓDIGO DE LA PRUEBA	Nº DE UNIDAD DE INVESTIGACIÓN	PRUEBA DE AGUA POTABLE
CCUB	36CC - 1 Litro	Plomo/ cobre para investigación

Entregue la muestra y el formulario en Flint City Hall o Flint Water Plant.

Las muestras deberán ser recibidas en el laboratorio dentro de los 14 días de la recolección.

INSTRUCCIONES DE LA MUESTRA DE PLOMO Y COBRE EN EL AGUA POTABLE

Gracias por ayudar a monitorear el nivel de plomo y cobre en el agua potable.

Es importante que siga estas instrucciones, de modo que podamos obtener mediciones precisas del nivel de plomo y cobre en el agua potable.

No abra la botella hasta que se indique en el paso 3. No toque el lado interno de la tapa o la botella.

1. **El agua de la casa no deberá haber sido usada por un mínimo de seis (6) horas antes de realizar la muestra.** Los mejores momentos para realizar la muestra son temprano por la mañana o luego de regresar de trabajar. **No deje correr el agua del grifo de la muestra antes de realizar la recolección.**

2. **Elija un grifo de agua fría** de la **COCINA** o del **BAÑO** que se use comúnmente para beber y que se haya usado dentro de las últimas 24 horas. **Ningún otro grifo es aceptable para la recolección.** Si el grifo está conectado a un filtro de montaje para grifos, ablandador de agua, filtro de hierro o sistema de ósmosis inversa, etc., el dispositivo de tratamiento deberá ser retirado o circundado con un bypass.

¿Cuándo se usó el grifo por última vez antes de la muestra? Fecha _____ HORA _____ AM/PM

¿Hay un filtro de montaje para grifo? __ SÍ ___ NO Si es ASÍ, ¿se usó un bypass? ___ SÍ ___NO

¿Está este grifo conectado a un dispositivo de tratamiento del hogar tal como un ablandador de agua, una unidad de ósmosis inversa, un dispositivo de eliminación de hierro O se usa algún tipo de aditivo en el hogar? SÍ NO

Si es ASÍ, describa: _____

Si es ASÍ, ¿se usó un bypass?_____ SÍ _____ NO

3. Abra la botella de la muestra y colóquela debajo del grifo y de forma suave abra el grifo de agua **FRÍA**. Si cuenta con un grifo con una sola llave, gírela completamente hacia el lado **FRÍO**. Llene la botella de la muestra hasta antes de una pulgada del borde con la "primera carga" de agua **FRÍA**.
4. Ajuste bien la tapa de la botella de la muestra.

Si se realizaron reparaciones de plomería o reemplazos en el hogar desde el momento de la muestra previa, por favor anote esta información aquí:

Si es ASÍ, describa: _____

5. Complete la información de recolección en el frente, responda las preguntas anteriores y firme el formulario.
6. Adjunte este formulario a la botella y entréguelo en **Flint City Hall o Flint Water Plant**.

7. Gracias nuevamente por su ayuda. Le enviaremos sus resultados individuales dentro de los 30 días luego de haberlos recibido desde el laboratorio. Se imprimirá un resumen de la información de monitoreo de plomo y cobre de este año en el informe anual de la calidad del agua, que estará disponible el 1 de julio de este año. Ante cualquier consulta, comuníquese con su proveedor de agua.

Ante cualquier duda, comuníquese a:

City of Flint Water Plant 4500 N. Dort Hwy. Teléfono: 810-787-6537 int. 3501

Leí las Instrucciones de la Muestra de Plomo y Cobre en el Agua Potable y tomé una muestra de un grifo de acuerdo con estas instrucciones.

_____ _____

Firma del recolector de la muestra Fecha

FLINT WATER RESPONSE TEAM

www.michigan.gov/flintwater

LEAD IN FLINT WATER

GENERAL INFORMATION

- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - o Even small amounts of lead can harm kids' health because they are still growing.
  - o Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
  - o You can receive a free a NSF-approved filter if you use City of Flint water.
  - o Call 2-1-1 to find out where you can pick up a free water filter.
- Some filters can remove up to 99 percent of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - o Run only cold water through the filter.
  - o Change the filter cartridge as often as the instructions say.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop.
- Lead is hard to avoid completely. It can be found in water pipes and brass water faucets, old paint, in dirt, at some job sites, and in metal used for some hobbies.

There are a number of steps you can take to keep yourself and your family healthy. Use the tips below to learn more about how to stay healthy:

LEAD IN WATER

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- You can't see, smell, or taste lead in water.
- Lead won't change the color of your water.
- The only way to know what your home's lead levels are is by having your water tested.

LEAD IN BLOOD

- If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
- You should contact your doctor about testing.
- Testing is available for free at the Genesee County Health Department. Call 2-1-1 if you need help getting there.
- If you are pregnant or nursing, and you have tested negative for high blood-lead levels, it is safe to breastfeed.
- If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

WATER FILTERS

- Get your water tested. It's free. Call 2-1-1.
- Use a water filter. Call 2-1-1 for a free filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use cold, filtered water for cooking.
- Wash fruits and vegetables with filtered water.
- If you must use unfiltered water, run the water for at least five minutes before you use it. To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.
- Drain and flush your water heater tanks regularly to remove any lead that has accumulated. Follow manufacturers instructions for maintenance or contact a licensed professional for assistance.

CLEANING

- Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- It is safe to wash clothes in your washer and dryer.
- Use door mats. Take your shoes off when indoors.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean windowsills and play areas often with paper towels and soapy water.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

IN THE BATHROOM

- Use filtered tap water to brush your kids' teeth.
- Adults can use unfiltered tap water to brush their teeth.
- You can use unfiltered tap water to shower or bathe, but don't let kids drink the water when they play in the tub.
- Studies done by the Centers for Disease Control and Prevention show that parents can continue bathing their children in the tub but bath time should be used for bathing only, rather than allowing children to play in the water for a long time.
- Lead will not cause rashes or other skin problems. However, if levels of chlorine or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

CARING FOR PETS

- Use filtered tap water for your family pets' water bowls.
- You can use unfiltered tap water to bathe your pets.
- If you notice your pet acting differently than normal, contact your vet.

HEALTHY DIET

- Eat foods high in iron, calcium and vitamin C.
- Wash hands with soap and warm water before eating.
- If you need fresh and healthy food, call the WIC office at 810-237-4537, or for SNAP food assistance apply at www.michigan.gov/mibridges or visit your local Michigan Department of Health and Human Services office.

GOOD SOURCES OF IRON INCLUDE:

- Lean red meats, fish, and chicken
- Cereals with added iron
- Dried fruits (raisins, prunes)

GOOD SOURCES OF CALCIUM INCLUDE:

- Milk
- Yogurt
- Cheese
- Green leafy vegetables (spinach, kale, collard greens)

GOOD SOURCES OF VITAMIN C INCLUDE:

- Oranges, orange juice
- Grapefruit, grapefruit juice
- Tomatoes, tomato juice
- Green peppers

LEAD INFO

The Flint water response team is focused on the lead in water crisis. In additon to water, scientists have long been concerned about all sources of lead including lead paint, dust, soil, etc.

LEAD PAINT

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

DIRT

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

DUST

- The dust in your home can have tiny amounts of lead from paint and dirt.

HOBBIES AND JOBS

- Solder, fishing sinkers, bullets, and stained glass framing materials are some items that may contain lead. You could also track home lead dust from your job site.

HAVE QUESTIONS?

- For more information about protecting yourself and your family from lead, visit www.michigan.gov/flintwater.

DIRECTOR

January 14, 2016

Attention: Food Establishments using City of Flint water supply

Dear Food Establishment Operator:

On October 5, 2015, you were sent a document recommending actions to take to avoid the risk of serving lead contaminated water to your customers. Effective immediately, the recommendations have been changed to a legal requirement, and food establishment license enforcement action may be taken if non-compliance is found until the public health emergency declaration has been lifted.

Please see the updated attached requirements sheet. Immediate action may be needed by your establishment to come into compliance.

Your establishment has three options:

1. Demonstrate your establishment is not using the City of Flint water supply for drinking, processing or cooking.
2. Demonstrate your water has been tested and is safe to use. You may request free testing by a regulatory official. To schedule a free collection and analysis of your food establishment's water for lead, call 1-800-292-3939, M-F, and state you're a "Flint food establishment requesting a water test". Be prepared to provide a sampling time when your entire water system won't have been used for at least 6 hours. Sampling appointments between 5 a.m. and 4 p.m. are available. State offices are closed on January 18, 2016
3. Install water filters as needed, and do daily flushing of unfiltered faucets and hard plumbed equipment. (Discontinuing use, flushing, etc. will still be needed until a safe water test is obtained).

Michigan Department of Agriculture and Rural Development inspectors are assisting the Genesee County Health Department in conducting sampling and inspections, so you may work with a different person other than your regular food safety inspector. Inspectors will also be making visits to establishments in the coming weeks to provide assistance and verify compliance.

For additional information, call 1-800-292-3939 or for the latest information on the Flint water response visit www.michigan.gov/flintwater. We look forward to assisting you in any way possible.

Sincerely,

Kevin Besey, Director
Food and Dairy Division
Michigan Department of Agriculture and Rural Development

October 27, 2015

Dear Parent,

To help make sure the children of Flint are safe from lead exposure, the Genesee County Health Department and the Michigan Department of Health and Human Services are providing answers to the following questions:

- Where does lead come from?
- What can I do to protect my family?
- Should I get my child tested for lead?
- Where can I find more information about lead?

Where does lead come from?

Elevated levels of lead have been found in the drinking water from lead pipes in the City of Flint. Kids can also be exposed to lead from old lead paint, soil, pottery, cosmetics and toys and some home remedies. Adult jobs and hobbies, like auto repair, stained glass, jewelry making and ammunitions handling can also put children at risk if they touch clothing or play in areas where lead is found. Lead is a serious health hazard, especially for small children who become lead poisoned when they eat, drink or breathe lead.

Should my child get a blood lead test? Children who live in the City of Flint, live in a home using City of Flint water, or who attend school, childcare or often spend time with a caregiver in the City of Flint should be tested for lead poisoning.
This should be done as soon as possible.

Where should I go to get a blood lead test for my child?

The best place to get your child's blood lead test is your doctor's office. Tests are covered by most health plans. Your doctor will follow up with you on lab tests and provide you with information on what to do next. Your child can also get a free lead test at the Genesee County Health Department. If you need transportation, contact 2-1-1 for help.

Understanding your child's lead test result.

A lead level below 5 means there is a little lead in your child's blood. Use the tips below to help keep your child safe. Your doctor may suggest retesting your child within the next 12 months to make sure the level does not go up.

A lead level of 5-44 means that your child has had some exposure to lead. Work with your doctor and local health department for further guidance on how to limit your lead exposure. Your doctor may retest your child in 1-3 months to make sure the level does not go up.

Children with very high levels of lead **(over 44)** may require treatment at the hospital.

What Can I Do to Keep My Family Safe?

The following steps should be taken right away to help protect you and your child.

Protecting your family from lead in the water:

- Get your water tested for lead. It's free. Call (810) 787-6537 to learn more.
- Use a water filter in your home. Call 2-1-1 for information on free NSF Certified water filters.
- Run only cold water through the filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use filtered or bottled water for drinking (including making coffee, drink mixes, juice, baby formula), and cooking (even if you boil the water, the lead will stay in the water and food).
- You can use unfiltered tap water for washing your hands and washing dishes.
- If you have to use unfiltered water for drinking or cooking, run the tap for five minutes before using the water.

Safe cleaning:

Safe cleaning is important. Keeping your home clean and safe from lead hazards will help to protect your family.

- Buildings built before 1978 could have lead paint in them.Use wet paper towels to clean up paint chips and dust in these older buildings. Be sure to clean around windows, play areas, and floors.
- Wash hands and toys often with soap and water.
- You can use unfiltered tap water to wipe down countertops, mop floors, and wash clothes.

Good nutrition:

Some foods will help keep lead from being stored in a child's body. These are foods with a lot of calcium, iron and vitamin C. These foods include:

Calcium Rich Foods	**Iron Rich Foods**	**Foods with Vitamin C**
➢ Milk	➢ Beans	➢ Oranges
➢ Cheese	➢ Lean meats like fish and chicken	➢ Orange juice
➢ Yogurt	➢ Whole grain cereals	➢ Grapefruits
➢ Tofu	➢ Peanut butter	➢ Tomatoes
➢ Spinach		➢ Green peppers

Always wash your fruits with filtered water. If you are concerned about your child's diet, talk with your doctor who may also recommend a daily multivitamin.

WIC and SNAP provide assistance to parents and children who need fresh and healthy foods. Contact the **Genesee County WIC office at (810) 237-4537** to learn more. SNAP also offers a Double Bucks program to purchase even more healthy food for no additional costs.

Where can I get more information on lead?

- Genesee County Health Department Lead Program
  (810) 257-3833
  www.gchd.us
- Michigan Department of Health and Human Services
  Childhood Lead Poisoning Prevention Program
  (888) 322-4453
  www.michigan.gov/lead
- United States Environmental Protection Agency
  www.epa.gov/lead
- U.S. Centers for Disease Control and Prevention (CDC) Web site
  www.cdc.gov/nceh/lead

These recommendations will stay in effect until the Genesee County Health Department lifts the restrictions on water usage.

Sincerely,

Eden V. Wells, MD, MPH, FACPM
Chief Medical Executive
Michigan Department of Health and Human Services

Gary K. Johnson, MD, MPH
Medical Director
Genesee County Health Department

October 30, 2015

Dear Provider:

As you may be aware from recent news reports, elevated levels of lead have been found in lead pipes within the City of Flint's water system.

To help protect the children of Flint from the current lead in water exposure, the Genesee County Health Department and Michigan Department of Health and Human Services are contacting you to assist you in providing guidance to support your families.

Children can be exposed to lead from drinking water in that runs through lead pipes, old lead paint, soil, pottery, cosmetics and toys and some home remedies. Adult jobs and hobbies, like auto repair, stained glass and jewelry making, and ammunitions handling can also put children at risk if they touch clothing or play in areas where lead is found.

As a primary care provider, you play a critical role in helping to ensure that children and families exposed to lead receive the care and reassurances they need to manage the potential health impacts of lead poisoning.

Identification. Children suffering from lead poisoning often fail to present outward symptoms. However, early clinical symptoms can include anemia, anorexia, abdominal pain and constipation. Lead is a neuro-toxin, and exposure can result in violent and aggressive behaviors, lead to learning disorders, may cause Attention Deficit Hyperactivity Disorder (ADHD) and has been known to reduce IQ by as many as 5-8 points with levels as low as 10 ug/dL. Lead is metabolized through the gastrointestinal system similar to iron and calcium, with uptake rates depending on the size and weight of the child. The blood half-life of lead is short (approximately 1 month) but the bone half-life can extend into decades.

Due to multiple risk factors facing many residents in the City of Flint (including aging housing conditions and water quality), we recommend that all children under age 6 living in the City of Flint or living in homes that use Flint water, attending school or childcare in Flint, or who spend time with a caregiver in the City of Flint, receive a blood lead test. Blood lead testing should be done through a child's primary care doctor to ensure adequate short-term and long-term follow-up. ***Families should be encouraged to have their children tested immediately either at their doctor's office or the Genesee County Health Department***.

Management of Blood Lead Levels. The following guidance is provided for management of childhood blood lead levels:

- **BLL < 5 ug/dL**
  - A lead level of less than 5 mcg/dL is not typically cause for concern.
  - Provide education and anticipatory guidance to ensure that lead levels do not rise.

  - Consider retesting in 12 months based on risk factors or concerns.
- **BLL >5 ug/dL**
  - **Children with capillary results of 5 ug/dL and higher must have a confirmatory venous blood draw.**
  - Families should receive anticipatory guidance, nutrition counseling, instruction on safe cleaning techniques and appropriate follow-up care from their primary care provider.
  - In-home services including case management and environmental investigations are available for all children with lead levels greater than 5 ug/dL. Refer patients to the Genesee County Health Department for this service.
  - Children with confirmed venous testing results greater than 5ug/dL within the past 18 months must be retested based on Medicaid policy and AAP guidelines. (See attached "Provider Quick Reference). If a child has not been retested within these timeframes, retesting is recommended as soon as possible.
- **BLL > 44 ug/dL.**
  - **Children with capillary results of 5 ug/dL and higher must have a confirmatory venous blood draw.**
  - Lead levels over 44 ug/dL may require hospitalization. Consult with an expert at the Children's Hospital of Michigan in Detroit for additional guidance.
  - Families should receive anticipatory guidance, nutrition counseling, instruction on safe cleaning techniques and appropriate follow-up care from their primary care provider.
  - In-home services including case management and environmental investigations are available for all children with lead levels greater than 5 ug/dL. Refer patients to the Genesee County Health Department for this service.
  - Children with confirmed venous testing results greater than 5ug/dL within the past 18 months must be retested based on Medicaid policy and AAP guidelines. (See attached "Provider Quick Reference). If a child has not been retested within these timeframes, retesting is recommended as soon as possible.

Reminder: All children covered by Medicaid must be tested at age 1 and 2.

Follow-up Care. As providers, there are steps you can take to help support your families:

1. Continue to inform and educate families regarding lead risks and preventative steps that they can take to minimize their risks.
2. Encourage your families to use filtered water for drinking, mixing formula and washing dishes. Families can contact 2-1-1 for information on free NSF Certified water filters.
3. Healthy nutrition is critical for lead-exposed children. Make sure your patients are consuming balanced diets high in iron, calcium and Vitamin C. If you have concerns about their nutrition, consider recommending a multivitamin with iron. WIC and SNAP provide assistance to parents and children who need fresh and healthy foods. Contact the Genesee County WIC office at (810) 237-4537 to learn more. In addition, SNAP offers a Double Bucks program that can provide healthy foods for less.

4. Breastfeeding is highly protective and encouraged. However, if the mother's blood lead level rises above 40ug/dL or her level is greater than 20 ug/dL and the baby has a level above 5 ug/dL breastfeeding is not recommended.
5. Because lead is a neuro-toxin, children with lead poisoning need longitudinal follow-up and may require developmental and behavioral health intervention services. Continue monitoring your patients' development at every visit.
6. Consider additional wrap-around and support services that will benefit your patients such as early childhood home visiting programs, early head start and head start. Call 2-1-1 for more information.

Local Resources. Several local resources are available to you and your patients:

- Blood Testing. Patients are encouraged to contact their primary care provider for testing. The Genesee County Health Department also administers lead tests. Patients in need of transportation should contact 2-1-1 for assistance.
- Water Testing. Water testing is free through the City of Flint Water Testing Plant. Patients can call 810-787-6537 to learn more.
- WIC and SNAP provide assistance to parents and children who need fresh and healthy foods. Contact the Genesee County WIC office at (810) 237-4537 to learn more.
- Child Development. If you have concerns about a child's growth, development or learning contact 2-1-1 for a Home Visiting Program in your area.

Genesee County Health Department

Adding Phosphate to Flint Water

Why is there lead in some homes' water?

- Lead pipes, solder, and faucets used to be common. We now know that lead can harm our health.
- Homes built before 1987 are more likely to have lead service lines and pipes. Some faucets and certain kinds of solder could also have lead in them, even those installed recently.
- The lead found in tap water in homes around Michigan is likely from these older pipes, solder, and faucets.
- Replacing old pipes, service lines, and faucets is the only sure way to limit the lead in your tap water.
- New pipes, solder, and faucets should meet EPA lead-free standards.

Why are we putting phosphate in the water?

- Over the years, minerals in our water have built up inside our water pipes.
- This mineral build-up is called scale.
- This scale helps to keep a lot of lead from the pipes out of our water.
- If something happens to the scale and the water can touch the pipes, lead can get into the water.
- Adding phosphate to the water helps build and maintain scale by collecting on the sides of the pipes and sticking to the metal.

Lead About Phosphate

- Phosphorus is a natural mineral that your body needs. It works with calcium to keep your bones strong and healthy.
- Phosphate is a type of salt that has phosphorus in it.
- Although there already is phosphate in the Detroit drinking water, extra phosphate is being added to the water in the City of Flint to help put more scale in the pipes.
- The City of Flint, MDEQ, and the EPA worked together to find how much more phosphate is needed in the water going to Flint homes.
- Most people likely already eat and drink more phosphate in everyday food than the very small amount that will be found in the tap water.
- Continue to use water filters that remove lead until the Genesee County Health Department's Public Health Emergency Declaration is removed.

What is Phosphoric Acid?

Although there is already some phosphate in the water we get from Detroit, Flint plans to add more to help build up and maintain the scale faster. To get the phosphate needed for this to work, the City of Flint Water Plant will be adding something called phosphoric acid to the city's water. Phosphoric acid is a common food ingredient in things like cola or juice.

The phosphoric acid will quickly dissolve in the water and break down into two parts - hydrogen and phosphate. Hydrogen will become a part of the water and the leftover phosphate will settle out and stick to the walls of the pipes - building up scale like in the picture above.

If you have questions about the phosphate being added to City of Flint water, please call the City of Flint Water Plant at 810-787-6537.

If you have questions about phosphate and your health, please call MDHHS at 1-800-648-6942.

Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
Filtre el agua potable utilizando un filtro aprobado por la National Sanitation Foundation (NSF).

Call 2-1-1 to find out where you can pick up a free water filter.
Llame al 2-1-1 para averiguar adónde puede retirar un filtro de agua gratuito.

Some filters can remove up to 99 percent of the lead in water when used properly.
Algunos filtros pueden eliminar hasta el 99% del plomo en el agua cuando se utilizan correctamente.

To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
Para asegurarse de que su filtro está eliminando la mayor cantidad de plomo posible, siga cuidadosamente las instrucciones enviadas con éste.

Run only cold water through the filter.
Deje correr agua fría a través del filtro solamente.

Change the filter cartridge as often as the instructions say.
Cambie el cartucho del filtro tan a menudo como lo indiquen las instrucciones.

Even after changes to the water system, it may take a while before lead levels in your home's water drop.
Incluso después de los cambios en el sistema de agua, puede tomar un tiempo antes de que los niveles de plomo en el agua se reduzcan.

Although your water may be a different color sometimes, it is not caused by lead.
Aunque el agua a veces puede ser de un color diferente, esto no es causado por el plomo.

Lead won't change the color of your water.
El plomo no cambiará el color del agua.

The only way to know what your home's lead levels are is by having your water tested.
La única manera de saber cuáles son los niveles de plomo en su hogar es haciendo examinar el agua.

LEAD IN BLOOD
PLOMO EN LA SANGRE

If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
Si sus hijos viven en Flint o van a la escuela o a una guardería en la ciudad de Flint, sus niveles de plomo en la sangra deben ser examinados.

You should contact your doctor about testing.
Debe comunicarse con su médico para realizarse un examen.

Testing is available for free at the Genesee County Health Department.
El examen está disponible de forma gratuita en el Departamento de Salud del Condado de Genesee.

If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.
Si está embarazada o amamantando y ha dado positive en los niveles altos de plomo en la sangre, hable con su médico acerca de la seguridad de la lactancia materna.

Get your water tested.
Haga examinar el agua de su casa.

Call 2-1-1 for a free filter.
Llame al 2-1-1 para solicitar un filtro gratuito.

To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.
Para ahorrar tiempo y agua en el futuro, es una buena idea llenar tantos envases como sea posible, una vez que haya dejado correr el agua durante cinco minutos.

Drain and flush your water heather tanks regularly to remove any lead that has accumulated.
Drene y purgue los tanques de su calentador de agua regularmente, para eliminar cualquier plomo que haya quedado acumulado.

Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
Lave platos, botellas y juguetes con agua no filtrada y jabón y deje que se sequen antes de su uso.

It is safe to use unfiltered tap water to mop floors and wipe down countertops.
Es seguro usar el agua del grifo sin filtrar para limpiar pisos y mesadas.

Take your shoes off when indoors.
Quítese los zapatos cuando esté dentro.

Vacuuming carpets may pull more lead dust to the surface.
Aspirar alfombras puede levantar más polvo de plomo sobre la superficie.

Use a non-motorized sweeper to clean carpets.
Utilice una barredora no motorizada para limpiar alfombras.

Clean windowsills and play areas often with paper towels and soapy water.
Limpie alféizares y áreas de juego a menudo con toallas de papel y agua con jabón.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD
CONSEJOS PARA MANTENER SU HOGAR PROTEGIDO DEL PLOMO

Adults can use unfiltered tap water to brush their teeth.
Los adultos pueden usar el agua del grifo sin filtrar para lavarse los dientes.

You can use unfiltered tap water to shower or bathe, but don't let kids drink the water when they play in the tub.
Se puede utilizar agua del grifo sin filtrar para bañarse, pero no deje que los niños beban el agua cuando jueguen en la bañera.

Studies done by the Centers for Disease Control and Prevention show that parents can continue bathing their children in the tub...
Estudios realizados por los Centros de Control y Prevención de Enfermedades muestran que los padres pueden seguir bañando a sus hijos en la bañera…

However, if levels of chlorine or other cleaners are high in the water…

Sin embargo, si los niveles de cloro u otros productos de limpieza son altos en el agua…

Atención: Establecimientos de comidas que utilizan el suministro de agua de la Ciudad de Flint

Estimado Operador del Establecimiento de Comidas:

El 5 de octubre de 2015 le fue enviado un documento recomendando acciones a seguir para evitar el riesgo de servir a sus clientes agua contaminada con plomo. Efectivizado inmediatamente, las recomendaciones se convirtieron en un requisito legal, y esta medida ejecutiva de licencias para establecimientos de comidas podrá ser aplicada si se encuentra que no se cumplió, hasta que la declaración de emergencia de salud pública sea anulada.

Lea la ficha de requisitos actualizada que se encuentra adjunta. Es posible que su establecimiento deba tomar medidas inmediatas para cumplir con este requisito.

Su establecimiento cuenta con tres opciones:

1. Demostrar que su establecimiento no está usando el suministro de agua de la Ciudad de Flint para beber, procesar o cocinar.
2. Demostrar que su agua fue examinada y es de uso seguro. Puede solicitar un examen gratuito a un oficial de regulación. Para programar una recolección y análisis gratuito del nivel de plomo en el agua de su establecimiento, comuníquese al 1-800-292-3939, de lunes a viernes, e informe que posee un "establecimiento de comidas en Flint que solicita un examen del agua". Prepárese para brindar un tiempo para las muestras luego de que todo el sistema de agua no haya sido usado durante por lo menos 6 horas. Las citas para las muestras están disponibles entre las 5 AM y las 4 PM. Las oficinas estatales estarán cerradas el 18 de enero de 2016.
3. Instale filtros de agua según sea necesario, y deje correr agua diariamente en aquellos grifos sin filtros y equipos de plomería pesada. (El uso discontinuo, dejar correr el agua, etc. aún será necesario hasta que se obtenga una prueba segura del agua).

Los inspectores del Michigan Department of Agriculture and Rural Development le están brindando asistencia al Genesee County Health Department para la conducción de muestras e inspecciones, de modo que es posible que usted deba trabajar con otra persona en lugar de su inspector de seguridad alimentaria habitual. Los inspectores también realizarán visitas a establecimientos en las próximas semanas, para brindar asistencia y verificar el cumplimiento de las medidas.

Para acceder a información adicional, comuníquese al 1-800-292-3939, o para acceder a la información más reciente sobre las respuestas en relación al agua de Flint, visite www.michigan.gov/flintwater. Esperamos poder ayudarle de cualquier forma posible.

Atentamente,

Kevin Besey, Director
Food and Dairy Division
(División de Alimentos y Lácteos)
Michigan Department of Agriculture and Rural Development

Agregado de Fosfato al Agua de Flint

¿Por qué hay plomo en el agua de algunos hogares?

- Las tuberías, soldaduras y grifos de plomo solían ser de uso común. Ahora sabemos que el plomo puede dañar nuestra salud.
- Es muy probable que en las casas construidas antes del año 1987 haya tuberías de desagüe y tuberías de suministro de plomo. Algunos grifos y ciertos tipos de soldaduras también podrían tener plomo, incluso aquellos instalados recientemente.
- Es probable que el plomo encontrado en el agua de los grifos de los hogares de Michigan provenga de tuberías antiguas, soldaduras y grifos.
- El reemplazo de tuberías de suministro antiguas, tuberías de desagüe y grifos es la única forma segura de limitar el plomo en el grifo de agua.
- Las tuberías, soldaduras y grifos nuevos deben cumplir con los estándares de producto libre de plomo de EPA.

¿Por qué estamos colocando fosfato en el agua?

- Durante años, los minerales de nuestra agua se acumularon dentro de nuestras tuberías de agua.
- Esta acumulación de minerales se llama sarro.
- Este sarro ayuda a mantener una gran cantidad de plomo, en las tuberías, fuera del agua.
- Si algo le sucede al sarro y el agua puede tocar las tuberías, el plomo se puede introducir en el agua.
- Agregar fosfato al agua ayuda a formar y mantener sarro, recolectándose en los costados de las tuberías y adhiriéndose al metal.

Pista sobre el Fosfato

- El fósforo es un mineral natural que el cuerpo necesita. Funciona con calcio para mantener los huesos fuertes y sanos.
- El fosfato es un tipo de sal que contiene fósforo.
- Aunque el agua potable de Detroit ya cuenta con fosfato, se está agregando una cantidad adicional al agua de la Ciudad de Flint para ayudar a agregar sarro en las tuberías.
- La Ciudad de Flint, MDEQ, y EPA trabajaron juntos para averiguar cuánto fosfato adicional es necesario en el agua que llega a los hogares de Flint.

- La mayoría de las personas probablemente ya comen y beben más fosfato en sus comidas diarias que la pequeña cantidad que se encontrará en el agua del grifo.
- Continúe usando filtros de agua que eliminen el plomo, hasta que se retire la Declaración de Emergencia de Salud Pública del Genesee County Health Department.

¿Qué es el ácido fosfórico?

Aunque el agua que viene de Detroit ya posee una cantidad de fosfato, las plantas de Flint agregarán más para ayudar a acumular y mantener el sarro con mayor rapidez. Para obtener el fosfato necesario para que esto funcione, la Planta Potabilizadora de Agua de la Ciudad de Flint agregará algo llamado ácido fosfórico en el agua de la ciudad. El ácido fosfórico es un ingrediente alimenticio común en productos como cola o jugo.

El ácido fosfórico se disolverá rápidamente en el agua y se dividirá en dos partes, hidrógeno y fosfato. El hidrógeno se convertirá en parte del agua y el fosfato restante se asentará y adherirá a las paredes de las tuberías – acumulando sarro como en la imagen anterior.

Ante cualquier duda sobre el fosfato agregado en la Ciudad de Flint, comuníquese a la City of Flint Water Plant (Planta Potabilizadora de Agua de la Ciudad de Flint) al 810-787-6537.
Ante cualquier duda sobre el fosfato y su salud, comuníquese con el MDHHS al 1-800-648-6942.

27 de octubre de 2015

Estimado Padre,

Como ayuda para asegurar que los niños de Flint estén protegidos de la exposición al plomo, El Genesee County Health Department y el Michigan Department of Health and Human Services le brindan respuestas a las siguientes preguntas:

- ¿De dónde viene el plomo?
- ¿Qué puedo hacer para proteger a mi familia?
- ¿Debo hacer que mi hijo sea examinado?
- ¿Adónde puedo encontrar más información sobre el plomo?

¿De dónde viene el plomo?

Fueron encontrados niveles elevados de plomo en el agua potable de tuberías de plomo en la Ciudad de Flint. Los niños también pueden estar expuestos al plomo de pintura vieja, tierra, cerámica, cosméticos y juguetes y algunos remedios caseros. Los trabajos y pasatiempos de los adultos tales como reparación del auto, vitrales, fabricación de joyas y manejo de municiones también pueden poner a los niños en riesgo, si tocan prendas o juegan en áreas donde hay plomo. El plomo presenta un riesgo grave para la salud, especialmente en los niños pequeños quienes se envenenan al comer, beber o respirar plomo.

¿Se le debe hacer a mi hijo un examen de plomo en la sangre? Los niños que viven en la Ciudad de Flint, que viven en un hogar donde se usa agua de la Ciudad de Flint, o que asisten a la escuela, reciben cuidado de niños o con frecuencia pasan tiempo con un cuidador en la Ciudad de Flint deberán acceder a un examen de envenenamiento con plomo.
Esto se deberá realizar lo antes posible.

¿Adónde debo ir para que se le haga un examen de plomo en la sangre a mi hijo?

El mejor lugar para realizar el examen de plomo en la sangre a su hijo es el consultorio de su médico. Los exámenes son cubiertos por la mayoría de los planes de salud. Su médico hará con usted el seguimiento de los exámenes médicos y le brindará información sobre qué hacer a continuación. Su hijo también puede acceder a un examen de plomo gratuito en el Genesee County Health Department. Si necesita transporte, comuníquese al 2-1-1 para solicitar ayuda.

Entendiendo el resultado del examen de plomo de su hijo.

Un nivel de plomo debajo de 5 significa que hay poco plomo en la sangre de su hijo. Use los siguientes consejos para ayudar a que su hijo se mantenga seguro. Su medico podrá sugerir un nuevo examen para su hijo dentro de los siguientes 12 meses, para asegurar que el nivel no haya subido.

Un nivel de plomo de 5 a 44 significa que su hijo tuvo cierta exposición al plomo. Trabaje con su medico y con el departamento de salud local para acceder a mayor orientación sobre cómo limitar su exposición al plomo. Su médico podrá volver a examinar a su hijo entre 1 y 3 meses después, para asegurar que el nivel no haya subido.

Los niños con niveles de plomo muy altos **(más de 44)** podrán requerir un tratamiento en el hospital.

¿Qué puedo hacer para mantener segura a mi familia?

Se deberán seguir estos pasos de inmediato para protegerse usted y a su hijo.

Cómo proteger a su familia del plomo en el agua:

- Solicite un examen de plomo en su agua. Es gratuito. Para más información, comuníquese al (810) 787-6537.
- Use un filtro de agua en su hogar. Llame al 2-1-1 para acceder a información sobre filtros de agua gratuitos Certificados por NSF.
- Sólo deje correr agua fría a través del filtro.
- Si no cuenta con un filtro de agua, consuma agua de botella o fórmula mezclada.
- Use agua filtrada o agua en botella para beber (incluyendo la preparación de café, mezclas de bebidas, jugo y formula de bebé), y la cocina (incluso aunque hierva el agua, el plomo permanecerá en el agua y la comida).
- Usted puede usar agua del grifo no filtrada para lavarse las manos y lavar los platos.
- Si deberá usar agua no filtrada para beber o cocinar, deje correr agua por el grifo durante cinco minutos antes de usar la misma.

Limpieza segura:

Una limpieza segura es importante. Mantener su casa limpia y segura de riesgos de plomo le ayudará a proteger a su familia.

- Es posible que las edificaciones construidas antes de 1978 posean pintura con plomo. Use toallas de papel húmedas para limpiar pedazos de pintura y polvo en estas edificaciones antiguas. Asegúrese de limpiar alrededor de las ventanas, áreas de juegos y pisos.
- Lávese las manos y lave los juguetes de forma frecuente con agua y jabón.
- Puede usar agua del grifo no filtrada para limpiar mesadas, fregar pisos y lavar ropa.

Buena nutrición:

Algunas comidas le ayudarán a evitar que el plomo se acumule en el cuerpo de un niño. Éstas son comidas con gran cantidad de calcio, hierro y vitamina C. Estas comidas incluyen:

Comidas Ricas en Calcio	**Comidas Ricas en Hierro**	**Comidas con Vitamina C**
➢ Leche	➢ Habas	➢ Naranjas
➢ Queso	➢ Carnes magras como pescado y pollo	➢ Jugo de naranja
➢ Yogurt	➢ Cereales integrales	➢ Pomelos
➢ Tofu	➢ Mantequilla de maní	➢ Tomates
➢ Espinaca		➢ Pimienta verde

Siempre lave la fruta con agua filtrada. Si está preocupado por la dieta de su hijo, hable con su médico, quien le podrá recomendar un multivitamínico diario.

WIC y SNAP brindan asistencia a los padres y niños que necesitan comidas frescas y saludables. Para más información, comuníquese a la **oficina del WIC del Condado de Genesee al (810) 237-4537**. SNAP también ofrece un programa de Double Bucks para adquirir incluso comidas más saludables sin costo adicional.

¿Adónde puedo encontrar más información sobre el plomo?

- Genesee County Health Department Lead Program
  (810) 257-3833
  www.gchd.us

- Michigan Department of Health and Human Services
  Childhood Lead Poisoning Prevention Program
  (Programa de Prevención del Envenenamiento Infantil con Plomo)
  (888) 322-4453
  www.michigan.gov/lead

- United States Environmental Protection Agency
  www.epa.gov/lead

- U.S. Centers for Disease Control and Prevention (CDC) Sitio web
  www.cdc.gov/nceh/lead

Estas recomendaciones tendrán efecto hasta que el Genesee County Health Department levante las restricciones sobre el uso del agua.

Atentamente,

Eden V. Wells, MD, MPH, FACPM
Director Médico Ejecutivo
Michigan Department of Health and Human Services

Gary K. Johnson, MD, MPH
Director Médico
Genesee County Health Department

30 de octubre de 2015

Estimado Proveedor:

Como posiblemente ya sepa por los informes de noticias recientes, altos niveles de plomo fueron encontrados en tuberías de plomo dentro del sistema de agua de la Ciudad de Flint.

Para ayudar a proteger a los niños de Flint del nivel de plomo actual en la exposición al agua, el Genesee County Health Department y el Michigan Department of Health and Human Services se están comunicando con usted para brindarle orientación y apoyo a sus familias.

Los niños pueden estar expuestos al plomo del agua potable que circula a través de las tuberías de plomo, plomo de pintura vieja, tierra, cerámica, cosméticos y juguetes y algunos remedios caseros. Los trabajos y pasatiempos de los adultos tales como reparación del auto, vitrales, fabricación de joyas y manejo de municiones también pueden poner a los niños en riesgo, si tocan prendas o juegan en áreas donde hay plomo.

Como proveedor principal de cuidado, usted cumple un rol crítico de ayuda para asegurar que sus hijos y familias expuestas al plomo reciban el cuidado y las garantías necesarias para manejar los posibles impactos sobre la salud por envenenamiento con plomo.

Identificación. Los niños que sufren envenenamiento con plomo con frecuencia no presentan síntomas externos. Sin embargo, síntomas clínicos tempranos pueden incluir anemia, anorexia, dolor abdominal y constipación. El plomo es una neurotoxina y la exposición a éste puede provocar conductas violentas y agresivas, llevar a desórdenes en el aprendizaje, causar Trastorno con Déficit de Atención por Hiperactividad (ADHD, según sus siglas en inglés) y se sabe que reduce el coeficiente intelectual entre 5 y 8 puntos con niveles tan bajos con 10 ug/dL. El plomo es metabolizado a través del sistema gastrointestinal de forma similar al hierro y el calcio, con un promedio de absorción que depende del tipo y peso del niño. La vida media del plomo en la sangre es corta (aproximadamente 1 mes), pero la vida media en el hueso se puede extender por décadas.

Debido a múltiples factores de riesgo que enfrentan muchos residentes de la Ciudad de Flint (incluyendo problemas en casas antiguas y la calidad del agua), recomendamos que todos los niños menores de 6 años que viven en la Ciudad de Flint, o en hogares que usen agua de Flint, que asisten a la escuela o reciben cuidado de niños de Flint, o que pasen tiempo con un cuidador en la Ciudad de Flint, accedan a un examen de plomo en la sangre. El examen de plomo en la sangre debe ser realizado a través del médico de cabecera, para asegurar un seguimiento adecuado al corto o largo plazo. ***Se deberá alentar a las familias para que sus hijos sean examinados de inmediato, ya sea en los consultorios médicos o en el Genesee County Health Department.***

Manejo de los Niveles de Plomo en la Sangre. Se brinda la siguiente guía para el manejo de los niveles de plomo en la sangre de los niños:

- **BLL < 5 ug/dL**
  - Un nivel de plomo inferior a 5 mcg/dL no es típicamente una causa de preocupación.
  - Brinde educación y orientación anticipatoria para asegurar que los niveles de plomo no se eleven.
  - Considere un nuevo examen en 12 meses en base a los factores de riesgo y preocupaciones.

- **BLL >5 ug/dL**
  - **Los niños con resultados capilares de 5 ug/dL y superiores deberán acceder a una extracción de sangre venosa confirmatoria.**
  - Las familias deberán recibir una guía anticipatoria, consejos sobre nutrición, instrucciones sobre técnicas de limpieza segura y seguimiento de cuidado adecuado por parte de su proveedor principal.
  - Los servicios en el hogar que incluyen manejos de casos e investigaciones medioambientales están disponibles para todos los niños con niveles de plomo superiores a 5 ug/dL. Derive a los pacientes al Genesee County Health Department para el acceso a este servicio.
  - Los niños con resultados confirmados de exámenes venosos superiores a 5ug/dL dentro de los últimos 18 meses deberán volver a ser examinados en base a la política de Medicaid y las pautas de AAP. (Consulte la "Guía Rápida del Proveedor" adjunta). Si un niño no fue examinado nuevamente dentro de estos límites de tiempo, se recomienda un nuevo examen tan pronto como sea posible.
- **BLL > 44 ug/dL.**
  - **Los niños con resultados capilares de 5 ug/dL y superiores deberán acceder a una extracción de sangre venosa confirmatoria.**
  - Los niveles de plomo superiores a 44 ug/dL podrán requerir hospitalización. Para mayor orientación, consulte a un experto del Children's Hospital of Michigan en Detroit.
  - Las familias deberán recibir una guía anticipatoria, consejos sobre nutrición, instrucciones sobre técnicas de limpieza segura y seguimiento de cuidado adecuado por parte de su proveedor principal.
  - Los servicios en el hogar que incluyen manejos de casos e investigaciones medioambientales están disponibles para todos los niños con niveles de plomo superiores a 5 ug/dL. Derive a los pacientes al Genesee County Health Department para el acceso a este servicio.
  - Los niños con resultados confirmados de exámenes venosos superiores a 5ug/dL dentro de los últimos 18 meses deberán volver a ser examinados en base a la política de Medicaid y las pautas de AAP. (Consulte la "Guía Rápida del Proveedor" adjunta). Si un niño no fue examinado nuevamente dentro de estos límites de tiempo, se recomienda un nuevo examen tan pronto como sea posible.

Recordatorio: Todos los niños de 1 y 2 años con cobertura de Medicaid deberán ser examinados.

Cuidado de seguimiento. Como proveedores, hay pasos que ustedes pueden seguir para ayudar a sus familias:

1. Continúe informando y educando a las familias en relación a los riesgos del plomo y los pasos preventivos que pueden seguir para minimizar los riesgos.
2. Aliente a las familias a usar agua filtrada para beber, mezclar fórmula y lavar los platos. Las familias pueden comunicarse al 2-1-1 para acceder a información sobre filtros de agua Certificados por NSF gratuitos.
3. Una nutrición saludable es crítica para los niños expuestos al plomo. Asegúrese de que sus pacientes estén consumiendo dietas balanceadas altas en hierro, calcio y vitamina C. Ante cualquier preocupación sobre la nutrición, considere la recomendación de un multivitamínico con hierro. WIC y SNAP brindan asistencia a los padres y niños que necesitan comidas frescas y saludables. Para más información, comuníquese a la oficina del WIC del Condado de Genesee al (810) 237-4537. Además, SNAP ofrece un programa de Double Bucks que pueden brindar comidas saludables a un menor precio.
4. La alimentación de pecho representa una alta protección y es recomendada. Sin embargo, si el nivel de plomo en la sangre de la madre supera los 40 ug/dL o su nivel es superior a 20 ug/dL y el bebé tiene un nivel superior a 5 ug/dL, no se recomienda la alimentación de pecho.
5. Debido a que el plomo es una neurotoxina, los niños con envenenamiento de plomo necesitan un seguimiento longitudinal y podrán requerir servicios de intervención para el desarrollo y salud mental. Continúe monitoreando el desarrollo de sus pacientes en cada visita.

6. Considere servicios de cuidado y apoyo adicionales que beneficiarán a sus pacientes, tales como programas de visita al hogar para la niñez temprana, Early Head Start y Head Start. Llame al 2-1-1 para más información.

Recursos locales. Varios recursos locales están disponibles para usted y sus pacientes:

- Examen de sangre. Se alienta a los pacientes a comunicarse con su proveedor principal para un examen. El Genesee County Health Department también administra exámenes de plomo. Los pacientes que necesiten transporte se deberán comunicar al 2-1-1 para solicitar ayuda.
- Examen del agua. El examen del agua es gratuito a través de la Planta de Evaluación del Agua de la Ciudad de Flint. Para más información, los pacientes se pueden comunicar al (810) -787-6537.
- WIC y SNAP brindan asistencia a los padres y niños que necesitan comidas frescas y saludables. Para más información, comuníquese a la oficina del WIC del Condado de Genesee al (810) 237-4537.
- Desarrollo infantil. Ante cualquier duda sobre el crecimiento, desarrollo o aprendizaje del niño, comuníquese al 2-1-1 para consultar sobre el Home Visiting Program (Programa de Visitas al Hogar) en su área.

Samples must be received in the laboratory within 14 days of collection.

DRINKING WATER LEAD AND COPPER SAMPLING INSTRUCTIONS

Thank you for helping to monitor for lead and copper in your drinking water.

It is important that you follow these instructions so we obtain an accurate measurement of the lead and copper in your drinking water.

Do not open the bottle until instructed in step 3. Do not touch the inside of cap or bottle.

1. **The water in the house must not have been used for a minimum of six (6) hours prior to sampling.** The best times to sample are early morning or after returning from work. **Do not flush the sample tap before sample collection.**

2. **Select a cold water faucet** in the **KITCHEN** or **BATHROOM** that is commonly used for drinking and has been used within the last 24 hours. **No other faucets are acceptable for collection.** If the faucet is connected to a faucet mount filter, water softener, iron filter or reverse osmosis system, etc. the treatment device must be removed or bypassed.

When was the faucet last used before sampling? Date _____ TIME _____ AM/PM

Is there a faucet-mount filter? ☐ YES ☐ NO If YES, was it bypassed? ☐ YES ☐ NO

Is this faucet connected to a home treatment device such as a water softener, a reverse osmosis unit, an iron removal device OR is any kind of additive used in the home? ☐ YES ☐ NO

If YES, please describe: _____

If YES, was it bypassed? ☐ YES ☐ NO

3. Open sample bottle and place below the faucet and gently open the **COLD** water tap. If you have a single handle faucet, turn it fully to the **COLD** side. Fill the sample bottle to within an inch of the top with the "first draw" of **COLD** water.

4. Tightly cap the sample bottle

If any plumbing repairs or replacement has been done in the home since the previous sampling event, please note this information here:

If YES, please describe: _____

5. Fill out the collection information on the front, answer the questions below and sign the form.

6. Attach this form to the bottle and return it to either **Flint City Hall or the Flint Water Plant**.

7. Thank you again for your help. We will send you your individual results within 30 days of receiving them from the laboratory. A summary of information on this year's lead and copper monitoring will be printed in the annual water quality report that will be made available by July 1 of this year. Contact your water supply if you have questions.

If you have any questions contact:

City of Flint Water Plant 4500 N. Dort Hwy. Phone: 810-787-6537 ext. 3501

I have read the Drinking Water Lead and Copper Sampling Instructions and have taken a tap sample in accordance with these directions.

FLINT WATER RESPONSE TEAM

www.michigan.gov/flintwater

LEAD IN FLINT WATER

GENERAL INFORMATION

- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - o Even small amounts of lead can harm kids' health because they are still growing.
  - o Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
  - o You can receive a free a NSF-approved filter if you use City of Flint water.
  - o Call 2-1-1 to find out where you can pick up a free water filter.
- Some filters can remove up to 99 percent of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - o Run only cold water through the filter.
  - o Change the filter cartridge as often as the instructions say.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop.
- Lead is hard to avoid completely. It can be found in water pipes and brass water faucets, old paint, in dirt, at some job sites, and in metal used for some hobbies.

There are a number of steps you can take to keep yourself and your family healthy. Use the tips below to learn more about how to stay healthy:

LEAD IN WATER

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- You can't see, smell, or taste lead in water.
- Lead won't change the color of your water.
- The only way to know what your home's lead levels are is by having your water tested.

LEAD IN BLOOD

- If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
- You should contact your doctor about testing.
- Testing is available for free at the Genesee County Health Department. Call 2-1-1 if you need help getting there.
- If you are pregnant or nursing, and you have tested negative for high blood-lead levels, it is safe to breastfeed.
- If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

WATER FILTERS

- Get your water tested. It's free. Call 2-1-1.
- Use a water filter. Call 2-1-1 for a free filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use cold, filtered water for cooking.
- Wash fruits and vegetables with filtered water.
- If you must use unfiltered water, run the water for at least five minutes before you use it. To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.
- Drain and flush your water heater tanks regularly to remove any lead that has accumulated. Follow manufacturers instructions for maintenance or contact a licensed professional for assistance.

CLEANING

- Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- It is safe to wash clothes in your washer and dryer.
- Use door mats. Take your shoes off when indoors.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean windowsills and play areas often with paper towels and soapy water.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

IN THE BATHROOM

- Use filtered tap water to brush your kids' teeth.
- Adults can use unfiltered tap water to brush their teeth.
- You can use unfiltered tap water to shower or bathe, but don't let kids drink the water when they play in the tub.
- Studies done by the Centers for Disease Control and Prevention show that parents can continue bathing their children in the tub but bath time should be used for bathing only, rather than allowing children to play in the water for a long time.
- Lead will not cause rashes or other skin problems. However, if levels of chlorine or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

CARING FOR PETS

- Use filtered tap water for your family pets' water bowls.
- You can use unfiltered tap water to bathe your pets.
- If you notice your pet acting differently than normal, contact your vet.

HEALTHY DIET

- Eat foods high in iron, calcium and vitamin C.
- Wash hands with soap and warm water before eating.
- If you need fresh and healthy food, call the WIC office at 810-237-4537, or for SNAP food assistance apply at www.michigan.gov/mibridges or visit your local Michigan Department of Health and Human Services office.

GOOD SOURCES OF IRON INCLUDE:

- Lean red meats, fish, and chicken
- Cereals with added iron
- Dried fruits (raisins, prunes)

GOOD SOURCES OF CALCIUM INCLUDE:

- Milk
- Yogurt
- Cheese
- Green leafy vegetables (spinach, kale, collard greens)

GOOD SOURCES OF VITAMIN C INCLUDE:

- Oranges, orange juice
- Grapefruit, grapefruit juice
- Tomatoes, tomato juice
- Green peppers

LEAD INFO

The Flint water response team is focused on the lead in water crisis. In additon to water, scientists have long been concerned about all sources of lead including lead paint, dust, soil, etc.

LEAD PAINT

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

DIRT

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

DUST

- The dust in your home can have tiny amounts of lead from paint and dirt.

HOBBIES AND JOBS

- Solder, fishing sinkers, bullets, and stained glass framing materials are some items that may contain lead. You could also track home lead dust from your job site.

HAVE QUESTIONS?

- For more information about protecting yourself and your family from lead, visit www.michigan.gov/flintwater.
- To find out where you can get a free water filter, call 2-1-1.
- For a free water test, call 2-1-1.
- For more information about lead in your home and what you can do, call the Michigan Department of Health and Human Services at 1-800-648-6942.
- For information on how to help, visit www.helpforflint.com.

Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
Filtre el agua potable utilizando un filtro aprobado por la National Sanitation Foundation (NSF).

Call 2-1-1 to find out where you can pick up a free water filter.
Llame al 2-1-1 para averiguar adónde puede retirar un filtro de agua gratuito.

Some filters can remove up to 99 percent of the lead in water when used properly.
Algunos filtros pueden eliminar hasta el 99% del plomo en el agua cuando se utilizan correctamente.

To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
Para asegurarse de que su filtro está eliminando la mayor cantidad de plomo posible, siga cuidadosamente las instrucciones enviadas con éste.

Run only cold water through the filter.
Deje correr agua fría a través del filtro solamente.

Change the filter cartridge as often as the instructions say.
Cambie el cartucho del filtro tan a menudo como lo indiquen las instrucciones.

Even after changes to the water system, it may take a while before lead levels in your home's water drop.
Incluso después de los cambios en el sistema de agua, puede tomar un tiempo antes de que los niveles de plomo en el agua se reduzcan.

Although your water may be a different color sometimes, it is not caused by lead.
Aunque el agua a veces puede ser de un color diferente, esto no es causado por el plomo.

Lead won't change the color of your water.
El plomo no cambiará el color del agua.

The only way to know what your home's lead levels are is by having your water tested.
La única manera de saber cuáles son los niveles de plomo en su hogar es haciendo examinar el agua.

LEAD IN BLOOD
PLOMO EN LA SANGRE

If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
Si sus hijos viven en Flint o van a la escuela o a una guardería en la ciudad de Flint, sus niveles de plomo en la sangra deben ser examinados.

You should contact your doctor about testing.
Debe comunicarse con su médico para realizarse un examen.

Testing is available for free at the Genesee County Health Department.
El examen está disponible de forma gratuita en el Departamento de Salud del Condado de Genesee.

If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.
Si está embarazada o amamantando y ha dado positive en los niveles altos de plomo en la sangre, hable con su médico acerca de la seguridad de la lactancia materna.

Get your water tested.
Haga examinar el agua de su casa.

Call 2-1-1 for a free filter.
Llame al 2-1-1 para solicitar un filtro gratuito.

To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.
Para ahorrar tiempo y agua en el futuro, es una buena idea llenar tantos envases como sea posible, una vez que haya dejado correr el agua durante cinco minutos.

Drain and flush your water heather tanks regularly to remove any lead that has accumulated.
Drene y purgue los tanques de su calentador de agua regularmente, para eliminar cualquier plomo que haya quedado acumulado.

Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
Lave platos, botellas y juguetes con agua no filtrada y jabón y deje que se sequen antes de su uso.

It is safe to use unfiltered tap water to mop floors and wipe down countertops.
Es seguro usar el agua del grifo sin filtrar para limpiar pisos y mesadas.

Take your shoes off when indoors.
Quítese los zapatos cuando esté dentro.

Vacuuming carpets may pull more lead dust to the surface.
Aspirar alfombras puede levantar más polvo de plomo sobre la superficie.

Use a non-motorized sweeper to clean carpets.
Utilice una barredora no motorizada para limpiar alfombras.

Clean windowsills and play areas often with paper towels and soapy water.
Limpie alféizares y áreas de juego a menudo con toallas de papel y agua con jabón.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD
CONSEJOS PARA MANTENER SU HOGAR PROTEGIDO DEL PLOMO

Adults can use unfiltered tap water to brush their teeth.
Los adultos pueden usar el agua del grifo sin filtrar para lavarse los dientes.

You can use unfiltered tap water to shower or bathe, but don't let kids drink the water when they play in the tub.
Se puede utilizar agua del grifo sin filtrar para bañarse, pero no deje que los niños beban el agua cuando jueguen en la bañera.

Studies done by the Centers for Disease Control and Prevention show that parents can continue bathing their children in the tub...
Estudios realizados por los Centros de Control y Prevención de Enfermedades muestran que los padres pueden seguir bañando a sus hijos en la bañera…

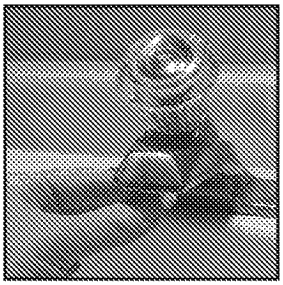
Keeping Your Home Lead-Safe
Clean Your Aerators

MDHHS Michigan Department of Health & Human Services

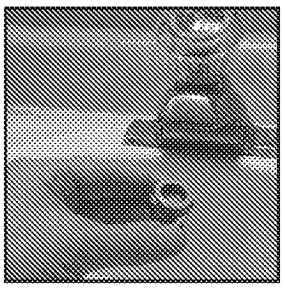
What can you do to keep your home lead-safe?



- Homes built before 1987 are more likely to have lead service lines and pipes. Some faucets and certain kinds of solder could also have lead in them, even those installed recently.
- The lead found in tap water in homes around Michigan is likely from these older pipes, solder, and faucets. You can have your water tested to see if it has lead in it.
- Replacing old pipes, service lines, and faucets is the best way to limit the lead in your tap water. New pipes, solder, and faucets should meet EPA lead-free standards.
- If you can't replace your pipes and faucets, please use an NSF-approved filter for all water that you drink or cook with. You can get a filter that attaches to your sink faucet or you can use a pitcher with a filter inside it. If you live in Flint, call 211 to find out where you can get a free faucet filter, replacement filter cartridges, or a water filter pitcher.

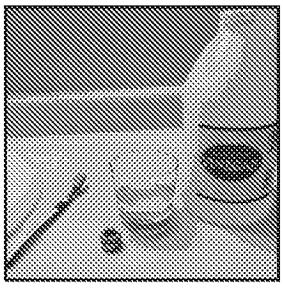
For bathrooms or other places where you don't have a filter:

When pipes are old, they break apart more easily. Sometimes pipes break completely; sometimes they just get new cracks. This can cause bits of lead pipe to end up in our home's water. There are screens - called aerators - on our faucets that sometimes stop the larger pieces from coming out. Aerators do help us save water - so it's good to have them - but cleaning them once in awhile is a way to limit the lead that could end up in your water.



Follow the steps below to learn how to clean your aerators:

1.

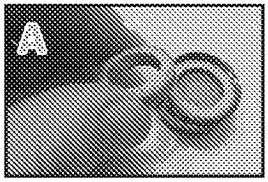


- The little round thing on the bottom of your faucet is the aerator (pronounced: *air-raytor*).
- Unscrew the aerator from the bottom of the faucet.
- You should be able to unscrew it with your fingers, but you might need a wrench if it's really stuck.

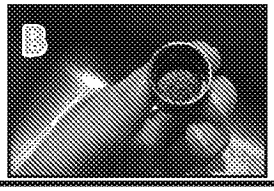
2.

- Your aerator might not look exactly the same as this, but it's OK.
- Now that you have it off, let's get started!

3.

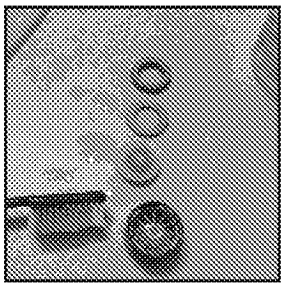


- While you really only need to use water to rinse off your aerator parts, if you have these things around, they might make it easier:
  - An old toothbrush
  - A glass of vinegar



4.

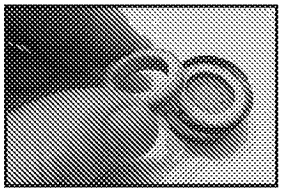
- Soaking the aerator in vinegar will help loosen up some of the grime. You can leave it in as long as you want, but even just 5 minutes will help.
- The toothbrush makes it easy to scrub out the inside. Just don't use that toothbrush for brushing your teeth again!



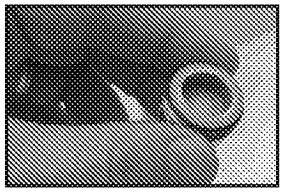
5.

- If your aerator looks like Photo A, it has a flow control piece in it. You'll have to take it apart:
  - Pull out the pieces carefully.
  - Note the order that the pieces come out. Take a picture or write down some notes. You'll have to put them back in at the end in the same way!
- If it looks like Photo B, then you're good to go to Step 6.

6.

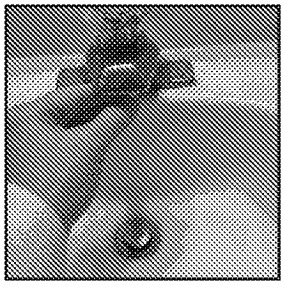


- You might not have all of these pieces. They might not be this color. Every aerator is a little different. Just clean what you have.
- Scrub all of the pieces. Make sure you really get down inside the metal piece, removing any bits of grime or metal flakes you can see.



7.

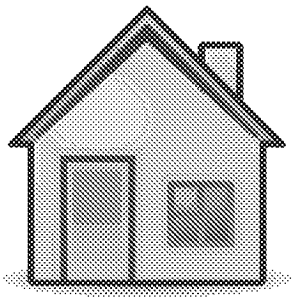
- Rinse everything very well.
- Run the water through the aerator screen - holding it right side up and upside down.



8.

- Once it's clean,
  - If your aerator looks like Photo A up above, put it back together.
  - If it looks like Photo B, you're all set.

9.



- Put your aerator back on your faucet.
- Repeat these steps every couple of weeks. This will make sure pieces of lead and other metal from any pipes aren't getting stuck in your faucet and possibly putting lead into your water.

CRISIS EMERGENCY RISK COMMUNICATION

The Six Principles of CERC

Be First: If the information is yours to provide by organizational authority—do so as soon as possible. If you can't—then explain why you can't (e.g., it's classified)--or the process you are using to get needed information to those involved.

Be Right: Give facts in increments. Tell people what you know when you know it, tell them what you don't know, and tell them *if* you will know relevant information later.

Be Credible: Tell the truth. Do not withhold to avoid embarrassment or the possible "panic" that seldom happens. Uncertainty is worse than not knowing—rumors are more damaging than hard truths.

Express Empathy: Acknowledge in words what people are feeling—it builds trust. "We understand this is worrisome."

Promote Action: Give people things to do. It calms anxiety and helps restore order.

Show Respect: Treat people the way you want to be treated—the way you want your loved ones treated—always—even when hard decisions must be communicated.

For more information or to request CERC materials, please contact CDC's Barbara Reynolds, Ph.D. at CERCrequest@cdc.gov

CRISIS EMERGENCY RISK COMMUNICATION

CDC CERC: 10 Communication Dos and Don'ts for the Crisis Leader

1. ***Do express empathy***. Empathy, the ability to take another's perspective, allows the leader to take an active role in supporting, consoling, and persuading others to the benefit of everyone involved in the disaster recovery. While many leaders may believe that societal norms forbid them from expressing empathy, in fact, leadership research suggests that relating to others is a key to moving others toward prosocial behaviors even if the actions involve sacrifice.

2. **Do model prosocial behavior**. People learn through observation. Modeling good behavior is an important way to cultivate personal and collective efficacy. When under threat, people with high self-efficacy perform difficult activities despite feeling anxious. Model the behavior one seeks from others.

3. **Do raise self-efficacy beliefs**. Self-efficacy increases survival after a disaster and leaders can influence individual and group efficacy. Expressing faith in the competence of followers can raise their self-efficacy as can directing them to take actions that the leader is certain followers can accomplish such as "make a list of the medications you and your family are taking." Mastering simple steps increases the effort and length of time people put forth toward more difficult tasks.

4. **Do value honesty and openness**. Without credibility a leader cannot lead. People will look for fairness and restraint in the use of power. Today, information technology makes withholding information dangerous and futile, and leaders will risk the trust others have in them.

5. **Do collaborate**. Organizations will face crises, but they do not have to face them alone. With effective planning and networking, a leader will have the necessary responses outlined and the relationship networks needed to carry them out.

6. **Do understand media's role**. People seek information from multiple sources and information does not have to come from interpersonal sources to be deemed valid. The media influence people directly. The value of information sources depends on their reliability in providing

information useful to the person. Recognize that the media's perspective "what does this mean to me?" is useful in crafting relevant messages during a crisis.

7. ***Do not lie***. Trust is hard won and easily lost. A lie puts the leader, the leader's organization, and the well-being of followers at risk. Followers may reject valid counsel if the source is caught lying. Withholding can be seen as deceptive.

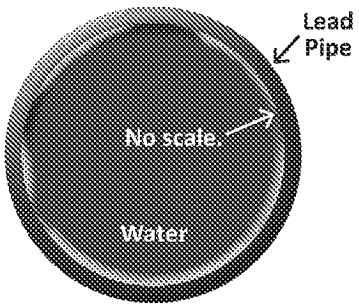
8. ***Do not procrastinate***. Crises demand action. Leaders must adapt, make rapid decisions, and provide useful information quickly to followers. Lack of news will turn into speculation.

9. ***Do not be invisible***. In a crisis, the leader should be accessible and should appear to share the risk. Do not wait for information to be final to begin to speak; instead, remind the public that the situation is fluid. A leader's presence can be reassuring to followers.

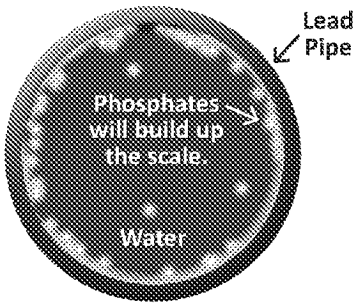
10. ***Do not be paternalistic***. Empower followers and express confidence in them. Be careful not to imply that "father knows best" and that the facts are too difficult for them to understand. When a decision is made, explain the basis for that decision. Give people choices if possible.

For more information on CERC leadership or to order free CERC materials, please contact CDC's Barbara Reynolds, Ph.D., at bsr0@cdc.gov (9/13)

Adding Phosphate to Flint Water



Genesee County Health Department



MDHHS Michigan Department of Health & Human Services

Why is there lead in some homes' water?

- Lead pipes, solder, and faucets used to be common. We now know that lead can harm our health.
- Homes built before 1987 are more likely to have lead service lines and pipes. Some faucets and certain kinds of solder could also have lead in them, even those installed recently.
- The lead found in tap water in homes around Michigan is likely from these older pipes, solder, and faucets.
- Replacing old pipes, service lines, and faucets is the only sure way to limit the lead in your tap water.
- New pipes, solder, and faucets should meet EPA lead-free standards.

Why are we putting phosphate in the water?

- Over the years, minerals in our water have built up inside our water pipes.
- This mineral build-up is called scale.
- This scale helps to keep a lot of lead from the pipes out of our water.
- If something happens to the scale and the water can touch the pipes, lead can get into the water.
- Adding phosphate to the water helps build and maintain scale by collecting on the sides of the pipes and sticking to the metal.

Learn About Phosphate

- **Phosphorus is a natural mineral that your body needs. It works with calcium to keep your bones strong and healthy.**
- **Phosphate is a type of salt that has phosphorus in it.**
- **Although there already is phosphate in the Detroit drinking water, extra phosphate is being added to the water in the City of Flint to help put more scale in the pipes.**
- **The City of Flint, MDEQ, and the EPA worked together to find how much more phosphate is needed in the water going to Flint homes.**
- **Most people likely already eat and drink more phosphate in everyday food than the very small amount that will be found in the tap water.**
- **Continue to use water filters that remove lead until the Genesee County Health Department's Public Health Emergency Declaration is removed.**

What is Phosphoric Acid?

Although there is already some phosphate in the water we get from Detroit, Flint plans to add more to help build up and maintain the scale faster. To get the phosphate needed for this to work, the City of Flint Water Plant will be adding something called *phosphoric acid* to the city's water. Phosphoric acid is a common food ingredient in things like cola or juice.

The phosphoric acid will quickly dissolve in the water and break down into two parts - hydrogen and phosphate. Hydrogen will become a part of the water and the leftover phosphate will settle out and stick to the walls of the pipes - building up scale like in the picture above.

If you have questions about the phosphate being added to City of Flint water, please call the City of Flint Water Plant at 810-787-6537.

If you have questions about phosphate and your health, please call MDHHS at 1-800-648-6942.

Subject: Palm Cards

Hi Mark –

DTMB just received another request to have 25,000 Palm Cards printed in English-same paper/size/color as requested previously. Delivered to the Bell Warehouse at 4315 N. Clio Road, Flint 48504, attention Bonnie S.

Do you have the updated version of the palm card with the change from water resource centers to water resource sites? If not I'll get it from Trevor.

Jeanette

HOW TO RECYCLE WATER BOTTLES AND WATER FILTERS IN FLINT

Curbside Pickup Instructions

Republic Services provides bi-weekly curbside recycling at no additional cost to residents who already have weekly trash collection services.

1)**To get a blue recycling bin, call 1-800-438-0966** (M-F, 8a.m.-5p.m., or Sat., 8a.m.-12p.m.) to request a bin to be delivered to your house.

2)Until you get your bin, Republic Services allows bottles to be placed in clear plastic bags. Do not put trash in the same bag as the bottles.

3)Until you get your bin, set the clear bags on the curb on your trash day a few feet from your trash. Once you get your bin, set it out on recycling day.

4)You can also drop your bag off at one of the drop-off locations around the city.

What should I do with the used cartridge in my water filter?

1) When your PUR or Brita filter needs to be changed, take the used cartridge to a distribution site.

2) Place the used cartridge in the box provided at the site.

3) Pick up a replacement cartridge.

ALL BOTTLES DROPPED OFF MUST BE IN CLEAR PLASTIC BAGS
No solid color or grocery bags accepted

Samples must be received in the laboratory within 14 days of collection.

DRINKING WATER LEAD AND COPPER SAMPLING INSTRUCTIONS

Thank you for helping to monitor for lead and copper in your drinking water.

It is important that you follow these instructions so we obtain an accurate measurement of the lead and copper in your drinking water.

Do not open the bottle until instructed in step 3. Do not touch the inside of cap or bottle.

1. **The water in the house must not have been used for a minimum of six (6) hours prior to sampling.** The best times to sample are early morning or after returning from work. **Do not flush the sample tap before sample collection.**

2. **Select a cold water faucet** in the **KITCHEN** or **BATHROOM** that is commonly used for drinking and has been used within the last 24 hours. **No other faucets are acceptable for collection.** If the faucet is connected to a faucet mount filter, water softener, iron filter or reverse osmosis system, etc. the treatment device must be removed or bypassed.

When was the faucet last used before sampling? Date _____ TIME _____ AM/PM

Is there a faucet-mount filter? ☐ YES ☐ NO If YES, was it bypassed? ☐ YES ☐ NO

Is this faucet connected to a home treatment device such as a water softener, a reverse osmosis unit, an iron removal device OR is any kind of additive used in the home? ☐ YES ☐ NO

If YES, please describe: _____

If YES, was it bypassed? ☐ YES ☐ NO

3. Open sample bottle and place below the faucet and gently open the **COLD** water tap. If you have a single handle faucet, turn it fully to the **COLD** side. Fill the sample bottle to within an inch of the top with the "first draw" of **COLD** water.

4. Tightly cap the sample bottle

If any plumbing repairs or replacement has been done in the home since the previous sampling event, please note this information here:

If YES, please describe: _____

5. Fill out the collection information on the front, answer the questions below and sign the form.

6. Attach this form to the bottle and return it to either **Flint City Hall or the Flint Water Plant**.

7. Thank you again for your help. We will send you your individual results within 30 days of receiving them from the laboratory. A summary of information on this year's lead and copper monitoring will be printed in the annual water quality report that will be made available by July 1 of this year. Contact your water supply if you have questions.

If you have any questions contact:

City of Flint Water Plant 4500 N. Dort Hwy. Phone: 810-787-6537 ext. 3501

I have read the Drinking Water Lead and Copper Sampling Instructions and have taken a tap sample in accordance with these directions.

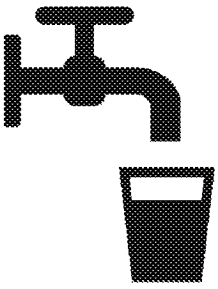
Genesee County Health Department

Frequently Asked Questions About Lead in Flint Water

MDHHS Michigan Department of Health & Human Services

- Lead is hard to avoid completely. It can be found in old paint, water pipes and brass water faucets, in dirt, at some job sites, and in metal used for some hobbies.
- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - Even small amounts of lead can harm kids' health because they are little and still growing.
  - Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a NSF-approved filter.
  - Find a NSF-approved filter at http://www.gchd.us/docs/lead_filter_information.pdf.
  - If you use City of Flint water, you can call 211 to find out where you can pick up a free water filter.
- Some filters can remove up to 99% of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - Change the filter cartridge as often as you should.
  - Run only cold water through the filter.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop. Use the tips below to know when it's best to use filtered water:



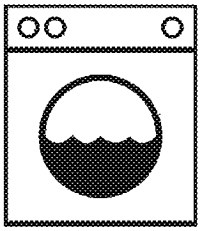
Lead in Water

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- **You can't see, smell, or taste lead in water.**
- **Lead won't change the color of your water.**
- **The only way to know what your home's lead levels are is by having your water tested in a lab.**

Please call the Flint Water Department at 810-787-6537 to request a free or low-cost water test.

In The Kitchen



Use filtered tap water for:

- Drinking (including making coffee, drink mixes, juice, baby formula)
- Cooking (even if you boil the water, the lead will stay in the water and food)
- Washing fruits and vegetables

You can use unfiltered tap water for:

- Washing your hands
- Washing dishes
- Wiping down countertops

Cleaning

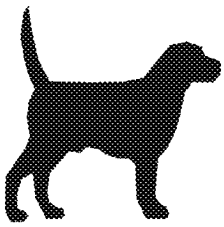
You can use unfiltered tap water for:

- Mopping floors
- Washing clothes

Your washing machine and dryer won't put lead from the water into the air of your home.

In the Bathroom

Use <u>filtered</u> tap water for:



- Brushing kids' teeth

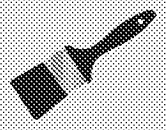
You can use <u>unfiltered</u> tap water for:

- Showers
- Baths (don't let kids drink the water as they play in the tub)
- Brushing your teeth (if you are an adult)

Lead will not cause rashes or other skin problems. However, if chlorine levels or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

Caring for Pets

Use <u>filtered</u> tap water for:



- Pets' water bowls

You can use <u>unfiltered</u> tap water for:

- Baths

If you notice your pet acting differently than normal, please contact your vet.

Other Sources of Lead in Your Home

Lead Paint

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

Dirt

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

Dust

- The dust in your home can contain tiny amounts of both the paint and the dirt that contain lead.

Hobbies & Jobs

- Solder, fishing sinkers, bullets, and stained glass framing materials are some of the items in your home that may contain lead. You could also track home lead dust from your job site.

Have Questions?

For more information about protecting yourself and your family from lead, please visit:

<u>www.michigan.gov/lead</u>

Or you can call the Michigan Department of Health and Human Services at:

1-800-648-6942

The staff at this number will help direct you to the best department that can answer your questions about lead in your home.

To request a free or low-cost water test, please call the Flint Water Department at:

1-810-787-6537

To find out if you can get a free water filter, please call 211.

PLOMO EN EL AGUA DE FLINT

INFORMACION GENERAL

- La cantidad de plomo que se encuentra en el agua potable en los hogares de Flint podría afectar la salud de los niños.
  - o Inclusa pequeñas cantidades de plomo pueden dañar la salud de los niños, ya que todavía están creciendo.
  - o Los adultos tienen menos probabilidades de ser perjudicados por los niveles encontrados en el agua.
- Filtre el agua potable utilizando un filtro aprobado por la National Sanitation Foundation (NSF).
  - o Usted puede recibir un filtro aprobado por NSF gratis, si utiliza agua de la Ciudad de Flint.
  - o Llame al 2-1-1 para averiguar adónde puede retirar un filtro de agua gratuito.
- Algunos filtros pueden eliminar hasta el 99% del plomo en el agua cuando se utilizan correctamente. Para asegurarse de que su filtro está eliminando la mayor cantidad de plomo posible, siga cuidadosamente las instrucciones enviadas con éste.
  - o Deje correr agua fría a través del filtro solamente.
  - o Cambie el cartucho del filtro tan a menudo como lo indiquen las instrucciones.
- Incluso después de los cambios en el sistema de agua, puede tomar un tiempo antes de que los niveles de plomo en el agua se reduzcan.
- El plomo es difícil de evitar por completo. Se puede encontrar en las tuberías de agua y grifos de agua de bronce, pintura vieja, en la tierra, en algunos lugares de trabajo, y en el metal usado en algunos pasatiempos.

Hay una serie de pasos que puede tomar para que usted y su familia estén saludables. Utilice los siguentes consejos para aprender más sobre cómo mantenerse saludable:

PLOMO EN EL AGUA

Aunque el agua a veces puede ser de un color diferente, esto no es causado por el plomo. Es importante recordar:

- Usted no puede ver, eler o saborear plomo en el agua.
- El plomo no cambiará el color del agua.
- La única manera de saber cuáles son los niveles de plomo en su hogar es haciendo examinar el agua.

PLOMO EN LA SANGRE

- Si sus hijos viven en Flint o van a la escuela o a una guardería en la ciudad de Flint, sus niveles de plomo en la sangra deben ser examinados.
- Debe comunicarse con su médico para realizarse un examen.
- El examen está disponible de forma gratuita en el Departamento de Salud del Condado de Genesee. Llame al 2-1-1 si necesita ayuda para llegar allí.
- Si está embarazada o amamantando, y ha dado negativo en los niveles altos de plomo en la sangre, es seguro amamantar.
- Si está embarazada o amamantando y ha dado positive en los niveles altos de plomo en la sangre, hable con su médico acerca de la seguridad de la lactancia materna.

CONSEJOS PARA MANTENER SU HOGAR PROTEGIDO DEL PLOMO

FILTROS DE AGUA

- Haga examinar el agua de su casa. Es gratis. Llame al 2-1-1.
- Utilice un filtro de agua. Llame al 2-1-1 para solicitar un filtro gratuito.
- Si usted no tiene un filtro de agua, utilice agua embotellada para beber y para mezclar fórmula.
- Use agua fría y filtrada para cocinar.
- Lave frutas y verduras con agua filtrada.
- Si tiene que usar agua sin filtrar, deje correr el agua durante cinco minutos antes de usarla. Para ahorrar tiempo y agua en el futuro, es una buena idea llenar tantos envases como sea posible, una vez que haya dejado correr el agua durante cinco minutos.
- Drene y purgue los tanques de su calentador de agua regularmente, para eliminar cualquier plomo que haya quedado acumulado. Siga las instrucciones de fabricante para el mantenimiento o póngase en contacto con un profesional autorizado para obtener ayuda.

LIMPIEZA

- Lave platos, botellas y juguetes con agua no filtrada y jabón y deje que se sequen antes de su uso.
- Es seguro usar el agua del grifo sin filtrar para limpiar pisos y mesadas.
- Es seguro lavar la ropa en la lavadora y secadora.
- Utilice un tapete en la puerta. Quítese los zapatos cuando esté dentro.
- Aspirar alfombras puede levantar más polvo de plomo sobre la superficie. Utilice una barredora no motorizada para limpiar alfombras.
- Limpie alféizares y áreas de juego a menudo con toallas de papel y agua con jabón.

CONSEJOS PARA MANTENER SU HOGAR PROTEGIDO DEL PLOMO

EN EL BAÑO

- Utilizar agua filtrada para cepillar los dientes de sus hijos.
- Los adultos pueden usar el agua del grifo sin filtrar para lavarse los dientes.
- Se puede utilizar agua del grifo sin filtrar para bañarse, pero no deje que los niños beban el agua cuando jueguen en la bañera.
- Estudios realizados por los Centros de Control y Prevención de Enfermedades muestran que los padres pueden seguir bañando a sus hijos en la bañera, pero la hora del baño se debe utilizar para el baño solamente, en lugar de permitir que los niños jueguen en el agua durante mucho tiempo.
- El plomo no causa erupciones u otros problemas de la piel. Sin embargo, si los niveles de cloro u otros productos de limpieza son altos en el agua, puede causar picazón en la piel o piel seca (similar a lo que puede suceder cuando usted nada en una piscina).

CUIDADO DE MASCOTAS

- Utilice agua filtrada del grifo para que su mascota beba en su tazón.
- Usted puede utilizar el agua del grifo sin filtrar para bañar a sus mascotas.
- Si usted nota que su mascota actúa de manera diferente de la normal, consulte a su veterinario.

DIETA SALUDABLE

- Coma alimentos ricos en hierro, calcio y vitamina C.
- Lávese las manos con jabón y agua tibia antes de comer.
- Si necesita alimentos frescos y saludables, llame a la oficina de WIC al 810-237-4537, o para la asistencia alimentaria "SNAP" aplique en www.michigan.gov/mibridges o visite su oficina local del Departamento de Salud y Servicios Humanos de Michigan.

BUENAS FUENTES DE HIERRO INCLUYEN:

- Carnes rojas desgrasadas, pescado y pollo
- Cereales con hierro añadido
- Frutas secas (pasas, ciruelas pasas)

BUENAS FUENTES DE CALCIO INCLUYEN:

- Leche
- Yogur
- Queso
- Verduras de hojas verdes (espinaca, col rizada, berza)

BUENAS FUENTES DE VITAMINA C INCLUYEN:

- Naranjas, jugo de naranja
- Toronja, jugo de toronja
- Tomates, jugo de tomate
- Pimientos verdes

INFORMACION DEL PLOMO

El equipo de respuesta de Flint esta enfocado en la crisis de plomo en la agua. Además del agua, cientificos, durante mucho tiempo, han estado preocupados por todas las fuentes de plomo, incluyendo la pintura con

PINTURA CON PLOMO

- Las casas construidas antes de 1978 probablemente tienen pintura con plomo, tanto dentro como fuera.
- La pintura vieja es la forma más común en que los niños son expuestos al plomo.

TIERRA

- Si usted vive en la ciudad, puede haber plomo en la tierra afuera de su casa.
- Antes de 1996, el gas y los gases de escape de los automóviles contenian plomo. Más plomo se encontrará en la tierra de áreas con tránsito intenso.

POLVO

- El polvo en su casa puede tener pequeñas cantidades de plomo de la pintura y suciedad.

AFICIONES Y EMPLEOS

- Las soldaduras, plomadas de pesca, balas y materiales que enmarcan los vitrales son algunos elementos que pueden contener plomo. Usted podría también llevar polvo con plomo a casa de su sitio de trabajo.

¿TIENE PREGUNTAS?

- Para más información sobre cómo protegerse usted y su familia del plomo, visit www.michigan.gov/flintwater.
- Para saber dónde puede obtener un filtro de agua gratuito, llame al 2-1-1.
- Para una examinación de su agua gratis, llame al 2-1-1.
- Para más información sobre el plomo en su casa y lo que puede hacer, llame al Departamento de Salud y Servicios Humanos de Michigan al 1-800-648-6942.
- Para obtener información sobre cómo puede ayudar, visite www.helpforflint.com.

Flint, MI 48507

USE FILTERED TAP WATER

- Drinking, cooking
- Brushing teeth
- Washing fruits and vegetables
- Pet water bowls

USE UNFILTERED TAP WATER

- Cleaning
- Bathing

BLOOD LEAD LEVEL TESTING

All Flint children less than six years of age should have their blood lead levels tested. Contact your primary care provider or call 2-1-1.

NUTRITION

Did you know that some foods will help keep lead from being stored in a child's body? These are foods with a lot of calcium, vitamin C and iron.

FREE WATER TESTING

Flint residents who are concerned about their water can obtain free water testing kits at the water resource sites.

USE WATER FILTERS & CARTRIDGES

Water filters can reduce lead and other contaminants by 99 percent when installed correctly. Free water filters are available at the water resource sites.

- Pimientos verdes

INFORMACION DEL PLOMO

El equipo de respuesta de Flint esta enfocado en la crisis de plomo en la agua. Además del agua, cientificos, durante mucho tiempo, han estado preocupados por todas las fuentes de plomo, incluyendo la pintura con

PINTURA CON PLOMO

- Las casas construidas antes de 1978 probablemente tienen pintura con plomo, tanto dentro como fuera.
- La pintura vieja es la forma más común en que los niños son expuestos al plomo.

TIERRA

- Si usted vive en la ciudad, puede haber plomo en la tierra afuera de su casa.
- Antes de 1996, el gas y los gases de escape de los automóviles contenian plomo. Más plomo se encontrará en la tierra de áreas con tránsito intenso.

POLVO

- El polvo en su casa puede tener pequeñas cantidades de plomo de la pintura y suciedad.

AFICIONES Y EMPLEOS

- Las soldaduras, plomadas de pesca, balas y materiales que enmarcan los vitrales son algunos elementos que pueden contener plomo. Usted podría también llevar polvo con plomo a casa de su sitio de trabajo.

¿TIENE PREGUNTAS?

- Para más información sobre cómo protegerse usted y su familia del plomo, visit www.michigan.gov/flintwater.
- Para saber dónde puede obtener un filtro de agua gratuito, llame al 2-1-1.
- Para una examinación de su agua gratis, llame al 2-1-1.
- Para más información sobre el plomo en su casa y lo que puede hacer, llame al Departamento de Salud y Servicios Humanos de Michigan al 1-800-648-6942.
- Para obtener información sobre cómo puede ayudar, visite www.helpforflint.com.

LEAD IN FLINT WATER

GENERAL INFORMATION

- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - o Even small amounts of lead can harm kids' health because they are still growing.
  - o Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
  - o You can receive a free a NSF-approved filter if you use City of Flint water.
  - o Call 2-1-1 to find out where you can pick up a free water filter.
- Some filters can remove up to 99 percent of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - o Run only cold water through the filter.
  - o Change the filter cartridge as often as the instructions say.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop.
- Lead is hard to avoid completely. It can be found in water pipes and brass water faucets, old paint, in dirt, at some job sites, and in metal used for some hobbies.

There are a number of steps you can take to keep yourself and your family healthy. Use the tips below to learn more about how to stay healthy:

LEAD IN WATER

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- You can't see, smell, or taste lead in water.
- Lead won't change the color of your water.
- The only way to know what your home's lead levels are is by having your water tested.

LEAD IN BLOOD

- If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
- You should contact your doctor about testing.
- Testing is available for free at the Genesee County Health Department. Call 2-1-1 if you need help getting there.
- If you are pregnant or nursing, and you have tested negative for high blood-lead levels, it is safe to breastfeed.
- If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

WATER FILTERS

- Get your water tested. It's free. Call 2-1-1.
- Use a water filter. Call 2-1-1 for a free filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use cold, filtered water for cooking.
- Wash fruits and vegetables with filtered water.
- If you must use unfiltered water, run the water for at least five minutes before you use it. To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.
- Drain and flush your water heater tanks regularly to remove any lead that has accumulated. Follow manufacturers instructions for maintenance or contact a licensed professional for assistance.

CLEANING

- Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- It is safe to wash clothes in your washer and dryer.
- Use door mats. Take your shoes off when indoors.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean windowsills and play areas often with paper towels and soapy water.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

IN THE BATHROOM

- Use filtered tap water to brush your kids' teeth.
- Adults can use unfiltered tap water to brush their teeth.
- You can use unfiltered water to shower or bathe, but don't allow water to get in kids' mouths.
- Studies reviewed by the Centers for Disease Control and Prevention show that parents can continue bathing their children in the tub but bath time should be used for bathing only, rather than allowing children to play in the water.
- Lead will not cause rashes or other skin problems. However, if levels of chlorine or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

CARING FOR PETS

- Use filtered tap water for your family pets' water bowls.
- You can use unfiltered tap water to bathe your pets.
- If you notice your pet acting differently than normal, contact your vet.

HEALTHY DIET

- Eat food sources of iron, calcium and vitamin C.
- Wash hands with soap and warm water before eating.
- If you need fresh and healthy food, call the WIC office at 810-237-4537, or for SNAP food assistance apply at www.michigan.gov/mibridges or visit your local Michigan Department of Health and Human Services office.

SOURCES OF IRON INCLUDE:

- Lean red meats, fish, chicken
- Cereals with added iron
- Dried beans and lentils

SOURCES OF CALCIUM INCLUDE:

- Milk
- Yogurt
- Cheese
- Calcium fortified orange juice
- Leafy green vegetables such as kale or turnip greens

SOURCES OF VITAMIN C INCLUDE:

- Oranges, orange juice
- Grapefruit, grapefruit juice
- Tomatoes, tomato juice
- Green peppers
- Potatoes

LEAD INFO

The Flint water response team is focused on the lead in water crisis. In addition to water, scientists have long been concerned about all sources of lead including lead paint, dust, soil, etc.

LEAD PAINT

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

DIRT

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

DUST

- The dust in your home can have tiny amounts of lead from paint and dirt.

HOBBIES AND JOBS

- Solder, fishing sinkers, bullets, and stained glass framing materials are some items that may contain lead. You could also track home lead dust from your job site.

HAVE QUESTIONS?

- For more information about protecting yourself and your family from lead, visit www.michigan.gov/flintwater.
- To find out where you can get a free water filter, call 2-1-1.
- For a free water test, call 2-1-1.
- For more information about lead in your home and what you can do, call the Michigan Department of Health and Human Services at 1-800-648-6942.
- For information on how to help, visit www.helpforflint.com.

Mark,

We have another request for printing for tomorrow. Details below:

Please print 200 copies of each of the three fliers in color and deliver to the Genesee County EOC at 1101 Beech Street, Flint MI. Deliver by 0800 2/5/16

Thanks,

Ryan McKee

TAKING ACTION ON FLINT WATER

www.mi.gov/FlintWater

WATER RESOURCE SITES

Visit a water resource site to receive bottled water, water filters, filter replacement cartridges and water testing kits at your nearest Flint fire station.

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

USE FILTERED TAP WATER

- Drinking, cooking
- Brushing teeth
- Washing fruits and vegetables
- Pet water bowls

USE UNFILTERED TAP WATER

- Cleaning
- Bathing

BLOOD LEAD LEVEL TESTING

All Flint children less than six years of age should have their blood lead levels tested. Contact your primary care provider or call 2-1-1.

NUTRITION

Did you know that some foods will help keep lead from being stored in a child's body? These are foods with a lot of calcium, vitamin C and iron.

FREE WATER TESTING

Flint residents who are concerned about their water can obtain free water testing kits at the water resource sites.

USE WATER FILTERS & CARTRIDGES

Water filters can reduce lead and other contaminants by 99 percent when installed correctly. Free water filters are available at the water resource sites.

PLOMO EN EL AGUA DE FLINT

INFORMACION GENERAL

- La cantidad de plomo que se encuentra en el agua potable en los hogares de Flint podría afectar la salud de los niños.
  - o Inclusa pequeñas cantidades de plomo pueden dañar la salud de los niños, ya que todavía están creciendo.
  - o Los adultos tienen menos probabilidades de ser perjudicados por los niveles encontrados en el agua.
- Filtre el agua potable utilizando un filtro aprobado por la National Sanitation Foundation (NSF).
  - o Usted puede recibir un filtro aprobado por NSF gratis, si utiliza agua de la Ciudad de Flint.
  - o Llame al 2-1-1 para averiguar adónde puede retirar un filtro de agua gratuito.
- Algunos filtros pueden eliminar hasta el 99% del plomo en el agua cuando se utilizan correctamente. Para asegurarse de que su filtro está eliminando la mayor cantidad de plomo posible, siga cuidadosamente las instrucciones enviadas con éste.
  - o Deje correr agua fría a través del filtro solamente.
  - o Cambie el cartucho del filtro tan a menudo como lo indiquen las instrucciones.
- Incluso después de los cambios en el sistema de agua, puede tomar un tiempo antes de que los niveles de plomo en el agua se reduzcan.
- El plomo es difícil de evitar por completo. Se puede encontrar en las tuberías de agua y grifos de agua de bronce, pintura vieja, en la tierra, en algunos lugares de trabajo, y en el metal usado en algunos pasatiempos.

Hay una serie de pasos que puede tomar para que usted y su familia estén saludables. Utilice los siguentes consejos para aprender más sobre cómo mantenerse saludable:

PLOMO EN EL AGUA

Aunque el agua a veces puede ser de un color diferente, esto no es causado por el plomo. Es importante recordar:

- Usted no puede ver, eler o saborear plomo en el agua.
- El plomo no cambiará el color del agua.
- La única manera de saber cuáles son los niveles de plomo en su hogar es haciendo examinar el agua.

PLOMO EN LA SANGRE

- Si sus hijos viven en Flint o van a la escuela o a una guardería en la ciudad de Flint, sus niveles de plomo en la sangra deben ser examinados.
- Debe comunicarse con su médico para realizarse un examen.
- El examen está disponible de forma gratuita en el Departamento de Salud del Condado de Genesee. Llame al 2-1-1 si necesita ayuda para llegar allí.
- Si está embarazada o amamantando, y ha dado negativo en los niveles altos de plomo en la sangre, es seguro amamantar.
- Si está embarazada o amamantando y ha dado positive en los niveles altos de plomo en la sangre, hable con su médico acerca de la seguridad de la lactancia materna.

CONSEJOS PARA MANTENER SU HOGAR PROTEGIDO DEL PLOMO

FILTROS DE AGUA

- Haga examinar el agua de su casa. Es gratis. Llame al 2-1-1.
- Utilice un filtro de agua. Llame al 2-1-1 para solicitar un filtro gratuito.
- Si usted no tiene un filtro de agua, utilice agua embotellada para beber y para mezclar fórmula.
- Use agua fría y filtrada para cocinar.
- Lave frutas y verduras con agua filtrada.
- Si tiene que usar agua sin filtrar, deje correr el agua durante cinco minutos antes de usarla. Para ahorrar tiempo y agua en el futuro, es una buena idea llenar tantos envases como sea posible, una vez que haya dejado correr el agua durante cinco minutos.
- Drene y purgue los tanques de su calentador de agua regularmente, para eliminar cualquier plomo que haya quedado acumulado. Siga las instrucciones de fabricante para el mantenimiento o póngase en contacto con un profesional autorizado para obtener ayuda.

LIMPIEZA

- Lave platos, botellas y juguetes con agua no filtrada y jabón y deje que se sequen antes de su uso.
- Es seguro usar el agua del grifo sin filtrar para limpiar pisos y mesadas.
- Es seguro lavar la ropa en la lavadora y secadora.
- Utilice un tapete en la puerta. Quítese los zapatos cuando esté dentro.
- Aspirar alfombras puede levantar más polvo de plomo sobre la superficie. Utilice una barredora no motorizada para limpiar alfombras.
- Limpie alféizares y áreas de juego a menudo con toallas de papel y agua con jabón.

CONSEJOS PARA MANTENER SU HOGAR PROTEGIDO DEL PLOMO

EN EL BAÑO

- Utilizar agua filtrada para cepillar los dientes de sus hijos.
- Los adultos pueden usar el agua del grifo sin filtrar para lavarse los dientes.
- Se puede utilizar agua del grifo sin filtrar para bañarse, pero no deje que los niños beban el agua cuando jueguen en la bañera.
- Estudios realizados por los Centros de Control y Prevención de Enfermedades muestran que los padres pueden seguir bañando a sus hijos en la bañera, pero la hora del baño se debe utilizar para el baño solamente, en lugar de permitir que los niños jueguen en el agua durante mucho tiempo.
- El plomo no causa erupciones u otros problemas de la piel. Sin embargo, si los niveles de cloro u otros productos de limpieza son altos en el agua, puede causar picazón en la piel o piel seca (similar a lo que puede suceder cuando usted nada en una piscina).

CUIDADO DE MASCOTAS

- Utilice agua filtrada del grifo para que su mascota beba en su tazón.
- Usted puede utilizar el agua del grifo sin filtrar para bañar a sus mascotas.
- Si usted nota que su mascota actúa de manera diferente de la normal, consulte a su veterinario.

DIETA SALUDABLE

- Coma alimentos ricos en hierro, calcio y vitamina C.
- Lávese las manos con jabón y agua tibia antes de comer.
- Si necesita alimentos frescos y saludables, llame a la oficina de WIC al 810-237-4537, o para la asistencia alimentaria "SNAP" aplique en www.michigan.gov/mibridges o visite su oficina local del Departamento de Salud y Servicios Humanos de Michigan.

BUENAS FUENTES DE HIERRO INCLUYEN:

- Carnes rojas desgrasadas, pescado y pollo
- Cereales con hierro añadido
- Frutas secas (pasas, ciruelas pasas)

BUENAS FUENTES DE CALCIO INCLUYEN:

- Leche
- Yogur
- Queso
- Verduras de hojas verdes (espinaca, col rizada, berza)

Hi Mark,

Attached is the Arabic. What is the p.o. # for this job? Also, Saad had these comments:

Attached are the pdf files for the rush translation. Mark did not provide us with the 3 links (logos) on the top of the page. Also, the placement of those logos differ slightly for the English pdf file provided earlier.

If Mark can place the logos by himself that is fine. If not, please ask him to provide us with the links and I can place them accordingly.

Also, ask him how he wants us to place the logos.

Michigan Dept of Health & Human Services

This Week at MDHHS

February 8, 2016

Your weekly chronicle of the Michigan Department of Health and Human Services and the transformation in how health and human services are delivered in Michigan.

New agreement puts Michigan on a path to exiting federal court oversight

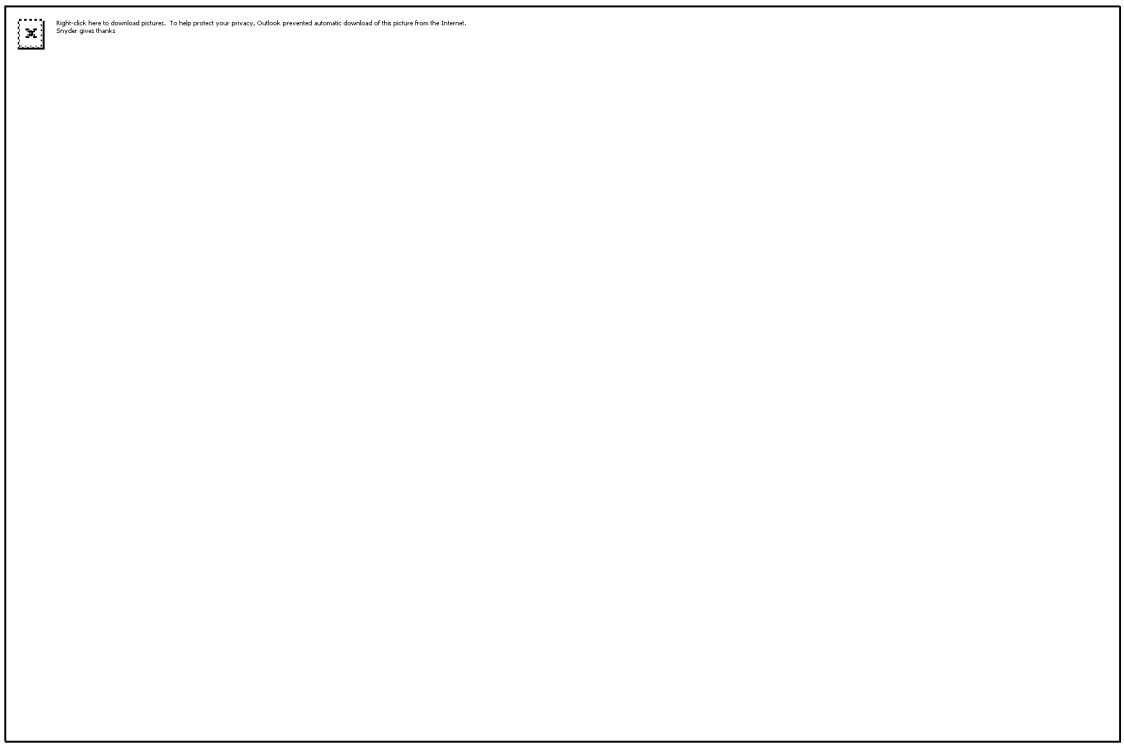
Michigan reached a milestone last week with a new agreement that recognizes the strides the agency has made in protecting children and creates a path toward exiting federal court oversight.

The new court-approved plan will also allow the MDHHS Children's Services Agency (CSA) to focus more sharply on its mission of protecting vulnerable children from abuse and neglect. The plan follows years of reform efforts under the Gov. Rick Snyder administration that have improved services to the 13,000 children in Michigan's foster care system.

Judge Nancy G. Edmunds of U.S. District Court for the Eastern District of Michigan approved the Implementation, Sustainability and Exit Plan on Tuesday. It replaces the Modified Settlement Agreement approved in 2011 that came after a lawsuit filed by the advocacy group Children's Rights in 2006.

"This is a momentous day for Michigan and for children and families involved in the state's Children's Protective Services, foster care and adoption systems," MDHHS Director Nick Lyon said. "I'm proud of the tremendous strides the state has made in meeting the needs of vulnerable children, as evidenced by the federal government's recent recognition that Michigan has satisfied its program improvement plan for child safety.

"We understand we have more work to do. Now we can devote additional resources to improving safety and well-being outcomes for children and less on continuing to monitor issues that we have already addressed."



The new plan calls for a significant reduction in the number of child welfare system goals that will be tracked by the court, which will monitor the state for compliance with 71 commitments -- down from nearly 240 in the previous

agreement. MDHHS' goal is to exit from federal court monitoring within the next few years.

"We appreciate the cooperative spirit of Children's Rights and the support from Judge Edmunds and the federal monitors," said Steve Yager, CSA's executive director. "I'm proud of the improvements made through the hard work of MDHHS child welfare staff and our private agency partners."

More details are available on the Child Welfare Reform page.

Gov. Snyder stops by to thank employees

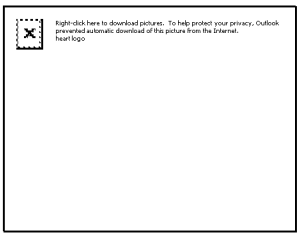
Gov. Rick Snyder is making an effort to personally visit with and talk to employees involved in the Flint water emergency. As part of these visits, this past week Gov. Snyder stopped by the Population Health and Community Services Administration (PHCSA) in the Capitol View Building to thank MDHHS employees.

Pictured here from left to right are: (Front row) Sandip Shah, director of the Bureau of Laboratories; Susan Moran, PHCSA deputy director; MDHHS Director Nick Lyon; Gov. Snyder; Lily Tyndall-Snow, a Council of State and Territorial Epidemiologists (CSTE) fellow; and Corinne Miller, director of the Bureau of Disease Control, Prevention and Epidemiology.

(Back row, left to right) Jevon McFadden, medical epidemiologist and career epidemiology field officer; Jay Fiedler, manager of Surveillance and Infectious Disease Epidemiology (SIDE) Section; Jim Collins, director of the Communicable Disease Division; Susan Bohm, manager of the Enteric & Respiratory Illnesses Epidemiology Unit; Meghan Weinberg, Centers for Disease Control and

Prevention Epidemic Intelligence Service officer; Veronica Fialkowski, CSTE fellow; and Mary Grace Stobierski, Emerging & Zoonotic Infectious Disease Section manager.

Inmates certified by MDHHS to help others



Twenty-seven inmates at Women's Huron Valley Correctional Facility now are certified as peer-support specialists to provide support to fellow inmates with mental health issues, as part of a pilot program that involves MDHHS.

The prisoners recently received the certification from MDHHS following the week-long training. They received three college credit hours through Lansing Community College's School of Health and Human Services.

The certification allows them to assist other prisoners struggling with mental illness and provides those certified with potential job opportunities as a Medicaid-reimbursable provider when they leave prison.

The program, done in partnership with the Department of Corrections, was funded through a Substance Abuse and Mental Health Services Administration grant.

MDHHS raises awareness about cardiac deaths among young people

MDHHS kicked off American Heart Month this month with a focus on preventing cardiac deaths among children and young adults.

Last week was Sudden Cardiac Death of the Young Awareness Week, a week recognized by Gov. Rick Snyder.

"Cardiac arrest can happen at any age, but is especially devastating when this occurs in a young person," said Dr. Eden Wells, chief medical executive at MDHHS. "By raising awareness and with appropriate screening and care, young people at risk can be identified and have longer, healthier lives. Evaluating family health history and heart health are keys to identifying those at risk and preventing sudden cardiac death of the young."

Sudden Cardiac Death of the Young occurs when a young, apparently healthy person dies suddenly and unexpectedly from a cardiac-related condition or unexplained cause. Every year, this claims the lives of more than 300 children and adults under the age of 40 in Michigan.

One strategy to reduce these deaths is the American Heart Association's "Chain of Survival." This includes five steps: Early recognition of a cardiac arrest and calling 9-1-1; rapid bystander response with hands-only cardiopulmonary

resuscitation; use of an automated external defibrillator; advanced life support; and post cardiac care.

Michigan schools are now required by state law to have a written cardiac emergency response plan, and they can be designated a MI HEARTSafe School by taking additional steps to prepare for a cardiac event.

Senior Citizen of the Year nominations due by March 18

The MDHHS Aging & Adult Services Agency is accepting nominations for this year's Senior Citizen of the Year Award, which will be awarded May 11 during Older Michiganians Day in Lansing.

Please consider nominating any older adult volunteer who has made significant contributions to his or her community.

The winner will receive $1,000, courtesy of Consumers Energy. The application deadline is March 18.

Visit the AASA website for more information and a nomination form.

Task force on Child Abuse and Neglect set for May 5-6

Seating is available for the 20th Annual Governor's Task Force on Child Abuse and Neglect Summit May 5-6 near Traverse City.

The theme of this year's summit is "Michigan's Response to Child Trafficking: Policies and Practice." The featured keynote speaker is E. Benjamin Skinner, author of "A Crime So Monstrous: Face-to-Face With Modern-Day Slavery."

Other topics will include family preservation, legislation and teen suicide.

The summit will take place at the Grand Traverse Resort and Spa in Acme.

The conference is free, but employees are responsible for lodging and travel expenses. To request a brochure, contact Sheldon Mayer at mayers@Michigan.gov.

MDHHS: In the News

Michigan's flu season is off to a mild start

Health officials are still urging people to get vaccinated even though Michigan's flu season this winter has been a mild one. The Mining Journal reported on the story.

Court plan puts Michigan on path to exiting oversight of child welfare

Michigan has fewer goals to end federal court oversight of its child welfare system under a new court plan. The Associated Press reported on the story.

Q & A: Your questions about MDHHS

The Michigan Department of Health and Human Services was created April 10, and many of you may have questions about the relatively new agency where we work. We will do our best to answer any questions that you have.

Those of you with questions can direct them to Scott Davis of the Office of Communications at daviss8@michigan.gov. Below is a staff question and our answer:

QUESTION: I sometimes get questions from foster parents and other customers regarding the best safe sleep practices for infants. Are there resources you can refer me to?

ANSWER: MDHHS is committed to ensuring that infant safe sleep education, outreach efforts and grief support services are provided to Michigan families. Please refer to the information below and share widely with your networks:

- To order free infant safe sleep educational materials (including brochures, posters and decals), please visit the **MDHHS Clearinghouse website** at www.healthymichigan.com.
- For information on scheduling an infant safe sleep training for an MDHHS county office and/or for foster parents, contact **Kim Pickett at 517-324-6066**.
- For information on scheduling an infant safe sleep training for groups not listed in the previous bullet or for general questions about infant safe sleep, please contact **Patti Kelly at 517-335-5911.**
- To refer a client for grief services for a fetal or infant death, contact **Dr. John Canine at Maximum Living at 248-814-0706.**
- For specific questions related to grief services and/or reimbursement for grief services for a fetal or infant death, contact **Cassandra McNulty at 517-335-9017**.
- For general infant safe sleep information, visit www.michigan.gov/safesleep.

Dear Resident,

From previous contact with the Flint Water Response Team, you have been identified as a home that indicated you would be willing to participate in follow up sampling and monitoring of your water quality.

We stopped by today to discuss additional sampling, check your plumbing and coordinate with you on sampling protocols.

If you would still like to participate, and we hope you do, please call the Environmental Assistance Center at 1-800-662-9278 and we will find a time that works for you to have us stop back at your home.

Thank you,

Michigan Department of Environmental Quality

Tara, please review the attached sample.
In order to get a removable adhesive, we had to go with Name Badge stock.
This makes the label a little smaller than you requested, but it is all we have with that adhesive.

Let me know if you approve of the size and type. Check the spelling to be sure.

We have one box of this stock here, enough to do about 380 to 390 decals.
Will that be close enough for today?

I really need to know how many you will be ordering next, I need to get paper moving on a truck this afternoon.
Can you let me know by 2:30?

ALL ABOUT US

OUR MONTHLY REPORTS

DTMB

HELP. CONNECT. SOLVE.

SAVINGS REALIZED BY MAILING SERVICES CUSTOMERS when mail is pre-sorted and batched FYTD:

- Presort Letters - $2,075,013
- Presort 2nd Ounce Letters - $585,630
- Presort Flats - $104,269*
- Total Presort Savings- $2,764,912
- Consulting Savings - $64,301

* presorted flat-size mail has not been presorted since Jan. 13. The vendor (Bell & Howell) is working to correct this issue with additional testing.

State Surplus MiBid Results

- Posted 119 auctions
- Sold 68 vehicles
- Sales of $367,439
- Retained Revenue MiBid - $103,096

Federal Surplus

- Two new applications for federal program
- Two Federal Surplus Donations
- Retained Revenue from donations - $451

Delivery Services

- Revenue – January FY 2016: $191,216 on 174 work orders
- Revenue from move jobs – January FY16: $36,084

OSS Steps Up to Assist in Flint Water Crisis

- Printing Services staff have printed over 1.2 million palm cards and 1 million water testing forms, in English, Spanish and Arabic. These jobs were all quick turnaround – sometimes a matter of hours! Staff stepped up to the challenge! Special thanks to **Mark Miller, Todd Martin, Arnie Castillo, Brad Schumann, Shay Cooper, Tina Luna, Scott Barclay, Dan Chipman, Tom Cooley and William Banks** for going above and beyond in providing excellent customer service!

- The Federal Surplus Property Program received help from the National Association of State Agencies for Surplus Property (NASAP) obtaining bottled water from the South Carolina Surplus Program. South Carolina had an entire warehouse full of bottled water that was left over from a flooding emergency. With the help of Scott Pepperman, of NASASP, MISASP was able to arrange shipping for the water to be delivered to Flint and distributed throughout the city. Approximately 175,000 bottles (92 pallets) of water were successfully delivered to Flint to assist with the water crisis.

- Employees from the Delivery Services Team have been working tirelessly helping out with the Flint Water Crisis since Jan. 9, 2016. They have done a fantastic job and it has been greatly appreciated. Please join me in thanking **Brent Thelen, Jim Thomas, Jeff Bailey, Sam Putmon, Sean Dennison, Brian Cardwell and Steven Kesson**.

- Beginning Jan. 13, VTS Garage employees **John Lance, Kevin Moe and John Patterson** have worked many hours, seven days a week, while putting their family and VTS duties second, assisting with water delivery efforts in Flint. Their primary mission has been to transport pallets of bottled water from a central warehouse to various fire departments. We thank them for their efforts along with their dedication to helping the people of Flint.

Great Examples of Teamwork!

Records Management Services

- DHHS is moving its employees who are currently working in the Capitol View building to the building that MSP is moving out of. The Senate will be moving into Capitol View, and MSP is moving out to the Secondary Complex. DHHS hired a consultant to coordinate the move, and the consultant contacted RMS for help with records management issues. RMS was asked to provide training to the affected employees. RMS taught 4 classes, and 84 people registered to attend the classes. The classes addressed how to identify records that need to be kept, Retention and Disposal Schedules, storage issues, and tips for moving.
- Records Management Services held meetings with local offices in Wayne County from the Department of Health and Human Services to discuss the transition from Iron Mountain to Royal Oak Storage for the storage of its boxes of closed case files. 74 boxes from the Western Wayne County office are scheduled to be picked up and delivered to Royal Oak Storage on February 5, which marks the first boxes sent to the new storage vendor. Approximately 95,000 boxes will be moved from Iron Mountain to Royal Oak.

Records Manager Projects (formerly TRIM)

- The Department of State Human Resources office, already a Records Manager customer, intends to expand its use to its Labor Relations section, using the same configuration already in use by Department of Health & Human Services Labor Relations section. Records Management Services (RMS) will host a meeting with multiple HR offices using Records Manager to go over the labor relations configuration and establish a standardized configuration for use by any HR Labor Relations section.
- The Michigan Department of Transportation (MDOT) signed a charter to use Records Manager for its Human Resources office, leveraging the standardized structure made available through previous HR projects with DHS, MDOS, DTMB, and Quality of Life (DEQ/DNR/MDARD). A training has been scheduled for February 22, 2016, to give the implementation team hands on experience with generic records as part of the standardized structure.

Delivery Services Thanked

- 1/28/2016

Just wanted to say thank you. The crew was extremely nice, polite and waited patiently to be told where to put file cabinets. They also, didn't get full use of the dock at the Grand Tower because of the semi they had to use. So they had more work than usual moving items from the truck to their destination.

Just thought I'd pass this along, thank you!

Michelle Holloway, Project Manager, Bureau of Organizational Services

MDHHS
Michigan Department of Health & Human Services

New Staff

The ID Mail area welcomed another new employee to their team on Jan. 4, 2016. Colleen Rupert has taken the position of Motor Vehicle Operator 6 (MVO6). Please welcome Colleen to our team.

Are You Reviewing Your Old Email?

The implementation of the DTMB policy on Email Management has been postponed until March 13, 2016, in order to give staff more time to properly file their email records.

Mailing Services

- Logistics & Operations Support (LOS) is currently working with Michigan Department of State (MDOS) on updating the Service Level Agreement (SLA) for the renewal by mail program. Copies of the current SLA have been shared with MDOS and the re-write process will soon begin.
- Mailing Services presented to the IT Assets servicing Treasury regarding the sunset of Optical Mark Recognition (OMR) technology used to match multi page document sets for mailing letters. LOS is working on identifying all Treasury applications using OMR and statistical data outlining the benefits of using a higher integrity code to minimize data breaches in the mailing process.
- A joint project has been started to link all Michigan Department of Health and Human Services (MDHHS) Business Reply Mail (BRM) accounts to DTMB's United States Postal Services (USPS) Central Account Processing System (CAPS) to centralize all service payments and cost monitoring. Mailing Services currently has linked 42 BRM accounts for MDHHS. Linking the remaining offices will simplify the process by making direct payments to the postal service for individual account activity. Locally managed accounts will benefit by not having to maintain a fund balance with the serving post office, ensuring mail will not be held for the lack of funds, and eliminate the need for local self-monitoring of fund balances statewide. Mailing Services has enlisted the help of the Postal Service to link the remaining identified MDHHS accounts into DTMB's CAPS system.
- Mailing and Financial Services met with the Sigma development group to finalize the design of the MS Order System. Clarification of content, updates of Sigma department coding, contact personnel on the order system, and user direction have been updated for the Sigma designer to be placed in the system.
- LOS is progressing with the EFI/PACE/Storefront implementation. Discussions related to non-state mailing account coding are under advisement with financial services. The reason being, the current coding of non-state accounts are not compatible with EFI/PACE requirements. Financial Services is reviewing the code changes requested for PACE to ensure these will not adversely affect the current billing data base process.
- In line with Executive direction, Mailing Services conducted Action Plan Update meetings with all of our staff. An advance copy of the current Action Plan was provided to each employee so as to gather input regarding updates they may have to offer to the current plan. During the sessions with staff, an in-depth review of current actions and expected outcomes were discussed so staff could help in identifying gaps that can be measured in the new plan.
- Mailing Services has established a rate committee to identify and accurately define service rates with DTMB Financial Services. The committee meetings, now scheduled bi-monthly, have been invaluable in bringing understanding to the process and gathering data to accurately determine service rates going forward. Outcomes for the meetings include; accurately identifying and placing costs, building an annual rate setting worksheet, assigning responsibilities to provide accurate data, monitor and provide a mailing trend analysis and cost projection reviews as a committee.
-

Thank You Notes

- *To: Tom Goodine*

  Thanks Tom. You are always Mr. Dependable, and pretty darn fast too.

  Deanna Anderson, MSHDA

- *To: Mike Armstrong*

  Thank you for the update as well as your hard work and promptness with this project! It's greatly appreciated!

  Autumn Spitzley, Graphic Arts Designer, DNR Wildlife

- *To: Tom Goodine & Shelly Millimaki*

  Thanks, Tom. I almost CC to you and thank you Shelly for forwarding the message. I will let my LAW person know. Thank you both for your help!

  Jennifer Sochor, DNR

Vehicle and Travel Services

- VTS consultants met with GM Fleet Account Executive Connie Scarpelli and GM Sales Support and Police Vehicle Specialist Todd Little to discuss the delay of the Impala Limited and Chevrolet truck issues. The production of the fleet Impala Limited was delayed from Dec. 10 through Jan. 14 with final vehicle orders being excepted through mid-January.
- Staff from the VTS Garage and Canfield Equipment worked together in an effort to save costs on beacons and hood signs for MSP vehicles. Canfield Equipment picked up a large quantity of used beacons and hood signs from VTS that have been removed from retired MSP vehicles. These used beacons and hood signs will be reconditioned and reused on new MSP vehicles. MSP is not required to purchase all new parts for their patrol vehicles, and recycling these items saves money.
- A number of VTS staff attended the 2016 North American International Auto Show held at the Cobo Center in Detroit. This is an opportunity to preview the new model vehicles on display and talk with company representatives about current and future product offerings. Vince Reynolds and Ronda Greko also had the opportunity to attend the "Pre-Show" Product Preview" and talk one-on-one with Ford and Chrysler Representatives along with Company Executives, Engineers and Designers.
- GPS Telematics Update: VTS Consultants working with their Telematics Vendors and participating departments continue to meet and discuss reporting options, what works and what doesn't, and any issues that come up. Vince Reynolds attended a high level meeting with MDARD Deputy Director, Division Directors, Supervisors, and Managers who met with GPSInsight Representatives. GPSInsight demonstrated the overall capabilities and limitations of the system. They also showed some of the reporting functions. This presentation was scheduled to determine what educational opportunities might be used with the pilot participants. The presentation was received very highly by the MDARD staff and online, follow-up sessions were scheduled for the following week so that the attendees could observe the system function in real time.
- VTS Garage staff loaded a cube truck full of surplus plastics and delivered to Louis Padnos for recycling.

Printing Services in High Gear

- January was a huge "tax" month for Printing Services.
    - Completed development and printing of the annual DTMB OFM 1099 statement. There were a total of 58,521 images printed.
    - Completed development and printing of the annual DTMB OFM W2 statement. There were a total of 61,208 images printed.
    - Completed development and printing of the annual MDHHS W2 statement. There were a total of 64,118 images printed.
    - CPC successfully completed the MDHHS CHAMPS 1095B printing project. There were a total of 279 print files, each file consisting of 40,000 images. The entire project resulted in 11,160,000 printed images.
    - Completed development and printing of the annual MSHDA 1099 statement. There were a total of 11,052 images printed.
    - Completed development and printing of the annual MSHDA 1099G statement. There were a total of 682 images printed.
    - Completed development and printing of the annual ORS 1099 statement. There were a total of 286,576 images printed.
- Printing Services completed a rush project for Treasury in less than 4 hours! Treasury contacted us with a request to print 70 copies of a document on light green paper. The order was received at 4:00 p.m. but the specifications were much different! The quantity was still 70, but the paper and bindery requirements had changed. Despite the changes, the job was still able to be completed and delivered before noon! Great teamwork by Printing Services staff to meet our customer needs!
- The Pace implementation is on-going. EFI will be on-site the week of Feb.1, to implement the Fiery Central (which will allow our Xerox printers to communicate with Pace) and the update to our online ordering system.
- Printing Services completed the quarterly Voya printing. The statements consisted of over 1.1 million images. In addition, newsletters, seminar schedules and performance numbers were produced as well. This quarter's printing also included the MPSERS Pension Plus and DC statements and inserts, which are completed twice a year.
- CPC finalized our responses to the findings from the August IRS Safeguarding Audit. The outstanding issue with Xerox on a security patch for the IRS overlay on the Nuvera controllers has been resolved. Printing Services is now 100% compliant.
- Printing services was contacted by DTMB Building Operations who were need of an emergency sign for their GOB construction site. Electrical inspectors had threatened to shut down their construction if an electrical sign wasn't installed. **Molly Perry** was able to produce a sign for them within a few hours, which allowed Building Operations to continue to work! Great job, Molly!

Printing Services Now in Con Hall

- DTMB Office of Performance Management graciously allowed Printing Services consultants to occupy a vacant office in their area in Constitution Hall. We moved into that space on Jan. 20. It is on the 1st floor of Constitution Hall in the northwest tower.

Warehouse Services

- The on-going project to move Depot Logistics into the General Services Building is still on track to hit our April timeline. In January, we began preparing the building for the move by making some adjustments to racking, cleared an area where Printing Services will have a new rack installed, and cleared some racking at the current Depot location that will be brought over to GSB.

- The next phase of work will include having a vendor move some racking from Depot to GSB, as well as constructing cubicles, setting up data and power lines, and final configurations of the Depot layout.

Appreciation to Printing Services

  I'm a bit tardy… but great job on the SOMCAFRs. Thanks!

MICHIGAN DEPARTMENT OF
DTMB TECHNOLOGY, MANAGEMENT AND BUDGET
HELP. CONNECT. SOLVE.

Next week, DTMB employees are invited to an open house to learn more about the hard work the Data Center Operations team does on a daily basis. Join fellow employees on Wednesday, Feb. 17, from 11:00 a.m. to 2:00 p.m. at the Secretary of State Building, 7064 Crowner Drive, State Secondary Complex. A self-guided tour will give you the opportunity to speak with data center staff and learn about:

- Data Center Operations Facilities
- Disaster Recovery
- Enterprise Monitoring
- Enterprise Platforms
- Imaging and Scheduling
- Michigan Configuration Management Data Base (MiCMDB)
- Service Management
- Tape Library

Please bring your State of Michigan ID and your Driver's License or another picture ID to check in with data

center security.

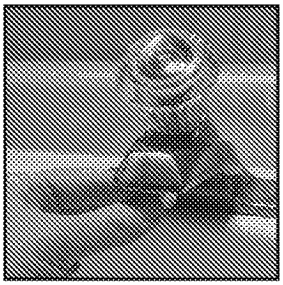
Genesee County Health Department

Keeping Your Home Lead-Safe
Clean Your Aerators

MDHHS Michigan Department of Health & Human Services

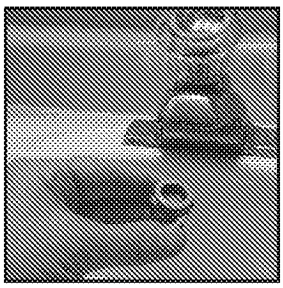
What can you do to keep your home lead-safe?



- Homes built before 1987 are more likely to have lead service lines and pipes. Some faucets and certain kinds of solder could also have lead in them, even those installed recently.
- The lead found in tap water in homes around Michigan is likely from these older pipes, solder, and faucets. You can have your water tested to see if it has lead in it.
- Replacing old pipes, service lines, and faucets is the best way to limit the lead in your tap water. New pipes, solder, and faucets should meet EPA lead-free standards.
- If you can't replace your pipes and faucets, please use an NSF-approved filter for all water that you drink or cook with. You can get a filter that attaches to your sink faucet or you can use a pitcher with a filter inside it. If you live in Flint, call 211 to find out where you can get a free faucet filter, replacement filter cartridges, or a water filter pitcher.

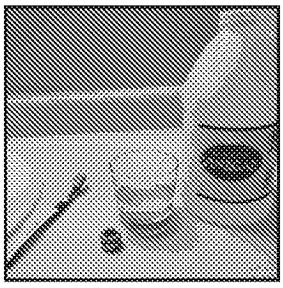
For bathrooms or other places where you don't have a filter:

When pipes are old, they break apart more easily. Sometimes pipes break completely; sometimes they just get new cracks. This can cause bits of lead pipe to end up in our home's water. There are screens - called aerators - on our faucets that sometimes stop the larger pieces from coming out. Aerators do help us save water - so it's good to have them - but cleaning them once in awhile is a way to limit the lead that could end up in your water.



Follow the steps below to learn how to clean your aerators:

1.

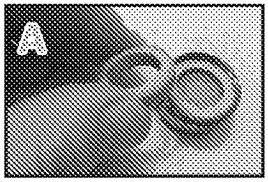


- The little round thing on the bottom of your faucet is the aerator (pronounced: *air-raytor*).
- Unscrew the aerator from the bottom of the faucet.
- You should be able to unscrew it with your fingers, but you might need a wrench if it's really stuck.

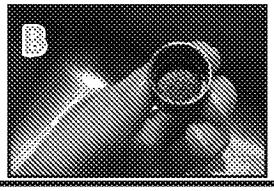
2.

- Your aerator might not look exactly the same as this, but it's OK.
- Now that you have it off, let's get started!

3.

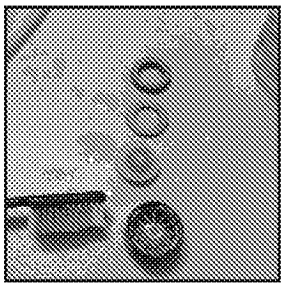


- While you really only need to use water to rinse off your aerator parts, if you have these things around, they might make it easier:
  - An old toothbrush
  - A glass of vinegar



4.

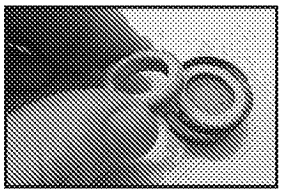
- Soaking the aerator in vinegar will help loosen up some of the grime. You can leave it in as long as you want, but even just 5 minutes will help.
- The toothbrush makes it easy to scrub out the inside. Just don't use that toothbrush for brushing your teeth again!



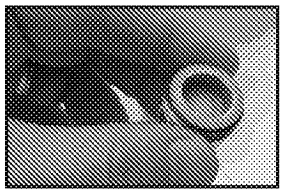
5.

- If your aerator looks like Photo A, it has a flow control piece in it. You'll have to take it apart:
  - Pull out the pieces carefully.
  - Note the order that the pieces come out. Take a picture or write down some notes. You'll have to put them back in at the end in the same way!
- If it looks like Photo B, then you're good to go to Step 6.

6.

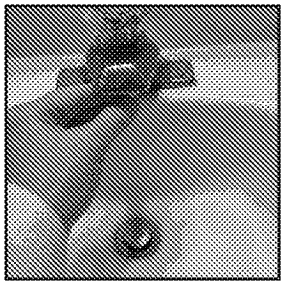


- You might not have all of these pieces. They might not be this color. Every aerator is a little different. Just clean what you have.
- Scrub all of the pieces. Make sure you really get down inside the metal piece, removing any bits of grime or metal flakes you can see.



7.

- Rinse everything very well.
- Run the water through the aerator screen - holding it right side up and upside down.



8.

- Once it's clean,
  - If your aerator looks like Photo A up above, put it back together.
  - If it looks like Photo B, you're all set.

9.

- Put your aerator back on your faucet.
- Repeat these steps every couple of weeks. This will make sure pieces of lead and other metal from any pipes aren't getting stuck in your faucet and possibly putting lead into your water.

HOW TO RECYCLE WATER BOTTLES AND WATER FILTERS IN FLINT

Empty Water Bottles Drop-Off Locations

Fire Station #1
310 East Fifth Street
9 a.m. – 9 p.m., daily

Fire Station #5
3402 Western Road
9 a.m. – 9 p.m., daily

Fire Station #8
202 East Atherton
9 a.m. – 9 p.m., daily

Bill Carr Signs
719 West 12th Street
8 a.m. – 4 p.m., M-F

Young's Environmental
5305 North Dort Highway
8 a.m. – 6 p.m., M-F

Dover & Company
651 Hall Street
8 a.m. – 4 pm., M-F

Comcast Service Center
3008 Airpark Drive South
10 a.m. – 5 p.m., M-F
10 a.m. – 1 p.m. Saturday

Curbside Pickup Instructions

Republic Services provides bi-weekly curbside recycling at no additional cost to residents who already have weekly trash collection services.

1) **To get a blue recycling bin, call 1-800-438-0966** (M-F, 8a.m.-5p.m., or Sat., 8a.m.-12p.m.) to request a bin to be delivered to your house.

2) Until you get your bin, Republic Services allows bottles to be placed in clear plastic bags. Do not put trash in the same bag as the bottles.

3) Until you get your bin, set the clear bags on the curb on your trash day a few feet from your trash. Once you get your bin, set it out on recycling day.

4) You can also drop your bag off at one of the drop-off locations around the city. (See side bar for locations)

What should I do with the used cartridge in my water filter?

1) When your PUR or Brita filter needs to be changed, take the used cartridge to a distribution site.

2) Place the used cartridge in the box provided at the site.

3) Pick up a replacement cartridge.

ALL BOTTLES DROPPED OFF MUST BE IN CLEAR PLASTIC BAGS
No solid color or grocery bags accepted

USE FILTERED TAP WATER

- Drinking, cooking
- Brushing teeth
- Washing fruits and vegetables
- Pet water bowls

USE UNFILTERED TAP WATER

- Cleaning
- Bathing

BLOOD LEAD LEVEL TESTING

All Flint children less than six years of age should have their blood lead levels tested. Contact your primary care provider or call 2-1-1.

NUTRITION

Did you know that some foods will help keep lead from being stored in a child's body? These are foods with a lot of calcium, vitamin C and iron.

FREE WATER TESTING

Flint residents who are concerned about their water can obtain free water testing kits at the water resource sites.

USE WATER FILTERS & CARTRIDGES

Water filters can reduce lead and other contaminants by 99 percent when installed correctly. Free water filters are available at the water resource sites.

FOR IMMEDIATE ASSISTANCE

DIAL 2-1-1

FLINT WATER RESPONSE TEAM

www.michigan.gov/flintwater

LEAD IN FLINT WATER

GENERAL INFORMATION

- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - o Even small amounts of lead can harm kids' health because they are still growing.
  - o Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
  - o You can receive a free a NSF-approved filter if you use City of Flint water.
  - o Call 2-1-1 to find out where you can pick up a free water filter.
- Some filters can remove up to 99 percent of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - o Run only cold water through the filter.
  - o Change the filter cartridge as often as the instructions say.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop.
- Lead is hard to avoid completely. It can be found in water pipes and brass water faucets, old paint, in dirt, at some job sites, and in metal used for some hobbies.

There are a number of steps you can take to keep yourself and your family healthy. Use the tips below to learn more about how to stay healthy:

LEAD IN WATER

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- You can't see, smell, or taste lead in water.
- Lead won't change the color of your water.
- The only way to know what your home's lead levels are is by having your water tested.

LEAD IN BLOOD

- If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
- You should contact your doctor about testing.
- Testing is available for free at the Genesee County Health Department. Call 2-1-1 if you need help getting there.
- If you are pregnant or nursing, and you have tested negative for high blood-lead levels, it is safe to breastfeed.
- If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

WATER FILTERS

- Get your water tested. It's free. Call 2-1-1.
- Use a water filter. Call 2-1-1 for a free filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use cold, filtered water for cooking.
- Wash fruits and vegetables with filtered water.
- If you must use unfiltered water, run the water for at least five minutes before you use it. To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.
- Drain and flush your water heater tanks regularly to remove any lead that has accumulated. Follow manufacturers instructions for maintenance or contact a licensed professional for assistance.

CLEANING

- Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- It is safe to wash clothes in your washer and dryer.
- Use door mats. Take your shoes off when indoors.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean windowsills and play areas often with paper towels and soapy water.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

IN THE BATHROOM

- Use filtered tap water to brush your kids' teeth.
- Adults can use unfiltered tap water to brush their teeth.
- You can use unfiltered water to shower or bathe, but don't allow water to get in kids' mouths.
- Studies reviewed by the Centers for Disease Control and Prevention show that parents can continue bathing their children in the tub but bath time should be used for bathing only, rather than allowing children to play in the water.
- Lead will not cause rashes or other skin problems. However, if levels of chlorine or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

CARING FOR PETS

- Use filtered tap water for your family pets' water bowls.
- You can use unfiltered tap water to bathe your pets.
- If you notice your pet acting differently than normal, contact your vet.

HEALTHY DIET

- Eat food sources of iron, calcium and vitamin C.
- Wash hands with soap and warm water before eating.
- If you need fresh and healthy food, call the WIC office at 810-237-4537, or for SNAP food assistance apply at www.michigan.gov/mibridges or visit your local Michigan Department of Health and Human Services office.

SOURCES OF IRON INCLUDE:

- Lean red meats, fish, chicken
- Cereals with added iron
- Dried beans and lentils

SOURCES OF CALCIUM INCLUDE:

- Milk
- Yogurt
- Cheese
- Calcium fortified orange juice
- Leafy green vegetables such as kale or turnip greens

SOURCES OF VITAMIN C INCLUDE:

- Oranges, orange juice
- Grapefruit, grapefruit juice
- Tomatoes, tomato juice
- Green peppers
- Potatoes

LEAD INFO

The Flint water response team is focused on the lead in water crisis. In addition to water, scientists have long been concerned about all sources of lead including lead paint, dust, soil, etc.

LEAD PAINT

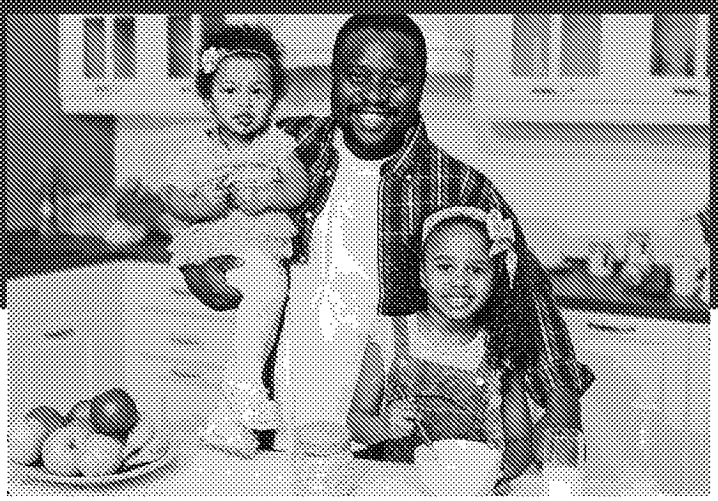
- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

DIRT

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

DUST

- The dust in your home can have tiny amounts of lead from paint and dirt.



HOBBIES AND JOBS

- Solder, fishing sinkers, bullets, and stained glass framing materials are some items that may contain lead. You could also track home lead dust from your job site.

HAVE QUESTIONS?

- For more information about protecting yourself and your family from lead, visit www.michigan.gov/flintwater.
- To find out where you can get a free water filter, call 2-1-1.
- For a free water test, call 2-1-1.
- For more information about lead in your home and what you can do, call the Michigan Department of Health and Human Services at 1-800-648-6942.
- For information on how to help, visit www.helpforflint.com.

FIGHT LEAD WITH NUTRITION

The foods we prepare and serve to our families can help limit the effects of our kids' exposure to lead! Three steps you can take in choosing and preparing food can make a difference:

1. When preparing food, be sure to wash and cook it with filtered water.
2. Serve your kids small, healthy snacks between meals.
3. Serve foods that are high in a few really important nutrients: **iron, calcium and vitamin C!**

LEAD FACTS

Lead isn't good for anyone's health and is especially bad for small children. Keep your family lead-safe by avoiding contact with it. If you live in the city of Flint, or get water from the city's water system, be sure to use an NSF-certified filter for drinking, cooking and mixing baby formula. Make sure to change the filter cartridge by the date printed on the package. Remember that you and your children can also be exposed to lead from old paint, dust, dirt, pottery, make-up, toys and some home remedies.

If you have any concerns about lead or your child's diet, talk with your doctor.

LEAD-FIGHTING NUTRIENTS

CALCIUM

Calcium keeps your bones strong and the lead out! Calcium-rich foods include:

- Milk and milk products, like cheese and yogurt
- Green leafy vegetables, such as spinach, kale, and collard greens
- Calcium-enriched orange juice
- Tofu
- Canned salmon and sardines (both with the bones in)

IRON

Iron keeps too much lead from getting into your body. Foods high in iron include:

- Lean red meats, fish (tuna and salmon) and chicken
- Green leafy vegetables, such as spinach, kale and collard greens
- Iron-fortified cereal, bread and pasta
- Dried fruit, such as raisins and prunes
- Beans

VITAMIN C

Vitamin C works with iron to keep too much lead from getting into your body. Good sources of vitamin C include:

- Citrus fruits, like oranges and grapefruit and their juices
- Tomatoes and tomato juice
- Peppers
- Other fruits like kiwi, strawberries and melons

LEAD RESOURCES

MSU is an affirmative-action, equal-opportunity employer, committed to achieving excellence through a diverse workforce and inclusive culture that encourages all people to reach their full potential. Michigan State University Extension programs and materials are open to all without regard to race, color, national origin, gender, gender identity, religion, age, height, weight, disability, political beliefs, sexual orientation, marital status, family status or veteran status. Issued in furtherance of MSU Extension work, acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture. Jeffrey W. Dwyer, Interim Director, MSU Extension, East Lansing, MI 48824. This information is for educational purposes only. 1P 3M 01:2016 OM RM/MR WCAG 2.0

Food Assistance in Genesee County

Commodities Food Program

This supplemental food program is designed to help low-income pregnant or breastfeeding women, new mothers up to one year after birth, infants, children up to age 6, and people aged 60 and up. Food is provided once a month. Call 810-789-3746 or 810-789-4409 for details.

Double Up Food Bucks (DUFB)

The DUFB program matches your SNAP benefits when you buy Michigan-grown fruits and vegetables. For example, if you buy $10 worth of Michigan produce, you'll get an extra $10 to buy more fruits and veggies! You can use this program at:

- Flint Farmer's Market, 300 East 1st Street, Flint, phone 810-232-1399, open year round
- Landmark Food Center (two locations) 206 West Pierson Road, Flint, phone 810-789-7311, OR 4644 Fenton Road, Flint, phone 810-238-2972, call to check dates and hours for both locations.

The Emergency Food Assistance Program (TEFAP)

TEFAP provides healthy foods to qualified families and individuals once every 4 months. Call GCCARD at 810-789-3746 or 810-789-4409 for details.

Food Bank of Eastern Michigan

The Food Bank of Eastern Michigan offers many food assistance programs. Call 810-239-4441 for details.

Supplemental Nutrition Assistance Program (SNAP)

The SNAP program (formerly called *food stamps*) provides low-income residents with money to purchase food, including:

- Fruits and vegetables
- Breads and cereals
- Dairy, meat, fish and poultry

You're also allowed to buy seeds and food-producing plants with your SNAP benefits to grow your own food. Apply for SNAP at www.mibridges.michigan.gov or call the Genesee County Department of Health and Human Services (DHHS) at 810-760-2200.

WIC (Women, Infants & Children)

The WIC program supplies extra food for low-income pregnant or breastfeeding mothers, infants and children up to 5 years old who are at nutritional risk. Foods provided through WIC include:

- Infant formula and iron-fortified cereals
- Fruits and vegetables rich in iron, calcium and vitamin C
- Whole grain bread and cereals
- Eggs, milk, cheese and yogurt

To apply for WIC, call 800-262-4784 (toll-free) or 810-237-4537.

WIC-Project Fresh

If you receive WIC benefits, you're eligible to receive Project Fresh coupons to buy locally grown fruits and veggies! This program runs from June 1 through October 31 each year. For more information contact Genesee County WIC at 810-237-4537 or MSU Extension at 810-244-8500.

Additional Genesee County Resources

211

- Service connects Genesee County residents to community resources including food, transportation, education and health care
- Connects residents to sources of water filters and replacement cartridges
- Locally funded by United Way Genesee County.
- Phone 211
- Web: www.211.org

Flint Water Department

- Offers free or low-cost water testing
- Phone 810-787-6537

Genesee County Community Action Resource Department (GCCARD)

- Offers free water filters
- Phone 810-789-3746 or 810-789-4409

Michigan State University Extension

- Offers free nutrition education classes
- Soil testing for lead
- Phone 810-244-8500

ADULT EXPOSURE TO LEAD
FACT SHEET

Where can adults be exposed to lead?

More than 80 percent of exposure to lead among adults is from work. The most common work exposures in Michigan are removal of lead paint, manufacture of brass and bronze fixtures, recycling of lead batteries, and as an instructor or doing maintenance in a firing range.

Adults can also be exposed to lead in tap water from water pipes, and renovation of homes built before 1978 with paint containing lead. The lead found in tap water in homes around Michigan would be from pipes installed before 1986.

What is lead?

- Lead is a heavy metal. The largest use for lead is in storage batteries in cars and other vehicles.
- Brass and bronze used in plumbing faucets may be about 10 percent lead. Lead is commonly used to make bullets.
- Historically, lead compounds were widely used as a pigment in paints, dyes, and ceramic glazes and in caulk, pipes and solder.

Should adults be concerned about exposure to lead?

Adults are at less risk of developing health effects from lead taken by mouth than children. Adult bodies tend to absorb less lead than children's bodies (smaller amounts of lead that is swallowed end up in adult's blood than would end up in children's blood). Adult's bodies remove almost all of the lead that is swallowed, while children's bodies only remove about a third of the lead amount they swallow.

However, health effects could still occur in adults who have had years of exposure. Exposure to lead can contribute to adult health effects such as:

- Essential tremor of their hands[1]
- Small increases in blood pressure, especially in middle-aged or older people[1,2]
- Decreased kidney function[1]
- Changes in sperm and possible difficulty becoming pregnant[1]

People exposed to higher levels of lead, like those measured during occupational exposures, could have other health effects, such as muscle weakness, irritability, difficulty sleeping, inability to concentrate, nerve damage in hands and feet, and anemia[2].

People with health effects should speak to their medical providers. Many of the listed health effects can be caused by things other than lead. If they are from lead, they would more likely be associated with exposure to lead over many years that occurred when the adult was younger.

Should adults get tested for lead?

People concerned about their exposure should speak with their healthcare provider about blood lead testing. If you don't have a primary care doctor, visit the Genesee County Health Department, South McCree Building at 630 S. Saginaw St. Suite 4 in Flint for blood testing and to be enrolled in health insurance.

FLUORIDE, BOTTLED WATER, AND ORAL HEALTH
FREQUENTLY ASKED QUESTIONS

What is fluoride?

The mineral fluoride occurs naturally on earth and is released from rocks into the soil, water, and air. All water contains some fluoride.

Fluoride has been proven to protect teeth from decay. Fluoride helps to rebuild and strengthen the tooth's surface, or enamel.

Water fluoridation prevents tooth decay by providing frequent and consistent contact with low levels of fluoride. By keeping the tooth strong and solid, fluoride stops cavities from forming and can even rebuild the tooth's surface.

Does bottled water contain fluoride?

Bottled water products may contain fluoride, depending on the source of the water. Fluoride can be naturally present in the original source of the water, and many public water systems add fluoride to their water.

The U.S. Food and Drug Administration (FDA) regulates fluoride in bottled water and sets limits, based on several factors, including the source of the water.

Bottled water products labeled as de-ionized, purified, demineralized, or distilled have been treated in such a way that they contain no, or only trace amounts, of fluoride, unless they specifically list fluoride as an added ingredient.

Is the amount of fluoride in bottled water always listed on the label?

The FDA does not require bottled water manufacturers to list the amount of fluoride on the label, unless the manufacturer has added fluoride within set limits. Labels have to specifically list fluoride as an added ingredient, if it is added.

If the amount of fluoride is not on the bottle's label, contact the bottled water's manufacturer to ask about the fluoride content of a particular brand.

Can I use bottled water for mixing infant formula?

Yes, you can use bottled water to mix powdered or liquid concentrate infant formulas, but the fluoride content in bottled water varies.

Some water companies make bottled waters for infants and for the purpose of mixing with formula. When water is labeled as intended for infants, the water must meet tap water standards established by the U.S. Environmental Protection Agency and indicate that the water is not sterile.

What other fluoride products are available?

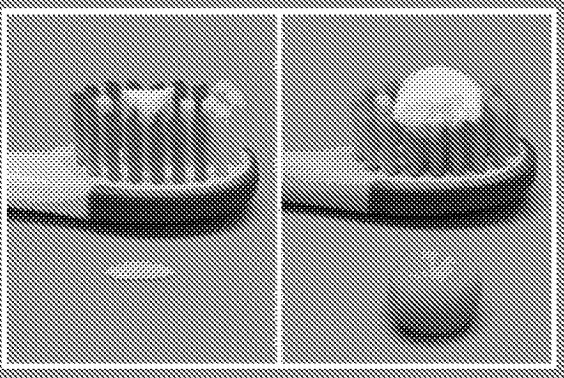
For all of the products below, talk to your pediatrician or dentist about what options are best for your child.

Fluoride Varnish

Fluoride varnish is painted by a dental or medical professional directly onto the teeth. Varnishes must be reapplied at regular intervals with at least 2 applications per year. Fluoride varnish applications are recommended on all children 0-5 years old beginning when the first tooth grows in. Fluoride varnish is recommended every 3-6 months depending on the cavity risk of the child.

Fluoride Mouth Rinse

Children younger than 6 years of age should not use fluoride mouth rinse without consultation with a dentist or other health care provider because dental fluorosis could occur if such mouth rinses are repeatedly swallowed.



Fluoride mouth rinse is a concentrated solution intended for daily or weekly use. Over the counter fluoride mouth rinses or prescription fluoride supplements may be recommended for high risk children.

Fluoride Toothpaste

Fluoride toothpaste is available over-the-counter and makes up more than 95 percent of toothpaste sales in the United States.

How much toothpaste should my child use?

- Children under 3 years old should use a grain of rice size/smear of toothpaste 2 times a day with parental supervision.
- Children 3-6 years old should use a pea size amount of toothpaste 2 times a day with parental supervision.
- Adults should brush 2 times a day with fluoridated toothpaste.

Under Age 3 *3-6 Years of Age*

Where can I go for more information?

Visit the Centers for Disease Control and Prevention Fluoride website at www.cdc.gov/fluoridation.

For information about free water filters or bottled water, visit www.michigan.gov/flintwater or call United Way 211.

LEAD poisoning

Pregnant Mothers

Lead poisoning is caused by swallowing or breathing lead. Lead can pass from a mother to her unborn baby.

Too much lead in your body can:

- Put you at risk of miscarriage
- Cause your baby to be born too early or too small
- Hurt your baby's brain, kidneys, and nervous system
- Cause your child to have learning or behavior problems

1. What you can do:

Get your water tested for lead.

- You can't see, smell, or taste lead in water.
- The only way to know what your home's lead levels are is by having your water tested in a lab.

2. Use bottled water.

The safest option for pregnant women and children under 6 years old is to use bottled water for drinking, cooking or making formula. Filtered water can be used only if your filter is NSF-certified to remove lead and you follow all instructions on how to use it/when to replace it.

Tip: Bottled water, NSF-approved water filters, and water testing kits are available for free at water resource sites across Flint. Call United Way 2-1-1 for a location near you.

3 Know when to use unfiltered water.

- It's safe to wash dishes, bottles, pacifiers and toys often with unfiltered soapy water as long as you dry fully before use.
- Unfiltered water can still be used to shower and bathe, but be careful to not get water in your child's mouth or let them drink the water in the tub.

4 Eat foods with calcium, iron and vitamin C.

These foods may help protect you and your unborn baby.

- Calcium is in milk, yogurt, cheese, and green leafy vegetables like spinach.
- Iron is in lean red meat, beans, cereals, and spinach.
- Vitamin C is in oranges, green and red peppers, broccoli, tomatoes, and juices.

5 Talk to your doctor.

- Blood lead testing is available. Talk to your doctor or local health department to learn more.

For more information about protecting yourself and your family from lead, visit www.michigan.gov/flintwater.

For more information about lead in your home and what you can do, call the Michigan Department of Health and Human Services at 1-888-322-4453 or visit www.michigan.gov/lead.

Flint residents can call the City of Flint Water Department for a free water test, 810-787-6537, or pick one up at a water resource site.

27 de octubre de 2015

Estimado Padre,

Como ayuda para asegurar que los niños de Flint estén protegidos de la exposición al plomo, El Genesee County Health Department y el Michigan Department of Health and Human Services le brindan respuestas a las siguientes preguntas:

- ¿De dónde viene el plomo?
- ¿Qué puedo hacer para proteger a mi familia?
- ¿Debo hacer que mi hijo sea examinado?
- ¿Adónde puedo encontrar más información sobre el plomo?

¿De dónde viene el plomo?

Fueron encontrados niveles elevados de plomo en el agua potable de tuberías de plomo en la Ciudad de Flint. Los niños también pueden estar expuestos al plomo de pintura vieja, tierra, cerámica, cosméticos y juguetes y algunos remedios caseros. Los trabajos y pasatiempos de los adultos tales como reparación del auto, vitrales, fabricación de joyas y manejo de municiones también pueden poner a los niños en riesgo, si tocan prendas o juegan en áreas donde hay plomo. El plomo presenta un riesgo grave para la salud, especialmente en los niños pequeños quienes se envenenan al comer, beber o respirar plomo.

¿Se le debe hacer a mi hijo un examen de plomo en la sangre? Los niños que viven en la Ciudad de Flint, que viven en un hogar donde se usa agua de la Ciudad de Flint, o que asisten a la escuela, reciben cuidado de niños o con frecuencia pasan tiempo con un cuidador en la Ciudad de Flint deberán acceder a un examen de envenenamiento con plomo.
Esto se deberá realizar lo antes posible.

¿Adónde debo ir para que se le haga un examen de plomo en la sangre a mi hijo?

El mejor lugar para realizar el examen de plomo en la sangre a su hijo es el consultorio de su médico. Los exámenes son cubiertos por la mayoría de los planes de salud. Su médico hará con usted el seguimiento de los exámenes médicos y le brindará información sobre qué hacer a continuación. Su hijo también puede acceder a un examen de plomo gratuito en el Genesee County Health Department. Si necesita transporte, comuníquese al 2-1-1 para solicitar ayuda.

Entendiendo el resultado del examen de plomo de su hijo.

Un nivel de plomo debajo de 5 significa que hay poco plomo en la sangre de su hijo. Use los siguientes consejos para ayudar a que su hijo se mantenga seguro. Su medico podrá sugerir un nuevo examen para su hijo dentro de los siguientes 12 meses, para asegurar que el nivel no haya subido.

Un nivel de plomo de 5 a 44 significa que su hijo tuvo cierta exposición al plomo. Trabaje con su medico y con el departamento de salud local para acceder a mayor orientación sobre cómo limitar su exposición al plomo. Su médico podrá volver a examinar a su hijo entre 1 y 3 meses después, para asegurar que el nivel no haya subido.

Los niños con niveles de plomo muy altos **(más de 44)** podrán requerir un tratamiento en el hospital.

¿Qué puedo hacer para mantener segura a mi familia?

Se deberán seguir estos pasos de inmediato para protegerse usted y a su hijo.

Cómo proteger a su familia del plomo en el agua:

- Solicite un examen de plomo en su agua. Es gratuito. Para más información, comuníquese al (810) 787-6537.
- Use un filtro de agua en su hogar. Llame al 2-1-1 para acceder a información sobre filtros de agua gratuitos Certificados por NSF.
- Sólo deje correr agua fría a través del filtro.
- Si no cuenta con un filtro de agua, consuma agua de botella o fórmula mezclada.
- Use agua filtrada o agua en botella para beber (incluyendo la preparación de café, mezclas de bebidas, jugo y formula de bebé), y la cocina (incluso aunque hierva el agua, el plomo permanecerá en el agua y la comida).
- Usted puede usar agua del grifo no filtrada para lavarse las manos y lavar los platos.
- Si deberá usar agua no filtrada para beber o cocinar, deje correr agua por el grifo durante cinco minutos antes de usar la misma.

Limpieza segura:

Una limpieza segura es importante. Mantener su casa limpia y segura de riesgos de plomo le ayudará a proteger a su familia.

- Es posible que las edificaciones construidas antes de 1978 posean pintura con plomo. Use toallas de papel húmedas para limpiar pedazos de pintura y polvo en estas edificaciones antiguas. Asegúrese de limpiar alrededor de las ventanas, áreas de juegos y pisos.
- Lávese las manos y lave los juguetes de forma frecuente con agua y jabón.
- Puede usar agua del grifo no filtrada para limpiar mesadas, fregar pisos y lavar ropa.

Buena nutrición:

Algunas comidas le ayudarán a evitar que el plomo se acumule en el cuerpo de un niño. Éstas son comidas con gran cantidad de calcio, hierro y vitamina C. Estas comidas incluyen:

Comidas Ricas en Calcio	**Comidas Ricas en Hierro**	**Comidas con Vitamina C**
➢ Leche	➢ Habas	➢ Naranjas
➢ Queso	➢ Carnes magras como pescado y pollo	➢ Jugo de naranja
➢ Yogurt	➢ Cereales integrales	➢ Pomelos
➢ Tofu	➢ Mantequilla de maní	➢ Tomates
➢ Espinaca		➢ Pimienta verde

Siempre lave la fruta con agua filtrada. Si está preocupado por la dieta de su hijo, hable con su médico, quien le podrá recomendar un multivitamínico diario.

WIC y SNAP brindan asistencia a los padres y niños que necesitan comidas frescas y saludables. Para más información, comuníquese a la **oficina del WIC del Condado de Genesee al (810) 237-4537**. SNAP también ofrece un programa de Double Bucks para adquirir incluso comidas más saludables sin costo adicional.

¿Adónde puedo encontrar más información sobre el plomo?

Atención: Establecimientos de comidas que utilizan el suministro de agua de la Ciudad de Flint

Estimado Operador del Establecimiento de Comidas:

El 5 de octubre de 2015 le fue enviado un documento recomendando acciones a seguir para evitar el riesgo de servir a sus clientes agua contaminada con plomo. Efectivizado inmediatamente, las recomendaciones se convirtieron en un requisito legal, y esta medida ejecutiva de licencias para establecimientos de comidas podrá ser aplicada si se encuentra que no se cumplió, hasta que la declaración de emergencia de salud pública sea anulada.

Lea la ficha de requisitos actualizada que se encuentra adjunta. Es posible que su establecimiento deba tomar medidas inmediatas para cumplir con este requisito.

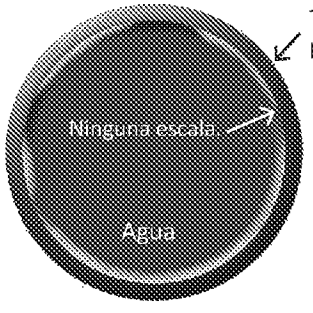
Su establecimiento cuenta con tres opciones:

1. Demostrar que su establecimiento no está usando el suministro de agua de la Ciudad de Flint para beber, procesar o cocinar.
2. Demostrar que su agua fue examinada y es de uso seguro. Puede solicitar un examen gratuito a un oficial de regulación. Para programar una recolección y análisis gratuito del nivel de plomo en el agua de su establecimiento, comuníquese al 1-800-292-3939, de lunes a viernes, e informe que posee un "establecimiento de comidas en Flint que solicita un examen del agua". Prepárese para brindar un tiempo para las muestras luego de que todo el sistema de agua no haya sido usado durante por lo menos 6 horas. Las citas para las muestras están disponibles entre las 5 AM y las 4 PM. Las oficinas estatales estarán cerradas el 18 de enero de 2016.
3. Instale filtros de agua según sea necesario, y deje correr agua diariamente en aquellos grifos sin filtros y equipos de plomería pesada. (El uso discontinuo, dejar correr el agua, etc. aún será necesario hasta que se obtenga una prueba segura del agua).

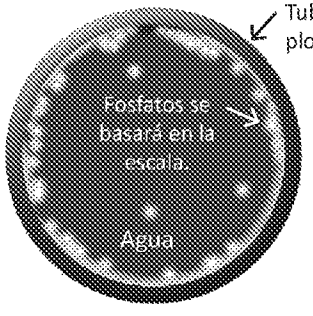
Los inspectores del Michigan Department of Agriculture and Rural Development le están brindando asistencia al Genesee County Health Department para la conducción de muestras e inspecciones, de modo que es posible que usted deba trabajar con otra persona en lugar de su inspector de seguridad alimentaria habitual. Los inspectores también realizarán visitas a establecimientos en las próximas semanas, para brindar asistencia y verificar el cumplimiento de las medidas.

Para acceder a información adicional, comuníquese al 1-800-292-3939, o para acceder a la información más reciente sobre las respuestas en relación al agua de Flint, visite www.michigan.gov/flintwater. Esperamos poder ayudarle de cualquier forma posible.

Atentamente,



Kevin Besey, Director
Food and Dairy Division
(División de Alimentos y Lácteos)
Michigan Department of Agriculture and Rural Development



Agregado de Fosfato al Agua de Flint

¿Por qué hay plomo en el agua de algunos hogares?

- Las tuberías, soldaduras y grifos de plomo solían ser de uso común. Ahora sabemos que el plomo puede dañar nuestra salud.
- Es muy probable que en las casas construidas antes del año 1987 haya tuberías de desagüe y tuberías de suministro de plomo. Algunos grifos y ciertos tipos de soldaduras también podrían tener plomo, incluso aquellos instalados recientemente.
- Es probable que el plomo encontrado en el agua de los grifos de los hogares de Michigan provenga de tuberías antiguas, soldaduras y grifos.
- El reemplazo de tuberías de suministro antiguas, tuberías de desagüe y grifos es la única forma segura de limitar el plomo en el grifo de agua.
- Las tuberías, soldaduras y grifos nuevos deben cumplir con los estándares de producto libre de plomo de EPA.

¿Por qué estamos colocando fosfato en el agua?

- Durante años, los minerales de nuestra agua se acumularon dentro de nuestras tuberías de agua.
- Esta acumulación de minerales se llama sarro.
- Este sarro ayuda a mantener una gran cantidad de plomo, en las tuberías, fuera del agua.
- Si algo le sucede al sarro y el agua puede tocar las tuberías, el plomo se puede introducir en el agua.
- Agregar fosfato al agua ayuda a formar y mantener sarro, recolectándose en los costados de las tuberías y adhiriéndose al metal.

Pisto sobre el Fosfato

- **El fósforo es un mineral natural que el cuerpo necesita. Funciona con calcio para mantener los huesos fuertes y sanos.**
- **El fosfato es un tipo de sal que contiene fósforo.**
- **Aunque el agua potable de Detroit ya cuenta con fosfato, se está agregando una cantidad adicional al agua de la Ciudad de Flint para ayudar a agregar sarro en las tuberías.**
- **La Ciudad de Flint, MDEQ, y EPA trabajaron juntos para averiguar cuánto fosfato adicional es necesario en el agua que llega a los hogares de Flint.**
- **La mayoría de las personas probablemente ya comen y beben más fosfato en sus comidas diarias que la pequeña cantidad que se encontrará en el agua del grifo.**
- **Continúe usando filtros de agua que eliminen el plomo, hasta que se retire la Declaración de Emergencia de Salud Pública del Genesee County Health Department.**

¿Qué es el ácido fosfórico?

Aunque el agua que viene de Detroit ya posee una cantidad de fosfato, las plantas de Flint agregarán más para ayudar a acumular y mantener el sarro con mayor rapidez. Para obtener el fosfato necesario para que esto funcione, la Planta Potabilizadora de Agua de la Ciudad de Flint agregará algo llamado ácido fosfórico en el agua de la ciudad. El ácido fosfórico es un ingrediente alimenticio común en productos como cola o jugo.

El ácido fosfórico se disolverá rápidamente en el agua y se dividirá en dos partes, hidrógeno y fosfato. El hidrógeno se convertirá en parte del agua y el fosfato restante se asentará y adherirá a las paredes de las tuberías – acumulando sarro como en la imagen anterior.

Ante cualquier duda sobre el fosfato agregado en la Ciudad de Flint, comuníquese a la City of Flint Water Plant (Planta Potabilizadora de Agua de la Ciudad de Flint) al 810-787-6537.

Ante cualquier duda sobre el fosfato y su salud, comuníquese con el MDHHS al 1-800-648-6942.

v. 12/10/2015

CÓMO RECICLAR BOTELLAS DE AGUA Y FILTROS DE AGUA EN FLINT

Instrucciones para el Retiro en el Borde de la Acera

Republic Services brinda reciclado en el borde de la acera dos veces por semana sin costos adicionales a residentes que ya cuentan con servicios semanales de recolección de la basura.

1)**Para obtener un cesto de reciclado azul, llame al 1-800-438-0966** (Lun. a Vie., 8a.m.-5p.m., o Sáb., 8a.m.-12p.m.) para solicitar la entrega de un cesto en su casa.

2)Hasta que reciba su cesto, Republic Services permite que las botellas sean colocadas en bolsas de plástico transparentes. No coloque la basura en la misma bolsa que las botellas.

3)Hasta que reciba su cesto, coloque las bolsas transparentes en el borde de la acera el día de retiro de los residuos, a unos pocos pies de su basura. Una vez que reciba su cesto, sáquelo el día del reciclaje.

4)Usted también puede dejar sus bolsas en cualquier de los puntos destinados a esto de la ciudad.

¿Qué debo hacer con el cartucho usado de mi filtro de agua?

1) Cuando deba cambiar su filtro de PUR o Brita, lleve el cartucho usado a un lugar de distribución.

2) Coloque el cartucho usado en la caja provista en el lugar.

3) Llévese un cartucho de reemplazo.

TODAS LAS BOTELLAS QUE DEJE DEBERÁN ESTAR EN BOLSAS DE PLÁSTICO TRANSPARENTES

No se aceptan bolsas de colores ni de tiendas

PLOMO EN EL AGUA DE FLINT

INFORMACION GENERAL

- La cantidad de plomo que se encuentra en el agua potable en los hogares de Flint podría afectar la salud de los niños.
  - o Inclusa pequeñas cantidades de plomo pueden dañar la salud de los niños, ya que todavía están creciendo.
  - o Los adultos tienen menos probabilidades de ser perjudicados por los niveles encontrados en el agua.
- Filtre el agua potable utilizando un filtro aprobado por la National Sanitation Foundation (NSF).
  - o Usted puede recibir un filtro aprobado por NSF gratis, si utiliza agua de la Ciudad de Flint.
  - o Llame al 2-1-1 para averiguar adónde puede retirar un filtro de agua gratuito.
- Algunos filtros pueden eliminar hasta el 99% del plomo en el agua cuando se utilizan correctamente. Para asegurarse de que su filtro está eliminando la mayor cantidad de plomo posible, siga cuidadosamente las instrucciones enviadas con éste.
  - o Deje correr agua fría a través del filtro solamente.
  - o Cambie el cartucho del filtro tan a menudo como lo indiquen las instrucciones.
- Incluso después de los cambios en el sistema de agua, puede tomar un tiempo antes de que los niveles de plomo en el agua se reduzcan.
- El plomo es difícil de evitar por completo. Se puede encontrar en las tuberías de agua y grifos de agua de bronce, pintura vieja, en la tierra, en algunos lugares de trabajo, y en el metal usado en algunos pasatiempos.

Hay una serie de pasos que puede tomar para que usted y su familia estén saludables. Utilice los siguentes consejos para aprender más sobre cómo mantenerse saludable:

PLOMO EN EL AGUA

Aunque el agua a veces puede ser de un color diferente, esto no es causado por el plomo. Es importante recordar:

- Usted no puede ver, eler o saborear plomo en el agua.
- El plomo no cambiará el color del agua.
- La única manera de saber cuáles son los niveles de plomo en su hogar es haciendo examinar el agua.

PLOMO EN LA SANGRE

- Si sus hijos viven en Flint o van a la escuela o a una guardería en la ciudad de Flint, sus niveles de plomo en la sangra deben ser examinados.
- Debe comunicarse con su médico para realizarse un examen.
- El examen está disponible de forma gratuita en el Departamento de Salud del Condado de Genesee. Llame al 2-1-1 si necesita ayuda para llegar allí.
- Si está embarazada o amamantando, y ha dado negativo en los niveles altos de plomo en la sangre, es seguro amamantar.
- Si está embarazada o amamantando y ha dado positive en los niveles altos de plomo en la sangre, hable con su médico acerca de la seguridad de la lactancia materna.

CONSEJOS PARA MANTENER SU HOGAR PROTEGIDO DEL PLOMO

FILTROS DE AGUA

- Haga examinar el agua de su casa. Es gratis. Llame al 2-1-1.
- Utilice un filtro de agua. Llame al 2-1-1 para solicitar un filtro gratuito.
- Si usted no tiene un filtro de agua, utilice agua embotellada para beber y para mezclar fórmula.
- Use agua fría y filtrada para cocinar.
- Lave frutas y verduras con agua filtrada.
- Si tiene que usar agua sin filtrar, deje correr el agua durante cinco minutos antes de usarla. Para ahorrar tiempo y agua en el futuro, es una buena idea llenar tantos envases como sea posible, una vez que haya dejado correr el agua durante cinco minutos.
- Drene y purgue los tanques de su calentador de agua regularmente, para eliminar cualquier plomo que haya quedado acumulado. Siga las instrucciones de fabricante para el mantenimiento o póngase en contacto con un profesional autorizado para obtener ayuda.

LIMPIEZA

- Lave platos, botellas y juguetes con agua no filtrada y jabón y deje que se sequen antes de su uso.
- Es seguro usar el agua del grifo sin filtrar para limpiar pisos y mesadas.
- Es seguro lavar la ropa en la lavadora y secadora.
- Utilice un tapete en la puerta. Quítese los zapatos cuando esté dentro.
- Aspirar alfombras puede levantar más polvo de plomo sobre la superficie. Utilice una barredora no motorizada para limpiar alfombras.
- Limpie alféizares y áreas de juego a menudo con toallas de papel y agua con jabón.

CONSEJOS PARA MANTENER SU HOGAR PROTEGIDO DEL PLOMO

EN EL BAÑO

- Utilizar agua filtrada para cepillar los dientes de sus hijos.
- Los adultos pueden usar el agua del grifo sin filtrar para lavarse los dientes.
- Se puede utilizar agua del grifo sin filtrar para bañarse, pero no deje que los niños beban el agua cuando jueguen en la bañera.
- Estudios realizados por los Centros de Control y Prevención de Enfermedades muestran que los padres pueden seguir bañando a sus hijos en la bañera, pero la hora del baño se debe utilizar para el baño solamente, en lugar de permitir que los niños jueguen en el agua durante mucho tiempo.
- El plomo no causa erupciones u otros problemas de la piel. Sin embargo, si los niveles de cloro u otros productos de limpieza son altos en el agua, puede causar picazón en la piel o piel seca (similar a lo que puede suceder cuando usted nada en una piscina).

CUIDADO DE MASCOTAS

- Utilice agua filtrada del grifo para que su mascota beba en su tazón.
- Usted puede utilizar el agua del grifo sin filtrar para bañar a sus mascotas.
- Si usted nota que su mascota actúa de manera diferente de la normal, consulte a su veterinario.

DIETA SALUDABLE

- Coma alimentos ricos en hierro, calcio y vitamina C.
- Lávese las manos con jabón y agua tibia antes de comer.
- Si necesita alimentos frescos y saludables, llame a la oficina de WIC al 810-237-4537, o para la asistencia alimentaria "SNAP" aplique en www.michigan.gov/mibridges o visite su oficina local del Departamento de Salud y Servicios Humanos de Michigan.

BUENAS FUENTES DE HIERRO INCLUYEN:

- Carnes rojas desgrasadas, pescado y pollo
- Cereales con hierro añadido
- Frutas secas (pasas, ciruelas pasas)

BUENAS FUENTES DE CALCIO INCLUYEN:

- Leche
- Yogur
- Queso
- Verduras de hojas verdes (espinaca, col rizada, berza)

BUENAS FUENTES DE VITAMINA C INCLUYEN:

- Naranjas, jugo de naranja
- Toronja, jugo de toronja
- Tomates, jugo de tomate
- Pimientos verdes

INFORMACION DEL PLOMO

El equipo de respuesta de Flint esta enfocado en la crisis de plomo en la agua. Además del agua, cientificos, durante mucho tiempo, han estado preocupados por todas las fuentes de plomo, incluyendo la pintura con

PINTURA CON PLOMO

- Las casas construidas antes de 1978 probablemente tienen pintura con plomo, tanto dentro como fuera.
- La pintura vieja es la forma más común en que los niños son expuestos al plomo.

TIERRA

- Si usted vive en la ciudad, puede haber plomo en la tierra afuera de su casa.
- Antes de 1996, el gas y los gases de escape de los automóviles contenian plomo. Más plomo se encontrará en la tierra de áreas con tránsito intenso.

POLVO

- El polvo en su casa puede tener pequeñas cantidades de plomo de la pintura y suciedad.

AFICIONES Y EMPLEOS

- Las soldaduras, plomadas de pesca, balas y materiales que enmarcan los vitrales son algunos elementos que pueden contener plomo. Usted podría también llevar polvo con plomo a casa de su sitio de trabajo.

¿TIENE PREGUNTAS?

- Para más información sobre cómo protegerse usted y su familia del plomo, visit www.michigan.gov/flintwater.
- Para saber dónde puede obtener un filtro de agua gratuito, llame al 2-1-1.
- Para una examinación de su agua gratis, llame al 2-1-1.
- Para más información sobre el plomo en su casa y lo que puede hacer, llame al Departamento de Salud y Servicios Humanos de Michigan al 1-800-648-6942.
- Para obtener información sobre cómo puede ayudar, visite www.helpforflint.com.

Check this out. Just got this "Mandatory" meeting notice.
Think they are scared?

Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

All –

You may have received a meeting invitation for a mandatory meeting tomorrow afternoon. This is mandatory and you should call in to the conference line. You do not need to physically attend.

Your name was provided in response to a request for a list of employees who may have received email(s) with a slew of key words, including; Flint, Genesee County, lead, water and more. There is no timeframe associated with the request, therefore, we must be responsive, although our emails were a result of the printing needs resulting from the crisis.

Let me know if you have questions or need more information.

Thanks,
Kristen

Cov neeg nyob hauv Flint uas muaj kev txhawj xeeb txog lawv cov dej tuaj yeem tau txais cov cuab yeej ntsuas dej ntawm cov chaw tsim dej.

SIV LUB TAUB LIM DEJ THIAB DAIM LIM DEJ

Cov taub lim dej tuaj yeem txo tau cov tshuaj txhuas kom muaj tsawg thiab lwm yam sub tsuag tau 99% thaum nruab rau raug zoo. Cov taub lim dej muaj pub dawb rau ntawm qhov chaw tsim dej.

THAUM XAV TAU KEV PAB SAI SAI

HU 2-1-1

Tshuaj Xyuas Cov Kev Sim thiab Ntsuas

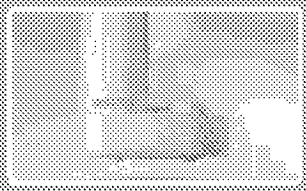
Txhua lub tsev uas tau tsim ua qhov chaw ntsuas yuav muaj pab pawg kuaj ntsuas, cov kws kho dej, thiab cov neeg ua haujlwm ntxiv uas tau txais tso cai tuaj tshuaj xyuas. Pab pawg kuaj ntsuas yuav piav qhia tias tuaj saib txog dab tsi thiab khauj ruam yuav ua txuas ntxiv yog dab tsi. Tus kws kho dej raug tso cai los ua kom tiav qhov kev ntsuas dej nyab rau hauv tsev. Pab pawg kuaj ntsuas yuav qhia rau cov neeg hauv tsev txog kev tu lawv lub tshuab cua li cas thiab yuav kuaj ntsuas dej ntxiv ntawm tus kheej li cas.

Txhua cov ntsuas tau los tau muab nthuav tawm rau hauv online txhua hnub ntawm: www.michigan.gov/flintwater.

Txhua qhov ntsuas tau los yuav muab xa mus rau cov neeg raws Tebchaws Asmeskas qhov chaw xa ntawv.

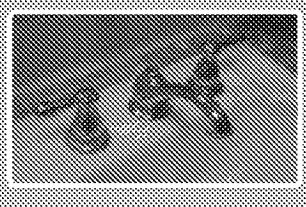
Yog tias cov ntsuas tau los hauv koj lub tsev yog ntau dua li 150 feem toj ib txhiab lab (ppb), koj yuav tau rov tuaj ntsib hauv 48 teev.

Nyob hauv 48 teev ntawm cov ntsuas tau los muaj ntau dua 150 ppb, yuav tau mus ntsib tom tsev. Kev mus ntsib hauv tsev muaj xws li:



1) Cov ntaub ntawv noj qab haus huv thiab nyob zoo.
2) Xa cov ntshav coj mus kuaj ntxiv.
3) Nqi musj los rau tom qhov chaw teem caij ntsuas.
4) Muab cov taub tej, taub lim dej thiab cov khoom siv rau.

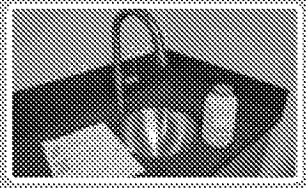
Yog cov ntsuas tau los hauv koj lub tsev ntau dua 100 ppb tab sis tsawg dua 150 ppb, koj yuav tau tuaj ntsib hauv 7 hnub.



Cov vis dis aus qhia hloov lub Taub Lim dej thiab ntsuas dej tuaj yeem nrhiav pom ntawm www.michigan.gov/flintwater hauv qab kab ntawv Media Center tab.

Nov yog qee yam koj tuaj yeem nqis tes ua:

Nruab lub taub lim dej NSF uas raug lees paub thiab hloov raws li lub chaw tsim khoom phau ntawv qhia. Cov taub lim no tej zaum kuj tau dawb



Hloov tus kais dej qub thiab cov lim dej uas yuav muaj cov tshuaj txhuas khub.

Nquag ntxuav lub taub tshuab cua tas li kom tshem cov sub tsuag tawm.

Nqa tus kheej cov dej coj mus ntsuas.

Kev rhaub koj cov dej yuav TSIS tshem tawm cov tshuaj txhuas!

水资源站点

访问水资源站点，以便在离您最近的弗林特消防站领取瓶装水、滤水器、过滤器更换滤芯和水质检测套件。

帮助和支持服务

Michigan 2-1-1™
保持联系。获得答案。

如果您有疑问、想要作出捐赠或提供志愿服务，请致电联合劝募会 2-1-1。

Disaster Distress Helpline

需要进行危机咨询的弗林特居民可致电 Disaster Distress Helpline：800-985-5990，或发送短信 "TalkWithUs" 至 66746。该帮助热线可向任何需要协助的人员提供即时的保密咨询服务。此项资源可全天候提供。说西班牙语的居民可致电 800-985-5990 并按 "2"，或发送短信 "Hablanos" 至 66746。

Genesee Health System
压力咨询

如需咨询 Genesee Health System 的心理健康专家，请致电 810-257-3705。

针对弗林特水资源采取行动

www.mi.gov/FlintWater

Michigan 2-1-1™
保持联系。获得答案。

如果您有疑问、想要作出捐赠或提供志愿服务，请致电联合劝募会 2-1-1。

针对弗林特水资源采取行动

使用过滤的自来水

- 饮用、烹饪
- 刷牙
- 清洗水果和蔬菜
- 宠物水碗

使用未滤过的自来水

- 清洁
- 洗浴

血铅水平检测

所有六岁以下的弗林特儿童都应进行血铅水平检测。联系您的主治医师或致电 2-1-1。

营养

您是否知道有些食物可帮助将铅从儿童的体内排出？食用含有很多钙元素、维生素 C 和铁的食物。

免费水检测

关注其水质的弗林特居民均可在水资源站点获取免费的水质检测套件。

使用滤水器与滤芯

如果正确安装，滤水器可将铅及其他污染物减少 99%。免费滤水器可在水资源站点获取。

即时援助

拨打 2-1-1

后续采样和检测

采样团队成员、有职业资格证的水管工及其他人员将拜访已被安排进行警戒地点检测的所有家庭。采样团队成员将说明为什么进行拜访以及下一步将做什么。有职业资格证的水管工将完成家用水管设施的基本评估。采样团队成员将向居民演示如何清洁其通气装置以及如何完成附加的个人用水检测。

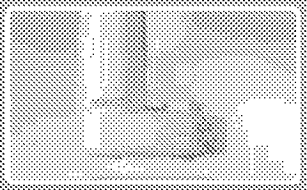
所有实验室检测结果每天都会在以下网站公开发布：www.michigan.gov/flintwater.

所有检测结果均将通过美国邮政署邮寄给居民。

如果您家庭的检测结果大于十亿分之 150 (ppb)，我们将在 48 小时内拜访。

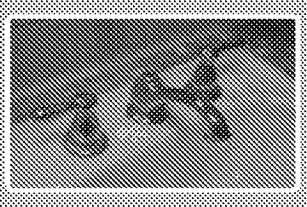
在任何检测结果显示大于 150 ppb 之后的 48 小时内，我们将进行家庭健康访问。家访包括：

1) 健康与保健信息。
2) 非现场验血推荐。
3) 评估获得预约所需的交通工具。
4) 提供额外的瓶装水、过滤器和采样套件。



如果您家庭的检测结果大于 100 ppb 但小于 150 ppb，则我们将在 7 天内拜访。

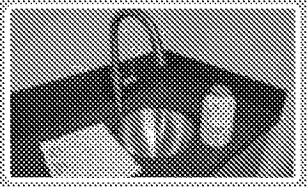
有关滤水器更换和水质检测的教学视频可在 www.michigan.gov/flintwater 的 Media Center（媒体中心）选项卡中找到。



将水煮沸并不能将铅去除！

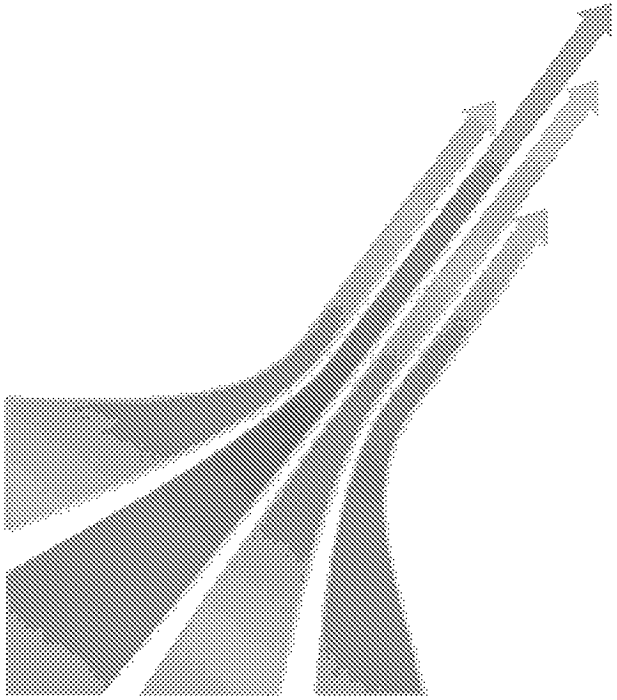
下面是您可采取的一些行动：

安装经 NSF 认证的过滤器并依照制造商指引进行更换。这些过滤器可免费获取。



更换含铅的老化水龙头和管道。

定期清洁通气装置以去除颗粒物质。



寄送自采水样进行检测。

الإجراءات الواجب اتخاذها
بشأن المياه في مدينة فلينت

استخدم مياه الحنفية المرشحة في الأغراض التالية

- الشرب والطهي
- غسل الفواكه والخضروات
- غسل الأسنان بالفرشاة
- أوعية مياه الحيوانات الأليفة

استخدم مياه الحنفية غير المرشحة في الأغراض التالية

- التنظيف
- الاستحمام

اختبار مستوى الرصاص في الدم

على جميع أطفال مدينة فلينت البالغين أقل من ست سنوات من العمر اختبار مستويات الرصاص في دمهم. اتصل بمزود الرعاية الصحية الأولية أو اتصل على رقم 2-1-1.

التغذية

هل تعلم أن بعض الأطعمة سوف تساعد على منع تخزين الرصاص في الجسم على الطفل؟ تناول الأطعمة التي تحتوي على الكثير من الكالسيوم، وفيتامين ج والحديد.

اختبار المياه المجاني

يمكن لسكان مدينة الذين يشعرون بالقلق تجاه مياههم الحصول مجموعات اختبار مياه مجانية من مواقع الموارد المائية.

استعمال خراطيش وفلاتر المياه

يمكن لفلاتر المياه أن تقلل من الرصاص والملوثات الأخرى بنسبة 99٪ عند تركيبها بشكل صحيح. تتوفر فلاتر مياه مجانية في مواقع الموارد المائية.

للحصول على المساعدة الفورية
اتصل على رقم 2-1-1

عينات واختبارات المتابعة

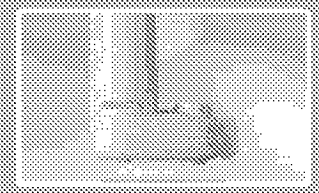
سوف يقوم أحد أفراد فريق العينة وسباك حاصل على ترخيص وموظفين إضافيين بزيارة جميع المنازل المحددة لاختبار الخضوع للمراقبة. سوف يقوم عضو فريق العينة بشرح الغرض من الزيارة وما هي الخطوات القادمة. سيقوم السباك الحاصل على ترخيص مزاولة باستكمال تقييم السباكة الأساسية في المنزل. سيظهر أعضاء فريق العينة للسكان كيفية تنظيف أجهزة التهوية وكيفية استكمال اختبارات المياه الإضافية الشخصية.

يتم نشر جميع نتائج الاختبارات المعملية للجمهور على الانترنت يوميًا على الموقع: www.michigan.gov/flintwater.

سوف يتم إرسال جميع نتائج الاختبار للسكان عن طريق بريد الولايات المتحدة.

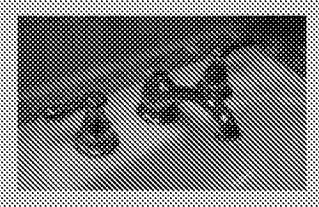
إذا كانت نتائج الاختبار الخاصة بمنزلك أكبر من 150 جزء في المليار (ppb)، فسوف يقوم أحدهم بزيارتك في غضون 48 ساعة.

سيتم إجراء زيارة صحية منزلية لأي نتائج اختبار تظهر أكبر من 150 جزء في المليار في غضون 48 ساعة. تشمل الزيارات المنزلية ما يلي:



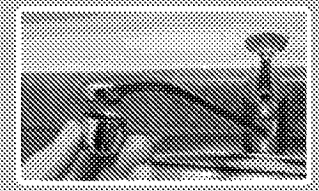
1) معلومات الصحة والعافية.
2) إحالة اختبار الدم خارج الموقع.
3) تقييم احتياجات الانتقال لإجراء الزيارات.
4) توفير المياه المعبأة في زجاجات إضافية، وفلاتر وأدوات أخذ عينات.

إذا كانت نتائج الاختبار الخاصة بمنزلك أكبر من 100 جزء في المليار (ppb) ولكن أقل من 150 جزء في المليار (ppb)، فسوف يقوم أحدهم بزيارتك في غضون 7 أيام.

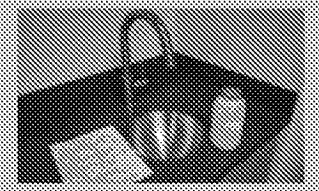


يمكنك الاطلاع على مقاطع فيديو تعليمية بشأن استبدال فلتر المياه وإجراء اختبارات المياه على www.michigan.gov/flintwater تحت علامة تبويب المركز الإعلامي.

فيما يلي بعض الإجراءات التي يمكنك اتخاذها:



تركيب فلتر مرخص من المؤسسة الوطنية للعلوم واستبدالها وفقًا لإطار المبادئ التوجيهية لجهة التصنيع. ويمكن الحصول على هذه الفلاتر مجانًا



استبدال الحنفيات وتركيبات السباكة القديمة التي تحتوي على مكونات الرصاص

التنظيف المنتظم لجهاز التهوية لإزالة الجسيمات العالقة

إرسال عينات المياه الدائية للاختبار

إن غلي المياه لن يزيل الرصاص!

LEAD poisoning

Pregnant Mothers

Lead poisoning is caused by swallowing or breathing lead. Lead can pass from a mother to her unborn baby.

Too much lead in your body can:

- Put you at risk of miscarriage
- Cause your baby to be born too early or too small
- Hurt your baby's brain, kidneys, and nervous system
- Cause your child to have learning or behavior problems

1 What you can do:

Get your water tested for lead.

- You can't see, smell, or taste lead in water.
- The only way to know what your home's lead levels are is by having your water tested in a lab.

2 Use bottled water.

- The safest option for pregnant women and children under 6 years old is to use bottled water for drinking, cooking or making formula. Filtered water can be used only if your filter is NSF-certified to remove lead and you follow all instructions on how to use it/when to replace it.

Tip: Bottled water, NSF-approved water filters, and water testing kits are available for free at water resource sites across Flint. Call United Way 2-1-1 for a location near you.

3 Know when to use unfiltered water.

- It's safe to wash dishes, bottles, pacifiers and toys often with unfiltered soapy water as long as you dry fully before use.
- Unfiltered water can still be used to shower and bathe, but be careful to not get water in your child's mouth or let them drink the water in the tub.

4 Eat foods with calcium, iron and vitamin C.

These foods may help protect you and your unborn baby.

- Calcium is in milk, yogurt, cheese, and green leafy vegetables like spinach.
- Iron is in lean red meat, beans, cereals, and spinach.
- Vitamin C is in oranges, green and red peppers, broccoli, tomatoes, and juices.

5 Talk to your doctor.

- Blood lead testing is available. Talk to your doctor or local health department to learn more.

For more information about protecting yourself and your family from lead, visit www.michigan.gov/flintwater.

For more information about lead in your home and what you can do, call the Michigan Department of Health and Human Services at 1-888-322-4453 or visit www.michigan.gov/lead.

Flint residents can call the City of Flint Water Department for a free water test, 810-787-6537, or pick one up at a water resource site.

Woman dies in Mundy Township house fire

A Mid-Michigan woman was killed when a fire swept through her home. Firefighters in Genesee County's Mundy Township say the the entire house on Reid Road was on fire when they got there early Tuesday morning. They believed the woman who lived there, 59-year-old Rhonda Suryan, was inside, but the fire was too intense for crews to go in. The extreme cold caused problems getting water on the fire as well.

WJRT-TV ABC 12

Agreement would allow Sterling Heights and Clinton Township fire departments to share resources

The Sterling Heights City Council will be asked on Jan. 19 to consider approving an agreement with Clinton Township that would allow the fire departments in each community to "borrow" fire engines and other apparatus from each other in times of need. "The fire departments in Sterling Heights and Clinton Township have an excellent working relationship and rely upon one another for mutual aid when called upon," Sterling Heights Fire Chief Chris Martin said. "In order to ensure that each fire department can maintain in-service fire apparatus to serve their communities at all times, the fire chiefs from the city (of Sterling Heights) and Clinton Township negotiated the proposed interlocal agreement." According to Martin, the fire departments serving the city of Sterling Heights and Clinton Township are organized and function in a very similar manner. Both departments have five stations, with each station having a fire engine in service 24/7. "Both departments also maintain reserve apparatus to rotate into service as needed when front line apparatus are out of service for routine maintenance or repairs," Martin said. For example, the Sterling Heights Fire Department has five front line engines and three in reserve. "It is not infrequent for the fire department to have three fire engines out of service at one time, leaving no buffer in the event another engine goes down," Martin said. "While the Department of Public Works mechanics do an excellent job maintaining the fleet, issues can and do arise that cause lengthy down time."

ADVISOR & SOURCE NEWSPAPERS

Firefighters battle house fire on Bay City's West Side

Firefighters are currently on the scene of a house fire on Bay City's West Side. The blaze at 409 S. Catherine St. was reported at 9:02 p.m. on Tuesday, Jan. 19, according to Bay County Central Dispatch. Bay City Fire Chief Karey Prieur said a male resident, approximately 65 years old was home, and neighbors called 911. By the time firefighters arrived, the fire had spread throughout the first floor, Prieur said. The male resident managed to get outside before firefighters' arrival, and was thereafter transported via ambulance to Hurley Medical Center in Flint for treatment of burns, the chief said. The two-story structure's roof caved in shortly after firefighters arrived, forcing them to combat the blaze from the outside, Prieur said. "We're still on scene," Prieur said at 11:15 p.m. "We're going to be here a while. The structure is so unsound, we're not letting anybody in." No mutual aid from other fire departments was requested, though a Bay

Metro bus is coming to help keep the firefighters warm, Prieur said.

MLIVE.COM

Flint fire stations turn into water stations

Truckloads of supplies and other aid -- coming to Flint all day, every day. But so far -- it's not enough. Local fire stations -- converted into "water stations" handing out bottled water to thousands of residents. People in the neighborhoods have been coming to the water stations for one case a day - and it's still not enough. "I don't feel we should have to pay a $180 water bill a month for water that we cannot drink we cannot cook with and half of us is afraid to bathe with it," said one resident. "And then they only want to give you one case of water a day - that's pitiful." "Of course they're going to need more than one case a day but it's just that we're helping out an entire city," said a National Guardsman. "So it's short supply, we have to give what we can. We give a case a day and it's not enough." "It's awful, awful, awful," said one resident. At this water resource station they are handing out 200 cases per hour. Up the road - it's 300 to 500 per hour. People with children especially worried since lead in the water coming from their faucets - is so toxic. "It's a struggle," said another resident. "It's going to be a struggle for all of us and we don't know what the outcome is going to be. "I'm so scared that I'm ready to move, just - I don't want to wait until my kids get sick or I get sick." "I got six in the home," said another woman. "And it's dangerous we can't take a bath. We need help."

WBJK-TV MYFOX DETROIT 2

Tanker Crash, Fuel Spill Closes I-94 Ramp Near Detroit Metro Airport

Officials say it could take hours to clean up a fuel spill after a tanker crashed off I-94 near Detroit Metro Airport. The accident happened just after 12 a.m. Wednesday on westbound I-94 on the exit ramp for Middle Belt and Merriman roads in Romulus, according to Michigan Department of Transportation spokesperson Diane Cross. "The exit ramps on I-94 westbound — when people are exiting to the airport, you can exit to Middle Belt and Merriman — unfortunately, that is now closed because we had a tanker roll over off this ramp into the grassy, marshy area off the side of the road," said Cross. Romulus Deputy Fire Chief Kevin Krause said the tanker was hauling fuel, which spilled from the truck after the crash. "The tanker was carrying 7,500 gallons of regular fuel, it just finished topping off at one of our local filling facilities," he said. "We anticipate that there's approximately 1,000 to 1,500 gallons spilled prior to us being able to stop the spill." Krause said the driver was rescued from the tanker and taken to a local hospital where he was last reported in stable condition.

WWJ-TV CBS DETROIT

2 very different fires ignite at Otsego and Timber Ridge ski resorts

There was blazing excitement Tuesday at two ski areas near Kalamazoo. A fire broke out inside the wall of the compressor shed at about 11:30 a.m. Tuesday at Bittersweet Ski Resort in Otsego. General Manager Vick Gayheart said he was using a torch to thaw a pipe that pumps cooling water into the compressor unit when he "lit a couple mouse nest" inside the wall. The fire quickly traveled up the wall and Gayheart called the fire department. But he said workers at Bittersweet used a fire extinguisher and a fire hose connected to a nearby hydrant to douse the fire before firetrucks arrived. "We're just lucky it wasn't worse," said Gayheart. The fire did not damage any of the resort's equipment and no injuries were reported. "I came to work today and turned into firefighter Derek," said Derek Niemi, Terrain Park Manager at Bittersweet Ski Resort. He said he hoped open the wall to get water on the fire. Toting a snowboard later in the morning, Niemi said, "Most people haven't realized we had a fire today. It's business as usual." Business as usual is welcomed feeling at both skiing locations near Kalamazoo. Skiing got off to a slow start because of December's warm weather. Bittersweet now has a 26-inch base and skiing traffic has been "like opening the flood gates," said Bittersweet Night Manager Jill Herrick. Last Saturday the resort sold a record 2,899 daily ski passes, in addition to its season pass holders. Near Gobles, a different kind of fire lit up the slopes at Timber Ridge Ski Area as Special Olympics athletes carried the traditional torch for the 8th Annual Southwest Michigan Regional Winter Games. Timber Ridge hosted nearly 200 Special Olympics participants, with those involved saying the cold weather was perfect. The Special Olympics is a world's largest program of sports training and athletic competition for people with intellectual disabilities. On Tuesday, it was a chance for those who have been practicing skiing and snowboarding this winter to compete, and move up to the State Winter Games in Traverse City in February. The end of the games were celebrated with fireworks.

Woman Jumps In SUV, Stabs Denver Fire Chief

Denver Fire Chief Eric Tade was stabbed Tuesday afternoon just outside of his department's headquarters at Colfax Avenue and Speer Boulevard. Investigators said a woman jumped into Tade's unmarked city SUV as it was stopped and attacked him. Doug Schepman, a police spokesman, declined to speculate on what spurred the stabbing. "At this time, we don't know what the motive was," Schepman told reporters. Tade was taken to Denver Health in fair condition with wounds to his hand and leg. Officials said he is in good spirits and is expected to make a full recovery. He was released from the hospital Tuesday evening and is recovering at home. Police identified the woman arrested in the 1:30 p.m. attack as 42-year-old Marlene Zacevich-Rodriguez. She is suspected of aggravated assault. Police recovered her knife. "We had some witnesses on the scene that pointed us in the direction of a female suspect," Schepman said. "We're trying to piece together whether or not there is a connection between the victim and the suspect." Officers flooded the scene after the stabbing, cordoning off a large swath of the intersection at Colfax and Speer — including the fire station — in crime scene tape.

DENVER POST

Report criticizes California firefighters' attention to safety in blaze that severely burned captain

Fresno firefighters who responded to a house blaze where Capt. Pete Dern fell through a roof and was severely burned failed to properly access the fire's dangers, reflecting a Fire Department in which personnel are "picking and choosing" which procedures to follow, an investigative report released Tuesday says. The 274-page investigative report on the March 29, 2013 fire in central Fresno makes sweeping recommendations for Fresno Fire Department. Dern was engulfed in flames for more than 90 seconds. He suffered second- and third-degree burns on around 70 percent of his body. The incident and his long rehabilitation received national attention. Dern spent 164 days in the burn unit at Community Regional Medical Center. In April, Fire Chief Kern Donis assembled a Serious Accident Review Team team and authorized them to investigate the circumstances of the fire and Dern's injuries. The recommendations issued by the team cover everything from adhering to rules on personal protective gear to altering the fire department's culture of safety. The eight-member SART team was made up of current and retired fire officials from the Kern County Fire Department, the Modesto Fire Department, the Los Angeles Fire Department, and other agencies.

Florida firefighter involved in crash suspended for not disclosing previous DUI arrest

A firefighter has been suspended following an investigation by the Clay County Fire Rescue Monday that unearthed he did not disclose a 2013 DUI arrest to county officials, the agency said. David A. Nettles has been placed on administrative leave following the investigation into an unrelated January 15 crash on Blanding Boulevard when the fire engine Nettles was driving was struck by a vehicle that reportedly ignored the emergency lights on his vehicle. Two people in the car were injured in the wreck, Florida Highway Patrol reported. Nettles was arrested in Duval County and charged with driving under the influence of alcohol or chemical substance on November 11 of last year, court records show. He was off-duty at the time, but not disclosing the arrest to the Clay County Public Safety Department is a violation of the county's policies, according to Lorin L. Mock, a Clay County fire chief. "The county takes very seriously allegations of such misconduct by its employees, and Engineer Nettles has been placed on Administrative Leave pending the outcome of an investigation into his failure to notify the county of his arrest," Mock said in an email to First Coast News.

FDSOA Symposium: Diesel Emissions Standards Need not be so Scary

Diesel emissions, regeneration and maintenance shouldn't be as scary as some firefighters believe. Ever since the federal Environmental Protection Agency (EPA) started cracking down on black soot spouting diesel engines about five years ago, firefighters flinch at new regulations and have been trying to push them back. However, compliance rather than resistance is probably the better path to take. So, said two presenters at the 29th annual Fire Department Safety Officers Association apparatus symposium in a presentation titled "Diesel Emissions Maintenance & Troubleshooting." The presenters were Wes Chestnut, Spartan Motors' manager of product safety and compliance and Chris Crowel, the emergency vehicle market leader for Cummins. Crowel told attendees to the presentation that diesel engine regeneration cycles are no different than self-cleaning ovens and should be no more scary than that. "It's really no different than that," Crowel said. "It's just like cleaning your oven." There are three types of regeneration, Crowel said, noting that the first kind happens automatically as the diesel engines simply run at high temperatures at high speed to burn all the soot. The second is active regeneration where a little fuel is put into the exhaust system to increase the temperature and the last is the manual, stationary regeneration.

FIREHOUSE

20 black Chicago firefighters hired after lawsuit were not medically cleared

At least 20 of the 111 black firefighters hired by the Chicago Fire Department after a marathon discrimination lawsuit had not been medically cleared by a department physician before starting work and two of them "suffered serious medical events and died while off-duty," the city's inspector general disclosed Tuesday. Under Mayor Rahm Emanuel, Chicago resolved a bitter legal battle the mayor inherited from former Mayor Richard M. Daley stemming from the city's discriminatory handling of a 1995 firefighters entrance exam. The city agreed to hire 111 bypassed African-American firefighters and borrow the $78.4 million needed to compensate nearly 6,000 African-Americans who never got that chance. Two weeks ago, Emanuel proudly pointed to that legal resolution as he fended off demands by an organization of African-American firefighters calling for the dismissal of Chicago Fire Commissioner Jose Santiago and a federal investigation into what the group says are racist policies at the Fire Department. "We settled that. Paid out somewhere around $60 million to $75 million to the individuals. Then produced the class for [111] individuals to fulfill their dreams of becoming Chicago firefighters," the mayor said. On Tuesday, Inspector General Joe Ferguson added a new chapter to the long-running legal saga.

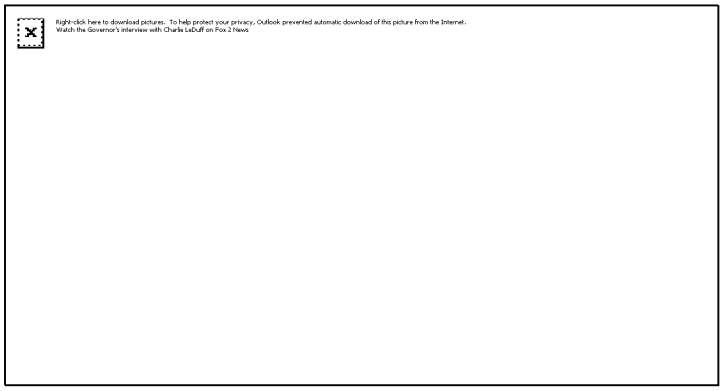
How we are fixing the Flint water crsis

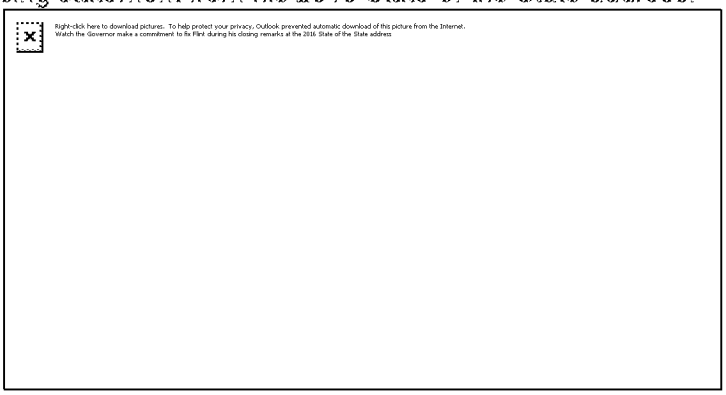
Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe



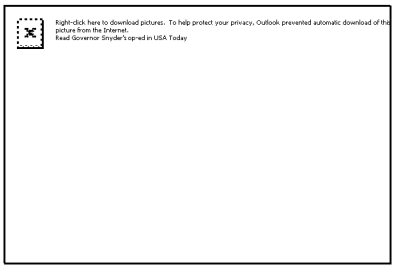
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit



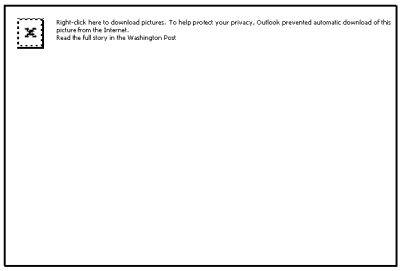
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

Fort Gratiot firefighter to retire after 48 years on the job

For the first time in about 50 years, a Johnson brother won't be part of the Fort Gratiot Fire Department. Assistant Chief Carl "Buck" Johnson, 74, is retiring at the end of the week. His younger brother, Larry Johnson, 71, retired in June after 40 years with the department. The brothers worked together 40 years on the department, and they still josh with each other. "If you say Carl, no one will know who he is," Larry Johnson said about his older - and shorter - brother. Fort Gratiot Fire Chief Patrick Smith said the pair will be missed. "These two would be at every call," he said. "You could always count on Buck and Larry to be here. They're going to be greatly missed. Other members are going to have to step up to fill a couple of pairs of really big boots. They're retiring, but they're still part of the family," he said. Both brothers received their helmets on Tuesday. Larry retired as a lieutenant and the township's fire inspector. He has been the fire inspector at Birchwood Mall since it opened about 25 years ago. Carl Johnson will keep his helmet at the fire hall for the rest of the week - he said he wouldn't mind putting on the helmet and his turnout gear a couple of more times before walking out the door on Saturday. "I always wanted to be (a firefighter)," Johnson said. When he started, in 1967, the department was all-volunteer. It now has three full-time members and 17 paid on-call firefighters. "It's got bigger," he said. "It's really grown. We didn't have six trucks back then. Nothing like we have now." The brothers said in those days, members were alerted by telephone. The chief, they said, would get the first call, and as he headed out the door his wife would call two more members and their wives would pass the alert down the line. Carl's wife, Beth, and Larry's wife, Karen, both were at the fire hall on Tuesday. Beth Johnson said she usually didn't worry about her husband.

Walker swears in new fire and police chiefs

A standing-room-only crowd said goodbye on Monday, Jan. 25, to Catherine Garcia-Lindstrom, Walker's retiring director of public safety, and welcomed the two men who will replace her starting on Feb. 1. Before nearly 100 mostly current and retired firefighters and police officers, current Deputy Fire Chief Bob Walker and Deputy Police Chief Greg Long were sworn in as the city's new fire and police chiefs, respectively. The two start their new jobs on Feb. 1, a day after Garcia-Lindstrom officially retires. Garcia-Lindstrom announced her retirement as the city's director of public safety in December after serving as the city's top cop for 15 years. She had previously served as a police officer with the City of Detroit for 25 years. For the last five years, Garcia-Lindstrom has served as the director of the city's combined public safety department after serving as the city's police chief for 10 years. The City Commission voted last fall to move away from a combined fire and police department and move back to separate departments, with each having its own chief. Shortly after the vote to separate departments, Garcia-Lindstrom announced her retirement. Commissioners voted to promote Deputy Fire Chief Bob Walker and Deputy Police Chief Greg Long to fill the two new positions. "It was a privilege to witness the swearing in of Robert Walker and Greg Long," said Walker Mayor Mark Huizenga. "Both Bob and Greg have significant experience with the City of Walker public safety. It was inspiring to see such a large crowd present to witness this event. It was encouraging to see the enthusiasm of the teams supporting

their new leaders." The two new chiefs will both receive a 5-percent raise in salary effective Feb. 1.

Grand Rapids spending $25K on fire chief search

The City of Grand Rapids will spend $25,000 to find a new fire chief. On Tuesday, the city commission approved $25,000 to hire a consultant. The money will be used to conduct a national search, prescreen all applicants and conduct interviews. Outgoing Grand Rapids Fire Chief Laura Knapp announced her retirement in December 2015, after six years of overseeing the department. The city tells 24 Hour News 8 the search will be just as intense as the search for a police chief two years ago. "I think the fire chief is a critically important position. It's the position in charge of making sure we are safe and taken care of, particularly for medical issues," Grand Rapids City Manager Greg Sundstrom said.

Detroit police: Man lit SUV on fire, caused explosion

Detroit Police are looking for a man who poured gasoline on a SUV and set it on fire, causing a minor blast on the city's west side Monday. The explosion happened around 3:20 p.m. in the 800 block of Oakman, after the suspect broke into a red 2004 Saturn Vue and set it on fire, according to a news release from Detroit Police. Police said in the release that the man may have been injured in the gasoline explosion. The man left the location prior to the police arriving, according to the release. Police released a short video of the man breaking into the SUV and dousing it with gasoline, shortly before the vehicle burst into flames.

Water response teams hit more than 1,300 Flint homes

Water response teams continued their door-to-door efforts Tuesday visiting more than 1,300 Flint homes. The teams -- comprised of 98 city, county and state personnel, the American Red Cross, and volunteers -- continued their door-to-door efforts Tuesday, Jan. 26. The teams stopped at 1,350 homes to provide bottled water, filters, water replacement cartridges and water testing kits to residents affected by the Flint water crisis, according to a news release from the Joint Information Center. "We are committed to ensuring every household has access to safe and clean drinking water," said Deputy State Director of Emergency Management and Homeland Security and Commander of the Michigan State Police , Emergency Management and Homeland Security Division Chris A. Kelenske in a statement. "Water response teams continue working to find residents who may not have a filter or replacement cartridges. We encourage neighbors to check on neighbors, and anyone who needs help should call 2-1-1." Since Jan. 9 the following resources have been handed out to people in Flint, both at the water resource sites and by water response teams, according to the release. 186,309 cases of water. 94,301 water filters. 29,841 water testing kits. A number of community partners are organizing a recycling program for the thousands of bottles that have been distributed to residents, according to the release. Additional locations and options are still being finalized, but residents can bring their empty water bottles to the following locations.

Next Philadelphia fire commish will face plenty of heat

When it came time to build his administration last fall, Mayor Kenney didn't hesitate to turn to some familiar faces. Richard Ross was appointed the city's police commissioner. Mike DeBerardinis was tapped to be managing director. Debbie Mahler, Kenney's longtime aide in City Council, was named deputy mayor for intergovernmental affairs. But Kenney, the son of a retired Philadelphia fire battalion chief, committed himself early on to conducting a national search for a fire commissioner. With his first month in the mayor's office nearly over, the search for a new commissioner is ... apparently still going on. Whoever ends up landing the top job will have to tackle a variety of complicated, controversial issues, the kinds of problems that require cases of Excedrin Extra Strength. Last winter, the Fire Department was embroiled in a headline-grabbing sex scandal that prompted the Inspector General's Office to

launch an investigation.

PHILADELPHIA DAILY NEWS

VIDEO: Garbage truck explodes in fireball, rips hole in nearby house in New Jersey ▯

A garbage truck exploded after catching fire on a street in Hamilton Tuesday and blasted a hole in the front of a nearby house, though no injuries were immediately reported. A total of four houses were damaged in the 2 p.m. explosion. One the truck's four natural gas tanks exploded in the fire and rocketed into the front of Doris Pattley's home on Fitzrandolph Street, just off Lalor Street, officials said. Hamilton firefighters Leonard Pope and Steve Lykes had just pulled Pattley from the rear of her home when the truck exploded, officials said. The explosion shot debris into a second home across from Pattley's, tearing a hole in the roof. Two other houses suffered broken windows and melted siding. Pattley said she was in her living room when the truck exploded. "And I ran into the kitchen." "I saw big pieces of steel and stuff like that come flying into my kitchen," Pattley said.

TRENTON TIMES

New Orleans chief wary of building collapse in 6-alarm Canal Street blaze ▯

New Orleans' fire chief said a massive six-alarm fire that broke out on Canal Street early Wednesday morning (Jan. 27) has spread to a second building and that the four-story structure initially found burning is in danger of collapsing onto the pavement below. "Collapse is always an issue, as it is in this situation here," New Orleans Fire Department Superintendent Tim McConnell said on the scene at 1018 Canal Street, between South Rampart Street and Roosevelt Way. "Whenever you have an old structure and the support members on the inside burn out, you always have the potential for collapse. So we have a collapse zone and keep all our folks out of it. Our fear is that there might be a collapse on the front of the building." McConnell said the first of 31 NOFD units were on scene at 3:26 a.m., just three minutes after the first alarm was received from dispatchers. By 3:29 a.m., firefighters had sounded a third alarm for more assistance. The blaze was upgraded to a six-alarm fire by 4:27 a.m.

Injured Connecticut Firefighter Returns to Duty after Fire that Killed Colleague ▯

A firefighter who was badly injured in the same Blue Hills Avenue fire in which his colleague Kevin Bell was killed has returned to duty, the fire department said Tuesday. Jason Martinez, a member of the tactical unit, was back on full duty Tuesday for the first time since the deadly fire on Oct. 7, 2014. "I would like to thank my Brother and Sister firefighters in the Hartford Fire Department and from departments across the country for the support they provided to me and my family during this difficult time," Martinez said in a statement. Martinez passed out and fell from a second-floor window in the front of the building during the fire. He was burned over 10 percent of his body and was taken to the burn unit at Bridgeport Hospital. He was released on Oct. 30, 2014. A report by a board of inquiry appointed in the aftermath of Bell's death said Martinez was struck by steam as water from a hose hit the fire, and that the steam most likely came from Bell's hose. Martinez was knocked out by the steam. When he came to, he could not find his face piece or his helmet, and told investigators that his eyes and head were burning so he tried to wet his gloves to cool his head before searching for a window, the report says.

Emmet County Fire Chief Dies Unexpectedly, Community Feels Impact

A community remembers the man who helped keep them safe for more than three decades. Fire Chief Don Horn passed away unexpectedly Monday. He was 58-years-old. RFC Fire and Rescue responded to their Chief's home in Harbor Springs for a medical emergency. 9 & 10's Blayke Roznowski and photojournalist Erin Malone spoke with friends and coworkers about this loss to the community. "We all lost a brother and that's not understated," RFC Fire and Rescue former Chief John Booth said. "That's real, so we'll miss him." A sudden loss and now a community remembers Don Horn who was so much more than the title he held as the RFC Fire and Rescue Chief. "He was a really great guy, excellent fire ground commander," Booth said. "He knew what was going on, he could read the fire, he could read the scene and he could keep everybody safe and get the job done." He spent more than three decades at the department and will always be remembered for his undeniable presence in a room. "Always had a cup of coffee," Lt. Marty MacGregor said. "Cup of coffee, giving orders, booming voice -- that was Don -- large and in charge." Known across Northern Michigan for training others to improve their skills. In the process, he made a big impact on their lives. "He was a top-notch fire fighter," former assistant chief Bob Kruzel said. "He was a beautiful instructor, I mean, and he helped people. "If you were ever in trouble, he always gave you extra help. He was a really great officer." A family man, friend and brother, everyone who knew Chief Horn is feeling the loss Tuesday. "Don, we'll miss you," Kruzel said. "You've been a part of this department for 30 some years. You've been in the area most of your life. You're a guy we'll never forget. You're just a friend and a brother. We love you."

Man killed in Detroit house fire

A 55-year-old man was killed in a house fire early Wednesday morning on Detroit's west side. The fire happened around 5 a.m. in the 8900 block of Vaughan St. Arson Capt. Patrick McNulty confirmed the victim's death, but said investigators are still working to determine the cause of the fire.

Follow Up: Flint Fire Chief says water damaging fire engine water pumps

At just a year-and-a-half old, Fire Engine 61 is the newest in the Flint Fire Department's fleet, but look a little closer and you'll see it... "The intake valve, we see rust around it. We also have rubber that seals [the valve]. Those are being destroyed by whatever is in the water," said Fire Chief David Cox Jr. The damage was brought to his attention about a week ago by emergency equipment mechanic Mike Taylor. Another photo shows pieces of Flint's water line getting caught in the pumps. "That's a brand new $462,000 pump that we're talking about," said Cox. He also says the corrosion in the pump shouldn't be happening for several years, but Fire Engine 61 went into service shortly after the switch to the Flint River. "We actually called the manufacturers of three of our fire trucks and they gave us some ideas of how to combat that a little bit, but what's done is done and we're hoping it doesn't get to a point where we have to replace pumps," said Cox. Which is what happened to the pump of a much older truck, discovered in November. An

invoice provided to the department estimates 65,000 dollars in needed repairs. Cox says he's informed Mayor Karen Weaver of what's happening. In the meantime, the goal is to prevent the problem from getting worse in the other trucks. The department is hoping the weekly flushing of the pumps and avoiding hydrants with dirty water will help. So far, Cox says the corrosion has not impacted the department's ability to fight fires. "We test those pumps every day and if they're not working right...then they won't be in service," he said.

Portage to buy Oakland Drive land for potential fire station expansion

Portage will purchase land on Oakland Drive for the potential expansion of Fire Station No. 2. The Portage City Council on Tuesday approved buying the 1.8-acre vacant land at 6033 Oakland Drive for $105,000 from Chris & Sam LLC. The property is next to the fire station, and with its purchase the city will own four parcels totaling 6.2 acres at the northeast corner of Milham Avenue and Oakland. Portage City Manager Larry Shaffer said Fire Station No. 2 is the city's oldest of three stations, is deteriorating, has inadequate space for trucks, equipment and living space quarters, lacks accommodations for female firefighters, has insufficient training space and needs to be expanded to possibly 15,000 square feet from its current 8,000. "The facility is demonstrating a significant amount of functional obsolescence and old age," Shaffer told the council, adding that it is in the worst condition of any city facility. The city for years has considered purchasing the property for the potential expansion of the station, expansion of the stormwater basin behind the station and improved access and function of the busy Milham-Oakland intersection. Several years ago, the city bought two properties at the corner of Milham and Oakland. It removed homes and converted the sites to undeveloped properties with a winding sidewalk that some have suggested could be a city park. Shaffer said years ago the property at 6033 Oakland was offered for what he believed was more than $300,000, and the city was not willing to pay that. The property was recently appraised at $147,000, and the owners agreed on the city's offer of $105,000 to purchase it. "We're buying an asset worth $147,000 for $105,000," Shaffer said. "I think it's a wise investment from that perspective."

DC fire department medical director resigns, calls department 'toxic'

She was brought in to help reform the EMS wing of the D.C. Fire Department. Seven months later, Dr. Juliette Saussy is done. Not with the reform but with the department after she says her attempts, as medical director and assistant fire chief, to make even basic changes to the troubled agency have been met with resistance from the top down. In a scathing resignation letter sent to Mayor Muriel Bowser, Dr. Saussy wrote "people are dying needlessly because we are moving too slow." In the letter, Dr. Saussy cites one recent example of a man who died of a stab wound that she insists he could have survived if he hadn't waited 18 minutes for an ambulance. Compared to departments with similar call volumes, the AP reported in 2013 that DCFD was trying to operate with half as many paramedics as those other departments around the country. Inadequate resources seem to have translated to slow response times. During the 2015 deadly smoke incident on a metro car at L'Enfant Plaza, it took five minutes for firefighters to be dispatched by a 911 call center, according to the AP.

Several FDNY engine companies add fifth firefighter

Several of the FDNY's busiest engine companies across all the boroughs are finally getting one more firefighter. As part of a contract agreement between City Hall and the Uniformed Firefighters Association last summer, the department has added a fifth firefighter to five of the most swamped engine companies throughout the city — something the union has been clamoring for since 2011. "During our contract negotiations this summer, one of the most important things on our agenda was trying to get a fifth firefighter for our engine companies," UFA President Stephen Cassidy said Tuesday. "It is such an important safety measure, especially for those engine companies that operate alone." The added firefighters began their tours of duty at Engine 55 in Midtown, Engine 42 in Mount Hope, Bronx, Engine 283 in Brownsville, Brooklyn, Engine 324 in Flushing, Queens and Engine 158 in Mariner's Harbor, Staten Island on Feb. 1. The FDNY's own studies show that engine companies equipped with five firefighters can "get water on a fire twice as quickly," Cassidy said.

NEW YORK DAILY NEWS

Follow Up: Connecticut town mourns fallen firefighter and former chief

On Super Bowl Sunday morning, firefighter James J. Butler Jr. was in City Hall, pulling paperwork for a number of building inspections he hoped to start scheduling. "I got a text from him around 9 a.m.," Derby Fire Marshal Phil Hawks said. "He responded (that) he was pulling some paperwork on the inspections ... He was probably going to start calling building owners (Monday.)" Butler working on a Sunday didn't surprise Hawks. "That's how he was, always doing something for the department," the fire marshal said. From City Hall, Butler went to the Paugasett Hook and Ladder Co. 4 on Derby Avenue, where at 11:13 a.m. he responded to an alarm at the Dew Drop Inn on North Avenue. The proprietors there "were getting ready for the Super Bowl and cooking some wings and set off the alarm," Assistant Fire Chief Dave Lenhart said. Butler left that scene and eventually went home, where he felt ill. At 5:32 p.m. Sunday, Marc Garofalo, the city/town clerk, sent out an email that began "It is with deep regret that I inform you of the passing of James J. Butler." Information on the cause of Butler's death was not available Monday. Butler, 50, was a 35-year veteran of the Derby Fire Department, beginning when he was 16 in the auxiliary program.

CONNECTICUT POST

AG: Boston district chief convicted on multiple fraud, larceny counts

A Boston fire chief was convicted today of five counts of procurement fraud and five counts of larceny over $250 for swindling the city, Attorney General Maura Healey said. "This defendant abused his position as a public employee and stole tens of thousands of taxpayer dollars that should have gone back to the City of Boston," Healey said in a statement. "Our office is committed to holding accountable public employees who exploit their position for personal profit and defy the public's trust." District Chief Edward A. Scigliano, 46, of Kingston, was found guilty by a Suffolk Superior Court jury of cheating the city out of nearly $50,000 while he ran the Boston fire training academy by having vendors write checks to his credit card companies, while he took home a flat-screen TV, gas grill, a Sam's Club living room set and other items paid for with department funds. Each felony carries a maximum five-year prison sentence and fines ranging from $10,000 to $25,000. Sentencing is slated for Feb. 25.

BOSTON HERALD

Man accused of stabbing Texas firefighter claims insanity

An attorney will ask a DeWitt County jury this week to find his client not guilty of stabbing a volunteer firefighter because he was insane at the time. Kirk Ross Engle, 45, pleaded not guilty Tuesday to stabbing Brian Smolik in the stomach on Aug. 19. Smolik responded on Aug. 19 to the 400 block of West Sixth Street in Yorktown where brush, a couch and a trash can were ablaze. Smolik testified Tuesday that Engle not only admitted to causing the fire, but did not want it to be extinguished. Smolik said Engle yelled obscenities at him and his fellow firefighters when they tried to extinguish it anyway. Smolik said Engle stabbed him after he retrieved a water pump. "I thought I had been punched in the stomach," said Smolik, who was treated at DeTar Hospital Navarro for four days in Victoria, three of which he spent in the intensive care unit.

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

This email was sent to morgand@michigan.gov on behalf of: The Executive Office of the Governor · 111 South Capitol Avenue · Lansing, MI 48909 · 517-335-7858

From: DTMB Director and CIO David Behen <dtmb@govsubscriptions.michigan.gov>
Sent: Wednesday, February 17, 2016 10:10 AM
To: Morgan, Dan (DTMB)
Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

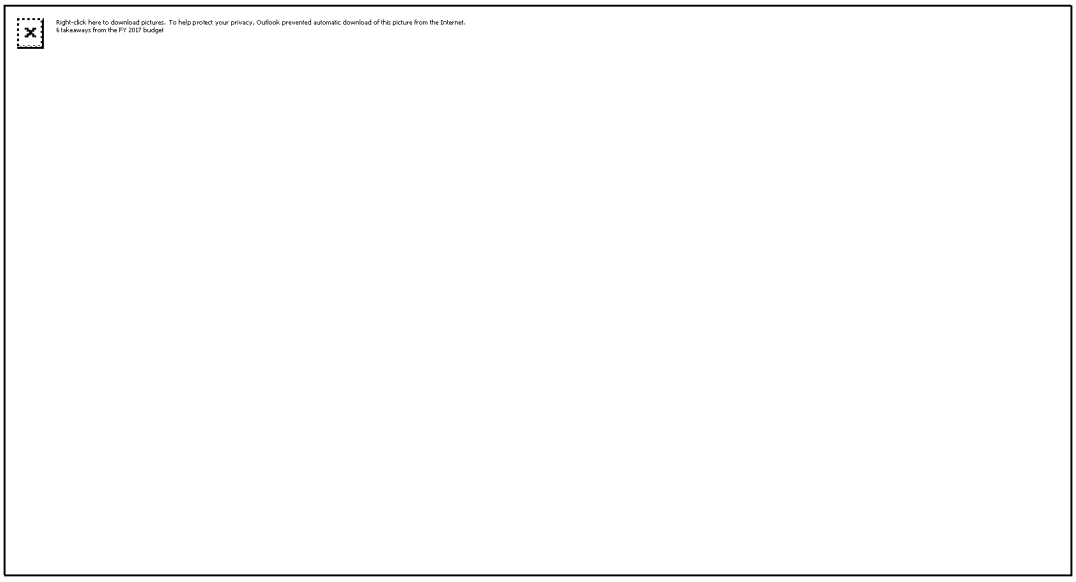
- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.



David

Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

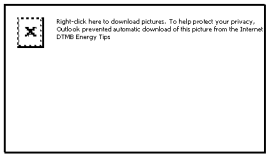
Flint Alternate Water Resource

Date/Time:

Monday, October 5, 2015 at 6:00 a.m. until further notice



Details:

Beginning Monday, October 5, 2015, water coolers will be available in common areas on floors 1-6 of the Flint State Office Building. Although the drinking water has been tested and falls within all DEQ and EPA regulation standards, alternate water sources will be offered to accommodate all tenants due to recent concerns regarding the water supply. Water testing will continue and the alternate water source will be available until all quality concerns are addressed.

Thank you for you cooperation.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

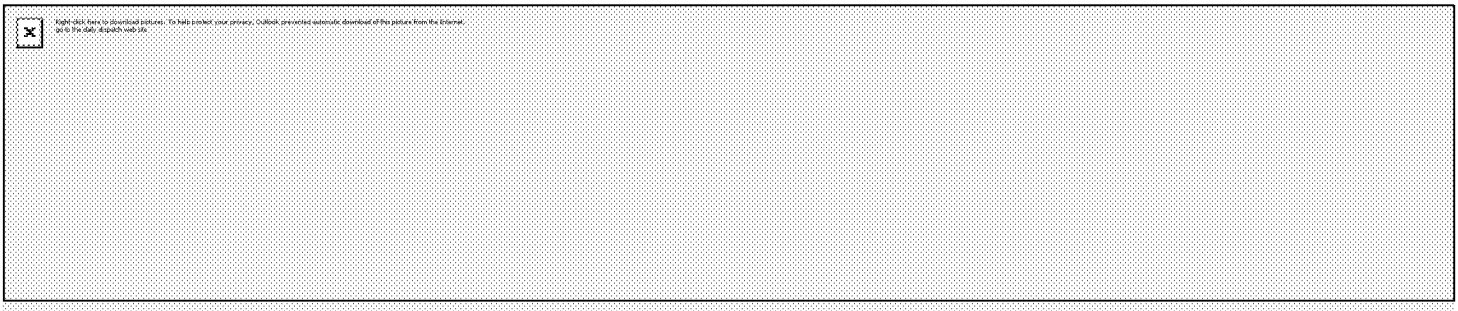
To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.



This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Man, 46, found dead as firefighters battle Midland County blaze

The Midland County Sheriff's Office is investigating a house fire that may have caused the death of a 46-year-old Porter Township man. Officials with the Breckenridge Wheeler Fire Department responded to the fire at 2510 West Redstone Road in Porter Township about 1:06 p.m. Friday, Jan. 15, according to a news release. While fighting the fire, officials discovered the body of James Slaght, the release states. A fire investigator with the Midland County Sheriff's Office was called to investigate. The sheriff's office is working with a member of the Michigan State Police Fire Marshall Division, which is notified of all fatal fires, the release states. An autopsy is to be conducted to determine the cause of death, however, foul play is not suspected at this time, the release states. The sheriff's office was assisted at the scene by the Michigan State Police Fire Marshall Division, the Breckenridge Wheeler Fire Department, the Jonesfield Lakefield Fire Department, the St. Louis Fire Department and Chief Medical Examiner J. Daniel Cline. The cause of the fire and Slaght's death remain under investigation.

2 firefighters injured, house gutted in overnight fire in Grand Rapids

Two firefighters suffered injuries while responding to an overnight house fire in Grand Rapids early Tuesday morning. It happened shortly before 1:30 a.m. at a home on Lexington Ave NW. When the first firefighters arrived, smoke and flames were seen coming from the top of the house. The fire spread quickly through the rest of the home. While the residents were able to make it out safely, two firefighters suffered injuries. One was hit by falling debris and knocked unconscious. Another suffered a leg injury. Both are expected to be okay, and were released from the hospital just hours after being admitted. Crews then took a defensive approach to getting the fire under control. After all was said and done, firefighters were on the scene for more than four hours. It appears the fire started in the attic area, but an official cause has not been determined.

Police: Person Of Interest Found In Case Of Murdered Detroit Firefighter

Detroit police have a person of interest in the case of a city firefighter who was murdered in December. The man was arrested on unrelated warrants, but police believe he may have information regarding the death of 58-year-old David Madrigal, whose body was found in his home by his son on December 21. The cause of death was determined to be blunt force trauma to the head. Family members grew concerned after not hearing from Madrigal for days, so his son went to check on him and discovered his body on the floor of the home, according to police. It's not yet clear how long Madrigal might have been dead. Police say Madrigal's safe was stolen along with his SUV, which was later found burned-out. Friends say Madrigal was assigned to Engine 33 and had planned on retiring this June. Officials say Madrigal is the third firefighter to die since October. Officials are not releasing any more details about the person of

interest.

Busy weekend in Flint as water emergency continues

This weekend was a busy weekend in Flint, with a lot of big things happening for the ongoing water emergency. Here is a recap of some of the big moments that are moving forward in the city. Soldiers are continuing to hand out water to Flint residents who come to Flint fire stations, and more help is on the way. Meanwhile, their boss, Governor Rick Snyder, was in Flint on Monday morning for a short visit. The University of Michigan-Flint says Snyder dropped by a Martin Luther King Jr. volunteer breakfast. He shook hands with several people and gave a two minute speech before leaving. The visit comes as the Michigan National Guard is bringing in more troops to hand out bottled water. Thirty soldiers are already here and about 40 more will be joining them. Since Jan. 5, the state of Michigan has purchased more than 57,000 cases of water, 103,000 filters and 29,000 water testing kits. "We will be here as long as the city of Flint needs us. In terms of a specific time line, I don't have that. It's all tied into, obviously, how quickly will the water be restored and those kind of issues. But we'll be here as long as this takes," said Major General Gregory Vadnais, of the Michigan National Guard. On Saturday, President Obama declared a state of emergency for Genesee County, which will allow FEMA and the Department of Homeland Security to provide assistance for 90 days. The president turned down a request to have the crisis declared a major disaster. That would have provided larger amounts of money over a longer time frame.

Man charged in co-worker's death after vehicle explosion in Lapeer County

A 21-year-old man was charged Sunday in the death of his co-worker who was found dead in a vehicle explosion in Lapeer County. Andrew Hall, of North Branch, was charged with first-degree premediated murder, tampering with evidence and fourth degree arson. The explosion happened Saturday around 1:30 a.m. on Kings Mill Road near Cedar Creek Road in North Branch Township. Miguel Harvey, 23, of Port Huron, was discovered inside the Ford Taurus after the fire was extinguished. The death quickly became a homicide investigation, according to the Lapeer County Sheriff's Department. Harvery was employed at a factory in Imlay City and worked with Hall. Deputies talked with Hall Saturday afternoon and took him into custody. Hall was arraigned by 71-A District Court Magistrate Greg Wise and a bond was set at $1 million. He is being lodged in the Lapeer County Jail.

Maine firetruck damaged in rollover on icy road

PHOTO - A town of Harrison firetruck suffered significant damage to its front end after it slid down a steep, icy private road and rolled over Sunday afternoon. Town Manager George "Bud" Finch said the driver, veteran volunteer firefighter Maurice Kautz, suffered minor cuts and bruises but was not seriously injured. However, the amount of damage sustained by Engine 4 was significant, Finch said. He said the town will need to figure out some way to replace the first response engine on a temporary basis until the damage can be fixed. The firetruck was fully insured. "He (Kautz) is an experienced older driver, but the road is very steep. We're just happy that no one was hurt," Finch said Sunday evening. According to Finch, Engine 4 was sent to Harrison Heights Road around 11:55 a.m. to investigate a report of a carbon monoxide detector going off in a home in a private development located on top of a hill overlooking the lakes region. Finch said the road had been plowed, but "limited" amounts of sand had been spread over it. It was determined that the carbon monoxide detector had malfunctioned.

Feds seek evidence of faked New Mexico USAR team credentials on laptop

A federal investigator has obtained a warrant to search a laptop computer for evidence that a New Mexico urban search-and-rescue team used falsified training certificates to meet national requirements and retain federal funding. One of the fraudulent training certificates was for an ethics training class, according to the search warrant request filed Wednesday in U.S. District Court by Special Agent Jaime Ordonez. A former training manager for the team, called New Mexico's Task Force 1, used the Dell Precision M4600 laptop to print out fraudulent training certificates, according to an unidentified person who worked for the team and was cited in the warrant as a source. Ordonez plans to review files on the laptop for further evidence of "theft from programs receiving federal funds." The Federal Emergency Management Agency told state officials in September that they must provide backup documentation for how $7 million in federal emergency grant funds have been spent in the last few years or pay back the money. New Mexico's task force was part of an elite 28-team system called upon by FEMA to quickly deploy anywhere in the nation to search for and rescue victims of fires, earthquakes, floods and other disasters. The team consisted of search-and-rescue specialists. But for several years, the team failed to properly account for grant money and lacked enough trained, "deployable" members to comply with FEMA requirements, according to the federal agency.

SANTA FE NEW MEXICAN

California department cleared in fatal firetruck crash lawsuit

A judge has dismissed a wrongful-death lawsuit claiming the city should be held partially responsible for the death of a 19-year-old woman who was killed when the car she was riding in ran a red light and was broadsided by a fire truck. The crash occurred June 20, 2013, when a Honda Accord driven by Robbie Dean Gillespie, 45, ran a red light on Midland Road at Poway Road about 4 a.m. A fire engine responding to a medical call was heading east on Poway Road and hit the Honda, killing Evelyn Jean Courtney, who had been sitting in the passenger seat. Gillespie survived the accident and was later found to have been under the influence of methamphetamine at the time of the crash. He pleaded guilty to gross vehicular manslaughter while intoxicated and possession of methamphetamine. He received a term of 10 years in prison and will have to serve at least half of that time before becoming eligible for parole. Courtney's family filed first a claim and then a wrongful death lawsuit against the city saying it should be held partly responsible for what happened because the firefighter behind the wheel of the truck that morning had not passed an engineer's exam and should not have been allowed to drive.

SAN DIEGO UNION-TRIBUNE

Combat veteran beats paralysis to become Colorado hotshot recruit

Kenny Bower stood on a steep, grassy hillside overlooking the Waldo Canyon burn scar with his ear cocked toward his radio. His firefighting tool was still by his side while he listened to the transmission - winds were picking up, humidity was dropping and nearby trees were starting to ignite. He called out the warning to his crew and bent back to his work cutting a line into the dirt up the hill. The fire burning a slope behind the University of Colorado at Colorado Springs was make-believe as part of a weeklong wildfire training program at the university. But Bower, a former Fort Carson sergeant and combat veteran with two Purple Hearts who gave up a 12-year military career to become a firefighter, is the real deal. Watching him swing a tool, it'd be hard to guess that the jocular and smiling Bower, 31, was left paralyzed from the neck down after a bomb blast in Afghanistan. It'd also be hard to guess that he's missing a chunk of his left calf muscle and that his body is riddled with shrapnel. His recovery from two severe injuries during three deployments to Afghanistan comes down to willpower. Bower said, "I try to never let it get to me," he said Wednesday. The 28 members of Bower's firefighting class were among hundreds of firefighters in Colorado Springs this week for the Colorado Wildland Fire and Incident Management Academy.

Plainfield Township, firefighters agree to extend current contract until end of the year

The Plainfield Township Board and the local firefighters union have agreed to extend the firefighters' current contract until the end of the year while the township continues an evaluation of the Fire Department. The Fire Fighters' Union Local 3890 agreed to the extension of the current contract as both sides work to negotiate a multi-year contract. Firefighters will receive a 2-percent raise on April 1 with the extension. The department's current contract was set to expire on March 31. The extension gives both sides until the end of the year to negotiate a new, long-term deal. The raise is similar to raises given to other township employees in their current contracts, which took effect on Jan. 1. The township's Public Safety Citizens Advisory Committee is currently conducting a review of the township's fire services to determine if any changes need to be made on how the full-time/part-time Fire Department operates. It is expected to take several more months to complete the review, so both parties agreed that it would make more sense to extend the current contract rather than negotiate a new one right now. "This approach will provide the committee and the Township Board additional time to complete the review and implement any changes that might result from the study," said Township Superintendent Cameron VanWyngarden. Union leaders said they were in agreement with the extension. One of the benefits of extending the current contract for the township is that all of the township's other union and non-union contracts are on a calendar year versus the firefighter's contract, which was set to renew in April. "Moving this contract to start with all of the others in the township will allow us to now put all of our health insurance and other benefit contracts on the same schedule," VanWyngarden said.

Walled Lake names new fire chief

Walled Lake appointed a permanent fire chief Jan. 19. James Coomer, who had been the city's interim chief since 2013, was appointed. He was hired by Walled Lake as a firefighter on July 7, 1987 and promoted to fire marshal in September, 2001. Coomer stated, "I appreciate the confidence the city council and City Manager Dennis Whitt have in me. I am honored by the appointment and look forward working with our residents while restructuring the department in a way that will better serve the community I grew up in." In September, 2013 he was appointed interim fire chief and charged with running the daily operations of the fire department while still responsible for the duties of fire marshal. Coomer grew up in Walled Lake and graduated high school from Walled Lake Western. He earned an associates degree from Oakland Community College in fire sciences. He also has attended the School of Fire Staff and Command at Eastern Michigan University. Coomer has numerous certifications including fire officer I, II & II, fire inspector I & II, certified pro board fire inspector, licensed building official and plans examiner and member of Oakland County Incident Management Team. At the City Council Meeting Chief Coomer was administered the oath of office by Deputy Clerk Jennifer Stuart and his badge was pinned by his wife Kim, daughters Alyssa and Taylor.

OAKLAND PRESS

Firefighters in Orion joining in donating water amid Flint emergency

The Orion Fire Fighters Association is donating more than 120 cases of water to Flint residents dealing with an ongoing water crisis, and have invited residents in the area to do the same. The Orion Township Fire Department has opened all four of the area's fire stations as drop-off centers for those who wish to donate cases or jugs of water. The department will be accepting the sealed water donations until 4 p.m. on Sunday, Jan. 24. Flint residents are struggling with lead-contaminated water after city officials switched the city's water supply from Detroit water to river water to save money. State and federal emergencies have been declared since news of health problems relating to Flint's water supply has surfaced. The decision to donate came after an increase in people searching for places to help Flint on social media and elsewhere, officials said. The department also was inspired by a huge outpouring of residents in Waterford Township, when the community's regional fire department hosted a similar event, said Orion Fire Chief Bob Smith.

ROYAL OAK DAILY TRIBUNE

Three more years: Shelby Township Board of Trustees renew fire chief's contract

The Shelby Township Board of Trustees on Jan. 19 voted to renew a contract between the township and Fire Chief James Swinkowski for an additional three years. "Chief Swinkowski is doing a great job and we really appreciate it," said Supervisor Richard Stathakis. "We're happy to have him (in Shelby Township)." A 25-year veteran, Swinkowski worked his way up through the ranks after joining the department in February 1991. He previously served as chief of training and EMS coordinator for the department and was named acting chief shortly after the death Chief Gene Shepherd in May 2012. Following Shepherd's death, Swinkowski was among nine candidates who tested for the fire chief's position, according to township records. Four were certified as eligible by the township's Police and Fire Civil Service Commission and Swinkowski topped that list. He was officially appointed to the position of fire chief Jan. 15, 2013, and has been leading the department ever since. As approved, the contract states that Swinkowski's current annual salary of $105,500 will increase to $107,610 effective Feb. 1. It will increase to $107,762 next year. "The fire chief shall (also) receive a performance bonus on March 31 of each contract year, which is based upon the overall performance rating received in an annual performance evaluation," the contract states. "Upon achieving an overall performance rating of 2.75 – 3.74, the performance bonus will be equal to 1.5 percent of base pay. Upon achieving an overall performance rating of 3.75 – 5.0, the performance bonus will be equal to 2.9 percent of base pay rate. No performance bonus will be paid for an overall performance rating of 2.74 or less."

Snowmobiler hits tree in Egelston Township, paramedics trek quarter-mile into woods to treat him

A snowmobiler was seriously injured Tuesday evening after striking a tree after dark in Egelston Township, according to the fire chief. Emergency responders were called at 6:36 p.m. to property belonging to the Muskegon County Wastewater Management System, according to Egelston Township Fire Chief Mark Cleveland. The victim, a 21-year-old male, had struck a tree east of the southeast corner of the Maple Island Estates mobile home park, Cleveland said. The park is near White and Maple Island roads. Emergency personnel had to trek a quarter mile off the road into the woods to treat the patient, Cleveland said. Fruitport Township Fire Department helped with its specialized all-terrain vehicle, Cleveland said. Michigan State Police and Pro-Med ambulance also responded, he said. The patient was taken to the emergency room at Mercy Health Muskegon's Hackley Campus with "serious" injuries, Cleveland said. Alcohol did not appear to be a factor in the crash, he said. With the recent significant snowfall, police are urging snowmobilers to take care, especially in the fluffy snow that can cause visibility problems.

Pets killed, house destroyed in Missaukee County fire

PHOTOS: Kathleen Revoir lost her house along with her dogs, cats, and birds in a fire Wednesday afternoon. The fire happened around 3:15 p.m. in the 6000 block of S. Dorr Road of Holland Township in Missaukee County. According to the Merritt Area Fire Department, a single story house was fully engulfed in flames when firefighters got on scene. A neighbor called in the fire. No one was inside the house at the time of the fire, but the homeowner lost two dogs, their cats and birds. The Fire Department said Kathleen does not have home insurance and is currently staying with family in the area. The American Red Cross was also contacted to help her.

Inspector General to Chicago Fire Dept.: Civilianize 34 jobs to save $1.2 million a year

The Chicago Fire Department could save at least $1.2 million a year and potentially millions more in overtime by hiring civilians to perform 34 administrative jobs that have nothing to do with firefighting or emergency medical service, Inspector General Joe Ferguson said Wednesday. Three years after urging Mayor Rahm Emanuel to civilianize police jobs to save up to $16.8 million a year and put another 292 police officers on the street, Ferguson outlined a similar cost-cutting recipe for the Chicago Fire Department. After analyzing the duties and responsibilities of 585 uniformed firefighters and paramedics within the $576.7 million-a-year Fire Department bureaucracy, Ferguson recommended that Emanuel hire civilians to perform 34 of those jobs and eliminate the job of "commissary liaison" altogether. That would save Chicago taxpayers at least $1.2 million a year, reduce annual Fire Department overtime that has topped $40 million in recent years and allow for a "more effective deployment of personnel to improve public safety outcomes" and response times to fire and medical emergencies, Ferguson said.

CHICAGO SUN-TIMES

Update: Denver fire chief describes "surreal experience" of being stabbed

Denver Fire Chief Eric Tade stood outside his station Wednesday and talked about what it was like to be stabbed in a random attack the day before. "It was a very surreal experience — the scariest part was being trapped and restrained in the car," he said. Denver police say the woman accused of stabbing Denver's top firefighter Tuesday afternoon had no connection to him. Marlene Zacevich-Rodriguez, 42, allegedly pulled open the front passenger door of Tade's unmarked, city-owned SUV and stabbed him multiple times, according to a probable cause affidavit. Zacevich-Rodriguez then walked away from the attack with the knife still in her hand, witnesses told police. Tade hopped out of the vehicle during the struggle, leaving the Ford Explorer slowly rolling down the street with no one inside. Officers arrested Zacevich-Rodriguez even before paramedics began tending to Tade, according to radio traffic. She hadn't traveled far from the intersection of Colfax Avenue and Speer Boulevard where the stabbing occurred. Tade was taken to Denver Health in fair condition with wounds to his hand and leg. He was released from the hospital Tuesday evening and was back at work Wednesday. Investigators say they do not believe Tade was targeted because of his job as fire chief or a public safety official, but that the attack was random and unprovoked.

DENVER POST

Fire Truck Slams Into Texas Dairy Queen

PHOTOS - Two people were injured Wednesday when a fire engine slammed into a North Texas Dairy Queen. City officials said Greenville Fire-Rescue Unit 4 crashed into the restaurant located on the 200 block of Highway 380 East in Farmersville at about noon. The truck was headed east on U.S. 380 when it left the road for an unknown reason. "It happened right in front of me," said restaurant manager Babbett Patillo. "I mean, I was on the phone looking out of the highway and taking an order when it came right beside me. It just took out everything." The truck crashed into an outdoor patio and through a portion of the restaurant, collapsing part of the front wall, before coming to a stop on the other side of the restaurant. NBC 5 has learned the truck had just been serviced by Siddons-Martin Emergency Group in Denton and that the company was returning the vehicle to the fire station when the crash occurred. The truck was not being driven by a firefighter at the time of the crash and was not headed to an emergency call.

KXAS-TV NBC 5 DALLAS - FORT WORTH

Cardiovascular and Chemical Exposure Risks in Modern Firefighting

The health and safety risks and hazards of firefighting on the men and women that make up the profession is increasingly well studied and documented. Meaningful and sound research has led to changes in individual fitness priorities, personal protective equipment, first responder personnel activities on the fire-ground, and a better understanding of the overall health risks increasingly associated with firefighting. Cardiovascular and chemical

exposure risks from the combustion of common household contents inside modern structures is understood to be very real. However, researchers have yet to be able to recreate the physical environment of a real modern day fire in such a way that meaningful data could be collected and analyzed. This study, through amazing partnerships and collaboration between the Illinois Fire Service Institute, UL Firefighter Safety Research Institute, National Institute for Occupational Safety and Health, Globe Manufacturing Company and U.S. Department of Homeland Security - Federal Emergency Management Agency Assistance to Firefighters Grants Program, has recreated virtually every aspect of firefighting realistically, yet safely and in a way that researchers could capture essential data. Using modern building materials and room contents; employing real firefighters executing commonly employed tactics, techniques, and procedures of entry, search, extinguishment, ventilation and overhaul, this study will enable researchers to truly assess risk.

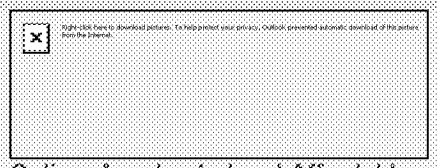
Reporter still looking for justice in the 1988 explosion that killed six Kansas City firefighters



I don't know what happened up there 27 years ago this past November, the morning six firefighters died on a windswept hill in south Kansas City. Maybe no one will ever know, except for the arsonists responsible for their deaths. But I do know this. The federal government — the same federal government that imprisoned five people for life in the case — has acknowledged that it never fully solved the crime. And it shows no interest in finishing the job. That's one reason I can't let it go. I first got involved in this case in 2006. I've studied the 4,000-page trial transcript. I interviewed all five defendants and remain in contact with one of them. I interviewed some of the witnesses who testified in court and many of the people who were questioned by investigators. And I've talked to others whom federal investigators never bothered to question. I think about the case almost every day. I'm not a cop or a lawyer or prosecutor. But I've spent the better part of 40 years as an investigative reporter poking around in places where I'm not always welcome. And this always felt like one of those places.

Subject: Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

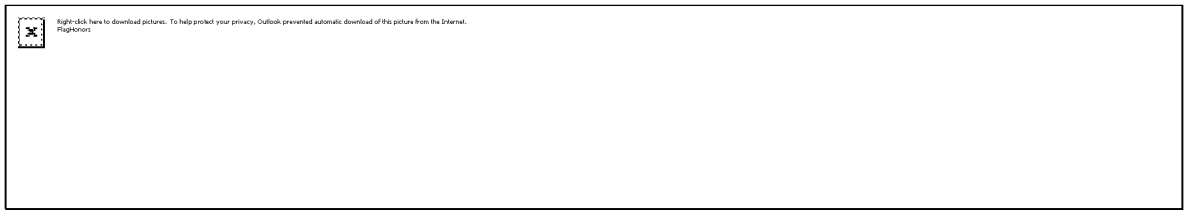
Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,



David

Subject: Thank you for your service

THANK YOU!

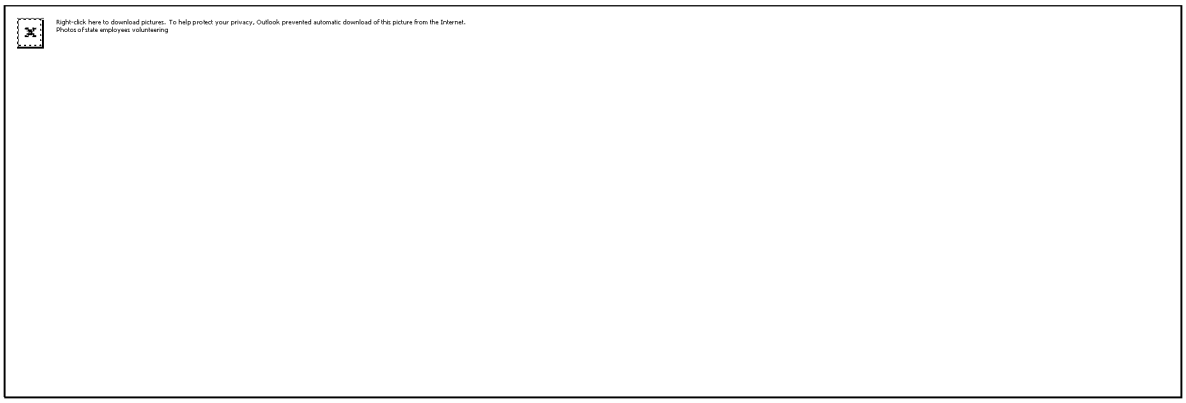
Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.



For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

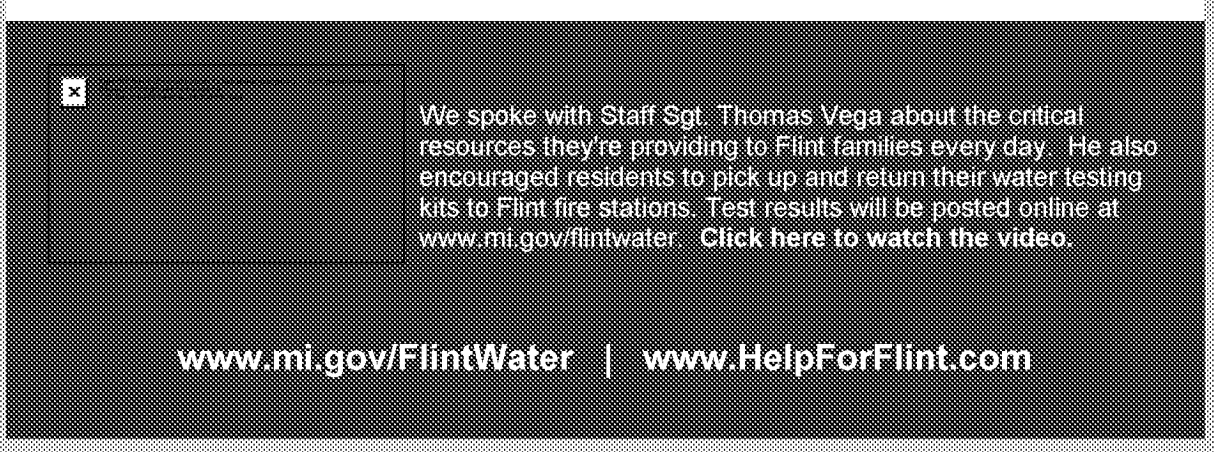
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

Grandfather, 2 Kids Hospitalized After Detroit House Fire

Authorities say a Detroit man and two of his grandchildren are hospitalized after an early morning fire at their home on the city's east side. The fire broke out just after 2 a.m. Tuesday on Glenfield Street, in a neighborhood along Chalmers and Houston Whittier Street. Authorities say the family was sleeping downstairs when the fire broke out in an upstairs bedroom. The 56-year-old man and his 1- and 3-year-old grandkids all suffered smoke inhalation and were taken to St. John Hospital in stable condition. A cause of the fire has not yet been determined. Arson investigators are expected on scene later Tuesday, although authorities say the fire does not appear to be suspicious. An investigation is ongoing.

New Farmington Hills fire chief takes command

Jon Unruh grew up in Farmington Hills and cut his firefighter teeth as a paid on-call firefighter for his hometown department. Some 28 years later Unruh is officially running the department. Unruh, hired last month to replace the retired Corey Bartsch, took the reins as the sixth fire chief in Farmington Hills history Monday after being sworn in by city Clerk Pam Smith. "This is certainly a 'wow' moment," Unruh told the small crowd gathered at Fire Station #5. "This is a very exciting time for me, personally and professionally. I grew up in Farmington Hills, and I'm humbled to return as the fire chief today." After starting as a paid on-call firefighter in Farmington Hills, Unruh moved to the Livonia Fire Department in 1989. He's worked his way up to captain there, while maintaining his part-time dispatcher position for Farmington Hills police and fire. Unruh has a bachelor's degree in public safety studies from Sienna Heights, and a master's degree in emergency management from Eastern Michigan University. He's also a licensed paramedic who has completed the Staff & Command course at Eastern Michigan University. Farmington Hills Mayor Ken Massey, noting Unruh is just the sixth chief in department history, pointed out the longevity of most department heads in Farmington Hills.

HOMETOWN LIFE (OBSERVER & ECCENTRIC)

Housesitter pulled from burning Grand Rapids home after firefighters hunted for blaze

Firefighters rescued and resuscitated a young woman from a burning Southeast Grand Rapids home after an apparent kitchen fire. Grand Rapids firefighters said the woman was housesitting at a home on Horton Street SE near Withey Avenue when her boyfriend, who was at a different location, called 911 at 3:55 a.m. He had been talking with her on the phone, but she dropped it. Moments later, he could hear smoke detectors going off in the background. Grand Rapids Acting Fire Battalion Chief Kathy Thompson said the boyfriend did not know the exact house address, but knew the general location. Firefighters combed the area and soon witnessed smoke and flames coming from a kitchen window.

New concerns over corrosive Flint water eating up fire safety systems ▯

Growing concerns about fire safety systems in Flint have fire officials taking action on Monday, after 7 Action News raised serious questions about corrosive water and fire suppression systems inside buildings. Shortly after the city switched water courses to the Flint River in April 2014, General Motors stopped using it because it was too corrosive. They tapped into Flint Township which used Detroit water. Flint's fire chief and others involved in the department are calling area contractors with an alert to check fire suppression systems before it's too late. Check out Jim Hertzner's story in the video player above.

WXYZ-TV ABC DETROIT

Selma Township Fire Department Helps Fellow Firefighter ▯

"It's bad for anybody but I believe it's a little bit more heartfelt when it's one of your comrades house going up it's kind of an empty feeling in your stomach when something like that goes on," said Scott McConnell. For firefighters heading to a home full of flames is just another day on the job. But this time it was personal. "We rush to help other people at their need but when it's actually you it's a totally different situation and when it's someone you know it's obviously very different," said Brandon Bennett. With the flames out, the fire department is moving on to their next task: helping Michael and his family get back on their feet by collecting donations. "Like personal hygiene items, clothing, he's got two small boys that lost all their toys and all their clothes," said Jason Baughan. The firefighters, thankful for the community support that's been coming in steadily since the weekend. "Just overwhelming. It's a great sense of feeling in a small community that people step up and help one of their own," said Jason Baughan. And the loyalty that comes with always standing by each others side. "It's just a bigger family and everybody's there for you through everything, thick and thin, happy times and sad times," said Brandon Bennett. "The best feeling I had of all was when I turned around and saw all the other fire trucks and other fire departments that were in line out into the road that answered the call that we needed help," said Scott McConnell.

Delta Township fire department trains with Lansing Community College's built models ▯

Delta Township firefighters fought the smallest house fire of their careers on Monday. As part of a training exercise on the often-overlooked aspects of combating a structure fire, Delta officials visited Lansing Community College's west campus to set fire to 3-foot by 3-foot model house built by a class of LCC architecture students. Firefighters witnessed first-hand how even small measures, such as opening a door or breaking a window, can drastically impact the severity of an ongoing fire, said Captain Ken Van Hall. A training session on fire behavior last fall served as the motivation to conduct Monday's controlled burn, said Van Hall, who organizes training for the department. Delta officials approached LCC and asked if students could construct model residences with removable shutters for training purposes. Instructors varied the amount of oxygen allowed into the model house in order to show how fires can shift and change dramatically with even with the smallest changes to the environment. "We're not fighting our grandfather's fires," Van Hall said. Increased structural stability and the abundance of synthetic products in homes means fires will often burn themselves out inside a home before the structure itself is compromised. Adding oxygen by throwing open doors or breaking windows can make things worse in many cases, he added. An abundance of new research on fire behavior means staff are continually learning about new and more effective ways to minimize fire damage, Van Hall said. The department will conduct two additional demonstrations using the other models built by LCC students at their fire hall.

New chief putting mark on Detroit Fire Dept. ▯

In his first months as the new head of Detroit's beleaguered Fire Department, Eric Jones is building bridges with union leaders, touting improved response times and a decline in arson fires. But aging infrastructure, worker safety and wages are among the issues that remain on his hefty to-do list. Jones, 47, was appointed to the Detroit Fire

Department's top post in October. That same day, two of the department's emergency medical technicians suffered serious injuries in a vicious box cutter attack — the most violent among 17 assaults on city EMTs in a one-year span. In a wide-ranging interview with The Detroit News, the fire commissioner detailed the challenges facing the fire department and plans for boosting morale, pay and safety training for the city's first responders. Outdated infrastructure and technology, Jones says, are getting a revamp. "When I wake up in the morning, it's challenging. But I know at the end of day when I look back, I'm going to be able to walk away knowing that this place is better than it was when I first arrived," Jones said. "That's the goal." Among his first acts, Jones in November instituted new safety training for the department's EMTs. Instructors are being schooled on techniques for interacting with violent individuals or people with mental illness. Separately, a two-month defensive tactics program begins this month.

DETROIT NEWS

Orlando firefighter training to change after crews exposed to asbestos

The city of Orlando is looking to change the way it does live fire training after firefighters said their health was put in danger from being exposed to asbestos. A dozen firefighters were exposed to the hazardous substance inside an abandoned apartment complex, but Channel 9 learned more may have been put in harm's way.More than 400 firefighters have been doing training inside the buildings over the last few months, so they may have had some exposure. About a dozen were put in close contact with floor tiles that contained asbestos. "We stopped training at the site, and from stopping training, we also will launch an investigation internally in the city to look at best practices," said Orlando Fire Chief Roderick Williams. On Monday, the department's management sat down with Orlando's mayor and the firefighters union to discuss the abandoned apartment complex and the hazardous work firefighters were doing unknowingly. To prepare for live fire training, floor tiled with cancer-causing asbestos were being removed without proper equipment.

WFTV-TV ABC 9 ORLANDO

Rescue puts Missouri firefighters in serious danger

As the community reacts to the fire at a Raytown apartment that claimed the life of a 5-year-old boy and hospitalized two other people, the details have emerged in the dramatic rescue mission that put firefighters in serious danger. "The hose line burst. I don't know if it was cut or it burned or what, but they had to shelter in another part of the building where there wasn't fire," Raytown deputy fire chief Mike Hunley said. Fire crews went to the second floor of the building to retrieve 5-year-old Jeremiah Roberts, and his 55-year-old grandmother and 18-month-old brother, where the fire had them trapped. Investigators said the fire moved so quickly that the firefighters were forced to move to the third floor after their hose broke while another crew entered the building with a working hose line. The trapped crew brought one victim to rescuers through a window and the other two through a staircase.

WDAF-TV FOX 4

Error puts Ohio fire levy back before voters

A levy language error will put one Sandusky County township back on the ballot in November. Washington Township has long used a levy to pay for fire service, set in recent years at 1.5 mills. Township officials sought to raise the levy to 2.5 mills in November, and voters overwhelmingly approved that five-year levy. But the ballot language was wrongly worded, prompting the Ohio Department of Taxation to rule that only the 1.5 mills could be collected. While several governmental offices reviewed the language that was approved by township trustees, the mistake originated with the Sandusky County Prosecutor's office, acknowledged County Prosecutor Thomas Stierwalt. The Lindsey Volunteer Fire Department brought the issue up at a recent Sandusky County Commissioners' meeting, as the department is one of three that provide fire service for the township. The village had negotiated an increased rate in its latest fire contract, with the understanding that the township would ask voters to approve a larger levy, said Deputy Fire Chief Jason Conklin.

Update: Florida fire chiefs not focus of investigation

The two Pensacola Fire Department chiefs placed on administrative leave earlier this week are not the focus of an investigation into the fire department, though it remains unclear what that focus is or how long the investigation might last. Local attorney Russell VanSickle of the Beggs & Lane law firm has been hired to perform the investigation, and Interim Fire Chief Matt Schmitt and Deputy Fire Chief Joseph Glover will remain on paid administrative leave until the investigation in concluded. Schmitt and Glover were placed on leave Tuesday during a meeting with Assistant City Administrator Keith Wilkins and and Human Resources Manager Tracy Walsh. Neither man was told what was being investigated or why they were being placed on leave, Glover said. The keys to the city vehicles the firefighters used to get to the meeting were taken, as were ID badges, and city cell phones. Earlier this week, Glover said the unexpected action had tarnished his reputation and stressed his family. "I can only speculate why," Glover said. "I can say that it's not criminal, I know that, even though I was treated like one."

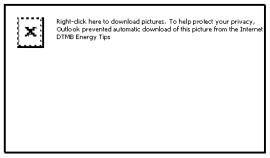
Subject: Facility Notification: Flint State Office Building

Flint Drinking Water



Details:

An advisory has been issued by the City of Flint asking water customers within a defined area (see attached notice and map) to boil water before using it. However, the Flint State Office Building does not fall within the identified area. DTMB continues to offer tap and bottled water in public areas on each floor as options in the Flint State Office Building.

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 17, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

- FOIA Checklist
- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

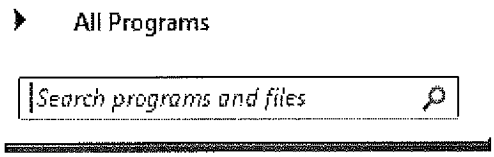
Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"

Search conducted on the email account of: _____

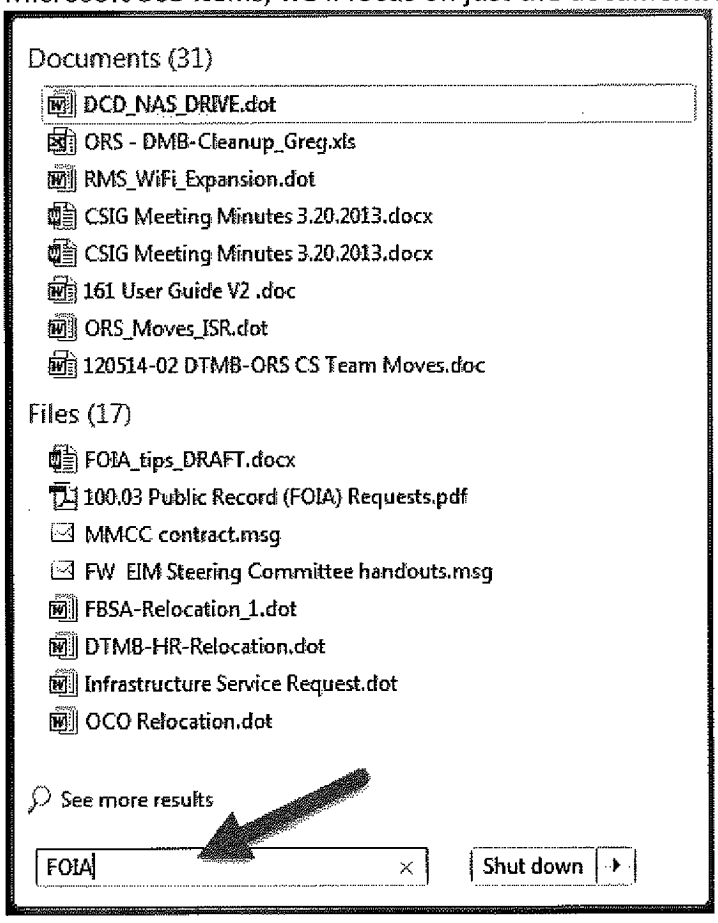
By (your name): _____

Date completed: _____



Please return this completed Checklist to DTMB Director's Office staff by February 22, 2016, at DTMB@michigan.gov, or
Directors Office, Cass Building, Second Floor

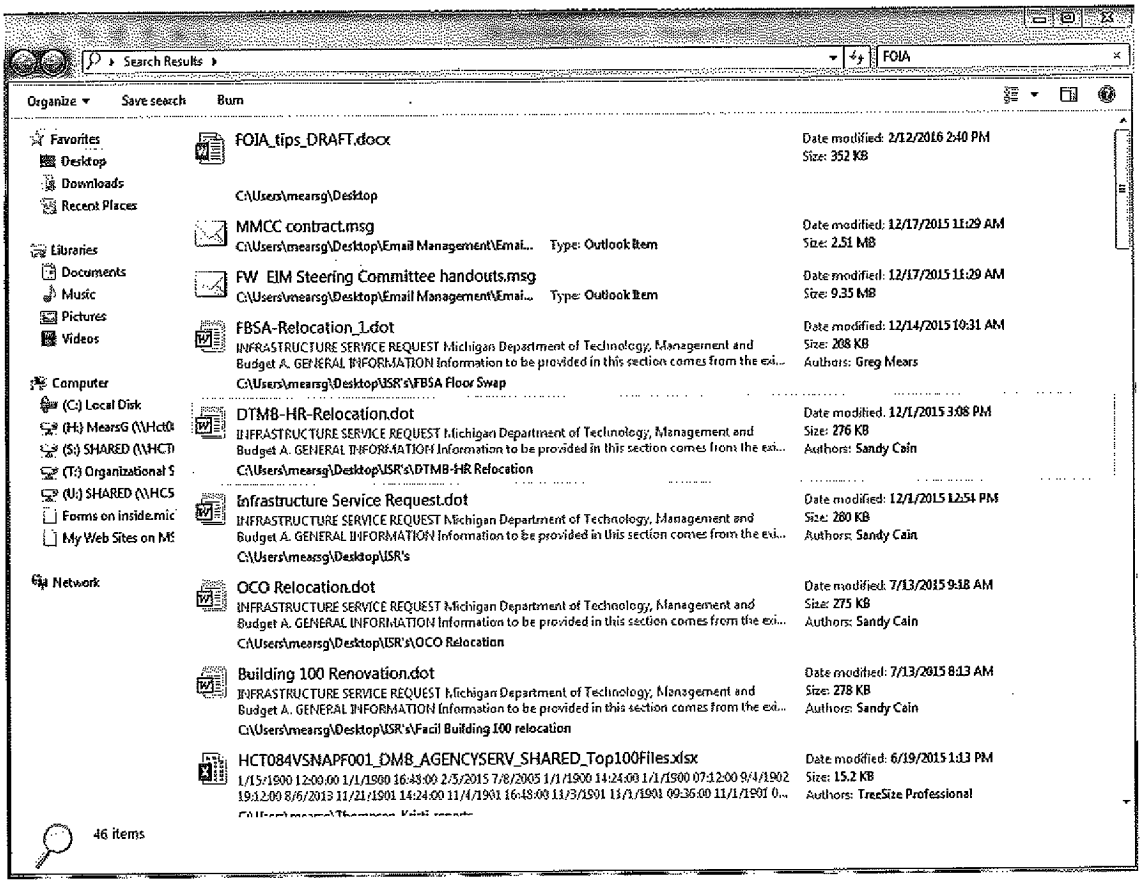
APPENDIX 1 – Search Guidance



Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it



This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.

You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

>
> Team,
>
> We have the notices posted and the new water dispensers have been installed at all the drinking fountain locations at the Flint State Office Building in reaction to the City of Flints notice of a violation in the drinking water standard for the water they supply to our Flint Facility. Please see photo attached. The potable water vendor couldn't deliver till Friday so we pick up the equipment and installed to avoid any extra disruption this issue may cause our tenants and visitors to the building. We worked the vendor for a new customer price so the first month rent on the dispensers was free and will only be $7.00 per month after that with a price of $4.00 per 5 gallon container of water. I have made contact with the City of Flint Water Department to gain more information on the corrective action plan and possibly the time line to correct the issue but they were unable to provide any more information at this time. Please let me know if more action is necessary and I will keep everyone posted if I hear any new information on this issue.

> Thank you,
> Brian

Facilities & Business Services Administration

Building Operations Division

Joint Focus Meeting Agenda - Notes
Tuesday, February 2, 2016
DMB-Conf. Room-Ottawa 5
9:30 a.m. – 11:00 a.m.

Leading the Meeting: Larry Scates

- ❖ Special Topic (*30 Mins*)

- Health and Safety – "Monthly Videos" Dan Morgan and Olivia Feldpausch

  MIOSHA, Video Streaming, please do not download the videos on your desktop or flash drive. Get sing-in sheets to Olivia, ASAP return old ones to Olivia/Dan. Building audits will start with Zone 6, first.

- ❖ Director's Input – Keith Paasch

  Keith, mention providing a list of which type of lighting that is located in each building a list will be available soon, see Sarah Goodrich for additional information. Each zone will need to provide a list of building appliances within their buildings and a maintenance schedule should be kept on those appliances along with purchased items for moves that have taken place in DTMB, managed buildings.

- ❖ Discussion Topics:

  - Remind Key Contacts to call Central Control

  - Please remind all key contacts to notify Central Control, for all emergencies at (517) 373-0190, and for NON –Emergencies call Central Control at (517) 373-0196. For Cadillac Place, please call the Command Center, for all emergencies at (313) – 456-1100, for non –emergencies call (313) - 456-111

  Wellness Objective – Take the Stairs

Next Meeting: Tuesday, February 16, 2016, 9:30 a.m. - 11:00 a.m., Operation Center Conference Room A, B, C

COLLABORATION, COMMUNICATION, COOPERATION, CUSTOMER SERVICE

The Wellness objective, is for State of Michigan, employees to take the stairs to promote better health initiatives. The question that arose is are our building stairwell adequate enough to promote stairwell use? The Romney Bldg. stairs some of the floors are locked out. In the Mason Bldg. there are floors that one will need card access (Badge In) for question related to this objective please give Rodney Ross/Dan Morgan, a call. Rodney is on the Wellness committee. Rodney, should be able to answer most of your questions.

- Alternate 15 Input – Jamie Uphaus

- Cross Training Plans for On-Call Staff

  Cross training for on call staffing to familiarize themselves with other buildings in the Downtown and Secondary Complexes, we are looking at having a sheet with the list of areas within all buildings. This training will probably consist of three (3) days out of the week. Cross training for those who are not on the on-call list will take place after the on-call staff training sometime before vacations starts later this spring. See Bethanie, for list and more information.

  Cadillac Place training for the electrician will continue as is.

- **OIP/Brandon Phillips**

  Niki Tefft, is now the acting Customer Service Center Supervisor, until that position is filled. Capitol Security Post, is now located within the Joint Operations Center.

- **Todd Perry** – Appliance notice PM's schedule please see Todd, for this information.

Zone Updates *(2 Mins 54.99 Seconds Each)*

- **Frank Broderick – West Zone**

Escanaba- business as usual

Traverse City- continuing work on LED lighting project, held first meeting with D&C on building exterior project, keeping up with the snow and ice

Grand Rapids - working on replacing one of our two sump pumps in the parking ramp. New pumps has been ordered hope to have it onsite in four weeks, working

on installing new chemical treatment station for the cooling tower, 50% of staff off work right now due to injury or illness no time frame for their return as of yet.

- **Mike Noonan – East Zone**

Sorry we could not attend… Rick is on vacation and Brian is dealing with Saginaw control issue and has to take photos for New DHHS staff ID's
Flint I am waiting for the Head of the EPA to arrive on sight. Security Detail arrived yesterday with late notice that she would be here.

Saginaw: Painting and door handle replacement

State Fair: Dumars was Denied use of the Parking lot off of 8 mile for an event in May

Jackson: New Air handler project is just about complete. There has been some Variable speed drive questions as related to pumps and horse power. Brian Knox has clarified the questions.

Flint: The short…..

This past few weeks the East Zone staff has shown exceptional intestinal fortitude. They have made space for the for 40+ federal employees who are here to help the State of Michigan, the City of Flint and most importantly the residents of this city. It has been days and nights of quick thinking and problem solving. It has involved making many unpopular decisions and thinking out of box to get these groups together. This group is working long after the close of business and all weekend. Staff in the East zone has been on the front line going above and beyond any position description we have.

Richard Baird the governor's appointed flint man has been here working with both city and federal officials. He has been doing meet and greets and doing media interviews. Last week LT Governor and appointed staff had a meeting on sight for the flint water crisis and will continue to meet here.

I want to thank my staff for going above and beyond, they have been doing ID's, Parking assisting the SEOC in all the needs such as : Installing TV's, helping with Direct TV, IT, Governor's office needs and the list goes on and on. The complaints on parking are flying in daily and the staff here is the ones that have to handle it and here about it again and again.

Construction: Still not done and the schedule still continues to change.

Ice storage and Solar: Kick off meeting was last week. They will start February 15th and Chiller tie in's and Structural support welds on 7th floor.

- **Elios Vettese – Cadillac Place**

1) Century A@E, DTMB Electricians at Cadillac Place , and from Lansing and outstates, these, Supervisors attended 8 hours Arch Flash training class , at Cadillac Place to review current procedures and proper PEP equipment, another class might be held for Maintenance Techs at a later date.

2) Had staff meeting along with Kurt King and Jim Geyer, Larry Scates, Alex Cousineau, to review procedures regarding X-3 program, to make sure that all procedures are being followed.
3) Painting is continuing in the 2-100 Treasury wing offices and conference rooms.
4) Plumbing Professors, plumbing contractor, repaired rotted drain lines and also installation of drain and supply lines for new break room for tenants at Cadillac Place.
5) Had air testing done for the 14th, 15th and 12th floor areas, complaints, 14 and 15 we had a minor roof leak in one area.
6) Boynton conducting the quarterly pm's on the fire system.

- Steve Doty – Zone 1

Hannah Building -

- Normal operation
- Working with MDE on several small modular projects
- Working on various issues in the restrooms i.e. piping, plumbing fixtures, dividers

Ottawa Building –

- Working with LARA and BPBS on some small and medium sized projects.
- Working on various issues in the restrooms i.e. piping, plumbing fixtures, dividers
- Working with LARA on updated the Café equipment

Ottawa Ramp-

The staff are working on changing failed storm drain lines.

Plaza sidewalks –

- Pavers a heaving due to frost so we have cones out. This will have to be looked at in the spring

Hall of Justice -

- Normal operation
- Moving forward with East Parking Ramp LED conversion project, we have been ordering lights to start project.

- Staff/Key Contact meetings and Zone tour has been scheduled for March 7th

Veterans Memorial –

- Ready for winter

SOM Warehouse Complex –

- Working with tenants and contractors for 100 building remodel and complex improvement.
- Telecom is scheduled on February 4th to come in a 6pm-12am to cut out the AT&T phone lines and run new fiber. They will also move Kristy's existing server switch to the new location.
- Main sewer line was scoped and a blockage was found at the fence line that has been part of the sewage drain issues in the 100 and 400 building. The contractor will make recommendations to Tim Hall as part of the FBSA project to repair.
- Coordinating some door changes and installations to eliminate water intrusion, *Material Ordered*
- The new restroom door has been installed to allow the 100 tenants access to the restroom
- A new card reader was installed on the South door since the front NE door has been turned over to the Contractor.

Staffing –

- Cross Training and Zone coverage: Jerry and Brandon Pattison have coordinated that Paul Charles, will work in Zone 2 every Monday until Brandon is able to backfill his vacant Mechanic position.
- Jerry Keeder and Andy Gewirtz is enrolled in the BOC Level I class.

- **Bob Ruff – Zone 2**

Con Hall snowmelt/side walk project is under way and they are done running the needed piping to the south entrance and they are currently working on the piping to the north entrance.

DEQ has requested a guard to be station at both the North and South Entrances in Con Hall temporality.

The carpet is being installed in the New HR Suite in Con Hall this week, then furniture build out, and they move in on Feb. 15th.

Thanks to Kelly Love and Kenya Court for helping out Denny with the paint work in the New HR Suite due to the time frame in the schedule that needed to be met.

The IT support staffs move into Con Hall was approved last week, so we are awaiting an appointment to discuss the timeline and what needs to be remodeled in the building before they can move in. Around 95 to 100 more tenants.

In the Williams and VanWagoner Buildings we really have nothing serious going on so it is business as usual.

We had to have the VanWagoner Loading Dock entrance gate fixed last Friday as one of the hinges let loose and broke.

- **Church – Zone 3**

MLHC - 1ST floor rest rooms project is moving along

JOC – Remodel project on the 2nd floor, MSP Capital Post has relocated into the building. Painting is done and Central has been relocated. Completed

Austin – My staff are working on the heat on the 1st floor and trying to get the snow melt system working with help from Zone #2. As of right now everything is working as it should.

Mason – We are still working with CSM about the issues with the lighting and HVAC systems and they are working on the list now.

Commissioning is still on going.

1st floor east wing construction is done and DTMB will be moving in on Feb. 4th. We are meeting with the tenants today.

- Bob Bierwagen – Zone 4

- Cass

The DHHS Ground Floor office remodel project is moving right along. The walled office and new conference room have been built so Keyna along with Denny Sisson from Zone 2 are working on getting the area painted by the end of this week. We are also working on a couple minor mechanical changes, installing power and changing lighting to fit the new layout this week as well. Carpet work will start next Monday and barring any unforeseen issues we should have this project completed by 2/24/16 as requested by DHHS so employees can be moved from the Capitol View building as part of the CAR project.

- **Governor's Residence**

- We have Dewitt Fence coming out this week to remove an old abandoned and worn out gate along Moores River Drive and replace it with fencing. This secured and sensored gate has been alarming to DTMB Central Control for about a week now and based on its condition and the installation of a new gate for the Grounds Project it has been agreed upon by DTMB Facilities, OIP and the Governor's office that repairing it is not cost effective.

- Romney

The Primary Switch Gear project was completed last week and we have a Punch List walk through meeting schedule next Tuesday afternoon 2/9/16 to wrap things up.

- Lottery

We received the approval on the background checks for a couple of Pleune employees late yesterday. We will now get with Pleune to schedule the fire/smoke damper installation work in both stairways hopefully this week.

- Roosevelt Ramp
  - Business as usual.

- Miscellaneous
  - Business as usual.

- **Neal Droste – Zone 5**
-

State Laboratory:

1: Installing a new water sampling machine for DEQ. Adjacent pole barn will hold 50 pallets. Real-estate is looking for more space. Chiller #1 is punched out.

Records Center:

1: Roof Replacement Project: Pre-Construction Meeting will likely be scheduled in late February with work to start when weather permits.

2: Installing 2nd ceiling hung NG Unit heater in the ANNEX this week.

MSPHQ:

1: CAR Project: Chrisman is the General. 2nd Floor Moores Trosper Demo. Centennial Electric.

Grand Tower:

1: AHU Replacement Project: Work on bulletin #9 completed.

2: New Loading dock seals and doors have been installed and completed.

3: In the process of rebuilding the High Voltage Switchgear March 5th.

- Scott Davis – Zone 6

- **Norm Fudge returned to work 2/01/16**
- **Power Plant Operator-Reviewing 4 candidates**
- **Maint Mech posted to backfill Ralph Matt**

- **Energy Center:**
  - Absorption Chillers
    - Operational as designed, utilizing "free steam" cooling the complex up to approximately 72'F
  - Heat Exchanger/Free Cooling
    - On line and functioning very well to cool the complex
  - Centrifugal Chillers
    - Performing winter maintenance
    - Will be working upgrading control panels on unit #4
  - Solar Turbine/HRSG
    - Operating as designed
  - Boiler #1 (old unit)

- Standby mode
- Thermal Storage
  - Utilizing to compliment absorption chiller capacity.
- Metering Project
- Procedural Operating Documentation
  - Meeting with C2AE to begin design and format
  - Update Meeting on 1/22/15 to review SOP's, Valve tagging and prelim layout
  - Funding has been acquired, Dave Sproul will be scheduling a progress meeting
- Remaining Catwalk Access
  - Meeting with Century A & E 11/19/14 to review preliminary designs
  - Finalizing design, received an approximate cost from C2AE
  - Pre-Bid Walk through June 8th, Bids Due June 17th
  - Laux Construction awarded the contract
  - Pre-con meeting 10/09/15
  - Mobilize November 30th, complete by December 31
  - Interior steel-complete
  - Exterior steel-complete
  - Awaiting punch list item completion (parts at galvanizer) and closeout
  - **General Service Building:**
  - Painting of Exterior project
  - Punch list compiled- awaiting final closeout meeting
  - Lobby Upgrades
  - Drywall, paint, flooring, interior door and ceiling complete
  - Furniture on order
  - Planning with designers to move into main hall and break area

  - Sewer Line/ AHU 9-10
  - Pre-Con meeting scheduled for 1/21/15
  - Mandatory RFP meeting 4/17/14,Received Proposals 5/06/14-William A. Kibbe & Associates, Inc. chosen as PSC
  - Moore Trosper started work on 3/23/15
    - The new sewer line-Complete
    - Commissioning-complete
    - Punch list has been generated-to be completed during the bulletin #2 work
    - Bulletin #2 approved-booster pump and drywall to deck, complete
    - Re-work of controls valves need to be completed
  - Depot Move
  - Working with Dave McGrath and tenants to complete building modifications to meet the Depot needs
  - To be complete by March 1st

  - **Operations Center:**
  - Treasury modular reconfiguration project
  - Including carpet, lighting and paint
  - SWS Modular Reconfiguration Phase 3- started 1/11/16
  - OPS Hosting Center
  - Final meeting on punch list ~~July 22, 2015~~-postponed to 8/11/15, McGrath and Gute did not show- awaiting closeout documents per Dave McGrath
  - OPS DTMB Technical Services
  - Modular Reconfiguration

Next Meeting: Tuesday, February 16, 2016, 9:30 a.m. - 11:00 a.m., Operation Center Conference Room A, B, C

COLLABORATION, COMMUNICATION, COOPERATION, CUSTOMER SERVICE

- Timeline/scheduling Meeting 9/01/15
- Begin phase 1- complete
- Phase 2- complete
- Phase 3 beginning 12/28/15
- OPS DTMB CSC
- Modular Reconfiguration- 3 phases + Door Frames
- Phase 1- complete
- Phase 2- complete
- Phase 3- starting 2/01/16
- Door Frames begin- 1/04/16

- **TRANSPORTATION WAREHOUSE:**
- Engineering Print Floor issue still on the table
- Installing LED light fixtures in the front office-complete
- Piloting warehouse lighting fixtures in several areas prior to global replacement
- Earle Center Lighting 98% LED complete
- Parking Lot improvements- Met with tenants 10/23/15 to assist with future use and planning

- **VTS**:
- Reviewing parking lot for repair/replacement
- Continuing with options for building generator

- **Kirk Brennan – Zone 7**

  C & T:

- Scheduling has begun on carpet estimate and tile colors for Admin. area and some surrounding rooms. Also restroom partition replacement.

- Going out for bid on the repair/replace exterior brick lentils Project with SME. Mandatory walk thru Feb 9th, bids need to be received March 2nd.

- Forensics Lab:

- Removal of 2 revolving doors in rooms 279 and 283 has been completed, patching and painting of wall needs to be done.

- GOB:

- SEOC project: Building has been activated because of the Flint water crises and Collins road lease is up. 1st floor EMHSD and 2nd floor MPSCS/NCC completed their move February 1st.

Next Meeting: Tuesday, February 16, 2016, 9:30 a.m. - 11:00 a.m., Operation Center Conference Room A, B, C

COLLABORATION, COMMUNICATION, COOPERATION, CUSTOMER SERVICE

- Cars Project: Demo and rebuild of the 3rd fl A&B Wings, 2nd fl A wing, 2nd fl B wing DBI, 1st fl A wing fitness center block work continues in preparation of the next March moves.

- Quotes have been given to Comm. for the Blind for cafe' remodel, scope of work is being decided.

- HazMat (EMHSTC):
  - Business as usual
- MSP Post/ Head Quarters:
  - Bottle filler drinking fountain has been quoted and approved by State Police for the Post side of the building.
- MSP Annex:
  - Business as usual
- PTA:
  - General building and dorm room repairs continue for scheduled classes starting in March.
- Drive Track:
  - Business as usual
- SOS
  - Curt Myers is looking at selection of solid surface counters tops for the main men's and women's restrooms.

- **Butch Kimball – BIS**

BIS Key Topics

- R-3 overhead door is installed and operating.
- R-8 overhead door P.O. has been sent to the contractor and delivery time is 6 weeks. Door is currently operating using used parts.
- Rytec doors toured and measured our 5 most troublesome doors. Will work on possible funding.
- Fire alarm system for Building #600 has been put on hold. Trying to get answers about possible reconfigurations for this building.
- Steve Cooper is temporarily filling the role for Joe Hewitt.
  - Switched Romney Building this morning per BWL request
  - Looking into the Allegan west gear that is currently single ended

Next Meeting: Tuesday, February 16, 2016, 9:30 a.m. - 11:00 a.m., Operation Center Conference Room A, B, C

COLLABORATION, COMMUNICATION, COOPERATION, CUSTOMER SERVICE

- Received the TIS December report for MLHC. Starting to get more structured and should see improvements in the reports soon.
- Meeting currently going on for Controls specifications
- Meeting will be looking at the 90% review modifications to the written standards.
- Graphic upgrades at 40-50% complete

- Chris Rankin – Grounds

  Removed snow from the Roosevelt Ramp roof.
  Thirty (30) hours of additional overtime for ramp cleaning
  Business as usual (Snow and ice removal, equipment maintenance, salt distribution)

❖ Staff Ideas/Concerns & Open Discussion *(10 Mins)*

Next Meeting: Tuesday, February 16, 2016, 9:30 a.m. - 11:00 a.m., Operation Center Conference Room A, B, C

COLLABORATION, COMMUNICATION, COOPERATION, CUSTOMER SERVICE

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

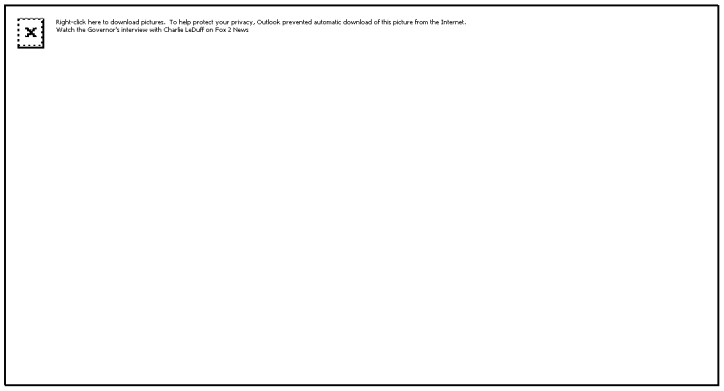
How we are fixing the Flint water crsis

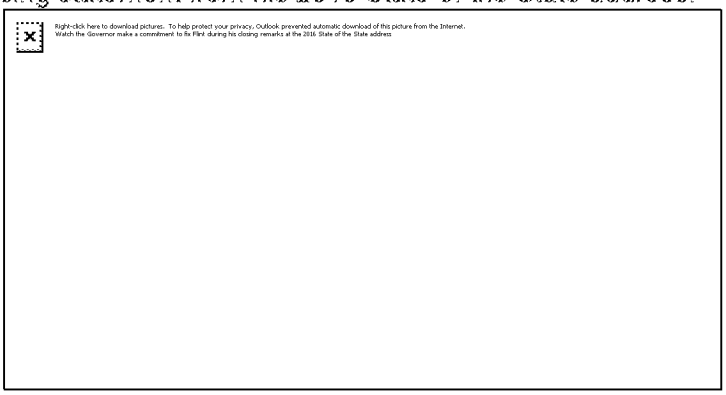
Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe



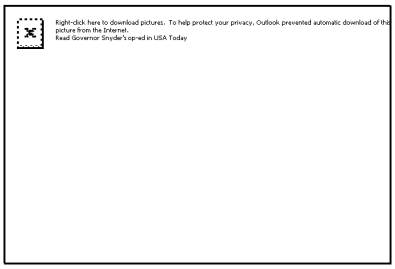
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit



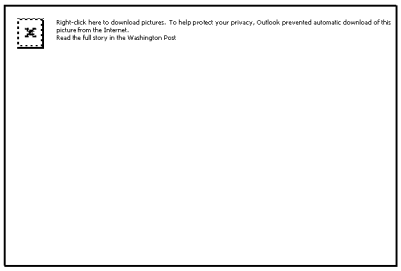
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

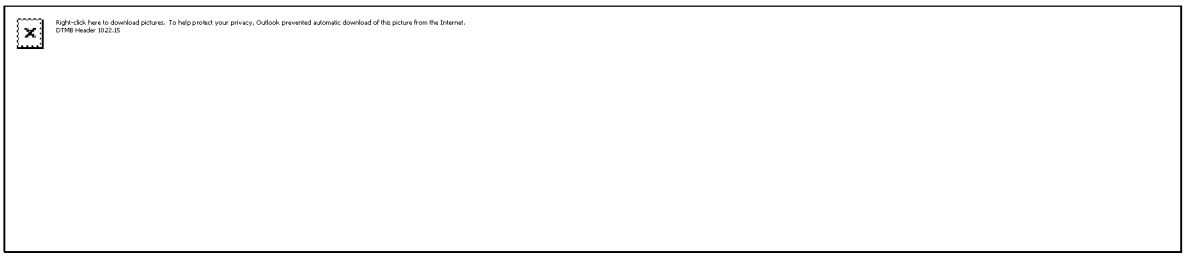
Subject: Flint Volunteer Efforts

Dear State Employees,

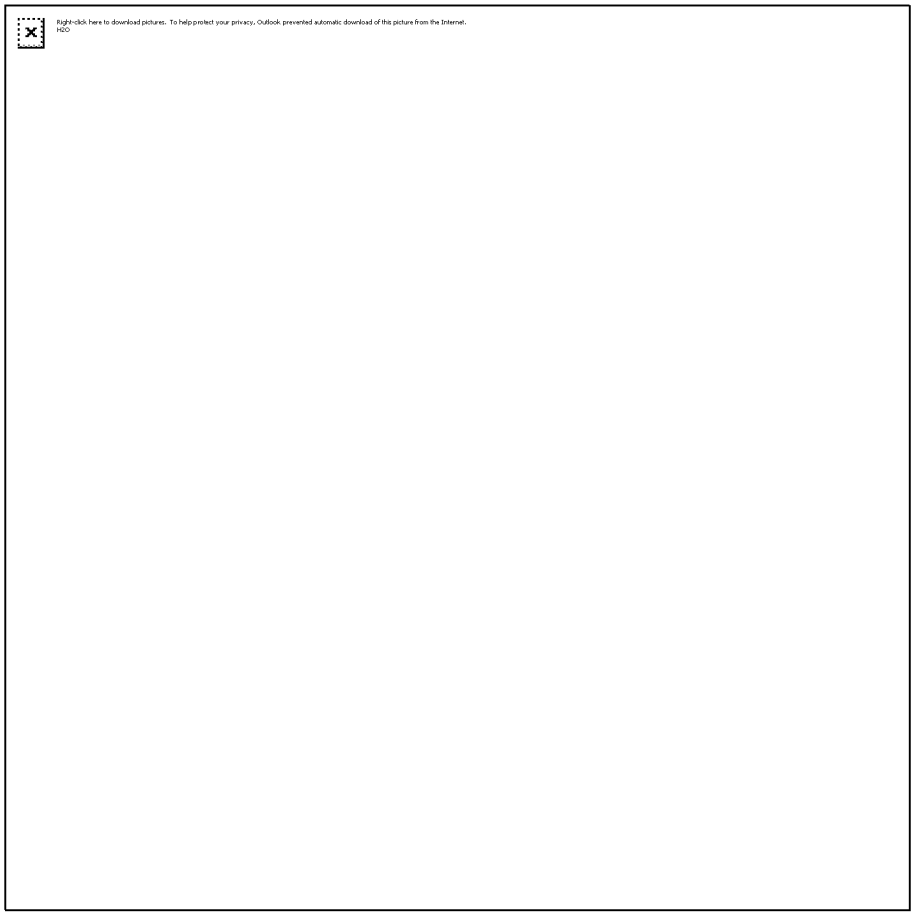
Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.



For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer
Office of Good Government Director

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

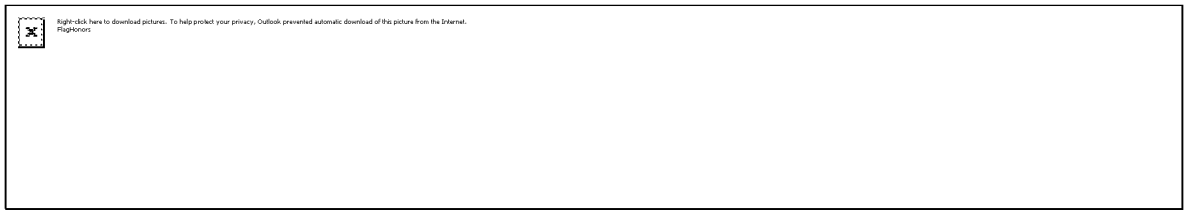
Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,



David

Subject: Thank you for your service

THANK YOU!

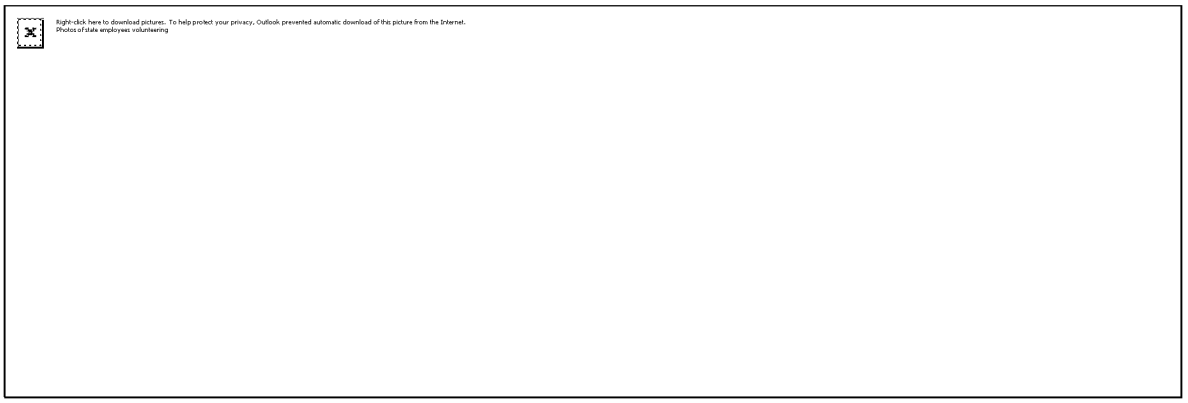
Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.



For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

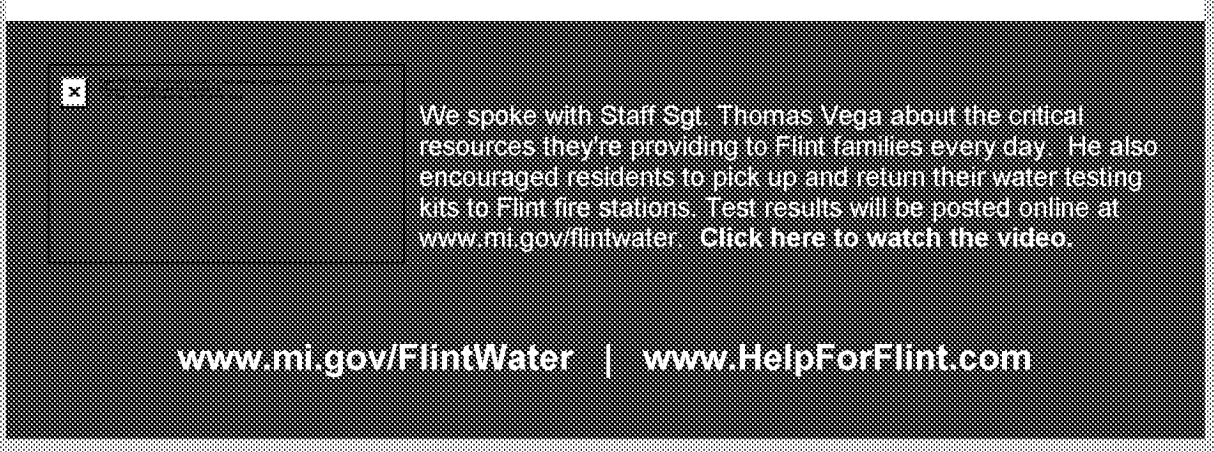
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

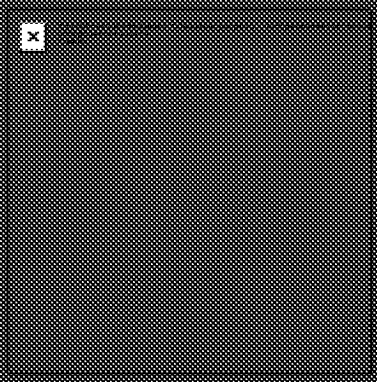
VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.



This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: DEQ SDE Instance

Hi Dave

I spoke with Scott this afternoon and he is going to set Lisa up with a schema in the DEQ instance to manage data for the Flint water response. He has the DEQ instance set up by schemas since they have 3 different administrators right now. Lisa can assign privileges to the data layers that she manages in that schema. She can request a workgroup to manage users in that schema. Please have Lisa contact Scott with any questions.

Subject: Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint
When: Thursday, February 18, 2016 2:00 PM-3:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Ottawa Builidng - Upper Level – Conference Room 4 OR Call-in: 866-390-1828 access code: 1842654

Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

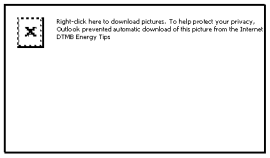
Flint Water Advisory

Date/Time:

Effective Wednesday, January 7, 2015



Details:

The City of Flint recently sent out the attached notice regarding violations to the drinking water standards. While the City of Flint states that corrective actions are not necessary, DTMB is in the process of providing a water cooler on each occupied floor, positioned near the water fountain, so you can choose which water to drink. The coolers will arrive today and will be provided as long as the public water does not meet treatment requirements.

	Since we spend about 40 hours a week at our workplaces, isn't the office the best place to try out some new energy-saving tricks? The Energy Information Administration estimates that if commercial and industrial buildings improved their energy efficiency by 10 percent, our economy could see yearly savings of nearly $20 billion.

> I've had an emergency come up this morning, and will not be able to get to Lansing today. I would suggest pressing on with meeting with Jim G since we cancelled previously. I can follow up with each of you next week. Alternatively, if you would prefer both of us to be there for the meeting, something early next week would work for me. Tuesday is very open. Please advise as to your thoughts. I apologize for any inconvenience.

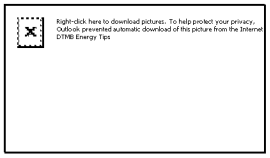
Flint Alternate Water Resource

Date/Time:

Monday, October 5, 2015 at 6:00 a.m. until further notice



Details:

Beginning Monday, October 5, 2015, water coolers will be available in common areas on floors 1-6 of the Flint State Office Building. Although the drinking water has been tested and falls within all DEQ and EPA regulation standards, alternate water sources will be offered to accommodate all tenants due to recent concerns regarding the water supply. Water testing will continue and the alternate water source will be available until all quality concerns are addressed.

Thank you for you cooperation.

	According to the Clean Air Council, the average American throws away enough paper each year to build a 12-foot wall from Los Angeles to New York City. Consider going paperless by saving documents and manuals on a common server instead of handing them out in hard-copy form. If you must print a multi-page document, be sure to use the double-sided printing feature.

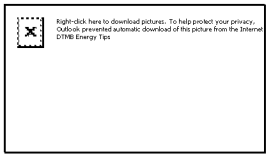
Flint Water Quality



Details:

DTMB commissioned testing of the water in the Flint State Office Building and the results show our water poses no health threats. Although the water is safe to drink, we will continue to provide water coolers in common areas on floors 1-6 of the Flint State Office Building until we are connected to the Detroit water system.

If you have any questions, please contact the Flint Building Trades Supervisor, Brian Walts, at WaltsB@michigan.gov or 810-760-2044.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

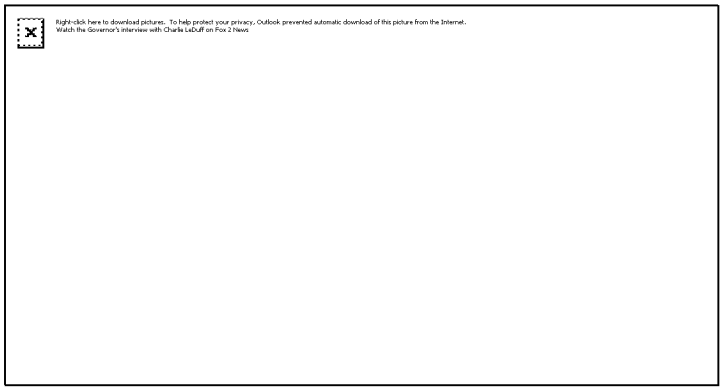
How we are fixing the Flint water crsis

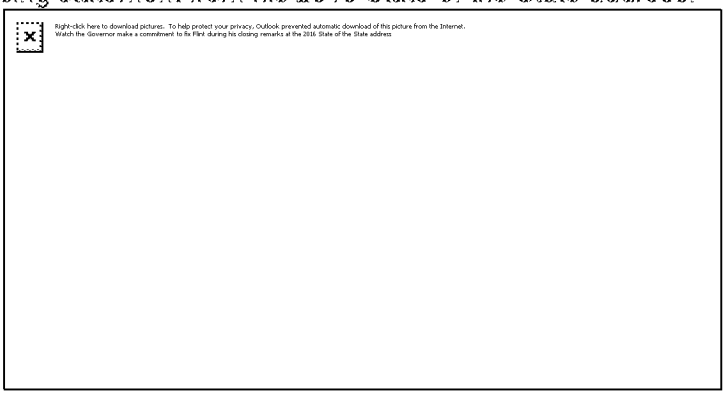
Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe



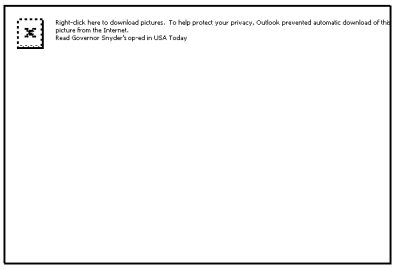
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit



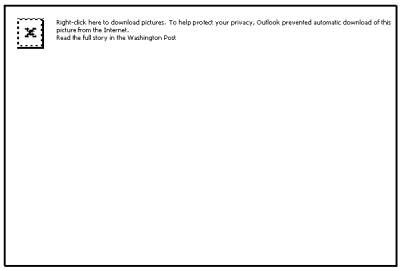
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

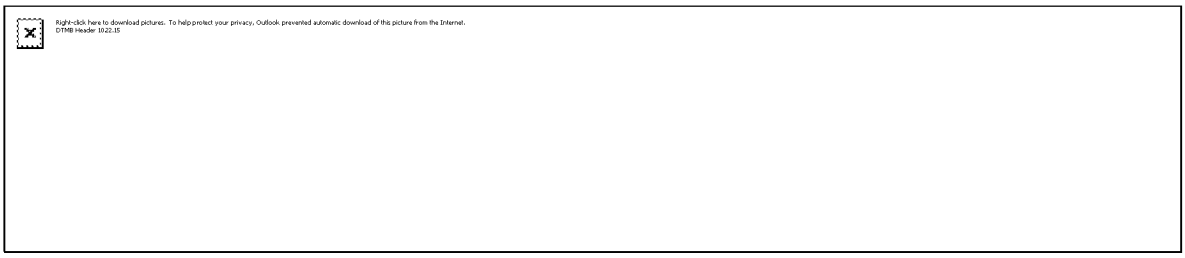
Subject: Flint Volunteer Efforts

Dear State Employees,

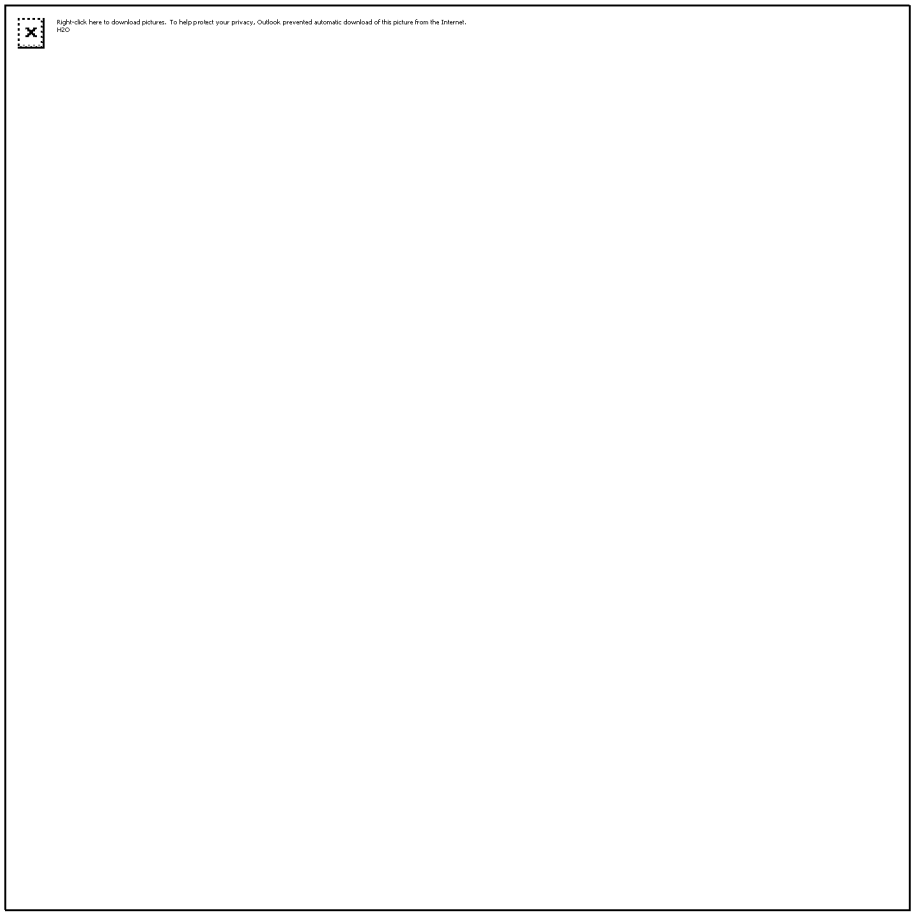
Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.



For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

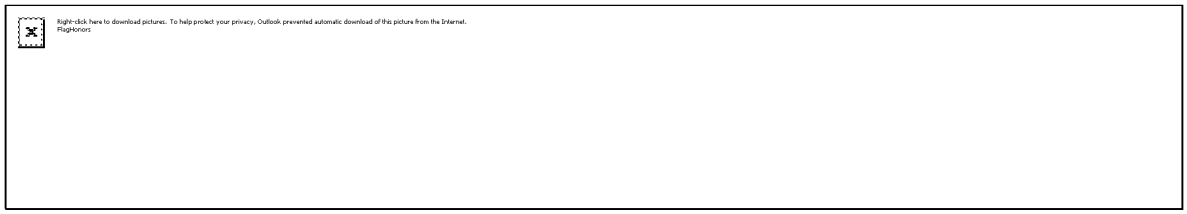
Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,



David

Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

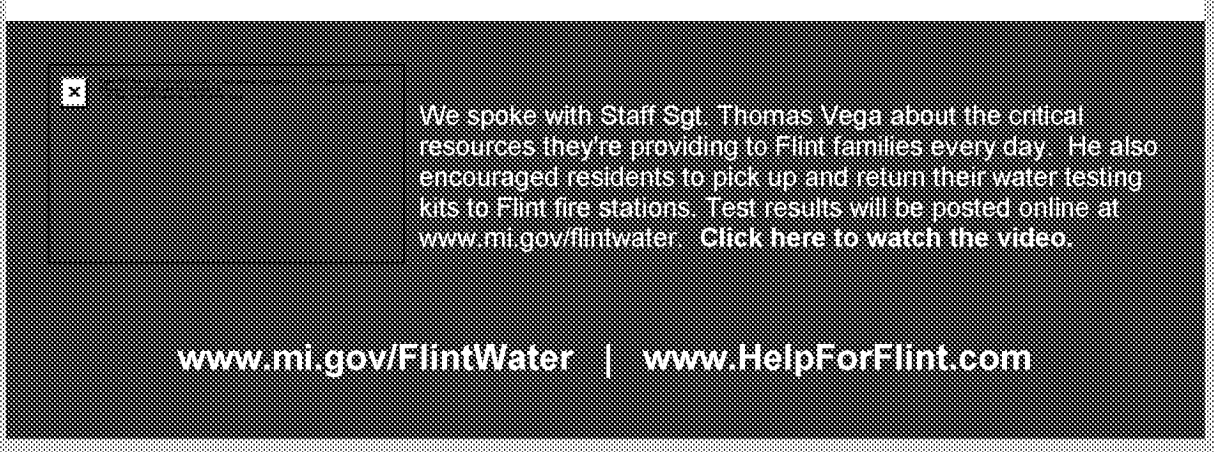
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

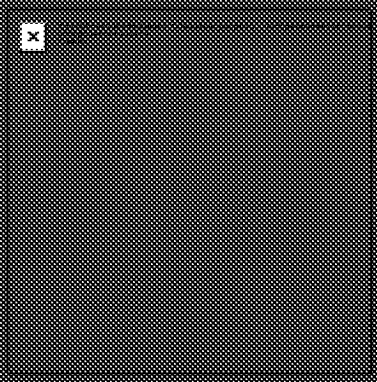
VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.



This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:

The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

Sent: Wednesday, February 17, 2016 10:10 AM
To: Philip, Brandon (DTMB)
Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

DTMB
HELP. CONNECT. SOLVE.

CIP Management Team Meeting
Meeting Notes
February 17, 2016
3:00 – 4:00 p.m.
Westshire, Conference Room A

Attending:	Chris Christensen	Jeff Pratt	Tom Nevai
	Brandon Philip	Rock Rakowski	Rich Reasner
	Deb Stanaway	Vicki McPherson	Dillon Trombly

1. OIP:
   - Chris noted that OIP is paying for warehouse facilities in Flint to store water being received.
   - iPads have been deployed with GIS tracking capability, which assists with the resident home-check process.
   - A recycling process is also in place to recycle plastic bottles.
   - It is hoped that SEOC activity will be done in April, currently operating 8:00 a.m. – 8:00 p.m. daily.
   - OIP has spent over $350,000 thus far on these efforts.

   FOIA/Litigation –
   - OIP utilizes a 244 form for information searches resulting in a .pst file which is converted to .pdf for Attorney General to review.
   - Following AG review, the documents are forwarded to the Governor's Office for uploading.
   - Vicki noted that the keyword search terms are resulting in many false positives.
   - Jean Ingersoll in the DTMB Director's Office is the lead on the FOIA/Litigation issue.
   - A mandatory meeting has been scheduled for February 18, during which it is hoped that more guidance will be provided.
   - Rock and Rich should both be included in the meeting.

   Card Access Systems –
   - Jeff reported that DTMB Agency Services/DHHS requested a quote for a card access system at the Victor Center (leased facility).

- The quote was declined by DHHS based on cost and they will be installing a private system managed through a web browser (not on the SOM network).
- Following discussion, it was agreed that leased facilities housing SOM employees should follow the same physical security standards as DTMB-managed buildings.
- Standard security requirements should be incorporated into all facility lease agreements.
- Chris will forward a position paper to Christian for his review and discussion with management.

General –

- Brandon noted that once MSP vacates the current MSP Headquarters downtown and DHHS moves in, DHHS has indicated it would like the building to be named Grand Tower South.
- The Honeywell Security Manager is being upgraded, first in Lansing and then in Detroit.
- The parking survey is underway, including employees who are on waiting lists for parking.
- Brandon will also ask for confirmation from employees that they wish to remain on the waiting lists.

2. MCS:

Programs –

- Dillon Trombly provided a brief presentation outlining the various projects currently underway in MCS.
- There are two categories: Continuous Improvements Program (CIP) and Cyber Initiatives (CI).
- CIP projects stem from the enterprise risk assessment and include such things as Security Framework, Asset Security, Data Loss Prevention, SIEM, and Governance-Risk-Compliance (RSAM).
- CI projects stem from the Governor's published Michigan Cyber Initiative document and include such projects as the Cyber Civilian Corps, P-20 Education, Michigan Cyber Range, Promotional/Marketing, and other ongoing efforts.
- Programs team members include Mike Buley (discovery, assessment, DLP, SIEM), Helen Fradette (policies, asset security, documentation), Brian George (policies, asset security), Natalie Lake (RSAM, DIR, Websense, VAS), David Mir (framework/program), Bob Mulholland (EPMO, CIP projects, ChangePoint, project monitoring and control), Tom Powers (EPMO, CI Projects, PCI coordination), and Dillon Trombly (Team Lead, ITIF, NGDI).

Liaison Section –

- Rock reported that RSAM is currently in pilot production.
- Liaison staff are working on the CMS (Medicaid) audit process.
- Security Mentor contract extension will begin March 1.
- RFP for 2017 awareness training is beginning.

- Resumes are currently under review to fill the vacancy left by Muhammad Dajeh.

MiSOC –

- Vicki is working on the new Websense implementation, including coordination with the Client Service Center and Field Services staff to ensure they have the information/tools needed to handle questions.
- The MiSOC is also working on the CMS audit process.
- Tom is confirming the remodel date for the MiSOC, currently planned for March.

- Rich is involved in the MiCWRAP process of identifying and remediating audit findings in DTMB. Findings have been divided into five themes, and theme areas have been assigned to Christian, Chris, Rich, and Rock.

- Tom relayed an inquiry from Dick Novello regarding cyber's possible inclusion in their new run book for the ECC. He will obtain more information from Dick and will loop in Chris.

DRAFT 2/18/16/ca

Sent: Monday, January 11, 2016 11:08 AM
To: Doll, Jeanette (DTMB)
Subject: FW: Need to Get Access in Flint-2 more names

Jeanette –

I want to make sure this request goes through the proper channels for emergency management. Please let me know if you need assistance with this. If you want us to give them additional access, I'll just need to know what areas of the building they need access to. Let me know if you want me to work directly with Caleb.

Subject: Need to Get Access in Flint

Jeanette,
I understand that you have been helping the JIC with access to Conference Room A on the 5th floor in the Flint State Office Building. One of the PIOs that is working the JIC today does not yet have access, her name is Tiffany Brown from MSP. Can you get her card access?

I've copied Brandon on this, in case he can help.

FYI, I'm also working out of Flint today (my access works), so I may have other requests throughout the day.

Thanks

Subject: Fwd: Flint Volunteer Cards

Brandon

The ladies and Craig worked to create 300 volunteer ID cards today in support of the Flint State of emergency. Typically We need to provide accounting data for services and supplies we provide in such cases. This being said I would suggest provide Jeanette with the costs related to this effort

Labor
4 hours CSC Ladies
3 hours Craig B

Consumables
300 ID cards
300 Lanyards
300 Security Holograms
1 color printer ribbon
1 printer retransfer film

Thanks,
Jeff

Mike –

Certainly. I have the CSC team pulling together a list of the Flint Water Responders (FEMA, PIOs, Gov Office) and verifying their access. If they don't have Flint Ramp 24x7 (FLTRAMPTP1) access, they will have it shortly. I will send a copy of the full list to you, Brian, Jeanette and Ryan just so we're all on the same page.

Thanks.

Brandon,

Can you make sure that our new guest have the parking activated. I did check two badges just before lunch and they are not working yet.
This is a big issue with DHHS and the limited parking they have for they're clients. So if we can have them directed to park there as soon as they can would be a great help to us.

I will assign one of my staff up there tomorrow morning to make sure they can get in.

Subject: RE: Additional Space

Team,

We have reached out to Our Tenants DHHS Sandi Mose and talked about them giving up the 5 work station across from where FEMA is now.
DHHS has said there is no way that they could allow to lose that space. We were thinking that this space could be rebuilt to allow them to have multiple workers for FEMA to coordinate the operations.

However,

Sandi did mention that maybe the MCcree facility that they just moved out of is wide open and could house 180 staff as a possibility.

Please let us know if there is anything else we can do.

Team –

Yesterday, emails were published online regarding water coolers being placed in the Flint State Office Building back in January 2015. The published emails name Jeanette Doll and list our 373-6227 number as the contact for questions. It's very possible that we will receive calls related to these emails over the next few work days. If anyone calls for Jeanette today, please send them to her office line (do not send anyone to her cell phone or give out the number). If anyone calls asking for information about Flint, transfer them to the DTMB Director's office at

Michelle and Tammy –

Please create an account in AIMS for the Flint Water Emergency and assign 25 reserved parking spaces to it (according to the numbers I have, we should have enough vacancies to accommodate this). I will also need parking maps with each of the assigned parking spaces highlighted (one set of maps with all spaces highlighted). I need this electronically…if you are unsure how to do this, please ask Rick for assistance.

I will need to know who completed this request and how much time it took…this is required for overall SEOC emergency cost tracking.

I would like to have this complete today.

Thank you!

Importance: High

Ryan and Jeanette –

See the attached alphabetized list of those who we have been given Flint Ramp access. Mike Noonan has not seen the list, but he told me not to forget Scott Lee and Ryan Goodson (neither are on the list). Please let me know as soon as you can who else needs access. Once I have a complete list, I'll send it to Mike for review.

Thanks.

Subject: FEMA Temp. Flint Staff

Brandon,

Please see below for the FEMA staff that have temp. FlTRampTP1, FLTDHHS1 and FLTPkExit that will be removed March 8, 2016. The levels will not be removed from the staff without approval from Jeff or Ryan. Ryan, please look through the list and ensure that I have not missed anyone. Please let me know if you have any questions.

Sanford, Jeffery (DHHS) 10:56 AM:

howdy stranger! how are you?

Rambo, Carolyn (DTMB) 10:57 AM:

Hey im doing good how are you?

Sanford, Jeffery (DHHS) 10:57 AM:

i'm not too bad....i've been seeing your name being tossed around in some emails about the flint water issue thats going on and I have a quick question for you

Rambo, Carolyn (DTMB) 10:58 AM:

sure

Sanford, Jeffery (DHHS) 11:02 AM:

I would ask my boss (Sheryl) but she's out of the county for a couple weeks....we're getting the 92 pallets of water from South Carolina and she says its costing us $8,000...Is that just the shipping charges that we're being billed for?

Sanford, Jeffery (DHHS) 11:04 AM:

also..do you know how we're going to be paying for it? I'm guessing UPS is just going to include it on our monthly bill but i'm not 100% sure how that works

Rambo, Carolyn (DTMB) 11:06 AM:

Yes the shipping is 8,000 it took 5 semis to ship at $1600 each. We waived the service charge for federal surplus.

I think they are going to send an invoice directly to sheryl

Do you know how much money she budgeted for the transportation. I am working on shipping a ton more water.

Sanford, Jeffery (DHHS) 11:10 AM:

I'm not sure...to the best of my knowledge we received an initial $10,000,000 allocation to put towards the issue and we just received an additional $10,000,000 today. I'm thinking that any shipping charges will probably come out of that allocation

It looks like she's on her email now...sorry for any duplicate information that's being relayed!

Rambo, Carolyn (DTMB) 11:11 AM:

ok can you check on that for me and email what my cap should be?

no problem it was nice to hear from you.

Sanford, Jeffery (DHHS) 11:14 AM:

will do...i'll let you know what i find out

also...i saw you on the tv a while back for your auction! you're famous!

Subject: RE: Flint inside DTMB article

Just wanted to let you know that I spoke with Joyce and she said that Communications is compiling all of the involvement that DTMB has in the Flint Water Crisis, however, because of the sensitivity of the entire issue, they have been working with the Governors office on when/what to publish. Right now, the only thing that has been published is only what employees have done on their own, not what the DTMB is doing. So they have all of the information about the delivery drivers, VTS drivers, what you guys have done, etc., and when they release all of it, it will be included. She had to provide them with all of the names too of who has been helping with everything!

Subject: Flint inside DTMB article

Jamie,

Why doesn't OSS/LOS get mentioned for any of the work that we have done? I think that the delivery drivers that worked to delivery water should be recognized. Also the staff at Federal Surplus found more 180,000 bottles of water to donate to flint and are still working on securing more water. I think both of these efforts need to be recognized. Here is the article.

http://inside.michigan.gov/dtmb/comm/news/Pages/Hands-on-help-for-Flint.aspx

I am sorry this kind of upset me as in the past we have not be recognized for trying to go above and beyond our jobs to do the right thing.

Carolyn,

As a follow up we have 93 pallets of bottled water and 32 pallets of canned water available if you can provide logistics.

I am still waiting on approval to release once you can confirm transportation.

Subject: Bottled Water

The State of Michigan is in need of bottled water for the City of Flint. The mayor of Flint, MI declared a state of emergency over contaminated water in the city. The city's water supply is contaminated by high levels of lead. Currently gsaxcess.gov does not have cases of bottled water available. Please let me know if your state has bottled water available for transfer.

FOR STATE AGENCY USE ONLY

The applicant has been determined as a:

☐ eligible ☐ ineligible ☐ conditionally eligible
☐ public agency ☐ nonprofit education ☐ nonprofit health
☐ other _____

Eligibility expires: _____ Agreement #: _____

_____ _____
Date — Director

This form can be made available in accessible formats upon request to qualified individuals with disabilities.

INSTRUCTIONS FOR COMPLETING THE APPLICATION FOR ELIGIBILITY FORM
(Please type or print in blue or black ink only)

SECTION I Provide the full legal name of your organization on the first line of this section. Provide the mailing address of your organization as recognized by the US Postal Service. Include ZIP Code. Provide the street address if different from mailing address or provide directions if located on a rural route or other remote area. List the county in which the organization is actually located and a business telephone number with area code.

SECTION II Check the appropriate box which describes your organization. If you are a public agency check the appropriate box in section III then skip to section VIII. If you are unable to determine which status to check, please call 517-373-8622.

SECTION III Check the appropriate box or boxes (check as many as apply) which indicates the type or purpose of your organization.

SECTION IV A comprehensive written description of all programs and/or services provided is required. A description of the operational facilities should also be included. Be sure to include information on staff and staff qualifications, hours of operation, services and programs offered, population of enrollment, fees charged, etc. Include samples of pamphlets, catalogs, brochures or posters. If incorporated, include complete copy of Articles of Incorporation with all filing certificates and amendments, and a copy of your current By-Laws.

SECTION V Check the appropriate box which indicates the organization's sources of funding. Supporting documentation indicating the types and amounts of funding must be submitted with the completed application.

SECTION VI All applicants making application as "Nonprofit, tax-exempt organizations" must provide a copy of the IRS determination letter indicating tax exemption under Section 501 of the IRS Code of 1986. The name of the organization on this IRS letter must match the name provided in Section 1 of this application, if not, include sufficient evidence such as amendments to Articles of Incorporation, or Assumed Name filing certificate to establish an "audit trail" of names showing the legal connection.

SECTION VII Applicants making application as "Nonprofit, tax-exempt organization" are required to submit evidence that the applicant is currently approved, accredited, or licensed. Programs for older individuals must include evidence of funding under the Older Americans Act of 1965; Titles IV or XX of the Social Security Act; Titles VIII or X of the Economic Development Act of 1964; or the Community Services Block Grant Act. Providers of assistance to homeless individuals must include a letter from the mayor, county judge, city or county health officer or comparable authority which certifies that the applicant is a "provider of assistance to the homeless". The certification must identify the service or assistance being provided and the number of individuals receiving such assistance.

SECTION VIII Annotate date and provide an original signature of applicant's Authorized Official (President, Chairman of the Board, Mayor, City Manager, Executive Director, Administrator, Fire Chief, or other comparable authorized official). Photocopied, rubber stamped, machine produced, carbon, or other facsimile type signatures are not acceptable.

NOTE: INCOMPLETE APPLICATIONS WILL NOT BE PROCESSED. USE THIS INSTRUCTION SHEET AS YOUR CHECK LIST TO ASSURE ALL REQUIRED INFORMATION AND DOCUMENTATION IS PROVIDED. IF YOU HAVE A QUESTION OR NEED ASSISTANCE CALL (517) 373-8622 or (517) 241-3860.

MAIL OR FAX APPLICATION TO:

STATE OF MICHIGAN
FEDERAL SURPLUS PROPERTY PROGARM
3201 W. ST. JOSEPH, LANSING, MI 48917

CERTIFICATIONS AND AGREEMENTS (INCLUDING TERMS, CONDITIONS, RESERVATIONS, AND RESTRICTIONS)

(a) THE DONEE CERTIFIES THAT:

(1) It is a public agency or a nonprofit institution or organization exempt from taxation under section 501 of the Internal Revenue Code of 1954 within the meaning of section 203 (j) of the Federal Property and Administrative Services Act of 1949, as amended, and/or the regulations of the General Services Administration (GSA).

(2) If a public agency, the property is needed and will be used by the recipient for carrying out or promoting for the residents of a given political area one or more public purposes, or, if a nonprofit, tax exempt institution or organization, the property is needed for and will be used by the recipient for educational or public health purposes, including research for any such purpose, or for programs for older individuals. The property is not being acquired for any other use or purpose, or for sale or other distribution, or for permanent use outside the State, except with prior written approval of the State agency.

(3) Funds are available to pay all costs and charges incident to donation.

(4) This transaction shall be subject to the nondiscrimination regulations governing the donation of surplus personal property issued under title VI of the Federal Property and Administrative Services Act of 1949, as amended, section 504 of the Rehabilitation Act of 1973, as amended, title IX of the Education Amendments of 1972, as amended, and section 303 of the Age Discrimination Act of 1975.

(b) THE DONEE AGREES TO THE FOLLOWING FEDERAL CONDITIONS:

(1) All items of property shall be placed in use for the purpose(s) for which acquired within 1 year of receipt and shall be continued in use for such purpose(s) for 1 year from the date the property was placed in use, or continued in use, the donee shall immediately notify the State agency and, at the Donee's expense, return such property to the State agency.

(2) Such special handling or use limitations as are imposed by GSA on any item(s) of property listed hereon.

(3) In the event the property is not so used or handled as required by (b) (1) and (2), title and right to the possession of such property shall at the option of GSA revert to the United States of America and, upon demand, the donee shall release such property to such person as GSA or its designee shall direct.

(c) THE DONEE AGREES TO THE FOLLOWING CONDITIONS IMPOSED BY THE STATE AGENCY, APPLICABLE TO ITEMS WITH A UNIT ACQUISITION COST OF $5,000 OR MORE AND PASSENGER MOTOR VEHICLES, REGARDLESS OF ACQUISITION COST, EXCEPT VESSELS 50 FEET OR MORE IN LENGTH AND AIRCRAFT, FOREIGN GIFTS, OR OTHER ITEMS OF PROPERTY REQUIRING SPECIAL HANDLING OR USE LIMITATIONS, REGARDLESS OF THE ACQUISITION COST OR PURPOSE FOR WHICH ACQUIRED:

(1) The property shall be used only for the purpose(s) for which acquired and for no other purpose(s).

(2) There shall be a period of restriction which will expire after such property has been used for the purpose(s) for which acquired for a period of (to be in accordance with provisions of the State Plan of Operation).

(3) In the event the property is not so used as required by (c) (1) and (2), and Federal restrictions (b) (1), (b) (2) and (f) have expired, right to the possession of such property shall at the option of the State agency revert to the State of Michigan and the donee shall release such property to such person as the State agency shall direct.

(d) THE DONEE AGREES TO THE FOLLOWING TERMS, RESERVATIONS, AND RESTRICTIONS:

(1) From the date it receives the property and through the period(s) of time the conditions imposed by (b), (c) and (f) remain in effect, the donee shall not sell, trade, lease, lend, bail, cannibalize, encumber, or otherwise dispose of such property, or remove it permanently for use outside the State, without the prior approval of GSA under (b) and (f), or the State agency under (c) and (f). The proceeds from any sale, trade, lease, loan, bailment, encumbrance, or other disposal of the property, when such action is authorized by GSA or by the State agency, shall be remitted promptly by the donee to GSA or the State agency, as the case may be.

(2) In the event any of the property is sold, traded, leased, loaned, bailed, cannibalized, encumbered, or

otherwise disposed of by the donee from the date it receives the property through the period(s) of time the conditions imposed by (b), (c) and (f) remain in effect, without the prior approval of GSA or the State agency, the donee, at the option of GSA or the State agency shall pay to GSA or the State agency, as the case may be, the proceeds of the disposal or the fair market value or the fair rental value of the property at the time of such disposal, as determined by GSA or the State agency.

(3) If at any time, from the date it receives the property through the period(s) of time the conditions imposed by (b), (c), and (f) remain in effect any of the property listed hereon is no longer suitable, usable, or further needed by the donee for the purpose(s) for which acquired, the donee shall promptly notify the State agency, and shall, as directed by the State agency, return the property to the State agency, release the property to another donee or another State agency or to a department or agency of the United States, sell or otherwise dispose of the property. The proceeds from any sale shall be remitted promptly by the donee to the State agency.

(4) The donee shall make reports to the State agency on the use, condition, and location of the property listed hereon and on other pertinent matters as may be required from time to time by the State agency.

(5) At the option of the State agency, the donee may abrogate the State conditions set forth in (c) and the State terms, reservations, and restrictions pertinent thereto in (d) by payment of an amount as determined by the State agency.

(e) THE DONEE AGREES TO THE FOLLOWING CONDITIONS, APPLICABLE TO ALL ITEMS OF PROPERTY LISTED HEREON:

(1) The property acquired by the donee is on an "as is, where is" basis, without warranty of any kind, and the Government of the United States of America will be held harmless from any or all debts, liabilities, judgments, costs, demands, suits, actions, or claims of any nature arising from or incident to the donation of the property, its use, or final disposition.

(2) Where a donee carries insurance against damages to or loss of property due to fire or other hazards and where loss of or damage to donated property with unexpired terms, conditions, reservations, or restrictions occurs, GSA or the State agency, as the case may be, will be entitled to reimbursement from the donee out of the insurance proceeds of an amount equal to the unamortized portion of the fair market value of the damaged or destroyed donated items.

(f) THE DONEE AGREES TO THE FOLLOWING ADDITIONAL SPECIAL TERMS AND CONDITIONS APPLICABLE TO THE DONATION OF AIRCRAFT AND VESSELS (50 FEET OR MORE IN LENGTH) HAVING A ACQUISTIONS COST OF $5,000 OR MORE AND FOREIGN GIFTS OR OTHER ITEMS OF PROPERTY REQUIRING SPECIAL HANDLING OR USE LIMITATIONS, REGARDLESS OF THE ACQUISITION COST OR PURPOSE FOR WHICH ACQUIRED:

The donation shall be subject to the additional special terms, conditions, reservations and restrictions set forth in the Conditional Transfer Document or other agreements executed by the authorized donee representative.

(g) ALL PROPERTY ACQUIRED THROUGH THE FEDERAL SURPLUS PROPERTY PROGRAM IS CONSIDERED FEDERAL GRANT-IN-AID AND MAY REQUIRE COMPLIANCE UNDER THE SINGLE AUDIT ACT OF 1984 AND THE PROVISIONS OF OMB CIRCULAR A-133.

Signature of Donee's Authorized Official

12-10-2015
Date

Title of Donee's Authorized Official

DEFINITIONS

Authorized Official – Means the President, Chairman of the Board, Mayor, City Manager, Superintendent, Executive Director, Administrator, Fire/Police Chief, or other comparable official.

Authorized Representative – Means the person(s) who is/are certified by the Authorized Official to represent the Donee Organization as its authorized agent; and is authorized to screen/acquire Federal surplus property on behalf of the Donee Organization; and obligate necessary Donee Organization funds for this purpose; and execute distribution documents binding the Donee Organization to the terms, conditions, reservations, and restrictions applying to property obtained through the agency.

APPROVED - Recognition and approval by the State department of education, State department of health, or other appropriate authority where no recognized accrediting board, association, or other authority exists for the purpose of making an accreditation. For an educational institution or an educational program, approval must relate to academic or instructional standards established by the appropriate authority. For a public health institution or program, approval must relate to the medical requirements and standards for the professional and technical services of the institution established by the appropriate authority.

ACCREDITED - Approved by a recognized accrediting board or association, at a regional, State or national level such as a State board of education or health; the American Hospital Association; a regional or national accrediting association for universities, colleges, or secondary schools; or another recognized accrediting association.

ACCREDITATION – Means the status of public recognition that an accrediting agency grants to an institution or program that meets the agency's standards and requirements.

CHILD CARE CENTER - A public or nonprofit facility where educational, social, health, and nutritional services are provided to children through age 14 or as prescribed by State Law, and that is approved or licensed by the State or other appropriate authority as a child day care center or child care center.

CLINIC – Means an approved public or nonprofit facility organized and operated for the primary purpose of providing outpatient public health services, and includes customary related services such as laboratories and treatment rooms.

COLLEGE - Means an approved or accredited public or nonprofit institution of higher learning offering organized study courses and credits leading to a baccalaureate or higher degree.

CONSERVATION – Means a program or programs carried out or promoted by a public agency for public purposes involving directly or indirectly the protection, maintenance, development, and restoration of the natural resources of a given political area. These resources include but are not limited to the air; land; forests; water; rivers; streams; lakes and ponds; minerals; and animals, fish and other wildlife.

DRUG ABUSE OR ALCOHOL TREATMENT CENTER – Means a clinic or medical institution that provides for the diagnosis, treatment, or rehabilitation of alcoholics or drug addicts. These centers must have on their staffs, or available on a regular visiting basis, qualified professionals in the fields of medicine, psychology, psychiatry, or rehabilitation.

ECONOMIC DEVELOPMENT – Means a program(s) carried out or promoted by a public agency for public purposes to improve the opportunities of a given political area for the establishment or expansion of industrial, commercial, or agricultural plants or facilities and which otherwise assists in the creation of long term employment opportunities in the area or primarily benefits the unemployed or those with low incomes.

EDUCATION – Means a program or programs to develop and promote the training, general knowledge, or academic, technical, and vocational skills and cultural attainments of individuals in a community or other given political area. Public educational programs may include public school systems and supporting facilities such as centralized administrative or service facilities.

EDUCATIONAL INSTITUTION – Means an approved, accredited, or licensed public or nonprofit institution, facility, entity, or organization conducting educational programs or research for educational purposes, such as a child care center, school, college, university, school for the mentally or physically disabled, or an educational radio or television station.

EDUCATIONAL RADIO OR TELEVISION STATION – Means a public or nonprofit radio or television station licensed by the Federal Communications Commission and operated exclusively for noncommercial educational purposes.

HEALTH CENTER – Means an approved public or nonprofit facility that provides public health services, including related facilities such as diagnostic and laboratory facilities and clinics and clinics.

HISTORIC LIGHT STATION – Means a historic light station as defined under section 308(e)(2) of the National Historic Preservation Act 16 U.S.C. 470w-7(e)(2), including a historic light station conveyed under subsection (b) of that section, notwithstanding the number of hours that the historic light station is open to the public.

HOMELESS INDIVIDUAL – Means:
(1)An individual who lacks a fixed, regular, and adequate nighttime residence, or who has a primary nighttime residence that is:

(i) A supervised publicly or privately operated shelter designed to provide temporary living accommodations (including welfare hotels, congregate shelters, and transitional housing for the mentally ill);
(ii) An institution that provides a temporary residence for individuals intended to be institutionalized; or
(iii) A public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.

(2) For purposes of this regulation, the term does not include any individual imprisoned or otherwise detained pursuant to an Act of the Congress or State Law.

HOSPITAL – Means an approved or accredited public or nonprofit institution providing public health services primarily for inpatient medical or surgical care of the sick and injured and includes related facilities such as laboratories, outpatient departments, training facilities, and staff offices.

LIBRARY - A public or nonprofit facility providing library services free to all residents of a community, district, State or region.

LICENSED – Mean recognition and approval by the appropriate State or local authority approving institutions or programs in specialized areas. Licensing generally relates to established minimum public standards of safety, sanitation, staffing, and equipment as they relate to the construction, maintenance, and operation of a health or educational facility, rather than to the academic, instructional, or medical standards for these institutions.

MEDICAL INSTITUTION – Means an approved, accredited, or licensed public or nonprofit institution, facility, or organization the primary function of which is the furnishing of public health and medical services to the public at large or promoting public health through the conduct of research, experiments, training, or demonstrations related to cause, prevention, and methods of diagnosis and treatment of diseases and injuries. The term includes but is not limited to hospitals, clinics, alcoholic and drug abuse treatment centers, public health or treatment centers, research and health centers, geriatric centers, laboratories, medical schools, dental schools, nursing schools, and similar institutions. The term does not include institutions primarily engaged in domiciliary care although a separate medical facility within such a domiciliary institution may qualify as a "medical institution".

MUSEUM – Means a public or nonprofit institution which is organized on a permanent basis essentially for educational or esthetic purposes and which, using a professional staff, owns or uses tangible objects, whether animate of inanimate; cares for these objects; and exhibits them to the public on a regular basis (at least 1000 hour per year). As used in the Donation Program, the term "museum" includes, but is not limited to, the following institutions if they satisfy all other provisions of FPMR 101-44.207: aquariums and zoological parks; botanical gardens and arboretums; nature centers; museums relating to art, history (including historical buildings), natural history, science, and technology; and planetariums. For the purposes of this definition, an institution uses a professional staff if it employs at least one qualified full time staff member or the equivalent, whether paid or unpaid, primarily engaged in the acquisition, care, or public exhibition of objects owned or used by the institution. This definition of "museum" does not include any institution that exhibits object to the public if they display or use of the objects is only incidental to the primary function of the institution. For example, an institution which is engaged primarily in the sale of antiques, objects d'art, or other artifacts and which incidentally provided displays to the public of animate of inanimate objects, either free or at a nominal charge, does not qualify as a museum.

NATIONALLY RECOGNIZED ACCREDITING AGENCY – Means an accredited agency that the Department of Education recognizes under 34 CFR par 600. (For a list of accredited agencies, see the Department's web site at http://www.ed.gov/offices/OPE/accreditation/index.html .

NONPROFIT – Means not organized for profit and exempt from Federal income tax under section 501 of the Internal Revenue Code (26 U.S.C. 501).

PARKS AND RECREATION – Means a program(s) carried out or promoted by a public agency for public purposes which involve directly or indirectly the acquisition, development, improvement, maintenance, and protection of park and recreational facilities for the residents of a give political area.

PROGRAM FOR OLDER INDIVIDUALS – Means a conducted by a State or local government agency or any nonprofit activity that receives funds appropriated for services or programs for older individuals under the Older Americans Act of 1965, as amended, under title IV or title XX of the Social Security Act (42 U.S.C. 601 et seq.), or under titles VIII and X of the Economic Opportunity Act of 1964 (42 U.S.C. 2991 et seq.) and the Community Services Block Grant Act (42 U.S.C. 9901 et seq.).

PROVIDER OF ASSISTANCE TO HOMELESS INDIVIDUALS – Means a public agency or a nonprofit institution or organization that operates a program which provides assistance such as food, shelter, or other services to homeless individuals.

PROVIDER OF ASSISTANCE TO IMPOVERISHED FAMILIES AND INDIVIDUALS – Means a public or nonprofit organization whose primary function is to provide money, goods, or services to families or individuals whose annual incomes are below the poverty line (as defined in section 673 of the Community Services Block Grant Act)(42 U.S.C. 9902). Providers include food banks, self-help housing groups, and organizations providing services such as the following: Health care; medical transportation; scholarships and tuition assistance; tutoring and literacy instruction; job training and placement; employment counseling; child care assistance; meals or other nutritional support, clothing distribution; home construction or repairs; utility or rental assistance; and legal counsel.

PUBLIC AGENCY- Means any State; political subdivision thereof, including any unit of local government or economic development district; any department, agency, or instrumentality thereof, including instrumentalities created by compact or other agreement between States or political subdivisions; multijurisdictional substate districts established by or pursuant to State law; or any Indian tribe, band, group, pueblo, or community located on a State reservation.

PUBLIC HEALTH – Means a program(s) to promote, maintain, and conserve the public's health by providing health services to individuals and/or by conducting research, investigations, examinations, training, and demonstrations. Public health services may include but are not limited to the control of communicable diseases, immunization, maternal and child health programs, sanitary engineering, sewage treatment and disposal, sanitation inspection and supervision, water purification and distribution, air pollution control, garbage and trash disposal, and the control and elimination of disease-carrying animals and insects.

PUBLIC HEALTH INSTITUTION – Means an approved, accredited, or licensed public or nonprofit institution, facility, or organization conducting a public health program(s) such as a hospital, clinic, health center, or medical institution, including research for any such programs, the services of which are available to the public.

PUBLIC PURPOSE – Means a program(s) carried out by a public agency which are legally authorized in accordance with the laws of the State or political subdivision thereof and for which public funds may be expended. Public purposes include but are not limited to programs such as conservation, economic development, education, parks and recreation, public health and public safety, programs of assistance to the homeless or impoverished, and programs for older individuals.

PUBLIC SAFETY – Means a program(s) carried out or promoted by a public agency for public purposes involving, directly or indirectly, the protection, safety, law enforcement activities, and criminal justice system of a given political area. Public safety programs may include but are not limited to those carried out by: public police departments; sheriff's offices; the courts; penal and correctional institutions and including juvenile facilities; State and civil defense organizations; and fire departments and rescue squads including volunteer fire departments and rescue squads supported in whole or in part with public funds.

SCHOOL (EXCEPT SCHOOLS FOR THE MENTALLY OR PHYSICALLY DISABLED) - Means a public or nonprofit approved or accredited organizational entity devoted primarily to approved academic, vocational, or professional study and instruction, that operates primarily for educational purposes on a full-time basis for minimum school year and employs a full-time staff of qualified instructors.

SCHOOL FOR THE MENTALLY OR PHYSICALLY DISABLED – Means a facility or institution operated primarily to provide specialized instruction to students of limited mental or physical capacity. It must be public or nonprofit and must operate on a full-time basis for the equivalent of a minimum school year prescribed for public school instruction of the mentally or physically disabled, have a staff of qualified instructors, and demonstrate that the facility meets the health and safety standards of the State or local government.

UNIVERSITY – Means a public or nonprofit approved or accredited institution for instruction and study in the higher branches of learning and empowered to confer degrees in special departments or colleges.

Hi Carolyn,

That's great news! At this point, we are working to determine the address. We have a couple of options available to us. Please allow me to conference with City Officials and our partner agencies to see what I can figure out.

Thanks,

Subject: Bottled Water

Sean,

The state of South Carolina has 93 pallets of bottled water available as well as 32 pallets of canned water. The manager from South Carolina recommended the canned water not be used for drinking but for uses in the home (bathing, toilet, cleaning, etc.). I checked with my director and the State of Michigan does not have semi drivers that can drive outside of the State of Michigan. We will have to figure out the logistic to get the pallets shipped to Flint. My director agreed that we should waive the state's service fees for this donation so the only cost would be for the shipping. I am attaching our application and board resolution that will need to be completed and retuned via fax or email. Please let me know if you have any questions.

Thanks,

Subject: Bottled Water

Sean,

The state of South Carolina has 93 pallets of bottled water available as well as 32 pallets of canned water. The manager from South Carolina recommended the canned water not be used for drinking but for uses in the home (bathing, toilet, cleaning, etc.). I checked with my director and the State of Michigan does not have semi drivers that can drive outside of the State of Michigan. We will have to figure out the logistic to get the pallets shipped to Flint. My director agreed that we should waive the state's service fees for this donation so the only cost would be for the shipping. I am attaching our application and board resolution that will need to be completed and retuned via fax or email. Please let me know if you have any questions.

Thanks,

STATE OF MICHIGAN
BOARD RESOLUTION
FEDERAL SURPLUS ASSISTANCE PROGRAM

WHEREAS, THE CITY OF FLINT (Agency), State of Michigan has met all other State and Federal requirements for participation in the Federal Property Assistance Program under Public Law 94-519.

WHEREAS, it is a requirement that a resolution be adopted by the governing body specifically designating a coordinator as Surplus Property Donee and Custodian, to be responsible for the acceptance and accountability and authorized to sign for surplus property.

NOW THEREFORE, BE IT RESOLVED:

1. That the Governing Body for the CITY OF FLINT (Agency)

   the of the State of Michigan, hereby designates NATASHA L. HENDERSON (Name)

   who is the authorized coordinator as the person responsible for accepting Federal Surplus Property, with the power and full authority to sign for such surplus property.

2. The coordinator named above is to be held responsible for the accountability and will maintain the necessary records for all surplus property obtained for public purposes until relieved from accountability by State and/or Federal authorities.

3. That money is available to pay service charges for surplus property obtained.

4. That the coordinator is further hereby authorized to direct payment of service charges for surplus property to complete all transactions.

I do hereby certify that the foregoing resolution was adopted by the favorable vote of a majority of the member of said CITY OF FLINT (Agency) Date: 12-22-15

Natasha L. Henderson

Good morning Carrie. Thanks for the offer, I will let you know as soon as possible. This water will need to come through Michigan's Federal Surplus, but hopefully just one transaction.

I will get back to you as soon as possible.

Best Wishes.

From: State of Michigan <MISOM@govsubscriptions.michigan.gov>
Sent: Thursday, January 14, 2016 5:29 PM
To: Rambo, Carolyn (DTMB)
Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Subject: Flint Shipment for Friday

Gwen,

I have been requested to change the delivery address again for the two semis that are delivering water to flint today. Can they be delivered to 4315 N Clio Rd Flint 48504?

Thanks,

Good Afternoon all. Sorry for the delay in getting back to you. I have heard from FEMA after the Holidays and they have 2 million liters of water available right now. Perhaps we should try to get together briefly on the telephone to discuss. I understand that our office in Michigan has secured free transportation for this water, the problem may be storage.

Can someone get on the telephone yet today? Tomorrow I will be out of pocket for most of the day, although I could get on the telephone before 10 am.

Thanks.

Hi Scott –

I tried to call you this morning. Thank you for reaching out and trying to assist Flint during this water crisis. Jamie Gaskin, United Way Executive Director, is taking the lead on water and filter distribution here in Flint. He would have the best information on what the community still needs. I have copied him on this email and his phone number is 810.762.0856. The United Way is also currently covering the transportation costs for the surplus water that Flint is getting from FEMA.

Please let me know if you need anything else from our office. I have a bust schedule today but if you call me on my cell, I can step out of the meeting and take your call (810.241.3864).

Thanks!

Amy

Good Evening Amy. I wanted to introduce myself and my organization to you tonight. I got your information from the Congressman's Chief of Staff, Jennifer. I can assist you with water needs in Flint, in both now and for the future. In order to proceed, I need to know what the needs immediately are for Flint. This will start the process to acquire the water and begin to work on transportation.

For your general information, I have attached some information about the Program and NASASP. Please let me know as soon as possible what you need and I would be happy to assist you in getting the water. Feel free to email or call me at the numbers listed below.

Best Wishes.

Good Afternoon all. Sorry for the delay in getting back to you. I have heard from FEMA after the Holidays and they have 2 million liters of water available right

now. Perhaps we should try to get together briefly on the telephone to discuss. I understand that our office in Michigan has secured free transportation for this water, the problem may be storage.

Can someone get on the telephone yet today? Tomorrow I will be out of pocket for most of the day, although I could get on the telephone before 10 am.

Thanks.

Hi Scott –

I tried to call you this morning. Thank you for reaching out and trying to assist Flint during this water crisis. Jamie Gaskin, United Way Executive Director, is taking the lead on water and filter distribution here in Flint. He would have the best information on what the community still needs. I have copied him on this email and his phone number is 810.762.0856. The United Way is also currently covering the transportation costs for the surplus water that Flint is getting from FEMA.

Please let me know if you need anything else from our office. I have a bust schedule today but if you call me on my cell, I can step out of the meeting and take your call (810.241.3864).

Thanks!

Amy

Good Evening Amy. I wanted to introduce myself and my organization to you tonight. I got your information from the Congressman's Chief of Staff, Jennifer. I can assist you with water needs in Flint, in both now and for the future. In order to proceed, I need to know what the needs immediately are for Flint. This will start the process to acquire the water and begin to work on transportation.

For your general information, I have attached some information about the Program and NASASP. Please let me know as soon as possible what you need

and I would be happy to assist you in getting the water. Feel free to email or call me at the numbers listed below.

Best Wishes.

Sheryl,

The water came from the State of South Carolina's Division of General Services. It was located in a warehouse at 1255 Commerce Drive, Lugoff South Carolina, 29078. The water was donated to the State of South Carolina to aid in flooding relief but was no longer needed.

Sent: Tuesday, January 19, 2016 11:45 AM
To: Sanford, Jeffery (DHHS);Rambo, Carolyn (DTMB)
Subject: Missed conversation with Sanford, Jeffery (DHHS)

Sanford, Jeffery (DHHS) 10:56 AM:

howdy stranger! how are you?

Rambo, Carolyn (DTMB) 10:57 AM:

Hey im doing good how are you?

Sanford, Jeffery (DHHS) 10:57 AM:

i'm not too bad....i've been seeing your name being tossed around in some emails about the flint water issue thats going on and I have a quick question for you

Rambo, Carolyn (DTMB) 10:58 AM:

sure

Sanford, Jeffery (DHHS) 11:02 AM:

I would ask my boss (Sheryl) but she's out of the county for a couple weeks....we're getting the 92 pallets of water from South Carolina and she says its costing us $8,000...Is that just the shipping charges that we're being billed for?

Sanford, Jeffery (DHHS) 11:04 AM:

also..do you know how we're going to be paying for it? I'm guessing UPS is just going to include it on our monthly bill but i'm not 100% sure how that works

Rambo, Carolyn (DTMB) 11:06 AM:

Yes the shipping is 8,000 it took 5 semis to ship at $1600 each. We waived the service charge for federal surplus.

I think they are going to send an invoice directly to sheryl

Do you know how much money she budgeted for the transportation. I am working on shipping a ton more water.

Sanford, Jeffery (DHHS) 11:10 AM:

I'm not sure...to the best of my knowledge we received an initial $10,000,000 allocation to put towards the issue and we just received an additional $10,000,000 today. I'm thinking that any shipping charges will probably come out of that allocation

It looks like she's on her email now...sorry for any duplicate information that's being relayed!

Rambo, Carolyn (DTMB) 11:11 AM:

ok can you check on that for me and email what my cap should be?

no problem it was nice to hear from you.

Sanford, Jeffery (DHHS) 11:14 AM:

will do...i'll let you know what i find out

also...i saw you on the tv a while back for your auction! you're famous!

Sanford, Jeffery (DHHS) 11:42 AM:

I spoke with Sheryl, I'm assuming the cap you are referring to are for the other water donations she said you were working on? If that's the case she said to just confirm the amount with her if you secure any donations prior to finalizing

Hi Carrie,

I have copied MI SASP on this email, if they are interested in requesting the latrine systems and DLA Battle Creek approve expedited screening of the items, GSA will definitely approve the transfer orders.

Respectfully,
Sheia

Shelia and Carol,

I hope this finds you both doing well today. I'll be short and to the point. We are receiving a bunch of latrine systems left and right down here. They are the laundry and shower type. My feeling is that they need to be sent to Flint for the people there to have access to clean water and clean restrooms. I don't have any knowledge as to how this works, but I see them coming in one after another, and I would rather send them to Flint than to be allocated to sales at this time. Please think it over, and decide from there. Thanks,

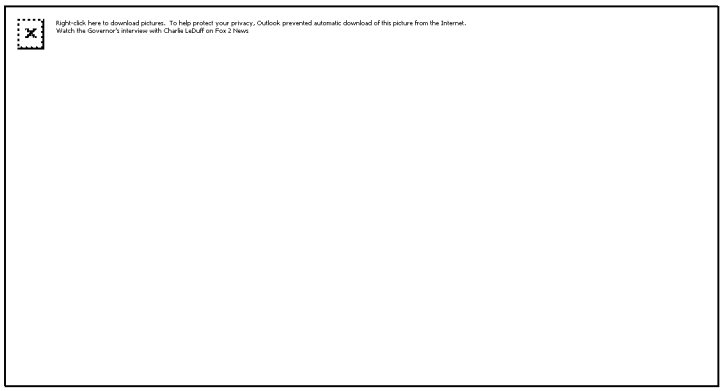
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

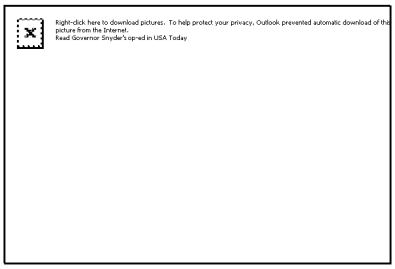


"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

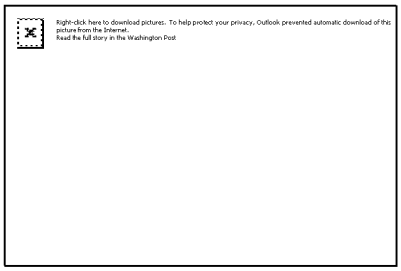
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

Subject: Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

DTMB Header 1022.15

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

H2O

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Subject: FEMA Water for City of Flint

Good Morning Amy. You asked me to get back to you about any problems with getting the water delivered to Flint, Michigan and one has arisen. FEMA is now telling me, as of last week, before the storm, that because of the action President Obama took, they can no longer allow the 2 million liters of water they had set aside for donation to Michigan through the Federal Surplus Property Program to be completed.

The free transportation and warehousing are confirmed and there will be no cost to the City of Flint or the state of Michigan, so I don't understand the delay. Can you help or can someone in the Congressman's Office help to get this water.

I did speak to the Michigan Federal Surplus Property Program and I am reaching out to you to assist them and with their knowledge this morning for help. I will also call you on your cell phone as I know you are very busy and this has become a real national story.

Thanks and please call me if we need to work on a further plan and I can am ready to assist.

Best Wishes.

Jamie,

Why doesn't OSS/LOS get mentioned for any of the work that we have done? I think that the delivery drivers that worked to delivery water should be recognized. Also the staff at Federal Surplus found more 180,000 bottles of water to donate to flint and are still working on securing more water. I think both of these efforts need to be recognized. Here is the article.

http://inside.michigan.gov/dtmb/comm/news/Pages/Hands-on-help-for-Flint.aspx

I am sorry this kind of upset me as in the past we have not be recognized for trying to go above and beyond our jobs to do the right thing.

Just wanted to let you know that I spoke with Joyce and she said that Communications is compiling all of the involvement that DTMB has in the Flint Water Crisis, however, because of the sensitivity of the entire issue, they have been working with the Governors office on when/what to publish. Right now, the only thing that has been published is only what employees have done on their own, not what the DTMB is doing. So they have all of the information about the delivery drivers, VTS drivers, what you guys have done, etc., and when they release all of it, it will be included. She had to provide them with all of the names too of who has been helping with everything!

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

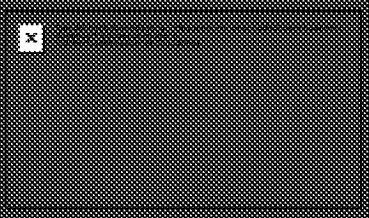
To: Rambo, Carolyn (DTMB)
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking,

and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

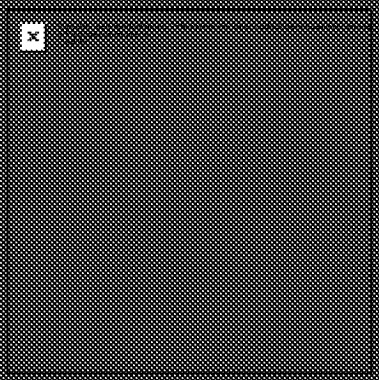
VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.



This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: RE: City of Flint - Water Issue

Flint Water Issue Phone call notes (1/15/16)

- Scott Pepperman, Executive Director of NASASP is working with FEMA to allocate 2 million liters of water to the State of Michigan Federal Surplus Program for donation to the city of Flint. Scott is checking with FEMA to see how the water is packaged and its location.
- Flint is sufficiently stocked with bottled water for January. Additional water is needed for February – April.
- Jay Eickholt, Planning Analyst for MSP is coordinating the logistics for flint. He would like the shipment spread out over a few weeks. The Red Cross is managing the warehousing of the water in an 80,000 square foot warehouse. Jay will send out additional info on the status of the warehouse.
- There are currently 5 dispensaries (Pods) for disturbing water and they are all currently located at fire stations throughout the city. They are going through about 8 pallets of water a day.
- Carolyn Rambo, Federal Surplus Supervisor will set up delivery with UPS as water comes available from GSA and FEMA. She is checking with the State of South Carolina, as they may have another 170 pallets of bottled water available for donation.
- All future deliveries of water should be send to 4315 N Clio Rd Flint 48504.
- Joyce VanCoevering, OSS Director has been deploying freight trucks and drivers to Flint. More are available if need.
- William Kerr, CEO of the Foodbank of Eastern MI currently does not have enough room to store more shipments of water. They may be able to receive more bulk water after all filters are distribute to flint residents.

Good Afternoon all. Sorry for the delay in getting back to you. I have heard from FEMA after the Holidays and they have 2 million liters of water available right now. Perhaps we should try to get together briefly on the telephone to discuss. I understand that our office in Michigan has secured free transportation for this water, the problem may be storage.

Can someone get on the telephone yet today? Tomorrow I will be out of pocket for most of the day, although I could get on the telephone before 10 am.

Thanks.

On Mon, Dec 21, 2015 at 10:01 AM, Jamie Gaskin <jgaskin@unitedwaygenesee.org> wrote:

Scott:

Thanks for reaching out. The United Way has been purchasing between 3-4 trucks of water each month. The last several trucks have been "free" surplus water from locations in Maryland and I believe we have a connection with water in North Carolina.

Our only cost is shipping. We can ship for a very inexpensive cost from the east coast but the shipping cost pushes up if we transport from south or west.

Bill Kerr, FoodBank of Eastern MI CEO has taken the lead on the logistics and coordination of all this water. It has been critical to pace deliveries so we can have storage space and smooth local distribution.

The United Way of Genesee County has been picking up the cost for this transportation and any purchasing costs.

Please connect directly with Bill Kerr on the water you have and the availability. I have cced him into this email. Thanks so very much!

Hi Scott –

I tried to call you this morning. Thank you for reaching out and trying to assist Flint during this water crisis. Jamie Gaskin, United Way Executive Director, is taking the lead on water and filter distribution here in Flint. He would have the best information on what the community still needs. I have copied him on this email and his phone number is 810.762.0856. The United Way is also currently covering the transportation costs for the surplus water that Flint is getting from FEMA.

Please let me know if you need anything else from our office. I have a bust schedule today but if you call me on my cell, I can step out of the meeting and take your call (810.241.3864).

Thanks!

Good Evening Amy. I wanted to introduce myself and my organization to you tonight. I got your information from the Congressman's Chief of Staff, Jennifer. I can assist you with water needs in Flint, in both now and for the future. In order to proceed, I need to know what the needs immediately are for Flint. This will start the process to acquire the water and begin to work on transportation.

For your general information, I have attached some information about the Program and NASASP. Please let me know as soon as possible what you need and I would be happy to assist you in getting the water. Feel free to email or call me at the numbers listed below.

Best Wishes.

Sean,

The US General Services Administration has Latrine Shower Units available for donation. The Latrines have 3 toilets, and one urinal. They are equipped / supplied with water heater, as well as a connex heater. They have several outlets for electricity connection, and hoses. They were part of Fleet Hospital, and they have been told to remove them. Some of them are unusable, but some are new. Virginia says that if you are able to use them, and want some, you are able to have first pick.

Subject: Bottled Water

Sean,

The state of South Carolina has 93 pallets of bottled water available as well as 32 pallets of canned water. The manager from South Carolina recommended the canned water not be used for drinking but for uses in the home (bathing, toilet, cleaning, etc.). I checked with my director and the State of Michigan does not have semi drivers that can drive outside of the State of Michigan. We will have to figure out the logistic to get the pallets shipped to Flint. My director agreed that we should waive the state's service fees for this donation so the only cost would be for the shipping. I am attaching our application and board resolution that will need to be completed and retuned via fax or email. Please let me know if you have any questions.

Subject: Re: Bottled Water

Carolyn,

The Genesee County Foodbank has received bottled water from FEMA. But those contacts would be very helpful for additional assistance. Thank you!

Sean,

The state of South Carolina has 93 pallets of bottled water available as well as 32 pallets of canned water. The manager from South Carolina recommended the canned water not be used for drinking but for uses in the home (bathing, toilet, cleaning, etc.). I checked with my director and the State of Michigan does not have semi drivers that can drive outside of the State of Michigan. We will have to figure out the logistic to get the pallets shipped to Flint. My director agreed that we should waive the state's service fees for this donation so the only cost would be for the shipping. I am attaching our application and board resolution that will need to be completed and retuned via fax or email. Please let me know if you have any questions.

Tom,

The City of Flint is interested in the 93 pallets of bottled water. They did not request the 32 pallets of canned water. I am working with a Director from the State of Michigan's Department of Health and Human Services to secure funding to pay for transportation. Can you please send me more info on the water including the weight and dimensions of each pallet? Can you also send me info on any local shipping companies in your area so I can get some shipping quotes in advance? If you do not know of any I can look into shipping companies. I will be meeting with the Director from DHHS on Monday to talk about the funding and shipping. Can you also send me the address of the warehouse where the water is currently stored? Thank you very much for your help with this.

Good Afternoon all. Sorry for the delay in getting back to you. I have heard from FEMA after the Holidays and they have 2 million liters of water available right now. Perhaps we should try to get together briefly on the telephone to discuss. I understand that our office in Michigan has secured free transportation for this water, the problem may be storage.

Can someone get on the telephone yet today? Tomorrow I will be out of pocket for most of the day, although I could get on the telephone before 10 am.

Thanks.

On Mon, Dec 21, 2015 at 10:01 AM, Jamie Gaskin <jgaskin@unitedwaygenesee.org> wrote:

> Scott:

Thanks for reaching out. The United Way has been purchasing between 3-4 trucks of water each month. The last several trucks have been "free" surplus water from locations in Maryland and I believe we have a connection with water in North Carolina.

Our only cost is shipping. We can ship for a very inexpensive cost from the east coast but the shipping cost pushes up if we transport from south or west.

Bill Kerr, FoodBank of Eastern MI CEO has taken the lead on the logistics and coordination of all this water. It has been critical to pace deliveries so we can have storage space and smooth local distribution.

The United Way of Genesee County has been picking up the cost for this transportation and any purchasing costs.

Please connect directly with Bill Kerr on the water you have and the availability. I have cced him into this email. Thanks so very much!

Hi Scott --

I tried to call you this morning. Thank you for reaching out and trying to assist Flint during this water crisis. Jamie Gaskin, United Way Executive Director, is taking the lead on water and filter distribution here in Flint. He would have the best information on what the community still needs. I have copied him on this email and his phone number is 810.762.0856. The United Way is also currently covering the transportation costs for the surplus water that Flint is getting from FEMA.

Please let me know if you need anything else from our office. I have a bust schedule today but if you call me on my cell, I can step out of the meeting and take your call (810.241.3864).

Thanks!

Amy

Good Evening Amy. I wanted to introduce myself and my organization to you tonight. I got your information from the Congressman's Chief of Staff, Jennifer. I can assist you with water needs in Flint, in both now and for the future. In order to proceed, I need to know what the needs immediately are for Flint. This will start the process to acquire the water and begin to work on transportation.

For your general information, I have attached some information about the Program and NASASP. Please let me know as soon as possible what you need and I would be happy to assist you in getting the water. Feel free to email or call me at the numbers listed below.

Best Wishes.

Subject: Re: City of Flint - Water Issue

Good Afternoon all. Sorry for the delay in getting back to you. I have heard from FEMA after the Holidays and they have 2 million liters of water available right now. Perhaps we should try to get together briefly on the telephone to discuss. I understand that our office in Michigan has secured free transportation for this water, the problem may be storage.

Can someone get on the telephone yet today? Tomorrow I will be out of pocket for most of the day, although I could get on the telephone before 10 am.

Thanks.

> Bill Kerr, FoodBank of Eastern MI CEO has taken the lead on the logistics and coordination of all this water. It has been critical to pace deliveries so we can have storage space and smooth local distribution.

The United Way of Genesee County has been picking up the cost for this transportation and any purchasing costs.

Please connect directly with Bill Kerr on the water you have and the availability. I have cced him into this email. Thanks so very much!

Hi Scott –

I tried to call you this morning. Thank you for reaching out and trying to assist Flint during this water crisis. Jamie Gaskin, United Way Executive Director, is taking the lead on water and filter distribution here in Flint. He would have the best information on what the community still needs. I have copied him on this email and his phone number is 810.762.0856. The United Way is also currently covering the transportation costs for the surplus water that Flint is getting from FEMA.

Please let me know if you need anything else from our office. I have a bust schedule today but if you call me on my cell, I can step out of the meeting and take your call (810.241.3864).

Thanks!

Amy

Good Evening Amy. I wanted to introduce myself and my organization to you tonight. I got your information from the Congressman's Chief of Staff, Jennifer. I can assist you with water needs in Flint, in both now and for the future. In order to proceed, I need to know what the needs immediately are for Flint. This will start the process to acquire the water and begin to work on transportation.

For your general information, I have attached some information about the Program and NASASP. Please let me know as soon as possible what you need and I would be happy to assist you in getting the water. Feel free to email or call me at the numbers listed below.

Best Wishes.

Sheryl,

The water came from the State of South Carolina's Division of General Services. It was located in a warehouse at 1255 Commerce Drive, Lugoff South Carolina, 29078. The water was donated to the State of South Carolina to aid in flooding relief but was no longer needed.

Agenda

1x1 Meeting

January 25, 2015

10:00am – 11:00am

Invited: Carrie Rambo, Seth Wright

1. State Surplus
    - **a.** Surplus Story – Communications Office
    - **b.** SLA's
    - **c.** Hauling and Cleaning contract RFP
        1. Responded to questions from finance
    - **d.** Databases
        1. Database testing
    - **e.** Procedure Review Project
    - **f.** Building Construction Project
    - **g.** FY16 Action Plan
    - **h.** Delivery/VTS/Surplus hauling project
        1. Analyzing number of stops/locations
    - **i.** Treasury SLA/Auction
        1. 15% service fee w/ $$ cap
        2. Conduct cost analysis of auction v. MiBid sales
    - **j.** Revising PD's
    - **k.** Dept. Supervisor 12 PD in progress

2. Federal Surplus
    - **a.** Flint Water Project
    - **b.** Federal Financial FY15 Issues
    - **c.** Tuskegee airman compliance case
        1. Working on compliance letter with recommendation
        2. Received settlement letter from layer
        3. GSA update
        4. Looking for other donee for current aircraft
    - **d.** Disposal of property
        1. NASA – 3 items – Yankee Air Museum is interested

2. GSA Auctions
    1. Car parts – completed inventory will post in FY16
    2. Scanners (3) will post in FY16

e. Audit findings
1. Attachment E – all issues have been addressed an updated with GSA
2. Attachment B – revised completion date January 2nd. 50% complete

f. State Plan update – audit report plan revised completion date of Feb 29, 16

Subject: Flint inside DTMB article

Jamie,

Why doesn't OSS/LOS get mentioned for any of the work that we have done? I think that the delivery drivers that worked to delivery water should be recognized. Also the staff at Federal Surplus found more 180,000 bottles of water to donate to flint and are still working on securing more water. I think both of these efforts need to be recognized. Here is the article.

http://inside.michigan.gov/dtmb/comm/news/Pages/Hands-on-help-for-Flint.aspx

I am sorry this kind of upset me as in the past we have not be recognized for trying to go above and beyond our jobs to do the right thing.

Subject: Flint Water Update

Sheryl,

Would you like me to set up transportation for the 40 pallets of water mentioned in the email below? I also have an additional four truckloads of water that is available from Winnsboro, South Carolina. Because President Obama declared an emergency for the Flint water crisis, the Federal Surplus Property Program is no longer eligible to receive the 2 million liters of water from FEMA. I think that Flint will still be receiving the water but it will go directly to Flint from FEMA. I can still ship the water from the other two South Carolina locations if you would like.

Carolyn,

I can release 40 pallets for water to you, if still needed.

Most of the water we have is Dasani. It looks like there are 56 cases of 24 bottles (16.9 oz.) on each pallet.

Expiration Date – All I see is the stamped month of Sept on the bottle cap.

This water can be picked up most any week day between 8am -3pm. Our warehouse location is 630 Taylor Street, Columbia, SC 29201.

Just let me know if you want to proceed.

Thanks,

DTMB Executive Team
Surplus Services Monthly Report
January 2016

Surplus Services

Scorecard Challenges:

- None

Current Projects / Initiatives:

- **Federal Surplus Highlights**
  - 2 new application for federal program
  - 2 Federal Surplus donation
  - Retained Revenue from donation $451
  - Total GAC donations - $3,470

- **State Surplus Highlights**
  - Posted 119 auctions on MiBid
  - Sold 68 vehicles on MiBid
  - MiBid Sales of $367,439
  - Retained Revenue from MiBid $103,096

Information Sharing/Best Practices:

The Federal Surplus Property Program received help from NASAP obtaining bottled water from South Carolina Surplus Program. South Carolina had an entire warehouse full of bottled water that was left over from a flooding emergency. With the help of Scott Pepperman, of NASASP, MISASP was able to arrange shipping for the water to be delivered to Flint and distributed throughout the city. Approximately 175,000 bottles (92 pallets) of water were successfully delivered to Flint to assist with the water crisis.

Star Employee:

- None

Needs from EMT / SMT:

Subject: SC water

Good Morning,
Tim has emailed you and I have left you several messages about the water we would like to send from South Carolina. Can you let us know if you're still interested in that or if we should stop trying to contact you? Thanks so much!

Kelly Hawsey

Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.

All DTMB Custodians of Correspondence Related to Flint.pdf
***This attachment was updated 2/18/16**

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1. Kickoff – Brom Stibitz, Chief Deputy Director
2. Why you are here – Jean Ingersoll, Interim Chief of Staff
3. What you need to do (February 22, 2016 deadline) – Jean
4. What will be done for you – Jean
5. What's next – Jean
6. Public Information Reminder – Caleb Buhs, Public Information Officer
7. Questions and Answers - Group

All DTMB Custodians of Correspondence Related to Flint - UPDATED.pdf

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 17, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

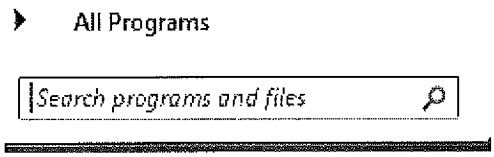
Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"

Search conducted on the email account of: _____

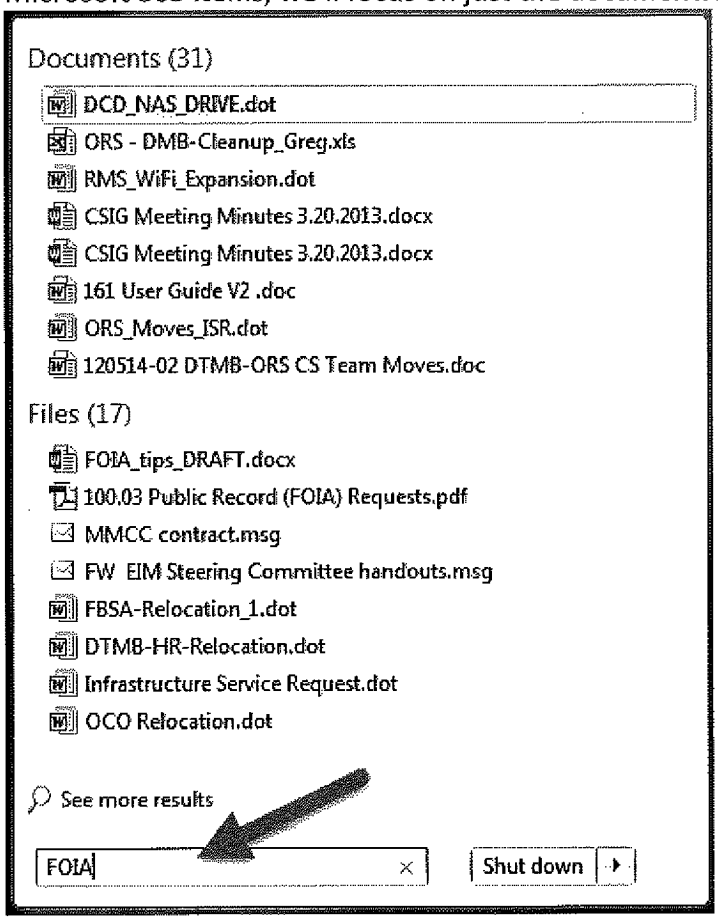
By (your name): _____

Date completed: _____



Please return this completed Checklist to DTMB Director's Office staff by February 22, 2016, at DTMB@michigan.gov, or
Directors Office, Cass Building, Second Floor

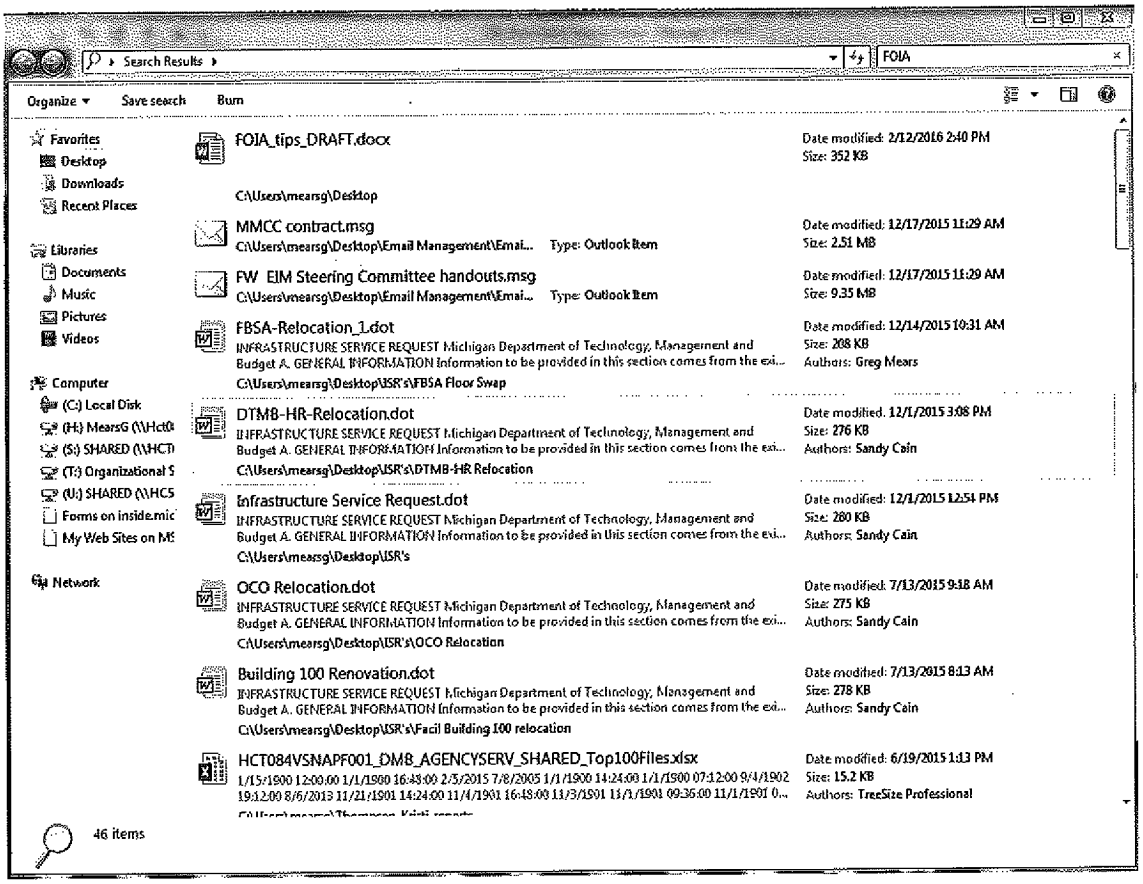
APPENDIX 1 – Search Guidance



Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it



This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.

You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

David,

You should be getting a call from Marla Moss from the Department of Education. It is a State requirement that public schools offer potable water to kids on the school lunch program, so the Flint school system could potentially be ordering a lot of water.

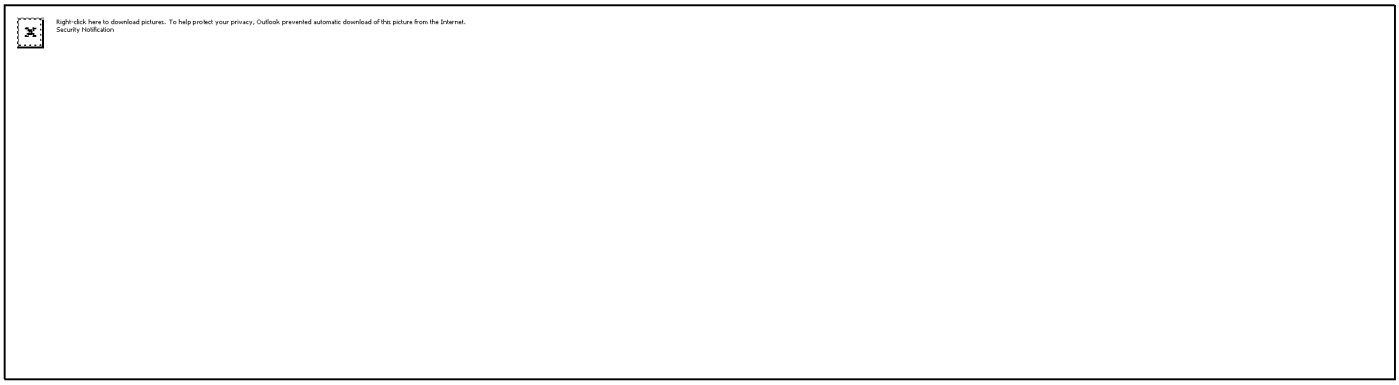
Hi Steve,

A truck load of bottled water consists of 1,596 packs of 24 bottles. We are able to offer you a lower price of $2.48 per pack. We can have that truck as early as tomorrow.



Thanks,

Sorry for the delayed reply! I m in meetings a lot of the day, so you are always welcome to use my cell 517-930-4015, or directly contact the buyer.

For your 9 am call, please share that Procurement is actively compiling information, and has a few questions in italics.

Will the State be seeking FEMA reimbursement for any of these purchases? If so, is there one person that can work with Steve to ensure that our sourcing process complies with FEMA Guidelines for reimbursement?

WATER FILTERS AND REPLACEMENT CARTRIDGES

- Wednesday morning Steve will contact Home Depot to get price/availability/lead time for current inventory
- Who will develop usage estimates and share them with us? Last time Home Depot s executive leadership contacted the manufacturer on our behalf to route limited stock to Michigan to fill our purchase order. Stocks were limited due to flood conditions in other states and currently there may be similar or worse national flood conditions.

WATER PITCHER FILTRATION AND REPLACEMENT CARTRIDGES

· In the previous distribution, Home Depot sourced water pitcher filters and replacement cartridges in limited applications where the faucet filter was not feasible. Steve will pull price/availability/lead time for current inventory
· Who will develop usage estimates and share them with us?

BOTTLED WATER
· There may be more contracts to pull from than we first thought. Wednesday morning Steve and I will make a list of contracts that may be able to source bottled water, including sizes and then Steve will work with the vendors to assess price/availability/lead time.
· Are they looking for cases of individual servings of bottled water, or larger commercial size bottles?
· Any feedback on the applications, number of ship to s, and usage estimates?

Steve will expedite updates to you as information becomes available.

Comments / concerns on the above?
Please let us know how else we may be of help.
Rebecca

Subject: RE: Possible declared emergency for City of Flint

Hi Rebecca

I left a voicemail message for you earlier in regards to contracts (thought we would have a couple days), but I just received notification tonight that the SEOC will be activated tomorrow morning at 8 AM with a briefing to be conducted at 9 AM. I will put together a list of water contracts currently in place and may need to contact you for potential items we may need to procure. Not sure at this time what may be requested.

You mentioned that your group was involved in obtaining water filters. We may be needed to acquire replacement filters and I was wondering how soon / where we could get these delivered? Would the vendor ship them to wherever we requested i.e. multiple addresses or would one site be best?

Thanks for your help!

Jeanette

Jeannette

Are you in the loop on this yet? Anything you need from us?

FYI, my team worked with DHHS to source all of the water filters and replacement cartridges the State distributed in Flint. We also obtained some donations of bottled water and could assess what contracts may be available for purchases of bottled water. Please let us know if you would like us to have that prepped for you, or what else you might need. The buyer is copied in case you need something asap and I m in a meeting.

Snyder Gathering Info On Declaring Emergency In Flint Gov. Rick SNYDER's administration is gathering the information about the resources needed to declare a state of emergency in Flint from the lead-in-the-water crisis.

The Governor's office confirmed this after the Genesee County Board of Commissioners voted to declare a state of emergency in Flint today.

Snyder spokesperson Dave MURRAY said after the vote today, the Michigan State Police's Emergency Management and Homeland Security Division is working with Genesee County on the next steps.

But prior to a formal declaration, we are recognizing this as an emergency and are working with city and county leaders to coordinate efforts, streamline communication and tap all available resources at the state's control, Murray said.

Senate Minority Leader Jim ANANICH (D-Flint) issued a statement today, saying, "This is an important step in the process and the Governor should make a swift decision. I'll continue pushing hard to make sure we receive additional resources that address immediate and long-term needs, and that they are used efficiently and effectively."

A Governor's declaration of emergency would trigger more state resources and assistance with the crisis, and locals can request this if the recovery efforts are beyond the ability of the local government.

David,

After talking to someone who was in the meeting this morning, it doesn't sound like they are going to flood the market. Sounds like they are going to continue to go with the two distribution points. That is all I have at this time, so until I hear anything further we'll just stand by. It sounds like the Mayor of Flint is coming to Lansing tomorrow, so they need to have a plan of action by tomorrow.

Good afternoon buddy,

I have checked our inventories of our manufacturers, I have listed them below:

Brita Faucet mounted filter: 2,000 on hand

Brita replacement filter 2 pack – 8,000 on hand.

We need to take a look at these pretty quick if your goal is to flood the market!

Thanks,

1. How long will we be handing out water, filters, and replacement cartridges?
2. How are we keeping track of who is picking these items up?
3. How are we handling schools, hospitals, etc? Cooking water?
4. How about handing out gallon jugs and having refilling stations? Large tanker trucks/water buffalos?
5. How and when will we be procuring supplies and materials for larger projects? Labor? Will need lead time on this as well.
6. Central person for ordering water, filters, replacement cartridges? Currently DHHS for filters and DTMB for water?
7. Why are we looking into purchasing water directly from water manufacturers?
8. When requesting items from Home Depot/Grainger we really need to be specific on the item, quantity, and delivery time.
9. Must get a lead time for procuring large quantities before making promises to deliver.
10. Do people in Flint know that boiling water does not reduce the amount of lead?
11. Grainger confirmed that Home Depot is going after the same inventory.
12. Have we asked Wal-Mart, Cosco, Sam's Club, Meijer, Lowe's, Menards, Amazon to deplete their store and regional warehouse inventory?
13. What should I bring the Home Depot credit limit up to?
14. Currently $6,000,000 available on the Home Depot contract and $10,000,000 on Grainger.
15. Home Depot has the ability to bring in experts.
16. Home Depot is currently working on manufacturers' production schedule.
17. In-Home large scale systems and school/hospital large scale systems
18. Home Depot numbers:
    a. 2,000 – Brita filter faucet mounts – $17.47 each
    b. 2,400 – Brita filter replacements (1 pack) - $15.97
    c. 8,000 – Brita filter replacements (2 pack) - $24.87
    d. Tuesday's Order Total - $272,228

Wednesday delivery:

Faucet Mounts
10,000 – PUR Vertical faucet mount - $29.97
2,500 – PUR Vertical faucet mount - $29.97

Replacement Filters
10,000 – PUR replacement filters (3 pack) - $25.98
10,000 – PUR replacement filters (1 pack) - $16.97

PUR Combination Pack
10,700 – PUR combo packs - $35.00

Zero Water Pitcher (8 Cup)
1,300 – Zero Water pitchers - $29.99

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Subject: Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Flint FSD says they need water to cook with not water bottles. So, how much would the 5 gallon jugs cost on the Absopure contract? Thanks.

I talked to him a little over a week ago and they said that a case of water would cost $4. This contract is currently set up for DEQ only, but maybe you could work out a fund transfer with them. However, if you are collecting money you could probably just write them a check and reference the contract number. Hope this helps.

Hi Steve,

We are committed to assisting you in this time of need for the residents of Flint. We were able to secure this product and bring in next day with a dedicated PO from the State. Unfortunately, this type of situation would not be feasible for us to drive the voucher program with any type of effectiveness.

We have assured an available line to process a PO and will expedite product into the effected area. We are dedicated to streamlining this process for you.

Thank you,

Good afternoon Steve,

The Brita faucet mounted filter would be $17.47 each. We have 35,000 available immediately. Our delivery time would be 1-2 days, but depending on when we process, may be able to get next day for you.

We also offer replacement filters, which are sold in a 2 pack and those would be $24.87.

Please let me know how we can help!

Yes, they are looking for faucet mounted filters. How quickly could the 10,000 be shipped and how long to get the other 15,000? Can you send me the specs/item code so that I know what you are talking about? Also, what would be the quoted price on the quantity of these filters? Thanks.

Hello Steve
Thanks for your time this morning. we are looking forward to the meeting next week. I called a few folks from the team to see if they heard about the water filter request. Tom spoke with Rebecca last night and she was going to send him an email of the specs needed for the filters. He didn't receive the email yet. Can you send us the information so we can work on this for you? Let me know if you need anything else. Thanks!

Subject: Official press release for Brita

Official Clorox statement below.

I cannot imagine why anyone from our Company would have told anyone anything different but we are investigating that now.

Regards,
Lou

> We can confirm that all Brita faucet filters, including the faucet filters distributed this week by state and local organizations, are certified by NSF International to remove 99.3 percent of lead from tap water that has a lead concentration of 150 parts per billion – far higher than what has been reported in Flint. There has been no change in certification status with our faucet filters and there is no possible issue with outdated packaging. Simply put: Any Brita faucet filter, including the systems distributed this week in Flint, are certified to reduce lead.

Jeanette,

According to David from Home Depot, they can get water by the truckload and on an ongoing basis. 1,596 cases (38,304 bottles) per truck at $3.47 per case ($5,538.12 per truck).

We'll just need to let him know when and where to deliver. Let me know. Thanks.

Ok buddy,

There are 1,596 cases of water per truckload. Each case has a cost of $3.47. We can set up ongoing deliveries at your requested intervals. If you would like per day or per week or twice a week. This would be your choice. Please let me know what you require.

Subject: FW: increase of dynamic credit line

Good Afternoon Cari-
I just got off the phone with the Regional Pro Manager (LB Willis).
He is trying to assist the state with expediting their pay on the $10mm in outstanding invoices.
Is it possible to get a copy of the invoices from last week emailed to me?

From: Whitten, Mark [GCB-RS]

To: Leavitt, Cari [GCB-OT]
Cc: Turner, Charles C [GCB-OT]; Russell, Christopher B [GCB-RS]
Subject: FW: increase of dynamic credit line

Cari-
Hope all is well.
The State of Michigan has been making some significant purchases over the past week.
Is it possible to expedite the invoicing?
Do you have a point of contact?

As you can see from below, the request is being made from the PAR to generate the invoices so the State can start the pay process.
It appears the state has been notified of the quick invoicing.

Subject: Re: increase of dynamic credit line

So in the pipeline right now, I have another 2,000,000, this number consistently increases as demand increases. We have asked the State to quick pay invoices. Unfortunately, in the world of the State, quick pay can mean 2 weeks or so. That being said, we need Citi's help for not only credit line, but to generate invoices immediately for the State to pay.

Thanks,

David Khanuja

Michael,

I am working on this request. I just got off the phone with the procurement buyer for the State of Michigan. He told me he could not tell me what type of credit line they are looking for until he gets the quotes from the PAR David Khanuja. I am trying to reach David to see if he can tell me how much they quotes are for. I will keep everyone posted.

Thanks,

Debra Young

To: 'Highline'
Subject: FW: increase of dynamic credit line

Good Afternoon,
I am attaching a request for a significant increase for the State of Michigan. [redacted] Tech and Budgeting has an emergency situation with the city of Flint, MI.
The water system is contaminated with lead. The City has an immediate need for screw on filters and replacement filters.
The order they want to place on Monday (tomorrow)will be close to $1 million dollars.

I believe the current credit line is approximately $900m. They are looking to double their line.

Requesting the increase is Steve Rigg - buyer for commodities (see email string)

Jeff,

Please see the attached invoices for the State of Michigan's Home Depot account. We have separated the files by sale, each sale includes multiple invoices as our system does allow us to run payments over $90,000. This is not all of the invoices, we are still putting some additional files together and will send them over as soon as they are available.

Please let us know when you have the State PO finalized for our records.

Please process payment through EFT.

Your Citibank Account Manager with access to EFT is:

ACCT MANAGER NAME -> CARI LEAVITT EXT 5222723
PHONE NUMBER ------> (800)494-1946
E-MAIL ADDRESS ----> LEAVITTC@HOMEDEPOTCREDITSERVICES.COM
FAX NUMBER --------> (877)969-6282

Please let me know if you need additional information in order to get payment processed.

Thank you, we appreciate your business!

Lorel E. Woodard

Other Account and Payment Information

WHEN YOUR PAYMENT WILL BE CREDITED: For payments by regular mail, please allow 5-7 days for your payment to reach us. Payment must be received in proper form at our processing facility by 5 p.m. local time there to be credited as of that day. All payments received at the processing facility in proper form after that hour will be credited as of the following day. There may be a delay of up to 5 days in crediting a payment sent by mail if it is not in the proper form or is addressed to a location other than the address listed on the return envelope or on the front of the payment coupon, or, for courier or express mail payments, to the Express Mail address set forth in the Express Mail section.

PROPER FORM for payments sent by mail or courier.

For a payment to be in proper form, you should:

- **ENCLOSE** your check or money order. No cash, gift cards, or foreign currency please.
- **INCLUDE** the last four digits of your account number and name.

COPY FEE. We charge $5 for each copy of a billing statement that dates back 3 months or more. We add the fee to a balance of our choosing. We reserve the right to add this fee to balances subject to a higher annual percentage rate. We waive the fee if your request for the copy relates to a billing error or disputed purchase.

PAYMENT OTHER THAN BY MAIL:

- **Online Payments.** Go to the URL on Page 1 of your statement to make a payment. For security reasons, you may not be able to pay your entire New Balance the first time you make a payment online. The payment cutoff time for Online Bill Payments is 5 p.m. Eastern time. Payments received after 5 p.m. Eastern time will be credited as of the next day.
- **Phone.** Call the phone number on Page 1 of your statement to make a payment. We may process your payment electronically after we verify your identity. You will be charged $14.95 to use this service. The payment cutoff time for Phone Payments is 5 p.m. Eastern time. Payments received after 5 p.m. Eastern time will be credited as of the next day.
- **Express Payments.** Send payment by courier or express mail to: Citibank/Home Depot Credit Services, 1500 Boltonfield Street, Columbus, OH 43228. Payment must be received in proper form, at the proper address, by 5 p.m. Eastern time in order to be credited as of that day. All payments received in proper form, at the proper address, after 5 p.m. Eastern time will be credited as of the next day.
- **In-Store Payments.** For your added convenience, payments can be made at The Home Depot® stores, with no service fee. Any payment in proper form accepted in-store will be credited as of that day. However, credit availability may be subject to verification of funds.

If you send an eligible check with this payment coupon you authorize us to complete your payment by electronic debit. If we do the checking account will be debited in the amount on the check. We may do this as soon as the day we receive the check. Also the check will be destroyed.

REPORT A LOST, STOLEN OR NEVER RECEIVED CARD IMMEDIATELY: Customer Service is available 24 hours a day, 7 days a week.

Payment must be received in proper form at our processing facility by 5 p.m. local time there to be credited as of that day. All payments received at the processing facility in proper form after that hour will be credited as of the following day. There may be a delay of up to 5 days in crediting a payment sent by mail if it is not in the proper form or is addressed to a location other than the address listed on the return envelope or on the front of the payment coupon, or, for courier or express mail payments, to the Express Mail address set forth in the Express Mail section.

PROPER FORM for payments sent by mail or courier.

For a payment to be in proper form, you should:

- **ENCLOSE** your check or money order. No cash, gift cards, or foreign currency please.
- **INCLUDE** the last four digits of your account number and name.

COPY FEE. We charge $5 for each copy of a billing statement that dates back 3 months or more. We add the fee to a balance of our choosing. We reserve the right to add this fee to balances subject to a higher annual percentage rate. We waive the fee if your request for the copy relates to a billing error or disputed purchase.

PAYMENT OTHER THAN BY MAIL:

- **Online Payments.** Go to the URL on Page 1 of your statement to make a payment. For security reasons, you may not be able to pay your entire New Balance the first time you make a payment online. The payment cutoff time for Online Bill Payments is 5 p.m. Eastern time. Payments received after 5 p.m. Eastern time will be credited as of the next day.
- **Phone.** Call the phone number on Page 1 of your statement to make a payment. We may process your payment electronically after we verify your identity. You will be charged $14.95 to use this service. The payment cutoff time for Phone Payments is 5 p.m. Eastern time. Payments received after 5 p.m. Eastern time will be credited as of the next day.
- **Express Payments.** Send payment by courier or express mail to: Citibank/Home Depot Credit Services, 1500 Boltonfield Street, Columbus, OH 43228. Payment must be received in proper form, at the proper address, by 5 p.m. Eastern time in order to be credited as of that day. All payments received in proper form, at the proper address, after 5 p.m. Eastern time will be credited as of the next day.
- **In-Store Payments.** For your added convenience, payments can be made at The Home Depot® stores, with no service fee. Any payment in proper form accepted in-store will be credited as of that day. However, credit availability may be subject to verification of funds.

If you send an eligible check with this payment coupon you authorize us to complete your payment by electronic debit. If we do the checking account will be debited in the amount on the check. We may do this as soon as the day we receive the check. Also the check will be destroyed.

REPORT A LOST, STOLEN OR NEVER RECEIVED CARD IMMEDIATELY: Customer Service is available 24 hours a day, 7 days a week.

Other Account and Payment Information

WHEN YOUR PAYMENT WILL BE CREDITED: For payments by regular mail, please allow 5-7 days for your payment to reach us. Payment must be received in proper form at our processing facility by 5 p.m. local time there to be credited as of that day. All payments received at the processing facility in proper form after that hour will be credited as of the following day. There may be a delay of up to 5 days in crediting a payment sent by mail if it is not in the proper form or is addressed to a location other than the address listed on the return envelope or on the front of the payment coupon, or, for courier or express mail payments, to the Express Mail address set forth in the Express Mail section.

PROPER FORM for payments sent by mail or courier.

For a payment to be in proper form, you should:

- **ENCLOSE** your check or money order. No cash, gift cards, or foreign currency please.
- **INCLUDE** the last four digits of your account number and name.

COPY FEE. We charge $5 for each copy of a billing statement that dates back 3 months or more. We add the fee to a balance of our choosing. We reserve the right to add this fee to balances subject to a higher annual percentage rate. We waive the fee if your request for the copy relates to a billing error or disputed purchase.

PAYMENT OTHER THAN BY MAIL:

- **Online Payments.** Go to the URL on Page 1 of your statement to make a payment. For security reasons, you may not be able to pay your entire New Balance the first time you make a payment online. The payment cutoff time for Online Bill Payments is 5 p.m. Eastern time. Payments received after 5 p.m. Eastern time will be credited as of the next day.
- **Phone.** Call the phone number on Page 1 of your statement to make a payment. We may process your payment electronically after we verify your identity. You will be charged $14.95 to use this service. The payment cutoff time for Phone Payments is 5 p.m. Eastern time. Payments received after 5 p.m. Eastern time will be credited as of the next day.
- **Express Payments.** Send payment by courier or express mail to: Citibank/Home Depot Credit Services, 1500 Boltonfield Street, Columbus, OH 43228. Payment must be received in proper form, at the proper address, by 5 p.m. Eastern time in order to be credited as of that day. All payments received in proper form, at the proper address, after 5 p.m. Eastern time will be credited as of the next day.
- **In-Store Payments.** For your added convenience, payments can be made at The Home Depot® stores, with no service fee. Any payment in proper form accepted in-store will be credited as of that day. However, credit availability may be subject to verification of funds.

If you send an eligible check with this payment coupon you authorize us to complete your payment by electronic debit. If we do the checking account will be debited in the amount on the check. We may do this as soon as the day we receive the check. Also the check will be destroyed.

REPORT A LOST, STOLEN OR NEVER RECEIVED CARD IMMEDIATELY: Customer Service is available 24 hours a day, 7 days a week.

Other Account and Payment Information

WHEN YOUR PAYMENT WILL BE CREDITED: For payments by regular mail, please allow 5-7 days for your payment to reach us. Payment must be received in proper form at our processing facility by 5 p.m. local time there to be credited as of that day. All payments received at the processing facility in proper form after that hour will be credited as of the following day. There may be a delay of up to 5 days in crediting a payment sent by mail if it is not in the proper form or is addressed to a location other than the address listed on the return envelope or on the front of the payment coupon, or, for courier or express mail payments, to the Express Mail address set forth in the Express Mail section.

PROPER FORM for payments sent by mail or courier.

For a payment to be in proper form, you should:

- **ENCLOSE** your check or money order. No cash, gift cards, or foreign currency please.
- **INCLUDE** the last four digits of your account number and name.

COPY FEE. We charge $5 for each copy of a billing statement that dates back 3 months or more. We add the fee to a balance of our choosing. We reserve the right to add this fee to balances subject to a higher annual percentage rate. We waive the fee if your request for the copy relates to a billing error or disputed purchase.

PAYMENT OTHER THAN BY MAIL:

- **Online Payments.** Go to the URL on Page 1 of your statement to make a payment. For security reasons, you may not be able to pay your entire New Balance the first time you make a payment online. The payment cutoff time for Online Bill Payments is 5 p.m. Eastern time. Payments received after 5 p.m. Eastern time will be credited as of the next day.
- **Phone.** Call the phone number on Page 1 of your statement to make a payment. We may process your payment electronically after we verify your identity. You will be charged $14.95 to use this service. The payment cutoff time for Phone Payments is 5 p.m. Eastern time. Payments received after 5 p.m. Eastern time will be credited as of the next day.
- **Express Payments.** Send payment by courier or express mail to: Citibank/Home Depot Credit Services, 1500 Boltonfield Street, Columbus, OH 43228. Payment must be received in proper form, at the proper address, by 5 p.m. Eastern time in order to be credited as of that day. All payments received in proper form, at the proper address, after 5 p.m. Eastern time will be credited as of the next day.
- **In-Store Payments.** For your added convenience, payments can be made at The Home Depot® stores, with no service fee. Any payment in proper form accepted in-store will be credited as of that day. However, credit availability may be subject to verification of funds.

If you send an eligible check with this payment coupon you authorize us to complete your payment by electronic debit. If we do the checking account will be debited in the amount on the check. We may do this as soon as the day we receive the check. Also the check will be destroyed.

Other Account and Payment Information

WHEN YOUR PAYMENT WILL BE CREDITED: For payments by regular mail, please allow 5-7 days for your payment to reach us. Payment must be received in proper form at our processing facility by 5 p.m. local time there to be credited as of that day. All payments received at the processing facility in proper form after that hour will be credited as of the following day. There may be a delay of up to 5 days in crediting a payment sent by mail if it is not in the proper form or is addressed to a location other than the address listed on the return envelope or on the front of the payment coupon, or, for courier or express mail payments, to the Express Mail address set forth in the Express Mail section.

PROPER FORM for payments sent by mail or courier.

For a payment to be in proper form, you should:

- **ENCLOSE** your check or money order. No cash, gift cards, or foreign currency please.
- **INCLUDE** the last four digits of your account number and name.

COPY FEE. We charge $5 for each copy of a billing statement that dates back 3 months or more. We add the fee to a balance of our choosing. We reserve the right to add this fee to balances subject to a higher annual percentage rate. We waive the fee if your request for the copy relates to a billing error or disputed purchase.

PAYMENT OTHER THAN BY MAIL:

- **Online Payments.** Go to the URL on Page 1 of your statement to make a payment. For security reasons, you may not be able to pay your entire New Balance the first time you make a payment online. The payment cutoff time for Online Bill Payments is 5 p.m. Eastern time. Payments received after 5 p.m. Eastern time will be credited as of the next day.
- **Phone.** Call the phone number on Page 1 of your statement to make a payment. We may process your payment electronically after we verify your identity. You will be charged $14.95 to use this service. The payment cutoff time for Phone Payments is 5 p.m. Eastern time. Payments received after 5 p.m. Eastern time will be credited as of the next day.
- **Express Payments.** Send payment by courier or express mail to: Citibank/Home Depot Credit Services, 1500 Boltonfield Street, Columbus, OH 43228. Payment must be received in proper form, at the proper address, by 5 p.m. Eastern time in order to be credited as of that day. All payments received in proper form, at the proper address, after 5 p.m. Eastern time will be credited as of the next day.
- **In-Store Payments.** For your added convenience, payments can be made at The Home Depot® stores, with no service fee. Any payment in proper form accepted in-store will be credited as of that day. However, credit availability may be subject to verification of funds.

If you send an eligible check with this payment coupon you authorize us to complete your payment by electronic debit. If we do the checking account will be debited in the amount on the check. We may do this as soon as the day we receive the check. Also the check will be destroyed.

REPORT A LOST, STOLEN OR NEVER RECEIVED CARD IMMEDIATELY: Customer Service is available 24 hours a day, 7 days a week.

Other Account and Payment Information

WHEN YOUR PAYMENT WILL BE CREDITED: For payments by regular mail, please allow 5-7 days for your payment to reach us. Payment must be received in proper form at our processing facility by 5 p.m. local time there to be credited as of that day. All payments received at the processing facility in proper form after that hour will be credited as of the following day. There may be a delay of up to 5 days in crediting a payment sent by mail if it is not in the proper form or is addressed to a location other than the address listed on the return envelope or on the front of the payment coupon, or, for courier or express mail payments, to the Express Mail address set forth in the Express Mail section.

PROPER FORM for payments sent by mail or courier.

For a payment to be in proper form, you should:

- **ENCLOSE** your check or money order. No cash, gift cards, or foreign currency please.
- **INCLUDE** the last four digits of your account number and name.

COPY FEE. We charge $5 for each copy of a billing statement that dates back 3 months or more. We add the fee to a balance of our choosing. We reserve the right to add this fee to balances subject to a higher annual percentage rate. We waive the fee if your request for the copy relates to a billing error or disputed purchase.

PAYMENT OTHER THAN BY MAIL:

- **Online Payments.** Go to the URL on Page 1 of your statement to make a payment. For security reasons, you may not be able to pay your entire New Balance the first time you make a payment online. The payment cutoff time for Online Bill Payments is 5 p.m. Eastern time. Payments received after 5 p.m. Eastern time will be credited as of the next day.
- **Phone.** Call the phone number on Page 1 of your statement to make a payment. We may process your payment electronically after we verify your identity. You will be charged $14.95 to use this service. The payment cutoff time for Phone Payments is 5 p.m. Eastern time. Payments received after 5 p.m. Eastern time will be credited as of the next day.
- **Express Payments.** Send payment by courier or express mail to: Citibank/Home Depot Credit Services, 1500 Boltonfield Street, Columbus, OH 43228. Payment must be received in proper form, at the proper address, by 5 p.m. Eastern time in order to be credited as of that day. All payments received in proper form, at the proper address, after 5 p.m. Eastern time will be credited as of the next day.
- **In-Store Payments.** For your added convenience, payments can be made at The Home Depot® stores, with no service fee. Any payment in proper form accepted in-store will be credited as of that day. However, credit availability may be subject to verification of funds.

If you send an eligible check with this payment coupon you authorize us to complete your payment by electronic debit. If we do the checking account will be debited in the amount on the check. We may do this as soon as the day we receive the check. Also the check will be destroyed.

REPORT A LOST, STOLEN OR NEVER RECEIVED CARD IMMEDIATELY: Customer Service is available 24 hours a day, 7 days a week.

Other Account and Payment Information

WHEN YOUR PAYMENT WILL BE CREDITED: For payments by regular mail, please allow 5-7 days for your payment to reach us. Payment must be received in proper form at our processing facility by 5 p.m. local time there to be credited as of that day. All payments received at the processing facility in proper form after that hour will be credited as of the following day. There may be a delay of up to 5 days in crediting a payment sent by mail if it is not in the proper form or is addressed to a location other than the address listed on the return envelope or on the front of the payment coupon, or, for courier or express mail payments, to the Express Mail address set forth in the Express Mail section.

PROPER FORM for payments sent by mail or courier.

For a payment to be in proper form, you should:

- **ENCLOSE** your check or money order. No cash, gift cards, or foreign currency please.
- **INCLUDE** the last four digits of your account number and name.

COPY FEE. We charge $5 for each copy of a billing statement that dates back 3 months or more. We add the fee to a balance of our choosing. We reserve the right to add this fee to balances subject to a higher annual percentage rate. We waive the fee if your request for the copy relates to a billing error or disputed purchase.

PAYMENT OTHER THAN BY MAIL:

- **Online Payments.** Go to the URL on Page 1 of your statement to make a payment. For security reasons, you may not be able to pay your entire New Balance the first time you make a payment online. The payment cutoff time for Online Bill Payments is 5 p.m. Eastern time. Payments received after 5 p.m. Eastern time will be credited as of the next day.
- **Phone.** Call the phone number on Page 1 of your statement to make a payment. We may process your payment electronically after we verify your identity. You will be charged $14.95 to use this service. The payment cutoff time for Phone Payments is 5 p.m. Eastern time. Payments received after 5 p.m. Eastern time will be credited as of the next day.
- **Express Payments.** Send payment by courier or express mail to: Citibank/Home Depot Credit Services, 1500 Boltonfield Street, Columbus, OH 43228. Payment must be received in proper form, at the proper address, by 5 p.m. Eastern time in order to be credited as of that day. All payments received in proper form, at the proper address, after 5 p.m. Eastern time will be credited as of the next day.
- **In-Store Payments.** For your added convenience, payments can be made at The Home Depot® stores, with no service fee. Any payment in proper form accepted in-store will be credited as of that day. However, credit availability may be subject to verification of funds.

If you send an eligible check with this payment coupon you authorize us to complete your payment by electronic debit. If we do the checking account will be debited in the amount on the check. We may do this as soon as the day we receive the check. Also the check will be destroyed.

Other Account and Payment Information

WHEN YOUR PAYMENT WILL BE CREDITED: For payments by regular mail, please allow 5-7 days for your payment to reach us. Payment must be received in proper form at our processing facility by 5 p.m. local time there to be credited as of that day. All payments received at the processing facility in proper form after that hour will be credited as of the following day. There may be a delay of up to 5 days in crediting a payment sent by mail if it is not in the proper form or is addressed to a location other than the address listed on the return envelope or on the front of the payment coupon, or, for courier or express mail payments, to the Express Mail address set forth in the Express Mail section.

PROPER FORM for payments sent by mail or courier.

For a payment to be in proper form, you should:

- **ENCLOSE** your check or money order. No cash, gift cards, or foreign currency please.
- **INCLUDE** the last four digits of your account number and name.

COPY FEE. We charge $5 for each copy of a billing statement that dates back 3 months or more. We add the fee to a balance of our choosing. We reserve the right to add this fee to balances subject to a higher annual percentage rate. We waive the fee if your request for the copy relates to a billing error or disputed purchase.

PAYMENT OTHER THAN BY MAIL:

- **Online Payments.** Go to the URL on Page 1 of your statement to make a payment. For security reasons, you may not be able to pay your entire New Balance the first time you make a payment online. The payment cutoff time for Online Bill Payments is 5 p.m. Eastern time. Payments received after 5 p.m. Eastern time will be credited as of the next day.
- **Phone.** Call the phone number on Page 1 of your statement to make a payment. We may process your payment electronically after we verify your identity. You will be charged $14.95 to use this service. The payment cutoff time for Phone Payments is 5 p.m. Eastern time. Payments received after 5 p.m. Eastern time will be credited as of the next day.
- **Express Payments.** Send payment by courier or express mail to: Citibank/Home Depot Credit Services, 1500 Boltonfield Street, Columbus, OH 43228. Payment must be received in proper form, at the proper address, by 5 p.m. Eastern time in order to be credited as of that day. All payments received in proper form, at the proper address, after 5 p.m. Eastern time will be credited as of the next day.
- **In-Store Payments.** For your added convenience, payments can be made at The Home Depot® stores, with no service fee. Any payment in proper form accepted in-store will be credited as of that day. However, credit availability may be subject to verification of funds.

If you send an eligible check with this payment coupon you authorize us to complete your payment by electronic debit. If we do the checking account will be debited in the amount on the check. We may do this as soon as the day we receive the check. Also the check will be destroyed.

REPORT A LOST, STOLEN OR NEVER RECEIVED CARD IMMEDIATELY: Customer Service is available 24 hours a day, 7 days a week.

Payment must be received in proper form at our processing facility by 5 p.m. local time there to be credited as of that day. All payments received at the processing facility in proper form after that hour will be credited as of the following day. There may be a delay of up to 5 days in crediting a payment sent by mail if it is not in the proper form or is addressed to a location other than the address listed on the return envelope or on the front of the payment coupon, or, for courier or express mail payments, to the Express Mail address set forth in the Express Mail section.

PROPER FORM for payments sent by mail or courier.

For a payment to be in proper form, you should:

- **ENCLOSE** your check or money order. No cash, gift cards, or foreign currency please.
- **INCLUDE** the last four digits of your account number and name.

COPY FEE. We charge $5 for each copy of a billing statement that dates back 3 months or more. We add the fee to a balance of our choosing. We reserve the right to add this fee to balances subject to a higher annual percentage rate. We waive the fee if your request for the copy relates to a billing error or disputed purchase.

PAYMENT OTHER THAN BY MAIL:

- **Online Payments.** Go to the URL on Page 1 of your statement to make a payment. For security reasons, you may not be able to pay your entire New Balance the first time you make a payment online. The payment cutoff time for Online Bill Payments is 5 p.m. Eastern time. Payments received after 5 p.m. Eastern time will be credited as of the next day.
- **Phone.** Call the phone number on Page 1 of your statement to make a payment. We may process your payment electronically after we verify your identity. You will be charged $14.95 to use this service. The payment cutoff time for Phone Payments is 5 p.m. Eastern time. Payments received after 5 p.m. Eastern time will be credited as of the next day.
- **Express Payments.** Send payment by courier or express mail to: Citibank/Home Depot Credit Services, 1500 Boltonfield Street, Columbus, OH 43228. Payment must be received in proper form, at the proper address, by 5 p.m. Eastern time in order to be credited as of that day. All payments received in proper form, at the proper address, after 5 p.m. Eastern time will be credited as of the next day.
- **In-Store Payments.** For your added convenience, payments can be made at The Home Depot® stores, with no service fee. Any payment in proper form accepted in-store will be credited as of that day. However, credit availability may be subject to verification of funds.

If you send an eligible check with this payment coupon you authorize us to complete your payment by electronic debit. If we do the checking account will be debited in the amount on the check. We may do this as soon as the day we receive the check. Also the check will be destroyed.

REPORT A LOST, STOLEN OR NEVER RECEIVED CARD IMMEDIATELY: Customer Service is available 24 hours a day, 7 days a week.

From: DAVID_KHANUJA@homedepot.com
Sent: Friday, February 05, 2016 12:03 PM
To: Rigg, Steve (DTMB);Thompson, Sheryl D. (DHHS);Sanford, Jeffery (DHHS)
Cc: Smith, Terri (DHHS);Frank, Jennifer C. (DHHS)
Subject: Updated Flint Master List
Attachments: SOM Water filter master inventory.xlsx

Good morning,

Attached is the updated spreadsheet of the products that were requested and delivered for the Flint water program. I have attached Sheryl Thompson from DHHS for approvals as well.

Please let me know if you have any questions.

Thank you,

David Khanuja

Attachments: SOM Water filter master inventory.xlsx

That's great, quick note, I have attached a new version, the last copy sent was missing 1 line item for bottled water.

I apologize for that confusion.

Thanks,

Subject: Flint Response -- The Home Depot

Good Morning Steve,

My name is Brian Gamberini and I am on the State Government Relations team at The Home Depot. I wanted to introduce myself to you and also thank you for allowing our associates to help respond to the water situation in Flint. After speaking with LB Willis and our District Manager last week, Don Mandeville, I have a much clearer picture of all the work THD has done with your team at the state level.

LB is a great member of our team and I wanted to just express our thanks to you that you believed we could help respond to this effort.

If there is anything we can do for you or your team moving forward, please don't hesitate to contact us. Thanks again.

Brian

> Now that option #2 is a go, here are the questions we need to have answered:
>
> 1. Will you be offering the under the counter filters that were offered from Grainger or just the Brita filters from Home Depot?

Latest: We will not be offering under the counter filters

> a. No pricing yet from Grainger on the under the counter filters until they know quantity. However, Brent did say that manufacture's inventory is low.
> b. Home Depot pricing was $17.47 each on the Brita faucet filter and $24.87 for a 2-pack replacement cartridge.
> c. Specs for Brita faucet filter is attached.
> d. Specs for the Pentair under the counter filters are attached.
> 2. What is the quantity of filters needed? If offering both faucet and under the counter, will need quantities of each

Since this is potentially a bigger non DHHS population, we don't have immediate access to census info. Wouldn't City of Flint have this?

Amy- Is there a DEQ contact over there to get Steve an estimate?

Steve- Can we start with a number like 20,000 and go from there? We need to start with a number until we get a better estimate and go from there.

> 3. Will you be offering cartridge replacements? If yes, how many?

I don't think anyone knows. We want to just start w the filters and worry about replacements a little later.

> 3. Who is going to be the main contact person that Home Depot and/or Grainger will be working with that will cut the PO and place the order?
> a. The main contact person for Home Depot is David Khanuja – cell number 248-826-8907
> b. The main contact person for Grainger is Brent Zinn – cell number 313-701-5454

Chris Sanches

4. What is the physical location that items will be delivered to?

It's the CAA in Genesee county. Elizabeth - Per your convos with the CAA does it go straight to their office? Also is there a contact person that can be reached?

If it goes to their office, their address is 601 North Saginaw Street, Suite 1B, Flint, 48502

Finally just to reinforce, we are still waiting on an answer / confirmation of the voucher option.

Thanks

It is my opinion that the best thing to do right now is identify the main contact person so that he/she can contact David from Home Depot and/or Brent from Grainger to get moving on orders.

Side Note: David from Home Depot is telling me that the United Way purchased 4,000 filters from Home Depot to be donated. I don't know any more detail than that.

Let me know what else you need from DTMB. Thanks.

Subject: RE: Flint Water Update
Importance: High

Update

DTMB and DHHS Purchasing

1. It is now a **GO** on item #2 below - To get filters to the Genesee County Community Action Organization for distribution.

2. Question: What questions do we all need to answer to get filters to the Genesee County Community Action Agency and develop our plan AND what is the timeline for when we believe this can happen?

Farah

Should the water filter specs be included in the voucher (NSF Certified, ANSI 53 compliant), to aid stores in providing compliant products?

I am adding everyone from DHHS, DTMB, and DEQ who I understand is helping out with the Flint Water issue to this email so we can all be on the same page. Please forward this email to anyone you believe needs to be in the loop so we can get all-hands-on-deck.

Here is the latest:

1. We will move forward with the vouchers to be distributed at local county offices for DHHS clients only. DHHS Purchasing is going to reach out to DTMB to help us make copies of water marked, colored and other authentic detailed documents to get out to local offices as soon as possible. We will figure out costs and DTMB charges to DHHS later.
    a. Latest change : From a budget/accounting perspective, we will not receive $1 million from DEQ for this purpose. The $1 million from DEQ will be for item #2. Instead, for this purpose, funding will come from a work project that our budget office will advance to SBO. Our budget office is working on that now.

2. There is now a new thing we will do to address the broader population - NON-DHHS or DHHS clients - per the DHHS and DEQ front

offices. DHHS will work with DTMB to get water filters to the Community Action Agency in Genesee county to distribute. This will be paid for with the $1 million DHHS will receive from DEQ.

This is the plan for now. Elizabeth -- Please confirm have this right.

Everyone is encouraged to ask questions. Sorry for including so many people but the left hand needs to know what the right hand is doing here.

Thanks

Steve,

Can you contact Grainger and/or Home Depot to see if there is a pitcher w/ filter option that meets the specs. National Sanitation Foundation (NSF) certified to remove lead and meet ANSI standard 53. I did a little research this weekend and couldn't find any specs for the pitcher w/ filter option.

Thanks much,

Chris

Mark,

Please make the following changes to the voucher:

Remove Meijer completely.

Add two more store addresses for Walmart:
6170 S. Saginaw Rd, Grand Blanc, MI 48439
11493 N. Linden Rd., Clio, MI 48420

There are two date fields. There is no need to have two. Remove the one under the client name line.

Add a statement: "Please present this voucher to the clerk upon checkout at the register."

Still waiting to hear if we are going to add additional products to the list

Sounds like we are good with initiative number 2 - filters will get delivered so we are good to go.

So far as the vouchers go - we need to remove reference to Meijer and only have the vouchers be good for Wal Mart. Chris - Can you do this so we can get vouchers printed and finalized Monday morning through DTMB?

Please let everyone know if there are any other details or issues we're missing. Sorry for all the emails but it was the only way we could think of to get everyone on the same page. Thanks for everyone's help.

Sent from my iPad

On Oct 3, 2015, at 7:57 PM, Cook, Rebecca (DTMB) <CookR6@michigan.gov> wrote:

Per Farah's phone conversation earlier today with Jeff Brownlee, the water pitcher option is not being pursued.

DHHS remains the lead on creating the voucher.

Home Depot will deliver 5000 filters around 8 am on Monday morning. Per DHHS' purchase order, they are the type that attach to the faucet. The PO is for a total of 20,000 of this type of filter. The under sink mount model was not ordered.

I spoke with Home Depot this afternoon and they will confirm price and lead time on the under sink mount model, in case DHHS would also like to issue a purchase order for this. I will pass along info to the group as it is received.

Please feel free to call with any questions.

All - Please read the following as some of these items and changes may reflect your work depending on what department you're in.

Here's the latest:

Re Item #1 - Vouchers to DHHS clients - We need the vouchers to please have noted on the voucher 3 options available to the client for Wal Mart to get to the local offices -

1. An over the counter on the faucet filter
2. A pitcher with a filter in it
3. An under the counter / sink filter.

Whomever is developing the voucher - would you please update it for these three items? So far as specs go, DHHS purchasing has been checking the website for which specs to use. When updating the voucher I assume it needs to have those specs?

Re Item #2 - Filters from the DTMB Vendor to the Community Action Agency in Genesee County - Same as above, we'll need to have three options available so there's consistency among the options.

We're asking DHHS and DTMB to please use this latest info - ask whatever questions we need answered - to make this happen. If it's too late to do all three filter options, we can amend purchase orders if necessary.

If anyone believes I've missed anything or stated anything incorrectly please feel free to chime in here.

On Oct 2, 2015, at 4:32 PM, Rigg, Steve (DTMB) <RiggS@michigan.gov> wrote:

Under the counter filters from Grainger are going to be priced around $150 each, their supplier stock is low at 860 units (3M Company out of Minnesota), and could be difficult for some to install.

The Home Depot faucet filters are much easier to install and priced at $17. 47 each with a 2-pack of replacement filters available for $24.87.

Home Depot will have 20,000 filters shipped to one of their local Flint stores on Saturday and can be delivered on Sunday to the GCCARD if someone is available, otherwise will be delivered on Monday. Dave from Home Depot has already been in contact with Matt Purcell from GCCARD.

Subject: Re: Flint Water Update

After further discussion with others, we believe we can start with 5,000 filters and go from there.

If we have to purchase more we'll do that.

Feel free to tell them 5,000. Thanks Kris.

On Oct 2, 2015, at 12:26 PM, Rigg, Steve (DTMB) <RiggS@michigan.gov> wrote:

All,

Now that option #2 is a go, here are the questions we need to have answered:

1. Will you be offering the under the counter filters that were offered from Grainger or just the Brita filters from Home Depot?

Latest: We will not be offering under the counter filters

a. No pricing yet from Grainger on the under the counter filters until they know quantity. However, Brent did say that manufacture's inventory is low.
b. Home Depot pricing was $17.47 each on the Brita faucet filter and $24.87 for a 2-pack replacement cartridge.
c. Specs for Brita faucet filter is attached.
d. Specs for the Pentair under the counter filters are attached.

2. What is the quantity of filters needed? If offering both faucet and under the counter, will need quantities of each

Since this is potentially a bigger non DHHS population, we don't have immediate access to census info. Wouldn't City of Flint have this?

Amy- Is there a DEQ contact over there to get Steve an estimate?

Steve- Can we start with a number like 20,000 and go from there? We need to start with a number until we get a better estimate and go from there.

3. Will you be offering cartridge replacements? If yes, how many?

I don't think anyone knows. We want to just start w the filters and worry about replacements a little later.

3. Who is going to be the main contact person that Home Depot and/or Grainger will be working with that will cut the PO and place the order?
   a. The main contact person for Home Depot is David Khanuja – cell number 248-826-8907
   b. The main contact person for Grainger is Brent Zinn – cell number 313-701-5454

Chris Sanches

4. What is the physical location that items will be delivered to?

It's the CAA in Genesee county. Elizabeth - Per your convos with the CAA does it go straight to their office? Also is there a contact person that can be reached?

If it goes to their office, their address is 601 North Saginaw Street, Suite 1B, Flint, 48502

Finally just to reinforce, we are still waiting on an answer / confirmation of the voucher option.

Thanks

It is my opinion that the best thing to do right now is identify the main contact person so that he/she can contact David from Home Depot and/or Brent from Grainger to get moving on orders.

Side Note: David from Home Depot is telling me that the United Way purchased 4,000 filters from Home Depot to be donated. I don't know any more detail than that.

Let me know what else you need from DTMB. Thanks.

I am adding everyone from DHHS, DTMB, and DEQ who I understand is helping out with the Flint Water issue to this email so we can all be on the same page. Please forward this email to anyone you believe needs to be in the loop so we can get all-hands-on-deck.

Here is the latest:

1. We will move forward with the vouchers to be distributed at local county offices for DHHS clients only. DHHS Purchasing is going to reach out to DTMB to help us make copies of water marked, colored and other authentic detailed documents to get out to local offices as soon as possible. We will figure out costs and DTMB charges to DHHS later.

a. Latest change : From a budget/accounting perspective, we will not receive $1 million from DEQ for this purpose. The $1 million from DEQ will be for item #2. Instead, for this purpose, funding will come from a work project that our budget office will advance to SBO. Our budget office is working on that now.

2. There is now a new thing we will do to address the broader population - NON-DHHS or DHHS clients - per the DHHS and DEQ front offices. DHHS will work with DTMB to get water filters to the Community Action Agency in Genesee county to distribute. This will be paid for with the $1 million DHHS will receive from DEQ.

This is the plan for now. Elizabeth -- Please confirm have this right.

Everyone is encouraged to ask questions. Sorry for including so many people but the left hand needs to know what the right hand is doing here.

Thanks

Per Farah's phone conversation earlier today with Jeff Brownlee, the water pitcher option is not being pursued.

DHHS remains the lead on creating the voucher.

Home Depot will deliver 5000 filters around 8 am on Monday morning. Per DHHS' purchase order, they are the type that attach to the faucet. The PO is for a total of 20,000 of this type of filter. The under sink mount model was not ordered.

I spoke with Home Depot this afternoon and they will confirm price and lead time on the under sink mount model, in case DHHS would also like to issue a purchase order for this. I will pass along info to the group as it is received.

Please feel free to call with any questions.

All - Please read the following as some of these items and changes may reflect your work depending on what department you're in.

Here's the latest:

Re Item #1 - Vouchers to DHHS clients - We need the vouchers to please have noted on the voucher 3 options available to the client for Wal Mart to get to the local offices -
1. An over the counter on the faucet filter
2. A pitcher with a filter in it

3. An under the counter / sink filter.

Whomever is developing the voucher - would you please update it for these three items? So far as specs go, DHHS purchasing has been checking the website for which specs to use. When updating the voucher I assume it needs to have those specs?

Re Item #2 - Filters from the DTMB Vendor to the Community Action Agency in Genesee County - Same as above, we'll need to have three options available so there's consistency among the options.

We're asking DHHS and DTMB to please use this latest info - ask whatever questions we need answered - to make this happen. If it's too late to do all three filter options, we can amend purchase orders if necessary.

If anyone believes I've missed anything or stated anything incorrectly please feel free to chime in here.

On Oct 2, 2015, at 4:32 PM, Rigg, Steve (DTMB) <RiggS@michigan.gov> wrote:

Under the counter filters from Grainger are going to be priced around $150 each, their supplier stock is low at 860 units (3M Company out of Minnesota), and could be difficult for some to install.

The Home Depot faucet filters are much easier to install and priced at $17. 47 each with a 2-pack of replacement filters available for $24.87.

Home Depot will have 20,000 filters shipped to one of their local Flint stores on Saturday and can be delivered on Sunday to the GCCARD if someone is available, otherwise will be delivered on Monday. Dave from Home Depot has already been in contact with Matt Purcell from GCCARD.

On Oct 2, 2015, at 12:26 PM, Rigg, Steve (DTMB) <RiggS@michigan.gov> wrote:

All,

Now that option #2 is a go, here are the questions we need to have answered:

1. Will you be offering the under the counter filters that were offered from Grainger or just the Brita filters from Home Depot?

Latest: We will not be offering under the counter filters

a. No pricing yet from Grainger on the under the counter filters until they know quantity. However, Brent did say that manufacture's inventory is low.
b. Home Depot pricing was $17.47 each on the Brita faucet filter and $24.87 for a 2-pack replacement cartridge.
c. Specs for Brita faucet filter is attached.
d. Specs for the Pentair under the counter filters are attached.

2. What is the quantity of filters needed? If offering both faucet and under the counter, will need quantities of each

Since this is potentially a bigger non DHHS population, we don't have immediate access to census info. Wouldn't City of Flint have this?

Amy- Is there a DEQ contact over there to get Steve an estimate?

Steve- Can we start with a number like 20,000 and go from there? We need to start with a number until we get a better estimate and go from there.

3. Will you be offering cartridge replacements? If yes, how many?

I don't think anyone knows. We want to just start w the filters and worry about replacements a little later.

3. Who is going to be the main contact person that Home Depot and/or Grainger will be working with that will cut the PO and place the order?
   a. The main contact person for Home Depot is David Khanuja – cell number 248-826-8907
   b. The main contact person for Grainger is Brent Zinn – cell number 313-701-5454

Chris Sanches

4. What is the physical location that items will be delivered to?

It's the CAA in Genesee county. Elizabeth - Per your convos with the CAA does it go straight to their office? Also is there a contact person that can be reached?

If it goes to their office, their address is 601 North Saginaw Street, Suite 1B, Flint, 48502

Finally just to reinforce, we are still waiting on an answer / confirmation of the voucher option.

Thanks

It is my opinion that the best thing to do right now is identify the main contact person so that he/she can contact David from Home Depot and/or Brent from Grainger to get moving on orders.

Side Note: David from Home Depot is telling me that the United Way purchased 4,000 filters from Home Depot to be donated. I don't know any more detail than that.

Let me know what else you need from DTMB. Thanks.

Yes! Sounds like Chris made this suggestion already to Tom and we're going to do that. Adding Tom to the conversation.

Tom / Chris or whomever is updating the voucher – Please send all what the latest looks like.

No vouchers will be printed yet until we get confirmation from the DHHS front office.

Farah

Should the water filter specs be included in the voucher (NSF Certified, ANSI 53 compliant), to aid stores in providing compliant products?

Rebecca

Subject: Flint Water Update
Importance: High

I am adding everyone from DHHS, DTMB, and DEQ who I understand is helping out with the Flint Water issue to this email so we can all be on the same page. Please forward this email to anyone you believe needs to be in the loop so we can get all-hands-on-deck.

Here is the latest:

1. We will move forward with the vouchers to be distributed at local county offices for DHHS clients only. DHHS Purchasing is going to reach out to DTMB to help us make copies of water marked, colored and other authentic detailed documents to get out to local offices as soon as possible. We will figure out costs and DTMB charges to DHHS later.
    a. Latest change : From a budget/accounting perspective, we will not receive $1 million from DEQ for this purpose. The $1 million from DEQ will be for item #2. Instead, for this purpose, funding will come from a work project that our budget office will advance to SBO. Our budget office is working on that now.

2. There is now a new thing we will do to address the broader population - NON-DHHS or DHHS clients - per the DHHS and DEQ front offices. DHHS will work with DTMB to get water filters to the Community Action Agency in Genesee county to distribute. This will be paid for with the $1 million DHHS will receive from DEQ.

This is the plan for now. Elizabeth – Please confirm have this right.

Everyone is encouraged to ask questions. Sorry for including so many people but the left hand needs to know what the right hand is doing here.

Thanks

Confirmation from Home Depot is Brita Model #SAFF-100 for the faucet filter and the pitcher they are supplying is the ZeroWater ZD-013D (8-cup). Both units are certified for lead reduction.

The filter capacity of the Brita is 100 gallons and the filter capacity of the ZeroWater water pitcher is only 15 gallons before needing replacement.

Attached are the specs for the Brita filter and the link below shows the claim for lead reduction for the ZeroWater pitcher.

Subject: RE: URGENT water pitchers

Confirmation from Home Depot is Brita Model #SAFF-100 for the faucet filter and the pitcher they are supplying is the ZeroWater ZD-013D (8-cup). Both units are certified for lead reduction.

The filter capacity of the Brita is 100 gallons and the filter capacity of the ZeroWater water pitcher is only 15 gallons before needing replacement.

Attached are the specs for the Brita filter and the link below shows the claim for lead reduction for the ZeroWater pitcher.

Farah--we need to know what model was of the 750 water pitchers that you said were purchased to ensure it meets the same NSF Standard ANSI 53 to ensure it is the same as the water faucet specs. There was some concern at the United Way that some pitchers are not at the same spec level.

Before anything get distributed to GCCARD we need to ensure they meet the standards.

thanks--g

Terri/Jennifer,

Just read on the channel 25 news website (Flint) that the switch back to the Detroit water supply should take two weeks (quote from Flint Mayor). Just an FYI as DHHS thinks about how much to order on filter replacements and if DHHS should even order any more water pitchers.

Subject: Purchase Order

LB,

Attached is the most updated purchase order. Included in it is the address/contact information for the Genesee County Community Action Resource Department (GCARD) where the filters/pitchers are being delivered.

Let me know if you have any other questions.

Thanks,

I knew there were only 750 in the country. Which is why we were rationing them.

Thanks for clearing it up.

What happened to the 750 of the 23-cup pitchers that was the original request?

Or are these 8 cups in addition to the 750?

Steve,

Can you provide DHHS with the model number and unit cost for the replacement filter for the Zero Water pitcher.

Chris

Thanks. If the Zero Water water pitcher capacity is only 15 gallons before needing replacement then we need to order replacement filters as soon as possible.

Can we do that please? I'm giving the green light

Subject: RE: URGENT water pitchers

Confirmation from Home Depot is Brita Model #SAFF-100 for the faucet filter and the pitcher they are supplying is the ZeroWater ZD-013D (8-cup). Both units are certified for lead reduction.

The filter capacity of the Brita is 100 gallons and the filter capacity of the ZeroWater water pitcher is only 15 gallons before needing replacement.

Attached are the specs for the Brita filter and the link below shows the claim for lead reduction for the ZeroWater pitcher.

These people are going to drive me to drink.

Can one of you confirm that we only purchased two things - model # ?? For one type of water faucet and model #ZD-018 for one type of pitcher ? I just need to be 1,000 % sure before this press release goes out.

the water faucet specs. There was some concern at the United Way that some pitchers are not at the same spec level.

Before anything get distributed to GCCARD we need to ensure they meet the standards.

David,

I'm forwarding this message to Terri Smith. I do not know what the inventory levels are on filters or replacement cartridges.

Terri,

What is DHHS's plan for replacement filters? Do you know what the inventory on these are?

Subject: Filter orders

Good morning, I wanted to update you on where we are with the water filters in Flint

I am attaching a summary of the distribution- I'm waiting on GCCARD numbers from yesterday but other than that this is up to date.

AT this time because there are so many other distribution sites through the Genesee County Health Department, Flint City Hall etc. that are distributing PUR filters.

We are not distributing as many anymore. An average about 150 per month.

We still have 5000 Brita Original unit filters in storage at Home Depot- that it appears we will not need at all. I thought at one time it was indicated that we could be credited for the filters we do not use. Periodically they call GCCARD to say they will be delivering them and we don't need them.

In speaking with Geralyn- we have agreed to purchase the PUR replacement filters only. I however do not have a count on those yet. I wanted to give you a heads up that we may need to order them in January.

We do however need to order about 200 of the 2 pack Zero Cup water pitcher replacement filters. These filters only last for 16 gallons, with future distribution we will be giving out a pitcher and 2 replacement filters.

At this time we still do not have an idea of how long we will need to continue the filter program.

I did give the Home Depot regional manager LB. Willis a heads up about placing the order. I know that you however work with David Khanuja?

I can prepare the purchase order for the Zero Water replacement filters.

Summary as of December 8

	Received	Distributed	Remaining
Water Filters	15,000	11,102	**3,898**
Water Pitchers	720	216	**504**
Replacement Cartridges	9,000	1,127	**7,873**

Subject: RE: Flint Issue Questions from DTMB Procurement

I will do what I can to address some of these questions.

1) Since FEMA arrived on-site in the SEOC, they have been procuring the water resources made available through the federal emergency declaration; water, faucet filters, replacement cartridges, filtered pitchers and water testing kits. If going through an established state contract gets a better price, that is how they are ordering items. If they have a better deal or resource, that is what they do.
2) All resources are being delivered to the warehouse located at 4315 N. Clio Road in Flint. Michigan Department of Corrections has warehouse management staff in place to manage the warehouse operations. Receipt of all resources, regardless of who ordered them, is being checked in to the warehouse with packaging slips and I have copies of the FEMA order form as well. We don't do anything special with FEMA purchased resources.

3) The State of Michigan has a 25% match requirement for the FEMA dollars spent. DHHS will not get a bill for 25% of anything from FEMA. I work directly with FEMA on the finances through EMHSD as the State Financial Officer, and at this point we have FEMA assistance for 90 days. We are nowhere close to getting a bill from FEMA yet and that is something that I will take care of working with the State Budget Office as needed. I have never sent a bill for match to another state agency.
4) At this point in time, we only have a federal declaration of emergency that brings FEMA procured resources for 90 days beginning on the date of declaration, which was January 16, 2016. We don't have any other federal awards that would allow for reimbursement of items purchased before the federal declaration. We have a few requests out at the federal level, but it is a long process and there are no guarantees. Our guarantee is that FEMA will buy water and filters for 90 days.

What I need from state agency financial staff are current expenditures for costs for their own agency on a weekly basis so I can update the State Director here in the SEOC. Costs need to be directly related to the emergency, such as staff overtime in the SEOC or in the field responding to the event, contracts required for response, purchases for items necessary for use in the emergency response – water, filters, computers for field teams, etc, and fuel for vehicles. This is not an exhaustive list, but gives you the main items. And we have processes in place here in the SEOC for requesting resources to ensure that all items purchased are approved by SEOC command.

I hope this has answered some questions. The biggest assistance a state agency can provide from a financial aspect is weekly updated reports. If you still have questions, please let me know.

Awesome! Jeff Sanford is the right person to be working on the invoices. He and I had several conversations on Friday and will continue to work together on the reconciliation.

Appreciate the FEMA the update. It it so very helpful. Do we know where the FEMA filters are being delivered and if/how the receipt of the filters is being tracked? I assume that DHHS will at some point will receive a billing for 25% of the FEMA filter bill so I want to ensure we are tracking receipt of the product. Do

we have any confirmation on how the financial reimbursement to FEMA will work? If you are are not the correct person to answer these questions, please point me in the right direction.

Subject: FW: Flint Issue Questions from DTMB Procurement

Hi Sharon,

Would it be possible for Rebecca to include me in her communication on this important matter? It is not clear to me from the e-mail below if she is still seeking clarification on this issue or if I should contact to Jeanette Doll and Chris Christensen myself to obtain answers.

We have received the following request from State Police for information:

From: MSP-seocfgc
Sent: Wednesday, January 20, 2016 4:23 PM
To: Kangas, Susan (DHHS) <KangasS1@michigan.gov>
Subject: Costs for City of Flint

Hi Susan:

Richard Thelen gave me your name as his financial point of contact at DHHS. The immediate need is information on the costs incurred by DHHS for water, water filters, and replacement cartridges. FEMA has asked for this information – even if some of the figures are an estimate – so they have a ballpark idea.

If you could get some numbers to me tomorrow, I'd appreciate it. Please include all of your costs related to Flint, including those that were paid for with the special appropriation that you received in October. I will be providing some guidance on how costs should be tracked for state disaster assistance and possible federal assistance.

If you have any questions, please let me know.

Thanks,
Penny Burger

Subject: Re: Flint Issue Questions from DTMB Procurement

Hi Steve, in the very beginning October I would send 319 to budget to process and order products from Home Depot.

As product begin getting scarce I began working directly with David as to what we needed vs what was available etc. then I would complete the PO but budget always knew what was coming.

When SEOC and got involved Richard or Brian would ask me to order products to maintain consistency and to continue working with David.

I also have a financial specialist Jeff Sanford who works with me and prepares the 319 for processing for all the filter orders.

He received all of the invoices from Home Depot for the product that we received under our existing POs. He will go through and consolidate the product received with our tracking spreadsheet and signed 319s. Once That is completed he can create a payment voucher for Home Depot to get paid.

I also just got a message from David that he has 12,000 Brita filters available. He needs direction as to what we want.

I am not approving any orders at this time per directions that FEMA is now ordering.

I'm am available to do whatever is needed.

> My questions only pertain to Home Depot and the procurement of water filters, bottled water, and supplies needed for repairs. I'm trying to sort out the confusion that David from Home Depot and I have regarding the procurement of these items and the processing of payments. We need to finalize a fluid process for this so that we can avoid further confusion. I want to do everything I can to help, but I first need to understand the current process so I can direct what I have control over to the right people. I don't want there to be a disruption in the incoming flow of these items.
>
> 1. What is the current process for ordering these items? David from Home Depot is currently getting calls from a minimum of 4 different people.

2. Response: Sheryl had been the lead until EOC came on board.

3. What is FEMA's role in procuring these items? Apparently a FEMA rep called Brita directly to order filters. Home Depot has cornered the market on all filters from Brita and PUR, so it is suggested that we continue to work directly with David from Home Depot.

4. Response: I agree

5. If FEMA does take over the ordering of filters, water, and supplies, will they agree to work with Home Depot and who is the contact person that could work directly with David from Home Depot?

6. Will FEMA be creating contracts directly with manufacturers or will they utilize current contracted vendors?
7. If FEMA takes over, will they be paying invoices directly or will that continue to be done by the State?
8. What happens when FEMA leaves in 3 months? Good question

9. Who is responsible for entering Home Depot receipts into the MySimms

tracking system so that David from Home Depot can send these receipts to that person directly? I have attached the receipts that I have received from Home Depot.

10. Right now Home Depot invoices are sent out monthly because of the 60 day terms in the contract. However, we currently have over $10,000,000 in outstanding invoices. We had gotten CitiBank to increase our credit limit to $10,000,000 last week. We requested CitiBank to increase the credit line to $20,000,000, but that has not yet been approved by CitiBank. To keep the credit line open we need to turn around these invoices much quicker. Citi has an EFT program that a State designee could log into and pull invoices from immediately to get them paid. Who would be the person that Citi could set up an account with so that they could log in and download invoices for quicker processing?
11. LARA recently purchased items from Home Depot for plumbing supplies. Moving forward, if LARA is to procure any more items through Home Depot can they work directly with David from Home Depot so as to not cause any more delays?

That is all I have at this point. Thanks for any feedback.

Subject: Home Depot Payment for Filters purchased by DHHS and SEOC

Penny,

Home Depot is asking our process for payment for the filters purchased by DHHS and SEOC prior to FEMA involvement. Here is what we propose:

- DHHS will consolidate purchases so that all filters, filter replacements, and bottled water purchases are on one PO. A considerable number of filters were delivered without a PO so we must true up the PO. This also facilitates tracking.
- DHHS is reconciling Home Depot and Citi bank statements to ensure that they match.
- DHHS is also confirming receipt of the ordered items at the Flint warehouse.
- Once these steps are complete, DHHS will make payment to Home Depot.
- DHHS will only reconcile and make payment for filters, filter replacements, and bottle water items on the PO. There are items showing up on the Citi bank statement that appear to belong to the department of Corrections and we are assuming that those items will be paid for by Corrections.

Please advise that you are in agreement with DHHS proceeding in this fashion. I'm just trying to keep us all in the loop so we all understand the process.

> There seems to be some confusion about the attached spreadsheet. I just got off the phone with David from Home Depot and he is going to be updating it. Because of the request below, David will be reaching out to you today to confirm that you were the primary person that confirmed these orders. Once David updates the spreadsheet he'll send it back to me and I will respond to everyone in the email below and include yourself and Jeff Sanford.
>
> The changes that David is going to be making is where it says "Product Received from DTMB POs" will be changed to "Product Received from DHHS POs". I know when this spreadsheet was first created DHHS had a lower allocation of funds and that once that was depleted all orders would be transferred to a DTMB PO. Obviously that has changed since then and this spreadsheet needs to reflect that. David will also be breaking down the bottled water deliveries.
>
> David is also going to add a column for "order placed/confirmed by". This is why David will be calling you later today so that he can list you as the person placing or confirming these orders. If there is someone else that might have confirmed or placed some of these orders, please him know.

Subject: DHHS Inquiry - Home Depot orders for Flint response

Steve

Per my afternoon meeting with Kim and Chris, here's clarification on DHHS' request. They need more information regarding all of the transactions under the sub-heading "Product Received from DTMB POs." Chris believes the title is incorrect, and these materials were not ordered through DTMB POs. These transactions were likely made before DHHS implemented their current ordering and tracking methods, and Kim/Chris need more info on them. DHHS needs to know who placed each of these orders, whether it was a phone order, a PO, or if a PO# given to Home Depot, etc.

DHHS needs David/Home Depot to review their records and add a comments column to describe who placed the order, whether it was a phone order, etc. for every transaction under this heading.

Please let me know if you have any questions, before getting Home Depot working on this Thursday.
Thank you.
Rebecca

After talking with David, why does DHHS think that $8M worth of filters were ordered over MLK weekend? Who is questioning this that raised the red flag or what did they see? David isn't aware of $8M worth of filters ordered over MLK weekend.

I have attached the most recent spreadsheet that shows $8.5M in purchases, but not $8M over MLK weekend.

Good afternoon,

Attached is the Flint Emergency Purchasing Procedures Jeff spoke about this afternoon.

Heather

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 2, 2016

TO: State of Michigan Procurement Leadership

FROM: DTMB Procurement

SUBJECT: Genesee County Water Emergency Response - Purchasing Guidance

Thank you to all who are working to support the State of Michigan's Genesee County, City of Flint water emergency response.

Given the complexity and variety of the needs of this emergency effort, the purchasing support required is complex as well. Purchasing protocols have some differences under this declared state of emergency, and meticulous tracking of expenditures is imperative.

The Michigan State Police (MSP) is the lead agency overseeing the situation and managing the State Emergency Operations Center (SEOC). Flint related purchases must first be routed through the appropriate SEOC contact (see attached for an agency roster) to include the SEOC State Director. This is required for all Flint- related purchases without exception. The SEOC financial team is responsible for tracking all expenditures in connection with the emergency efforts.

Each agency is responsible for its own purchasing transactions. This includes p-card transactions and purchase orders, the tracking of all such transactions, and reporting of those transactions to the appropriate SEOC representative. Failure to properly inform the SEOC financial team of any transaction may result in a forfeiture of any potential reimbursement anticipated by the agency.

Agency purchasing managers are responsible to supply their agency's SEOC representative with a 24/7 phone number for agency purchasing staff support and request that the SEOC representative involves them in every purchase. (Note: SEOC hours are 8 am to 8 pm, seven days a week at this time.)

Emergency Purchasing Procedure:
Public Act 431 of 1984 provides an exception to competitive bidding during a state of emergency. However, responsible purchasing procedures are still the expectation for all procurement professionals (agency purchasing staff).

In addition to the notification and reporting expectations set forth above, transactions should be conducted and/or overseen by procurement professionals, with rare exception, in accordance with the following:

- Each agency makes their own determination when an emergency purchase order is required, and is then responsible for the supporting documentation
- Utilize existing State contracts where possible. Contact DTMB Procurement for help negotiating bulk rates or expedited shipments if needed, and for any concerns related to availability of funds on a contract

- Obtain three quotes whenever reasonably practicable
- Post bids online to the extent practicable
- Please escalate any questions to DTMB Procurement before executing a buy
- DTMB Procurement will assist any agency upon request to address supply chain issues (e.g. working with a national supplier to ensure a high volume supply of water filters are available)
- DTMB-Financial Services is not responsible for issuing emergency purchase orders on behalf of agencies with the exception of information technology related goods and services
- Maintain documentation supporting all transactions. Establish internal protocols to support this such as a single spreadsheet to track agency-wide transactions. Report your agency's expenses to the SEOC Finance team via your SEOC representative.

FYI. Penny and I just talked and she has packing slips for the filter/water purchases. Her staff is sorting through them. They will provide us with information showing verification of product receipt.

Subject: Home Depot Payment for Filters purchased by DHHS and SEOC

Penny,

Home Depot is asking our process for payment for the filters purchased by DHHS and SEOC prior to FEMA involvement. Here is what we propose:

- DHHS will consolidate purchases so that all filters, filter replacements, and bottled water purchases are on one PO. A considerable number of filters were delivered without a PO so we must true up the PO. This also facilitates tracking.
- DHHS is reconciling Home Depot and Citi bank statements to ensure that they match.
- DHHS is also confirming receipt of the ordered items at the Flint warehouse.
- Once these steps are complete, DHHS will make payment to Home Depot.
- DHHS will only reconcile and make payment for filters, filter replacements, and bottle water items on the PO. There are items showing up on the Citi bank statement that appear to belong to the department of Corrections and we are assuming that those items will be paid for by Corrections.

Please advise that you are in agreement with DHHS proceeding in this fashion. I'm just trying to keep us all in the loop so we all understand the process.

Subject: RE: appropriations request for filters

Hi Steve, I estimated based on filter usage. Example the Zero Water 8 cup is only good for 16 gallons or 32 fill ups, a family of 4 will go through that within a few weeks. I use 2 gallons a day for coffee, tea etc. for a family of 3.

Filter replacements- 100 gallons or 3 months. People use it for everything including washing dishes using hotwater, which they shouldn't that kills the filter. Using it incorrectly will cause it to need to be replaced more often.

I monitor a relatives who has a filter and a family of 4 including small kids using it correctly. Their filter was ready to be replaced in 1.5 months.

Hope this helps.

Subject: appropriations request for filters

Hi Sheryl,

I'm working on a justification memo-to-file for the $30,000,000 that we added to the Home Depot contract last month. When you were putting together an estimate for the appropriations committee, can you tell me what amount you submitted for just filters, water pitchers, and bottled water that would be purchased through Home Depot and how you came up with that number. When I talked to David from Home Depot he had mentioned 2 replacement filters per month for every household (50,000) through the end of December. Do you have an exact calculation that you used? Thanks in advance for your help on this one.

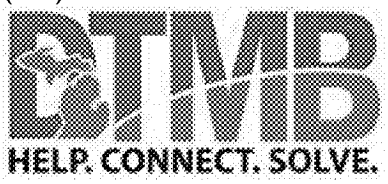
Subject: Truckload Deliveries of Water



Hi David –

It was nice talking with you! This email is to confirm that the state will have four truckloads of water to be delivered to the GCCARD facility in Flint every day for the next 5 days. Truck will carry 1,596 cases (38,304 bottles) per truck at $3.47 per case ($5,538.12 per truck).

Thank you for your help! We will talk again soon.

Jeanette

Jeanette,

Below is what David from Home Depot has coming in tomorrow from Brita. He is working on an actual delivery time. Also below is a hyperlink to each product that Home Depot is supplying. This has the specs listed. Attached is the certification for lead removal of the Brita filter.

2,000 - Brita faucet mount filters ($17.47)
8,000 - Brita 2 pack white replacement filters ($24.87)
2,400 - Brita 1 pack white replacement filters (15.97)
Total of this order will be $272,228

The mix and match of colors is fine. We are really in need of the Brita Filter replacements asap. I have also been instructed that if we can't get at least 1500 by tomorrow that we may have to purchase them from another vendor.

Tomorrow starts the major distribution by State employees.

Good afternoon,

Below are the inventories with the retails of the products available. In addition to the Brita faucet mount (714338) there are 5,000 available which are in transit from another location to the manufacturer. We are not sure of the transit time as of yet on those. All of the products below are certified by the NSF to meet our 53 standards and remove the lead to the acceptable levels. If you will notice, we have given all options which include units in white color as well as chrome. This does not have any effect on the capability of the product, just only is a color change.

Please let me know if you would like to select which you want, or if you would like me to just acquire as much as possible.

Thank you,

Updated with retails

Guys,
Here is the latest list of all available inv. Make sure the state is aware residents may have to mix and match white with chrome. (white system/chrome cartridge or chrome system/white cartridge).

Waiting on retails. Let me know what they want and I'll get the trucks rolling.

Jeanette,

I just got off the phone with Scott from Rapid Shred and they can deliver 24 Gaylords (that's what these boxes are called) to Flint tomorrow between 8-10am. They are 40Lx48Wx36H in size. Do you have an address to where you want these delivered so I can let him know? He said no charge.

Attachments: Invoices.pdf

Kim:

I have attached every shipping document that the warehouse had as of 1/22/16 for Home Depot. They scanned terrible – I'll send you hard copies too. There are 68 pages attached.

And after talking to Richard, it sounds like your Home Depot contact was reaching out to others in the SEOC once he found out that FEMA was going to start purchasing water. He spoke to Richard, two of the DTMB specialists on-site in the SEOC and I believe Richard said Sheryl who is your procurement person. But your world should settle down for a while – at least as far as water resources is concerned at this time.

Let me know if you need anything else.

Subject: Home Depot Payment for Filters purchased by DHHS and SEOC

Penny,

Home Depot is asking our process for payment for the filters purchased by DHHS and SEOC prior to FEMA involvement. Here is what we propose:

- DHHS will consolidate purchases so that all filters, filter replacements, and bottled water purchases are on one PO. A considerable number of filters were delivered without a PO so we must true up the PO. This also facilitates tracking.
- DHHS is reconciling Home Depot and Citi bank statements to ensure that they match.

- DHHS is also confirming receipt of the ordered items at the Flint warehouse.
- Once these steps are complete, DHHS will make payment to Home Depot.
- DHHS will only reconcile and make payment for filters, filter replacements, and bottle water items on the PO. There are items showing up on the Citi bank statement that appear to belong to the department of Corrections and we are assuming that those items will be paid for by Corrections.

Please advise that you are in agreement with DHHS proceeding in this fashion. I'm just trying to keep us all in the loop so we all understand the process.

NOTE Liability Limitation for loss or damage in this shipment may be applicable. See 49 U.S.C. 14706(c)(1)(A) and (B

Received, subject to the transportation Contract or rate agreement in effect between Shipper and Contract Carrier (the word Contract Carrier being understood through this bill of lading as meaning the motor carrier, forwarder, broker or other intermediary that has obligated itself to transport the freight from origin to destination), on the date of issue of this bill of lading, the property described below in apparent good order and condition, except as noted. This bill is a receipt for goods; it is not of itself a contract of carriage. It is mutually agreed between Shipper and Contract Carrier as well as any person or company otherwise authorized to be in possession of the property during transportation that the services to be performed will be subject to all of the terms and conditions contained in the Transportation Contract or rate agreement, and no other document. The Contract Carrier agrees to this for itself and its subcontractors, agents and assigns. The weights are certified by the Shipper to be true and accurate.

The carrier shall not make delivery of this shipment without payment of lawful charges.

Subject: Home Depot Payment for Filters purchased by DHHS and SEOC

Penny,

Home Depot is asking our process for payment for the filters purchased by DHHS and SEOC prior to FEMA involvement. Here is what we propose:

- DHHS will consolidate purchases so that all filters, filter replacements, and bottled water purchases are on one PO. A considerable number of filters were delivered without a PO so we must true up the PO. This also facilitates tracking.
- DHHS is reconciling Home Depot and Citi bank statements to ensure that they match.
- DHHS is also confirming receipt of the ordered items at the Flint warehouse.
- Once these steps are complete, DHHS will make payment to Home Depot.
- DHHS will only reconcile and make payment for filters, filter replacements, and bottle water items on the PO. There are items showing up on the Citi bank statement that appear to belong to the department of Corrections and we are assuming that those items will be paid for by Corrections.

Please advise that you are in agreement with DHHS proceeding in this fashion. I'm just trying to keep us all in the loop so we all understand the process.

Subject: Nephros Cartridge Filter

Ms. Premoe,
I see you're buying lab sample containers and media for bacteriological analysis of drinking water for the Department of Environmental Quality, and I wondered whether or not you were involved in procurement to help with the Flint water situation. We want to make sure DEQ and others are aware of the Nephros filter, which is FDA approved to retain bacteria, viruses and biological toxins. Attached is more information. These filters have been installed on faucets, showerheads and ice machines in hospitals where Legionella outbreaks have occurred.

Can you please let me know who I might talk with about these filters?

Thank you,

Don't have to explain to me about delayed response! LOL. I've read lots on the issues of ordering from HD online, but it sounded like it was going better when I left yesterday ☺

Good for you helping with the situation @ Flint….much needed for those poor folks.

Yeah, just extend them and maybe I'll be retired and won't have to deal with the new fuel/propane BPO's or worry about another category team committee! LOL

Thanks Steve ☺ Linda

Thank you. Sorry for delayed response. Most of my time for the past two weeks has been working through with the Home Depot contract and getting filters and water for Flint.

I know it will be difficult if we have to switch vendors at some locations, but I have to get this bid out this year (at least propane). I am going to request that propane be extended through September 30 so we can have an Oct 1 start date. My other thought is to extend propane to 9/30/2017 and exercise the option year end extend the fuel contracts to 9/30/2017. This will give us all time to do a true assessment of everything fuel. This is also going to be a category team that you can be on with me ☺

Subject: RE: propane contracts

Hi Steve,

Sorry for the late response; these three jobs are overwhelming me! LOL

I believe a lot of the tanks are *not* owned by PRD, but set free as part of the propane contracts. I know the Rifle River supervisor told me that he hates changing companies due to the swap out of the tanks and losing propane in the tank that gets hauled away. Up at PJ Hoeft SP this summer, they had to have a tank set on a new cabin for rental and it was a tank dropped by our vendor.

I would guess there might be a few parks or field offices under PRD that might own them, but I would have to take a survey to see for sure. The other divisions would be involved, too, i.e., Fisheries has hatcheries, Wildlife Div has some field office locations along with OLF that hosts the big district offices & field office locations.

Good luck young man and let me know if you need further info from our division. Smiles...Linda

To: Warren, Linda (DNR)
Subject: RE: propane contracts

I have a request into all vendors, and I am currently working on putting together total usage of every location throughout the State for both propane and other fuels for FY15. I would like to rebid everything at once and then have a start date of October 1st 2016. There aren't any options years left on the propane contracts, so I would have to extend those. I would then exercise a partial option year for all the fuel contracts as they expire in mid August.

Do you recall any issues with propane tanks being swapped out when the current contracts were put in place? I think most diesel and gas tanks are owned by the state (correct me if I'm wrong), but propane is mostly vendor owned. I would really like to get this done this year as fuel costs are low and it has been a mild winter so far, so I think this makes for a perfect storm to get better pricing. The current fuel contracts are so confusing that I think it would be best to do this the same time as the propane and then be done with it.

I don't know how tank swaps would work and maybe the outgoing company refunds the current cost of propane in the outgoing tank.

Thanks for the info.

Subject: RE: propane contracts

Good Morning Steve,

Happy 2016! Well I heard from some supervisors & accounting staff and ALL were positive which is a good thing! They all are in love with the low prices right now and some were torn between just extending and some said go for a rebid. The only negative thing they could think of is rebidding and possibly going through the hassle of switching companies, tanks, and losing some propane in a tank that might go back to the previous contractor. I don't consider that a negative comment, but just what change can possibly bring.

One comment that I wanted to cut & paste for you was from our Baraga Field Office/State Park as they are involved with getting their propane now from Wisconsin. Here is what Kelly reported:

Linda – The current AmeriGas (propane) contract has actually been working very well for us here in Baraga. We were a little concerned when the local offices closed and the servicing office moved to Eagle River, Wisconsin, but it has surprisingly not been an issue. In fact, to give a compliment, they actually called us last week to check our propane level before the holiday and came delivered to us and a few other state offices locally. It was a nice change, usually our vendors don't call us or plan our deliveries. The invoices have been prompt and correct. Their drivers are friendly and deliveries are timely. But, if we can get a better price, that is always good too! Happy Holidays!

I'm guessing whatever is easiest for you Steve on whether you decide to extend them or rebid. We are good with whatever.

One thing that does keep coming on these contracts is the fact that they always expire in the middle of a fiscal year causing everyone a lot of work. Folks have to put in a new field requisition for the new fiscal year commencing 10/1 and they might only be able to issue it for 3-5 months because of the contract expiring. They get a purchase order for that short period of time then if the contract gets an extension, they have to do an Advice of Change in MAIN to request the PO be updated to take them to 09/30. So lots of double work for the field staff, our buyers amending PO's plus our vendors receiving a second PO in the same fiscal year. Just saying…..Thanks Steve, Linda

Even though the gasoline and diesel fuel contracts don't expire until August, and they still have 1 option year left, I don't think anyone would be upset if we rebid these out as well. With that said, when you send out the request for information to your staff, could you please have them give us feedback on all the gas and diesel contracts as well? Thanks.

Morning Steve,

I can answer number one, but I would like to solicit the field statewide on 2-4 as I know in the past Steve I've had complaints on delivery with Gary Oil, etc. Since I've personally never used them (lucky with natural gas at Clare & Wilson), I would like to also seek their input on what I might be missing.

Let me do some surveying and get this back to you by January 1st if that works? A lot of accounting staff are on reduced hours plus most folks (supervisors, etc) are taking annual leave with all the holidays. Does the 1st of the year work for you with responses or should I red flag it and get what I can get from those available?

Thanks Steve! Linda

Subject: propane contracts

Linda,

I need to bid out propane here in the very near future and I would like your input as you will know way better than I what works for the DNR. Here are my questions. Chime in on anything else you would like to see different in the new contracts.

1. Would it be better to bid this out and have it in place before the park season or extend the contracts 6 months and do it in the fall?
2. What issues do the parks have now with the current contracts?

3. Any current vendor issues that need to be addressed?
4. Anything missed in the last bid that should be in this one?

Thanks for any input.

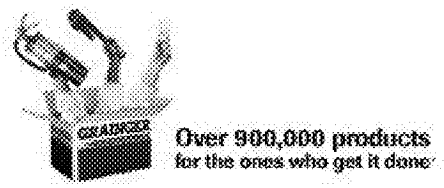
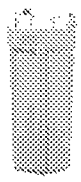
Subject: Grainger NSF 53 Water Filter Availability
Attachments: Flint_Emerg_Water_Doc.pdf

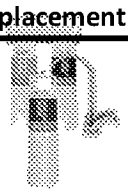


Steve,

The type of filter HHS is most likely looking to purchase are the first 4 on the second page of the attachment. There are 25,000 in inventory that are only a day or two out.

We don't have finalized pricing yet; however, I'm going out to estimate the sell price to be around $20 each. We will provide firm pricing as soon as it is available. Hope this helps. Let me know if I can be of any additional assistance.





Thanks,
Brent
